September 4, 2020: Internal Revenue Service approved the use of sole-source information for population-count only enumeration usages

For the August 30th universe of 32,872,054:

- AR Modeling identified an additional 1,628,874 cases as closeout occupied
- In continuing to use additional multiple sources, this processing also used 2010 to 2018 ACS data to identify an additional 14,185 one-visit occuied and 3,612 closeout occupied cases.

Note: 8/30 universe addresses are based on addresses without valid data or resolved NRFU event codes (8/30 3503 workload)
Footnote a: 384,756 vacant and 379,505 delete addresses with low occupancy rates identified in August and September in this row will have an administrative record response generated since part of closing these cases was making them self-response vacant.

2020 Census HU Enumeration Progress by State – Column Definitions

State	Column includes Puerto Rico and the District of Columbia. The U.S. total excludes data for PR.
Percent of HUs that Self-Responded	The number of self-responding housing units as reported in the response rate map.
Percent of HUs Enumerated in NRFU	The percent of total housing units that have been resolved in the field during NRFU (excludes self-response). Cases completed in the field for Update Enumerate and Remote Alaska are included in this rate to ensure coverage of the full housing unit universe. This rate does not reflect the progress within the NRFU operation as it is relative to total housing units and not just the NRFU workload.
% HUs enumerated Prior Day	The cumulative percent of total housing units enumerated via self-response or during the NRFU operation as of 11:59 p.m. two days prior to the reporting date. This rate will always increase.
% HUs Enumerated Current Day	The cumulative percent of total housing units enumerated via self-response or during the NRFU operation as of 11:59 p.m. of the previous day. This rate will always increase.
Daily Change	The percentage point difference between the percent enumerated in the prior day's report and today's report.
