1 Incorporated place name color correlates to the incorporated place fill color.

2 The CDP boundaries represent statistical entities only. They are not to be updated through the BAS.

3 Address range break values represent the last address stored in the MAF/TIGER database for each street that crosses the boundary of your jurisdiction.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The Census Bureau stores primary and alternate road names, but only primary road names are used to label the roads on the BAS maps.

The Census Bureau is working to improve our road data to address inconsistencies in road classification and their resulting symbolization seen on the BAS maps.
