C. County Locations of State Capital Cities 84
D. Data Sources 86

INTRODUCTION

The Consolidated Federal Funds Report is a presentation of Federal Government expenditures or obligations in State, county, and subcounty areas of the United States. U.S. Territories and the District of Columbia are included. The data for this Report were obtained from reporting systems which exist in various Federal Government agencies. These data have been consolidated and tabulated in a standard format for presentation in a series of publications covering different levels of geographic detail. These publications are:

Federal Expenditures by State for Fiscal Year 1983

Consolidated Federal Funds Report Fiscal Year 1983, Volume I: County Areas

Consolidated Federal Funds Report Fiscal Year 1983, Volume II: Subcounty Areas

Data are also available on magnetic computer tape. Information on publications or computer tapes appears at the end of this section.

The publication *Federal Expenditures by State* is also available for Federal Government fiscal years 1981 and 1982. The publication format and coverage are consistent with the fiscal year 1983 publication.

This report was prepared in accordance with the Consolidated Federal Funds Report Act of 1982 (P.L. 97-326). The acronym CFFR, as used throughout this publication, refers to this Act and the associated data collection and processing program.

Report Coverage

The Consolidated Federal Funds Report (CFFR) Volume I covers Federal Government expenditures or obligations for the object categories listed below. For fiscal year 1983, amounts reported totaled $701.7 billion for the direct expenditure or obligation categories, and $170.4 billion for other Federal assistance (loans and insurance programs):

Grants ($103 billion)
Salaries and wages ($102.6 billion)
Procurement ($158.9 billion)
Direct payments for individuals ($325.9 billion)
Other direct payments ($11.3 billion)
Direct loans ($16.2 billion)
Guaranteed or insured loans ($48.4 billion)
Insurance ($105.9 billion)

Dollar amounts reported under these categories can represent actual expenditures or obligations. Users should be aware of the differences in this coverage which varies in accordance with the data, as described later under "Data Sources." As a general guide, however, the grants and procurement data in volumes I and II represent obligated funds, while salaries, wages, and direct payments represent actual expenditures (outlays).[1] Data on loan and insurance programs generally represent the contingent liability of the Federal Government.

Certain categories of Federal Government spending have been intentionally excluded from this report. These include such items as interest on Federal Government debt, travel expenses when not provided under contract, and international payments and foreign aid. These are described under the heading "Amounts Excluded from CFFR Coverage."

The financial activity of all Federal Government agencies are covered, with exceptions for those agencies which do not submit data to any of the Federal reporting systems that served as sources of information for the CFFR. These agencies are also listed under the heading "Amounts Excluded from CFFR Coverage."

Data Presentation

Volume I of the Consolidated Federal Funds Report presents data by State and county area. Coverage includes all object categories of Federal Government finance.

Volume II presents data by State, county area, and municipal or township government. However, coverage is limited to the object categories of grants, procurement, direct loans, guaranteed loans, and insurance. Statistics on Federal Government salaries and wages, direct payments for individuals, and other direct payments were not available at the subcounty level of detail.

All data in volumes I and II of the CFFR are presented by object category, with some detail for Defense/nondefense breakdowns. Geographic detail of Federal finances on a program basis can be found in the publication *Federal Expenditures by State for Fiscal Year 1983,* or on the CFFR data file available on magnetic computer tape.

The basis for the geographic distribution in the CFFR varied according to the object category and the data source. These are detailed later under the heading "Data Sources." The following general guidelines applied:

[1]Several grant programs in the CFFR were reported on the basis of expenditures, since the data were taken directly from the *Federal Expenditures by State* report. These are detailed in the" Data Sources" section.

Grants	—location of initial recipient
Salaries and wages	—place of employment
Procurement	—place of performance
All other object categories	—recipient location

For grants, users should note that large dollar amounts appear at the State capital cities (and their respective county areas). This reflects the coding of grants to the State governments at the capital city, even when such grants represent payments that are subsequently passed-through to local jurisdictions or represent programs such as highway construction that are spread out over all areas of the State in terms of financial impact. Appendix C lists the State capital cities and their respective county areas.

Included in the geographic listings are the terms "U.S. undistributed," "State undistributed," "county undistributed," and "balance of county." These are used for data that were reported under one of the following conditions:

1. Without specific geographic designations for either State, county, or municipality. Data would thus be reported at U.S. undistributed, State undistributed, or county undistributed, respectively. Examples of such data include procurement actions of less than $10,000, which were reported as one data record and assigned to "U.S. undistributed."

2. With a geographic designation at the subcounty level that did not correspond to any of the 35,810 municipal or township governments identified in the census of governments. In these cases, data were assigned to "balance of county" for the county area in which the reported subcounty unit was located.

The Congressional districts shown in volumes I and II reflect the districts of the current (98th) Congress. For those States which have only one at-large representative, the Congressional district is shown as "00."

As indicated previously and explained detail later under "Data Sources," dollar amounts reported can reflect expenditures or obligations. In some cases, dollar amounts shown will be negative. Such amounts reflect deobligations of financial assistance that had been previously awarded, and generally appear in the grant object category.

Summary of Methodology

This is a consolidated report, developed by bringing together available statistics on Federal Government expenditures or obligations. The first phase of the CFFR program was to identify the available data sources. The CFFR Act specified that the following reporting systems and agencies be used as data sources:

Federal Assistance Award Data System
Federal Procurement Data System
Office of Personnel Management
Department of Defense

In addition to these, several other Federal agencies were requested to provide data, usually for selected programs (see section on "Data Sources"). Most of these were agencies which had not yet begun reporting under the requirements of the Federal Assistance Award Data System. Data were also requested from the U.S. Postal Service (salaries and wages, procurement, and other expenditures), the Internal Revenue Service (excess earned income tax credit payments), and the Coast Guard (retirement benefit payments) to ensure coverage for these major Federal Government activities.

Finally, selected data were obtained from the information on payments to State or local governments reported by Federal agencies under Part 2, Chapter 7000 of the Treasury Fiscal Requirements Manual. These data covered Federal Government grants that were not required to be reported in the Federal Assistance Award Data System, such as the Federal Government annual payment to the District of Columbia.

All data submitted for the CFFR were assigned a program identification code and object code. The program identification code format was patterned after the Catalog of Federal Domestic Assistance (CFDA) program number. For all data taken from the Federal Assistance Award Data System, the CFDA number was used for the program identification code. For all other data submissions, a unique code was assigned. Although not presented in this CFFR publication, the program identification code is contained on the CFFR data file available on magnetic computer tape.

The object code assigned to each data record submitted for the CFFR consisted of two alphabetic characters to designate the broad object category of Federal expenditure to which each data record belonged. These were the categories described previously (grants, salaries and wages, etc.).

Both the program identification code and the object code were used throughout the CFFR processing. For example, during the data edit and review stages, dollar amounts were tallied by program or object category for comparison with other sources of information on Federal outlays. In addition, the object code became the primary basis for the table presentation in the CFFR publications (all grants data were grouped together, all salaries and wages data, and so forth).

The processing of all data submitted for the CFFR involved the six steps detailed below. Exceptions existed for some submissions, often the result of the geographic coding methods used by the Federal agency. These exceptions are detailed later under the "Data Sources" section.

I. Verification of edit totals required comparing dollar amounts and record counts actually submitted with totals provided on transmittal documentation from each agency. Since most submissions were on magnetic computer tape, this process involved ensuring that the tape submissions were in the prescribed format. Any discrepancies were brought to the attention of the submitting agency, and corrections made as needed.

2. Verification of geographic coding applied to those submissions received on computer tape. This process is described in more detail later, under the section "Geographic Presentation and Coding."

3. The third step in processing was to sort all data by program identification code and geographic unit. This enabled review tables to be compiled which showed data by State, county, or subcounty area for each Federal program or object category. At this stage, a national total of Federal dollar amounts in the CFFR was compared to totals for the same programs that appeared in other data sources such as the Federal Budget. Data were also reviewed by program or object category at the State, county, or subcounty level. In this manner, patterns of Federal Government spending for any category, such as Defense salaries and wages, were reviewed.

   This third phase of processing was thus concerned with review and verification of dollar amounts by program and object category. Corrections were made as needed, based upon consultation with the Federal agency submitting the original data.

4. Since data from different sources were generally submitted on the basis of different geographic coding, the next step in CFFR processing was to convert all data records to standard geographic designations. This is described later in the section on "Geographic Presentation and Coding."

5. Once converted to a standard geographic designation (governmental unit codes), program and object totals were again reviewed. At this time, data records were combined so that only one record existed for each unique combination of geographic code, program identification code, and object code. Even though multiple grant awards may have been made under a single program to any given geographic area, they were all combined unto a single record for the fiscal year. If 10 Community Development Block Grants were awarded to New York City during fiscal year 1983, they were combined into a single record for Community Development Block Grants funding within New York City.

   Combining like data records in this manner was the final step in processing for each CFFR submission, or data file. This process also reduced the total number of data records in the CFFR to 265,994.

6. All data files were then merged together to form a consolidated file. This enabled the compilation of total Federal expenditure or obligation by object category and geographic area. These data were reviewed and final corrections made to the CFFR data file.

   This final data file contained records in geographic detail only. County, State, or United States total records were not part of the data file. Nor were summary totals by object category actually contained in the CFFR data file. All of these summary records were tallied during preparation of the tables in volumes I and II of the CFFR. In this way, totals published in the CFFR represent summations of the more detailed data contained on the CFFR data file.

Table preparation also entailed processing the CFFR data file in conjunction with the CFFR geographic reference file. The former contained all information associated with the Federal program or object category of spending being reported. The geographic reference file contained all pertinent information concerning the governmental unit for which data were published. This information included the State, county, and municipal/township name, the 1980 population, the Congressional districts, and all associated geographic coding.

Relationship to Federal Expenditures by State

The publication *Federal Expenditures by State for Fiscal Year 1983* presents State-by-State distributions of Federal Government expenditures. The total amount reported was $696.8 billion. Data in that publication are the same that appear in the CFFR, with the exception of amounts for Federal grants to State and local governments. In the CFFR, Federal grants generally represent obligations and include payments to State and local governments, and grants to nongovernmental recipients. In *Federal Expenditures by State,* grants to State and local governments represent actual expenditures of the Federal Government. In the CFFR, Federal grants totaled $103 billion, comcpared to $98.1 billion in *Federal Expenditures by State* ($92.7 for grants to State and local governments, and $5.4 billion in grants to nongovernmental recipients).

Table 2 of the *Federal Expenditures by State* report covers Federal grants to State and local governments by agency and program. Data reported were submitted to the Census Bureau in accordance with Part 2, Chapter 7000 of the Treasury Fiscal Requirements Manual and Treasury Circular 1014. These data were formerly published in the annual Treasury Department report *Federal Aid to States.* The detailed presentation contained in table 2 replaces that publication, effective with fiscal year 1983 data.

The data on grants to State and local governments in *Federal Expenditures by State* were reconciled with amounts in the Federal Budget. *Special Analysis H* of the Federal Budget for Fiscal Year 1985 contains breakdowns of this grant data by function and by region. The definitions applied in the Budget for grants to governments served as the basis for reporting in table 2.

Federal Expenditures by State also contains data on Federal salaries and wages (table 3), Federal direct payments for individuals (table 4), Federal procurement (table 5), and other direct Federal expenditures (table 6). These data correspond to that presented by object category in the CFFR, but are shown by program or Federal agency wherever possible. The CFFR publication does not contain such program or agency detail.

The other significant difference between *Federal Expenditures by State* and the CFFR is the level of geographic detail for which data are shown. The former distributes data only on a State-by-State basis, while the CFFR contains county area and subcounty information.

Users should consult the introductory text in the publication *Federal Expenditures by State* for a detailed explanation of the grants data that appear in that report.

Availability of Data

All three publications associated with the Consolidated Federal Funds Report are for sale to the public through the Government Printing Office.

The CFFR data file is also available on magnetic computer tape. As indicated earlier, the data available on computer tape is more detailed than the summarized data presented in the published reports. The CFFR data file contains 265,994 data records. Each record contains the following fields:

Government unit code (State, type, county, unit)
Program identification code
Object code
Federal funding sign
Federal funding amount
Federal Information Processing Standard (FIPS) code

All appropriate tape documentation and data file descriptions are provided with each CFFR computer tape file.

An accompanying CFFR geographic reference file is also available on computer tape. This file contains the names and governmental unit codes for all State, county, municipal, and township units in the Nation. In addition, the file contains associated geographic codes (FIPS, GSA, and Census Bureau place codes), the 1980 population, and the Congressional districts serving each governmental unit.

Users interested in obtaining computer tapes of the Consolidated Federal Funds Report data files should contact the Bureau of the Census, Governments Division.

DATA SOURCES

Appendix D lists the data sources used for the CFFR, arranged by major object category of Federal Government finances. The description of the data sources which follows includes explanations of the coverage, conceptual basis for reporting (expenditures versus obligations), geographic basis for reporting, and other information important for interpreting the data in the CFFR. The use of the term FIPS geographic codes in the following text refers to the Federal Information Processing Standard codes maintained by the National Bureau of Standards, Department of Commerce.

Salaries and Wages

Amounts reported for Federal Government salaries and wages were obtained from three sources: The Office of Personnel Management, The Department of Defense, and the Postal Service.

The Defense Department provided information on military payrolls, with separate amounts for active military and inactive military (reserve and National Guard). These data were obtained from the Directorate for Information, Operations and Reports of the Washington Headquarters Services, Department of Defense. (It should be noted that salaries and wages data covering civilian employees of the Defense Department were obtained from the Office of Personnel Management, as described below.)

Amounts reported represent estimates of fiscal year outlays by State and county, and include gross compensation. This covers salaries and wages, housing allowances, and in general all other personnel compensation, except retired military pay, which is reported separately under the category direct payments for individuals. Other features of the Department of Defense salaries and wages data include:

1. Amounts reported as "Undistributed" reflect payroll for personnel in Johnson Atoll, Midway Island, and Wake Island.

2. Amounts for military personnel stationed overseas are excluded from totals. (Estimated overseas military payroll was $6.9 billion in fiscal year 1982.)

3. Salaries and wages for inactive personnel refer to military reserve and National Guard payroll.

4. Amounts reported reflect the State (territory) and county of employment (duty station) rather than home residence.

The submission from the Defense Department was a computer tape file containing data records that were distributed using FIPS geographic codes for States and counties. No special processing of the geographic codes was required for inclusion in the CFFR.

Salaries and wages for U.S. Postal Service employees were provided by the U.S. Postal Service. Amounts represent actual outlays during the fiscal year, but with the national total distributed among the States and counties on an estimated basis. Estimates were derived by calculating the "per employee" payroll cost and applying this cost to each postal facility based upon the number of employees.

The Postal Service data were geographically distributed based upon place of employment (postal facility). Data records were submitted on magnetic computer tape, and contained FIPS State and county area codes. Since data records were compiled on the basis of each postal facility, they had to be combined by State and county area, resulting in one data record for USPS salaries and wages per county area.

Salaries and wages data for all other Federal employees were obtained from the Office of Personnel Management. Coverage included all Federal civilian employees (excluding the U.S. Postal Service, the Central Intelligence Agency, and the National Security Agency) employed in the United States and the U.S. Territories. Data for Department of Defense civilian employees were reported separately from all other Federal employees. The data included:

Basic annual salaries,
Premium pay (overtime, night differential, cost of living allowances, station allowances, holiday pay, and any retroactive pay), and
Lump sum payments (lump sum payments for annual leave).

National totals represent actual expenditure during fiscal year 1983. The geographic distribution of these amounts by State (territory) and county was estimated, based upon place of employment. The following assumptions apply for the estimation procedures:

The basis for the geographic distribution was place of employment, using data on salary and employment distributions from the Office of Personnel Management's (OPM) Central Personnel Data File (CPDF) applied to payroll and payment data from the SF 113-A, "Monthly Report of Federal Civilian Employment."

Estimated payroll data were produced at the State, county, and territory levels only.

Defense Department and nondefense State, county, and territory payroll data were estimates. These estimates were predicated on the assumption that premium pay and lump sum payments as well as part-time, intermittent, and full-time seasonal pay were proportional to the salaries of full-time Federal civilian employees (defense and nondefense) in the counties and territories.

Although the CPDF contained only 3 percent (approximately) of the Federal judiciary, judicial pay was estimated based on the above assumption. The exception was the Supreme Court whose SF 113-A pay was added to the District of Columbia's nondefense payroll.

The methodology used to estimate the geographic distribution was to obtain actual expenditures for salaries and wages from the SF 113-A. Salary and wage data on the SF 113-A were expenditures (including basic, premium, and lump sum payments) for all Federal civilian employees. (These data were not reported by State and county on the SF 113-A.)

From OPM's CPDF and agency survey data (White House Office, Office of the Vice President, Federal Reserve Board, Architect of the Capitol, U.S. Botanic Gardens, Library of Congress, Copyright Royalty Tribunal, and Tennessee Valley Authority) aggregate basic salaries for full-time employees only (Department of Defense and other agencies) were computed for each county, each United States Territory, total United States and total Territories. Based on these aggregate basic salaries, Department of Defense and other agencies percentages were computed. These percentages determined each county's and territory's proportion of the total United States and U.S. Territories full-time salaries.

The percentages referenced above for Department of Defense and other agencies were applied to SF 113-A Defense and nondefense payroll data for the U.S. and U.S. Territories to estimate actual expenditures in U.S. counties and U.S. Territories. State and U.S. Territory totals were obtained by aggregating estimated actual expenditures in U.S. counties and U.S. Territories, respectively.

The District of Columbia's nondefense estimated actual expenditures were computed by the above methodology. However, a constant was then added to this estimate consisting of SF 113-A agency payroll data for the following agencies: U.S. Congress, Commission on Security and Cooperation in Europe, Congressional Budget Office, and the Supreme Court. These agencies were not in the survey agency file or in the CPDF. Since their employment is primarily or totally in the District of Columbia, their SF 113-A payroll data were added to the District's nondefense estimate.

Grants

As indicated in appendix D, the principal source of the grants data in volumes I and II of the CFFR was the information submitted to the Federal Assistance Award Data System (FAADS). The Bureau of the Census is the Executive Agent for the Office of Management and Budget, and is responsible for the operation of the FAADS reporting systems.

For grants, the FAADS data represent the Federal obligation incurred at the time the grant is awarded. The amounts reported do not represent actual expenditures, since obligations in one time period may not result in outlays during the same time period. Moreover, initial amounts obligated may be adjusted at a later date, either through enhancements or deobligations. These deobligations may appear in the CFFR data as negative amounts. Users should be aware of what these amounts represent and use care in interpreting such data.

FAADS data on grants for fiscal year 1983 were derived by summing the quarterly reports that covered financial assistance awarded between October 1, 1982 and September 30, 1983. The grants data from FAADS that were carried forward to the CFFR totaled $80.1 billion, or about 78 percent of all grants reported.

All grant awards in FAADS were reported by State, county, and city of initial grant recipient. Submitting agencies used either FIPS codes for States, counties and places, or General Services Administration location codes.

Grant data in Volumes I and II of the CFFR are distributed by State, county and city, for the $80.1 billion of grants which were taken from the FAADS.

Grants data from the Federal Assistance Award Data System represent awards to the initial recipient. For many grants, this recipient is the State government, even though the grant monies are subsequently distributed to county, municipal, or township governments. These "pass-through" grants generally appear in the CFFR at the State capital city (and in the associated county). No attempt has been made in the CFFR to assign the dollar amounts for these pass-through programs to locations other than the State capital.

For five grant programs, amounts reported in the quarterly FAADS reports were shown on a county-by-county basis, even though these grants were awarded to State governments. The distribution was estimated each quarter, usually based upon some sort of proration methodology employing population figures. In the CFFR, these grants were not shown at the county level, but were instead treated like all other pass-through grants and reported only at the State capital. This methodology was consistent with the geographic assignment of all other

grants in the CFFR. These grants and their Catalog of Federal Domestic Assistance program numbers were:

Child Support Enforcement (13.679)
State Health Care Providers Survey Certification (13.777)
Assistance Payments—Maintenance Assistance (13.808)
Assistance Payments—State and Local Training (13.810)
Low Income Home Energy Assistance (13.818)

In addition to the presentation of data on pass-through grants, the existence of major grant programs designed solely for State governments can affect the geographic presentation of data in the CFFR tables. The most striking example is the highway construction program funded through the Highway Trust Fund. Grant obligations under this program totaled $12.7 billion in fiscal year 1983. These amounts will all be included at the State capital locations in volumes I and II of the CFFR, even though such funds are actually spent throughout each State area.

The impact of these pass-through and large volume grants to States should be carefully considered by users analyzing grants data on a geographic basis. Such amounts reported at the State capitals may not reflect the true impact of Federal funds in those geographic locations. Users can identify and recompile data for these grant programs through the CFFR data file available on magnetic computer tape, if some method of redistribution is desired.

Information on grants for the general revenue sharing program was provided by the Office of Revenue Sharing, Department of Treasury. The general revenue sharing grants were not taken from amounts reported to the FAADS program, because the revenue sharing data in FAADS are aggregated at the county area level. All grants data for general revenue sharing represent actual outlays during the fiscal year.

Indian Tribes and Alaskan Native Villages, as defined in the State and Local Fiscal Assistance Act, are also eligible to receive general revenue sharing funds. Amounts paid to such recipients were included in the figures for "county undistributed," for the particular county area in which such recipients are located.

Expenditures under the general revenue sharing program totaled about $4.6 billion in fiscal year 1983.

The remaining grants data for the CFFR were taken from data submitted to the Census Bureau pursuant to Treasury Circular 1014 and Part 2, Chapter 7000 of the Treasury Fiscal Requirements Manual. These submissions are required annually by all Federal Government agencies which make payments to State or local governments.

Such data were previously collected and published annually by the Division of Government Accounts and Reports, Fiscal Service—Bureau of Government Financial Operations, Department of the Treasury. The annual Treasury Department publication *Federal Aid to States,* which contained these data, has been replaced by the publication *Federal Expenditures by State.* Reference should be made to that publication for additional information on the coverage and reporting requirements associated with these grant data.

These grant programs were taken from the *Federal Expenditures by State* publication to ensure comprehensive coverage in the CFFR. With the exception of the Medicaid program, these grants are not part of the FAADS reporting because they are not listed in the Catalog of Federal Domestic Assistance. Data were available only at the State area level of reporting.

The Medicaid program is reported quarterly in FAADS. However, data for fiscal year 1983 were affected by a revision in the budgeting requirements for this program, which delayed the obligation of funds from the fourth quarter of fiscal year 1983 to the first quarter of fiscal year 1984. Total fiscal year 1983 obligations (FAADS data) were $14.3 billion, compared to total expenditures of $18.9 billion.

To ensure comparability with annual data previously published, and since this program represents such a significant portion of total Federal grant outlays, it was decided to use the expenditures data submitted pursuant to the Treasury Fiscal Requirements Manual rather than the obligated amounts reported for FAADS. There was no loss of geographic detail since Medicaid consists of grants to the State governments and would be shown at the State capital city regardless of which data source were used.

Procurement

Statistics covering Federal Government procurement were provided by the U.S. Postal Service (USPS) for Postal Service procurement and the Federal Procurement Data Center (FPDC) for procurement actions of all other Federal agencies, including the Defense Department.

Amounts provided by the USPS represent actual outlays for contractual commitments, while amounts provided by the FPDC represent the value of obligations for contract actions, and do not reflect actual Federal Government expenditures. In general, only current year contract actions are reported for data provided by the FPDC; however, multiple-year obligations may be reflected for contract actions of less than 3 years duration. The FPDC collects procurement statistics on a quarterly basis from most Federal Government departments and agencies, and provides these data according to the place of performance rather than the location of the prime contractor. Excluded from the procurement totals reported are the amounts for the judicial and legislative branches of government and most intergovernmental transfers of funds. Also excluded from the totals are amounts for procurement in foreign countries. However, foreign procurement awards were $9.6 billion in fiscal year 1983, with $8.4 billion for the Defense Department and $1.2 billion for all other Federal Government agencies other than the USPS.

Most contract actions awarded by the FPDC with values under $25,000 for the Defense Department and under $10,000 for nondefense agencies were not distributed by State and Territory. Such amounts were reported as "U.S. undistributed."

Procurement data provided by the USPS include all outlays made under formal contractual agreements. The FPDC data include contractual actions for construction, purchases of equipment, and other purchases of tangible items by the Federal Government. Also included with the FPDC data are contractual actions for services often not generally associated with procurement, such as the purchase of utilities, building leases, and other

services entered into via contractual agreement.

Procurement data provided by the FPDC were distributed according to place of performance, as designated by FIPS State/county/place geographic coding. These geographic codes were matched against the government unit codes comprising the geographic basis for CFFR, and assigned to any units where a match was found. Unmatched data records were distributed to "balance of county" represented by the State/county portion of the FIPS geographic code. (For those FPDC data records submitted only with a State/place code, a county code was first assigned via a geographic conversion file.)

Direct Payments for Individuals

Data covering Federal Government direct payments for individuals were separated into two object categories—direct payments for retirement and disability benefits, and all other direct payments for individuals. Retirement and disability programs include Federal employee retirement and disability benefits, Social Security payments, selected Veterans Administration programs, and selected other Federal programs.

While the individual Federal programs included under the direct payments for individuals object category are not presented separately in the CFFR volumes I and II, program data are published by State in the *Federal Expenditures by State* report, or are included in the CFFR data file available on magnetic computer tape.

Unless otherwise indicated, all data covering direct payments for individuals were taken from information reported to the Federal Assistance Award Data System. All data represent actual expenditures during the fiscal year. Direct payments for individuals are shown by State and county area only, in accordance with the reporting requirements of the Federal Assistance Award Data System.

The following direct payment programs-retirement and disability were not available from FAADS and were obtained from other data sources.

1. Military retirement benefits data were supplied by the Defense Department, with that agency's data on military payroll. Amounts represent actual outlays during the fiscal year. Coverage includes recurrent benefit payments, as well as permanent and temporary disability payments. Data were provided by State and county area of recipient. Fiscal year 1983 payments totaled $14,885 million.

2. Amounts for benefit payments to retired U.S. Coast Guard service personnel were obtained from that agency. These payments totaled $256.4 million. Data were available on a State-by-State basis only, and were assigned geographically to "State undistributed" in each State. Amounts reflect payments during calendar year 1983, rather than the fiscal year. Coverage includes taxable benefits financed by employer or general fund contributions. Retired civilian employees of the Coast Guard are excluded from these data, but included in data from the Office of Personnel Management.

3. Federal civilian employee retirement and disability payments were obtained from the Office of Personnel Management, Compensation Group. Figures include expenditures for all periodic annuity, survivor annuity, and lump sum death claims, as well as withdrawals. Administrative expenses and funds transferred to other retirement systems are excluded. Amounts reported totaled $20,953 million. Foreign disbursements of approximately $11.5 million were excluded.

   Retirement benefits for Federal civilian employees also included data for former Postal Service employees. Separate data covering payments for former Postal Service employees are not maintained by OPM, although records are available on the last employing agency (Federal department) of each retiree. Retirement benefits to former Postal Service employees and their survivors are estimated at 23 percent of the total payments.

   It should be noted that the amounts reported by OPM include payments from employee contributions as well as employer contributions. No data covering the payments associated only with employer contributions, earnings on investments, or other nonemployee financed amounts could be obtained.

   The OPM data represent estimated geographic distribution of actual fiscal year 1983 disbursements. The methodology employed by OPM was based on proportionate calendar year to date annuity disbursements through October 1, 1983. The calendar year to date data were accumulated by ZIP code, and a proportionate share for each ZIP code calculated. The proportionate shares were then applied against the actual total of fiscal year 1983 disbursement. ZIP codes reflected recipient location except for payments made via electronic funds transfer, which reflected correspondence ZIP code.

   Like other data submitted on the basis of ZIP codes, these data were converted to State and county areas using the methodology described in the following section "Geographic Presentation and Coding."

4. Data were provided by the Employment Standards Administration, Department of Labor, for benefit payments under programs for Coal Mine Workers Compensation, Longshoremen's and Harbor Workers Compensation, and Federal Employee Workers Compensation. Total amounts reported for each of these programs were $639 million, $30 million and $918 million. Amounts reported represent actual outlays during the fiscal year. Data were submitted based upon postal ZIP code of the payment recipient. Conversions to State and county areas were made by the Census Bureau. For payments under the Coal Mine Workers Compensation program, the data include $34 million paid to the United Mine Workers of America. These data represent reimbursements of medical expenses paid on behalf of claimants by the UMW. Payment was made to the UMW headquarters office in Washington DC, and are reported at that location in the CFFR.

5. Pension plan termination insurance payments reflect benefits paid by the Pension Benefit Guaranty Corporation under the Pension Plan Termination Insurance Program (Catalog of Federal Domestic Assistance program 86.001). Data include only those payments made directly by the Pension Benefit Guaranty Corporation. Amounts paid by interim custodians such as banks or other financial institutions were not reported. Total payments for fiscal year 1983 under this program were $50.7 million.

   The data submitted for the CFFR were geographically distributed by postal ZIP code. Conversion to State and county area was made in accordance with procedures described in "Geographic Presentation and Coding" section.

6. Data for benefit payments under Social Insurance for Railroad Workers were obtained from the Railroad Retirement Board. The submission was in the format required for FAADS reporting, but covered all of fiscal year 1983. Amounts reported totaled $6,434 million. Data were reported by State and county area, in accordance with FAADS requirements.

Programs classified as direct payments for individuals, other than retirement and disability, were all obtained from the Federal Assistance Award Data System, except as noted in appendix D. These were reported by State and county area only. The four quarterly FAADS reports were consolidated to obtain fiscal year totals.

Amounts reported for the Lower Income Housing Assistance Payments (Section 8 program) under this object category reflect the share paid to privately operated (nongovernmental) rental units on behalf of lower income renters. The share paid to public housing authorities was included under the grants category.

Data were provided by the Department of Housing and Urban Development on a State-by-State basis only. Amounts for this program originally reported to FAADS were not used in the CFFR. The total amount was $2.4 billion.

Data for Federal employee life and health insurance premium payments to private carriers include both employer and employee shares. The Office of Personnel Management, Compensation Group, provided the data along with figures on civilian retirement benefits. The data were reported by postal ZIP code of the insurance carrier, and were assigned to the county in which the carrier was located. Total payments for fiscal year 1983 were $6.1 billion.

Statistics on Federal expenditures for unemployment compensation were compiled from information obtained from the Department of Labor. Amounts reported include: Federal reimbursements to States for unemployment benefits paid to ex-Federal employees; the Federal Government share of extended unemployment benefits; Federal Government advances of State government amounts (net of repayments); Federal Government benefits under the trade readjustment program. Data were compiled by State area only and reported at "State undistributed."

Excess earned income tax credits represent Federal Government payments during calendar year 1983. Information was obtained from the Department of the Treasury, Internal Revenue Service, Statistics of Income Division. Amounts reflect only the excess earned income tax credit portion—that amount actually refunded. Aggregate figures by State were reported. No substate detail was available.

Other Direct Federal Expenditures

All data reported were submitted by Federal agencies to the Federal Assistance Award Data System, with the exception of selected programs. Amounts reported in each of the four quarters of fiscal year 1983 were consolidated for the CFFR.

All but three program were obtained from the Federal Assistance Award Data System: Crop Insurance—data on the amount of indemnity payments (claims) and premium subsidies were provided by the Agriculture Department. Expenditures totaled $532 million. Coverage included the claims paid directly by the Federal Government to farmers, and premium subsidies to private insurers. Federal indemnity payments to private insurance carriers were not reported. Amounts reflect the resident county of the claimant for direct payments, or locational county of the private carrier for premium subsidies. Federal Emergency Management Agency—supplied State-by-State data on fiscal year 1983 payments under the National Flood Insurance program. Amounts represent claims and adjustor expenses. Total expenditures for this program were $354.8 million. U.S. Postal Service—expenditures for current operations other than procurement and salaries were provided by the Postal Service as part of that agency's total submission for CFFR. Data were provided by State and county area, with the distribution based on the methodology described earlier for Postal Service salaries and wages. Amounts reported totaled $2.1 billion.

Guaranteed Loans, Direct Loans, and Insurance

All data on loans and insurance programs of the Federal Government were reported for the Federal Assistance Award Data System. Amounts reported in these object categories reflect the contingent liability of the Federal Government, in accordance with the FAADS reporting instructions. Data do not represent actual expenditures associated with the loan or insurance programs. Any actual outlays under these programs, such as insurance claims paid by the Federal Government, would be included under the direct payments categories in the CFFR.

Federal Government contingent liability can vary by program, and caution should be used in comparing one Federal loan or insurance program to another, or in interpreting the data presented to reflect actual Federal outlays over time. The following should be noted:

1. Amounts guaranteed or insured do not necessarily represent future outlays.

2. Timing arrangements can affect the Federal Government liability reported. For example, all policies under the National Flood Insurance Program must be renewed annually and therefore appear significantly larger in the FAADS/CFFR data than do insurance or loan guarantee programs that extend

over lengthy time periods. The latter would only be reported in FAADS/CFFR for the quarter and fiscal year in which the insurance policy or loan guarantee is awarded.

3. All amounts reflect the dollar value of loans or insurance coverage provided during the fiscal year, and not the cumulative totals of such activity over the life of the program.

4. Direct loans are not reported on a net basis, as in the Federal Budget, but rather are shown in terms of total amount loaned.

5. Programs otherwise similar can vary in the share of the total liability that the Federal Government guarantees or insures. Certain Veterans guaranteed loan programs are guaranteed only up to a stated maximum dollar value, for example. In these cases, the Federal Government contingent liability is less than the total value of the loan or insured policy agreement.

Guaranteed loans, direct loans, and insurance are reported in FAADS by State and county area, or by State, county, and place.

Detail on particular loan or insurance programs is available in *Federal Expenditures by State* (on a State-by-State basis only) or on the CFFR data file available on magnetic computer tape.

Department of Education Data

All data on Education Department grant, direct payment, loan, and insurance programs were from a special submission prepared by that Department for the CFFR. This submission was processed via the FAADS edit and was used in lieu of the four quarterly FAADS submissions of the Education Department. Users will not be able to reconcile FAADS detailed information for the Education Department with the data reported in the CFFR, although program totals should be similar in magnitude.

GEOGRAPHIC PRESENTATION AND CODING

Background

The Consolidated Federal Funds Report Act calls for reporting by State (including Territories), county or parish, Congressional district or municipality. At the subcounty level, the Act refers to municipality as any unit of local government that received Federal assistance under the State and Local Fiscal Assistance Act of 1972—the General Revenue Sharing Program. For this reason, the geographic basis for presentation on the Consolidated Federal Funds Report is the governmental classification system developed by the Bureau of the Census in its census of governments program. This governmental classification system, described in more detail below, defines the universe of eligible general purpose governments under the State and Local Fiscal Assistance Act.

Volume I presents data by State and county area. The District of Columbia and the United States Territories of American Samoa, Guam, Northern Mariana Islands, Puerto Rico, Trust Territory of the Pacific and the U.S. Virgin Islands are included. In addition to county area, municipal governments which are independent of any organized county are included here as county equivalent areas. Appendix A contains a listing of these municipalities.

Governmental Units

There were 82,341 governmental units in the United States according to the 1982 Census of Governments, broken down as follows:

U.S. Government	1
State governments	50
Local governments	82,290
County	3,041
Municipal	19,076
Township	16,734
School district	14,851
Special district	28,588

Exact definitions of governmental units are available in Volume 1 of the 1982 Census of Governments, *Governmental Organization*. This publication describes the structure and organization of State and local governments throughout the Nation.

The Consolidated Federal Funds Report presents data by State, county, and subcounty area, making use of governmental units to represent geographic areas. For States and Territories, governmental jurisdictions have fixed, stable boundaries which correspond to well-defined geographic areas. For county and subcounty governmental units, however, there can be significant differences between the concept of a governmental unit and a specified geographic area.

Where county governments exist they correspond to generally accepted county geographic boundaries. However, many areas of the United States lack county government. Organized county governments are not found in Connecticut and Rhode Island, as well as in some territories, and the District of Columbia. Numerous cities, such as Baltimore MD (which is not located within a county government area), and San Francisco CA (which is a consolidated city/county government) also exist independently of any county government.

County-type areas are included in the Consolidated Federal Funds Report as if they were legitimate counties to ensure consistency in the geographic presentation of the data. A complete listing of these areas can be found in appendix A.

It is important to note that the CFFR covers Federal Government payments to governmental units and other recipients located in the geographic areas over which these governments have jurisdiction. The Federal payments to the New York City area could represent monies allocated to the city government, a private company located in the city, or a private citizen residing in the city. No attempt is made in the CFFR to provide information on the recipients of Federal money. Such information could be obtained from analysis of the category of Federal expenditure or financial obligation being reported, or reference to the data sources, which frequently include information on recipient types.

The Federal Assistance Award Data System and the Federal Procurement Data System both contain information describing the recipient of Federal Government financial awards.

Volume II presents selected data for subcounty areas—the municipalities and townships. Many of these subcounty jurisdictions cross county boundaries, and actually exist in two or more county areas. In the CFFR, such governments are assigned to only one county;[2] and all financial data attributable to the municipality or township are shown in the principal county area to which the government is assigned.

In most cases, the affect of this assignment on the statistical presentation of the data is negligible. However, users should be aware of this treatment, particularly if using data for one of these multicounty jurisdictions. The municipalities of over 50,000 population which exist in more than one county area, and their respective counties, are shown in text table A.

All governmental units identified in the census of governments are assigned a numeric code for processing purposes. This governmental unit (GU) code was essential for processing of CFFR data, since data submitted by other Federal agencies had to be converted to a GU code structure. This process is described in the following section "Methodology."

The geographic presentation is in accordance with the governmental unit numeric code. The order is alphabetical by State (with the District of Columbia treated as a State area), followed by the U.S. Territories. Within a State, county areas are generally listed alphabetically, but with some exception for the county-type areas listed in appendix A.

At the subcounty level in volume II, the presentation within a county area is generally alphabetic, with all municipal governments listed first, followed by all township governments, then all independent cities. There are frequent exceptions to the alphabetic sort order, however. Numeric code assignments again served as the key, and these may not follow a purely alphabetic sequence.

The government structure of New York City deserves special mention. Classified for census purposes as a municipality, the city is actually comprised of five county-type areas (Bronx, Kings, New York, Queens, and Richmond). None of these five county-type areas are presented separately in this report. New York City is presented as a single county-type area.

Methodology

The geographic coding of all data in the CFFR was based on CFFR geographic reference file, developed for the CFFR survey. In summary, this file was developed by equating governmental unit codes representing general purpose governments to Bureau of the Census geographic place codes. A file for this purpose has been developed at the Census Bureau for bringing together all data elements required in the allocation formula of the General Revenue Sharing Program.

With Census Bureau geographic place codes assigned, all general purpose governmental units were then matched to an equivalent Federal Information Processing Standard (FIPS) State, county, and place code. This was accomplished by processing against the Geographic Identification Coding Scheme (GICS) file developed for the 1980 Census of Population, which contained both Census Bureau geographic and FIPS place codes for all incorporated jurisdictions.[3]

At this point, all general purpose governments had been assigned a geographic code based upon governmental unit, Census Bureau geographic place, and FIPS place coding schemes. The next step in creating the CFFR geographic reference file was to assign General Services Administration (GSA) location codes. This was done by processing against the FIPS PUB 55 file, which contains a data field for GSA codes in each place record. GSA codes were needed because numerous Federal agencies submitting data to the FAADS reporting system use them for geographic identification.

An additional phase in creating the CFFR geographic reference file involved the creation of government unit codes to represent United States totals, undistributed data at the United States, State, and county area levels. These designations were needed for three reasons:

1. To ensure that tabulation programs applied against the data file had records in which to put summed detail data.

2. To enable geocoding for data that were submitted in summary form, such as by State (data would be assigned to each appropriate State undistributed code). Governmental units were, in effect, proxies for geographic areas, and amounts reported to a State area could not have been legitimately assigned to a State government code (which were used essentially for totals).

3. To allow geographic records at all appropriate levels of geography (State, county, subcounty) for capturing unmatched data. A program amount reported at a FIPS city code not equating to a government unit could still get geocoded at the subcounty record for balance of county, for example.

There were seven variations of geographic coding used in the data originally submitted for CFFR:

- State name or abbreviation (limited to noncomputerized submissions)
- ZIP codes
- Federal Information Processing Standard (FIPS) Codes
  - State, county, place
  - State, county
  - State, place
- General Services Administration (GSA) Geographic Location Codes
  - State, county, place
  - Government unit codes

[2]Multicounty jurisdictions are identifiable on the CFFR computer tape data file by a "split flag," indicating that they are actually split among two or more county areas.

[3]The Census Bureau uses the FIPS geographic coding structure at the State and county area level. For subcounty areas, however, FIPS coding is not the primary geographic identification in Census Bureau surveys. Users should refer to the publication *Geographic Identification Code Scheme* for an explanation of Census Bureau geographic coding.

Table A. Multicounty Municipal Governments of Over 50,000 Population

Milwaukee.....	Milwaukee..	Washington

For State and county level reporting, the conversion process was straightforward. At the subcounty level, however, the conversion was much more complex. None of the geographic coding designations had a one-to-one correspondence with the government unit code scheme. Thus, specific guidelines had to be developed for geocoding data records that could not be matched to distinct governmental units.

These guidelines involved coding at the lowest level of geography, then assigning the data to an "undistributed" or "balance" designation within that level of geography. For example, if a data record for a Federal grant award contained a geographic code for an unincorporated city that was not defined as a governmental unit, the grant would be assigned to the summary level "balance of county" within the State and county contained in the original geographic code. For this reason, the tables in the CFFR publication contain the geographic designations balance of county, county undistributed, State undistributed, and U.S. undistributed.

As mentioned under "Data Sources," some Federal agency data were submitted based upon recipient postal ZIP code. Since these data were included under the direct payments object category, they had to be assigned to State and county areas for the CFFR.

The procedure for this coding was to match the ZIP code for each data record against a cross reference file specially created for the CFFR program. This file contained ZIP codes within each State and county, and the total 1980 population residing therein.

The file was developed from the ZIP Code Equivalency File (MARF 5), 1980 Census of Population and Housing. From this file, total population for each unique combination of ZIP code, FIPS State code, and FIPS county code was tallied and the cross reference file created. This file was sorted by ZIP code (ascending order), and for every multiple ZIP code a percentage of total population in that State, county, and ZIP code was computed. This percentage (calculated to tenths of 1 percent) was then used to distribute all CFFR data submitted by ZIP code.

Several adjustments were made to this ZIP code cross reference file initially developed from MARF 5. ZIP codes for the U.S. Territories were added, with all ZIP codes assigned to the territorial level (undistributed) only. Also, ZIP codes for major urban areas that have been revised since the 1980 Census were updated. This affected primarily the Washington DC metropolitan area. ZIP codes for APO/FPO overseas deliveries were not assigned. Data records with such ZIP codes were treated as nondomestic payments and excluded from the CFFR.

The MARF 5 file covered primarily residential ZIP codes, since it was created in association with the 1980 Census of Population. Consequently, the ZIP codes that represented postal boxes and postmasters only, institutional buildings, Federal agencies, and so forth, were not included in the cross reference file created for CFFR. Any Federal funds reported for such ZIP codes were assigned to "U.S. undistributed."

Once assigned to a particular FIPS State and county, all data records originally submitted on the basis of ZIP codes were processed through the CFFR geographic reference file for compilation and publication purposes.

Congressional District Reporting

The Congressional district or districts for each county area are displayed in the CFFR table. For those places that have multiple districts, all such districts are displayed.

In those counties with more than one Congressional district, dollar amounts are not reported separately for each district. The Federal financial data in the reporting systems (data sources) used for the CFFR did not contain such detail, with the exception of partial data records of the Federal Assistance Award Data System.

All data covering salaries and wages and Postal Service procurement, and most data on direct payments for individuals, were reported to county level of detail only, allowing no basis for distribution by Congressional district within the county.

Procurement data (other than Postal Service) were reported at the subcounty level by place of performance. The latter data field in Federal Procurement Data System (FPDS) may not correspond to the contractor location data in the FPDS, which could be used to determine a specific Congressional district.

Grants data from the Federal Award Data System have, in some cases, detail on the specific Congressional district to which a grant award was made within a location that has multiple districts. Users interested in this detail can make reference to the FAADS reporting system.

Data on loans and insurance that were taken from the FAADS might also have information on specific Congressional districts. However, loan and insurance programs with large-scale transaction such as the Veterans Life Insurance program, are covered in FAADS only at the county area summary level. These would not contain specific data on payments by Congressional districts.

Several other aspects of the Congressional district coding should be noted:

For States with an at-large representative, the code "OO" is reported.

For Territories with a nonvoting representative to Congress, the Congressional district is reported as "98."

Territories with no representatives have "99" for a Congressional district code.

To derive totals of all funds to any particular Congressional district, amounts for all governmental units in that district would have to be aggregated.

For municipalities that exist in more than one county area, all Congressional districts are reported, even if they service only that portion of the municipality lying in the multiple county area.

The geographic reference file used in the CFFR is available along with the CFFR data file, on magnetic computer tape. Interested users should contact the Governments Division, Bureau of the Census.

AMOUNTS EXCLUDED FROM CFFR COVERAGE

Federal Government expenditures covered in the CFFR total $701.7 billion for fiscal year 1983. This amount does not represent all Federal Government expenditures. Amounts excluded from the CFFR can be grouped into two general categories—conceptual exclusions, and agency/program omissions.

Federal expenditures excluded conceptually were those that could not be geographically distributed, all international transactions and foreign payments, and Federal outlay categories not covered by any of the reporting systems that served as data sources for the CFFR. The largest item was net interest on Federal Government debt, which was $89.8 billion in fiscal year 1983. The fiscal year 1983 total outlay for the international affairs function in the Federal Budget was $9 billion.

Expenditures for the Central Intelligence Agency and the National Security Agency were excluded from coverage.

The CFFR data were compiled by object category of Federal expenditures. The reporting systems and Federal agencies that served as data sources excluded Federal travel expenditures, to the extent that they were not covered by contractual agreements. No estimate of the magnitude of these expenditures is available.

For some agencies, data for selected object categories could not be obtained. These included the National Endowment for the Arts (grants data), and the Judicial and Legislative sectors of the Federal Government (procurement actions).

Other known exclusions in the CFFR include the Federal payment to the Legal Services Corporation, and expenditures of the Federal Deposit Insurance Corporation, National Credit Union Administration, and Federal Savings and Loan Insurance Corporation not covered by salaries and procurement reporting.

The Federal Budget outlays for fiscal year 1983 totaled $796 billion. However, comparison of the Budget amount with data reported in the CFFR could be misleading, since the Federal Budget amounts differ from CFFR in accounting concepts and the treatment of intragovernmental transfers. For example, outlays for many programs in the Federal Budget are reported on a net basis.

The Postal Service is not included in the Federal Budget, except as an intragovernmental transfer amounting to $789 million for fiscal year 1983. Postal Service expenditures are included in the CFFR on a gross basis, while the Federal intragovernmental transfer to the Postal Service is excluded.

The Federal Budget includes all transactions of the Unemployment Trust Fund. In the CFFR, only Federal payments for reimbursements to States for unemployment benefits paid to ex-Federal employees; the Federal Government share of extended unemployment benefits; Federal Government advances of State government amounts (net of repayments); and Federal Government benefits under the trade readjustment program are included.

This page left blank to preserve table sequence.

Federal Government Expenditures or Obligations by States and County Areas:

[Thousands of dollars]

	State and county area	Congressional district	United States resident population[1]	Direct Federal expenditures or obligations

APPENDIX A

COUNTY-TYPE AREAS WITHOUT COUNTY GOVERNMENTS

Areas with governments legally designated as city counties and operating primarily as cities (8):	
Alaska	City and borough of Anchorage, city and borough of Juneau, and city and borough of Sitka.
California	City and county of San Francisco.
Colorado	City and county of Denver.
Hawaii	City and county of Honolulu.
Montana	Anaconda-Deer Lodge County and Butte-Silver Bow.
Areas designated as metropolitan governments and operating primarily as cities (1):	
Tennessee	Metropolitan government of Nashville and Davidson County
Areas having certain types of county offices, but as part of another government (city, township, State) (15):	
Florida	County of Duval (city of Jacksonville).
Georgia	County of Muscogee (city of Columbus).
Hawaii	County of Kalawao (State of Hawaii).
Indiana	County of Marion (city of Indianapolis).
Kentucky	Lexington-Fayette Urban County.
Louisiana	Parish of East Baton Rough (city of Baton Rough) and parish of Orleans (city of New Orleans).
Massachusetts	County of Nantucket (town of Nantucket) and county of Suffolk (city of Boston).
New York	Counties of Bronx, Kings, New York, Queens and Richmond (all part of the city of New York).
Pennsylvania	County of Philadelphia (city of Philadelphia).

Cities located outside of any "county" area and administering functions elsewhere commonly performed by counties (45):	
District of Columbia	Washington city.
Maryland	Baltimore city (distinct from Baltimore County).
Missouri	St Louis city (distinct from St. Louis County).
Nevada	Carson City.
Virginia (41 cities)	Alexandria, Bedford, Bristol, Buena Vista, Charlottesville, Chesapeake, Clifton Forge, Colonial Heights, Covington, Danville, Emporia, Falls Church, Fairfax, Franklin, Fredericksburg, Galax, Hampton, Harrisonburg, Hopewell, Lexington, Lynchburg, Manassas, Manassas Park, Martinsville, Newport News, Norfolk, Norton, Petersburg, Poquoson, Portsmouth, Radford, Richmond, Roanoke, Salem, South Boston, Staunton, Suffolk, Virginia Beach, Waynesboro, Williamsburg, and Winchester.
Unorganized areas bearing county designations (15):	
Connecticut (8 county areas with no county government).	Fairfield, Hartford, Litchfield, Middlesex, New Haven, New London, Tolland, and Windham.
Rhode Island (5 county areas with no county government).	Bristol, Kent, Newport, Providence, and Washington.
South Dakota (2 county areas attached to other counties for governmental purposes).	Shannon and Todd.
Other unorganized county-type areas (13):	
Alaska	12 census areas.[1]
Montana	Areas of Yellowstone National Park (areas of the park located in Idaho and Wyoming are included in county areas in those States).

[1]As of January 1982, Eielson Air Force Base and Kodiak Coast Guard Station were legally outside the boundaries of Fairbanks—North Star Borough and Kodiak Island Borough, respectively, but were included in the county equivalents of Fairbanks—North Star Borough and Kodiak Island Borough, respectively, for purposes of population statistics.

APPENDIX B

Geographic Areas With More Than Four Congressional Districts

State and county area	Congressional districts
California:	
Los Angeles County.....	20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33 34, 35, 42
Orange County.....	38, 39, 40, 42, 43
Illinois--Cook County.....	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14
Massachusetts:	
Middlesex County.....	3, 4, 5, 6, 7, 8
Norfolk County.....	3, 4, 9, 10, 11
Michigan:	
Oakland County.....	6, 7, 14, 17, 18
Wayne County.....	1, 2, 13, 14, 15, 16, 17
New Jersey--Bergen County.....	5, 8, 9, 11, 14
New York--New York City.....	6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19
Pennsylvania--Philadelphia County.....	1, 2, 3, 7, 13
Texas--Harris County.....	7, 8, 9, 18, 22, 25

APPENDIX C

County Locations of State Capital Cities

State	Capital	County Area
Alabama	Montgomery	Montgomery County
Alaska	Juneau	Juneau Borough
Arizona	Phoenix	Maricopa County
Arkansas	Little Rock	Pulaski County
California	Sacramento	Sacramento County
Colorado	Denver	Denver City/County
Connecticut	Hartford	Hartford County
Delaware	Dover	Kent County
Florida	Tallahassee	Leon County
Georgia	Atlanta	Fulton County
Hawaii	Honolulu	Honolulu City/County
Idaho	Boise	Ada County
Illinois	Springfield	Sangamon County
Indiana	Indianapolis	Marion County
Iowa	Des Moines	Polk County
Kansas	Topeka	Shawnee County
Kentucky	Frankfort	Franklin County
Louisiana	Baton Rouge	East Baton Rouge Parish
Maine	Augusta	Kennebec County
Maryland	Annapolis	Anne Arundel County
Massachusetts	Boston	Suffolk County
Michigan	Lansing	Ingham County
Minnesota	St. Paul	Ramsey County
Mississippi	Jackson	Hinds County
Missouri	Jefferson City	Cole County
Montana	Helena	Lewis Clark County
Nebraska	Lincoln	Lancaster County
Nevada	Carson City	Carson City
New Hampshire	Concord	Merrimack County
New Jersey	Trenton	Mercer County
New Mexico	Santa Fe	Santa Fe County
New York	Albany	Albany County
North Carolina	Raleigh	Wake County
North Dakota	Bismarck	Burleigh County
Ohio	Columbus	Franklin County

State	Capital	County Area
Oklahoma	Oklahoma City	Oklahoma County
Oregon	Salem	Marion County
Pennsylvania	Harrisburg	Dauphin County
Rhode Island	Providence	Providence County
South Carolina	Columbia	Richland County
South Dakota	Pierre	Hughes County
Tennessee	Nashville	Metro Nashville-Davidson[1]
Texas	Austin	Travis County
Utah	Salt Lake City	Salt Lake County
Vermont	Montpelier	Washington County
Virginia	Richmond	Richmond City
Washington	Olympia	Thurston County
West Virginia	Charleston	Kanawha County
Wisconsin	Madison	Dane County
Wyoming	Cheyenne	Laramie County

[1]Metropolitan Nashville-Davidson is listed as Davidson County in the Consolidated Federal Funds Report.

APPENDIX D

CFFR Data Sources

Category	Source
Grants	
Data submitted to the Bureau of the Census in accordance with OMB and Treasury Department requirements:[1]	Annual data submitted to Bureau of the Census pursuant to Treasury Circular 1014 and Part 2, Chapter 7000 of the Treasury Fiscal Requirements Manual. Submitting agencies were:
Federal Government annual payment to the District of Columbia	Department of the Treasury
Federal Government payment to Washington Metropolitan Area Transit Authority for interest on outstanding indebtedness	Washington Metropolitan Area Transit Authority

Housing assistance programs — Public Housing Assistance (including operating subsidies to public housing authorities) and Lower Income Housing Assistance (Section 8 rental subsidies paid to public housing authorities only). Catalog of Federal Domestic Assistance program numbers are 14.146 and 14.156, respectively.	Department of Housing and Urban Development
Interior Department shared revenues from mineral leases, grazing lands and other Bureau of Land Management payments to State and local governments.	Interior Department, Bureau of Land Management
Medicaid grants	Department of Health and Human Services
Tennessee Valley Authority — payments in lieu of taxes	Tennessee Valley Authority
General Revenue Sharing grants	Department of the Treasury, Office of Revenue Sharing
All other data[2]	Federal Assistance Award Data System (Bureau of the Census)
Salaries and wages	
Military, active Military, inactive (Reserve and National Guard)	Directorate for Information, Operations and Reports, Washington Headquarters Service, Department of Defense
Postal Service	U.S. Postal Service

Category	Source
Salaries and wages—Continued	
Defense Department, civilian employees	Office of Personnel Management, Workforce Analysis and Statistics Division
All other Federal civilian employees	
Procurement	
Postal Service	U.S. Postal Service
All other Federal Government, including Defense Department	Federal Procurement Data Center, General Services Administration
Direct Payments for Individuals: Retirement and Disability	
U.S. Coast Guard retirement benefit payments (uniformed personnel)	U.S. Coast Guard
Federal Government civilian employees (includes Defense Department civilian, Coast Guard civilian, and U.S. Postal Service annuitants)	Compensation Group, Office of Personnel Management
Military retirees	Directorate for Information, Operations and Reports, Washington Headquarters Services, Department of Defense
Coal Mine Workers Compensation (Black Lung Benefits — Catalog of Federal Domestic Assistance 17.307)	Employment Standards Administration, Department of Labor
Longshoremen's and Harbor Workers Compensation Program payments (Catalog of Federal Domestic Assistance number 17.302)	Employment Standards Administration, Department of Labor
Federal Employees Workers Compensation program	Office of Workers Compensation Program, Employment Standards Administration, Department of Labor
Pension Benefit Guaranty Corporation payments under Pension Plan Termination Insurance Program	Pension Benefit Guaranty Corporation
Programs for railroad workers (listed by Catalog of Federal Domestic Assistance program number):	Bureau of Research, Railroad Retirement Board
Social Insurance for Railroad Workers (57.001)	
Veterans benefit programs (listed by Catalog of Federal Domestic Assistance number):[2]	Veterans Administration
Compensation for Service-Connected Deaths for Veterans' Dependents (64.102)	
Pension for Non-Service Connected Disability (64.104)	
Pension to Veterans Surviving Spouses and Children (64.105)	

APPENDIX D–Continued

Category	Source
Direct Payments for Individuals: Retirement and Disability—Continued	
Veterans benefit programs (listed by Catalog of Federal Domestic Assistance number)—Continued	Veterans Administration
Veterans Compensation for Service Connected Disability (64.109)	
Veterans Dependency and Indemnity Compensation for Service Connected Death (64.110)	
All other data	Federal Assistance Award Data System (Bureau of the Census)
Direct Payments for Individuals: Other than Retirement and Disability	
Education Department programs[2]	Department of Education[2]
Excess Earned Income Tax Credit payments	Statistics of Income Division, Internal Revenue Service, Department of the Treasury
Federal Government payments to State unemployment trust funds for advances, payments for ex-Federal and military employees, and for extended benefits	State Government Finances (annual survey, Governments Division, Bureau of the Census)
Federal Government payments for Federal employee life and health insurance programs	Compensation Group, Office of Personnel Management
Veterans benefit programs (listed by Catalog of Federal Domestic Assistance number):[2]	Veterans Administration
Automobiles and Adaptive Equipment for Disabled Veterans (64.100)	
Burial Expenses Allowance for Veterans (64.101)	
Veterans Educational Assistance (GI Bill — 64.111)	
Vocational Rehabilitation for Disabled Veterans (64.116)

[1]For dollar amounts reported by State, see the publication **Federal Expenditures by State for Fiscal Year 1983.**

[2]All data for the Department of Education programs were submitted as a special FY 1983 tabulation for the CFFR, and processed through the Federal Assistance Award Data System (FAADS). Data previously submitted by the Education Department for the quarterly FAADS reports were not utilized in the Consolidated Federal Funds Report. This procedure also applied to the following programs: Department of Housing and Urban Development—Public Housing Programs (Lower Income Public Housing program 14.146 in the Catalog of Federal Domestic Assistance), and Lower Income Housing Assistance (Section 8 program 14.156); Veterans Administration—Department of Veterans Benefit programs listed in the table under Direct Payments for Individuals.
