

## American Community Survey September 20, 2007 Place of Work Tables

Data Available In the <http://www2.census.gov/acs2006/POW> directory

Two types of Data Products are provided on this site for the September 20, 2007 American Community Survey (ACS) data products release – Detailed Tables and Subject Tables. All data products contained in this FTP site will be released by September 27, 2007 in American FactFinder. Information about these Data Product and ACS published geographies are available at the Guide to the ACS Data Products at [http://www.census.gov/acs/www/Products/users\\_guide/](http://www.census.gov/acs/www/Products/users_guide/)

Detailed Tables provide basic housing and population characteristics. These tables are the foundation upon which higher-level profiles are built. The Detailed tables come complete with the margin of error as well as the lower bound and upper bound of a confidence interval, and Standard Error. Both the margin of error and the confidence interval were based on the 90% level of confidence.

Subject Tables highlight a particular subject of interest. Each subject table is accompanied by its margin of error and the confidence intervals were based on the 90% level of confidence.

The *POW* tables are available for the following geographic levels:

- 040 State
- 050 State-County
- 060 State-County-County Subdivision
- 160 State-Place
- 310 Metropolitan Statistical Area/Micropolitan Statistical Area
- 312 Metropolitan Statistical Area/Micropolitan Statistical Area-State-Principal City
- 314 Metropolitan Statistical Area/Micropolitan Statistical Area-Metropolitan Division
- 330 Combined Statistical Area
- 355 New England City and Town Area (NECTA)-NECTA Division

There will be a directory for each state with state based geographies indexed under the directory, the files will also be replicated in geographic summary directories which will have the geographic summary codes as the first 3 characters.
