Education

Education Content

- Annual questions
  - Attainment
    - In-universe respondents include those 15 years of age and older
      - The highest level of school completed or degree received
      - Did the respondent earn a high school diploma or a GED?
  - Certification questions
    - Earned professional certification or license
      - Who issued the professional certification or license?
    - Earned educational certificate

Education Content (cont.)

- Monthly school enrollment questions
  - Grade level during spell
    - Ranges from nursery school to graduate school, as well as vocational, technical, or business school beyond high school level
    - Examines whether preschool or nursery school is a Head Start program (for respondents 3 to 7 years old and enrolled)
  - Type of school enrollment
    - Includes public, private, charter, or home school
  - Degree being pursued (for post-secondary education)
  - Grade repetition in elementary or secondary education
  - Full or part-time enrollment in post-secondary education, kindergarten, and nursery school/preschool

Important Things to Know

- Questions asked for all household members age 3 and over who indicate enrollment in school during reference period
  - Enrollment in school was recorded only for those 15 and over in the 2008 SIPP panel
- Allows up to four spells (of enrollment for each person) to be recorded in the Event History Calendar (EHC); questions are repeated for each spell
  - Enrollment periods do not overlap
  - It is possible for respondents to be enrolled in the same level across multiple spells

Child Care

Child Care Content

- Child care arrangements for children 0-14 years old living in household
- Child care expenses
- Receipt of child care assistance

Important Things to Know

- Child care arrangements usage refers to a typical week in December of the reference year
- Data are collected for all children ages 14 and under on the household roster and Type 2 kids
  - Information is collected for up to 24 children

Important Things to Know (cont.)

- Questions about child care arrangements are asked of the reference parent about each of their children ages 14 and under
  - In most cases, the mother is the reference parent. If neither parent is in the household, the guardian (householder) is the reference parent
    - In same-sex households, the first parent listed (on the household roster) is the reference parent

Important Things to Know (cont.)

- Child care usage is collected for both working/in school and non-working reference parents
- Up to 12 different child care arrangements are collected
- Child Care section does not collect information on hours, location, or cost per arrangement

United States Census Bureau | U.S. Department of Commerce Economics and Statistics Administration U.S. CENSUS BUREAU census.gov

29

Important Things to Know (cont.)

- Child care data are stored on the reference parent's record, but recoded variables are stored on the child's record
- More than one adult may be reported as a reference parent in the household

United States Census Bureau | U.S. Department of Commerce Economics and Statistics Administration U.S. CENSUS BUREAU census.gov

Data Notes

- To address underreporting of Head Start use, the 2014 SIPP asked about Head Start indirectly – asked whether day care or nursery care was a Head Start program
  - The addition of the indirect Head Start questions did help to capture more parents whose children use Head Start

Child Well-Being

United States Census Bureau | U.S. Department of Commerce Economics and Statistics Administration U.S. CENSUS BUREAU census.gov

58

Child Well-Being Content

- Reference and other parental engagement with child(ren)
- Child Well-Being questions fall into three broad areas:
  1. Sharing meals (< 18 years old), reading to children (< 6 years old), and going on outings with children (< 6 years old);
  2. Extracurricular activities and expulsions/repeated grades for children 6-17 years old; and
  3. School engagement for children 6-17 years old
- Child's attendance at religious services

United States Census Bureau | U.S. Department of Commerce Economics and Statistics Administration U.S. CENSUS BUREAU census.gov

59

Important Things to Know

- The universe of respondents consists of reference parents (i.e., adults who are parents of children under 18 years old in the household)
- In most cases, the mother is the reference parent. If neither parent is in the household, the guardian (householder) is the reference parent
  - In same-sex households, the first parent listed (on the household roster) is the reference parent

United States Census Bureau | U.S. Department of Commerce Economics and Statistics Administration U.S. CENSUS BUREAU census.gov

60

Important Things to Know (cont.)

- Unlike Child Care questions, Child Well-Being questions do not have a specific reference period
- Recoded variables released on the child's record

Important Things to Know (cont.)

- Compared to older SIPP panels, the redesigned Child Well-Being section of SIPP has fewer questions
- The 2014 SIPP uses a series of four questions used in the National Survey of America's Families (NSAF) to measure school engagement
  - Past research indicates that the questions can be used to create a composite score for school engagement that can be used in factor analysis (Moore, Halle, Vandivere, & Mariner, 2002; Moore, Ehrle, & Brown, 1999)

Key Child Well-Being Variables

- Parent record
  - EDINRPAR: Dinner with parent
  - EDINROP: Dinner with other parent
  - EREADCWB: Read to child

Fertility

Fertility Content

- Fertility history
  - SIPP collects complete fertility history from all adults (men and women who are at least 15 years old)
    - Total number of biological children
    - Birth year of child(ren)
    - Respondent age and year at first birth
    - Whether current relationship with spouse/partner is a child-bearing union
- Multiple partner fertility (MPF)
  - New data from the 2014 SIPP provide the first nationally representative estimates of MPF
    - Direct question about multiple partner fertility asked of all adults
- Grandparent status

Important Things To Know

- Respondents are asked Fertility questions only if they identify themselves as a parent, either by identifying a dependent child (bio, step, adopted) on the household roster or by an affirmative answer to the following (i.e., fertility screener question):

  "Do you have any children? (Please include biological, step, or adopted children, both living and deceased.)"

- Individuals who answer none or zero to how many children they have given birth to / biologically fathered are not asked any further Fertility questions

Key Fertility Variables

- Fertility history
  - TCEB: Total number of biological children
  - TCBYR_1-TCBYR_20: Birth year of children
- Multiple partner fertility
  - EMPF: Respondent has children with multiple partners

Key Fertility Variables (cont.)

- Recodes
  - TAGE_FB: Age at first birth
  - TYEAR_FB: Year of first birth
  - TNUM_CBU: Number of child-bearing unions
  - RCB_UNION: Current relationship with spouse/partner is a child bearing union
  - TMPF_YR: Year entered multiple partner fertility

Data Notes

- Fertility information was collected from respondents to reflect their status at interview month, and the data were edited to reflect fertility at that time
- Among those who responded to the Fertility section, between 2-21 percent of key Fertility questions are missing data in Wave 1
  - Key Fertility questions include: parent screener, children ever born, children's birthdates, multiple partner fertility, and grandparent

Data Notes (cont.)

- Higher proportion of men than women reported no children via the parent screener
- Among comparable items, the distribution of responses are very similar in the 2014 SIPP to that found in the 2008 SIPP, Wave 2 Fertility Topical Module data
  - Comparable items include: children ever born and grandparent.
