TABLE I.—COMBINED SUMMARY FOR ALL INDUSTRIES, BY GEOGRAPHIC DIVISIONS AND STATES: 1914 TO 1925

[No data for the "Coffee and spice, roasting and grinding" or the "Automobile repairing" industries, nor for establishments with products valued at less than $5,000, in any industry, are included in the statistics here given for 1925, 1923, or 1921. For 1919 and 1914 the data for the two industries named have been eliminated from the United States totals for all items, as published at the censuses for those years, and the data for establishments with products valued at less than $5,000 have been eliminated for all items except wages and primary horsepower. The figures for geographic divisions and States have not, however, been similarly adjusted. See "General explanations," pp. 3-12; in particular, secs. 24 and 27]

Number of establishments	187,390	Horsepower	35,772,628	Paid for contract work	$601,366,183
				Cost of materials	35,935,647,704
Persons engaged	9,773,051	Salaries and wages	$13,651,784,805	Value of products	62,713,713,730
Proprietors and firm members	133,054	Salaries	[5] 2,921,815,878	Value added by manufacture (value of products less cost of materials)	26,778,066,026
Salaried officers and employees	[5] 1,255,736	Wages	10,729,968,927		
Wage earners (average number)	8,384,261				

[1] Not including salaried officers and employees and salaries of central administrative offices. (See footnote 5.)

[2] Including also cost of fuel, electric power, mill supplies, and containers sold with products.

[3] The items in this column represent the total values of products reported by establishments engaged primarily in the manufacture of the specified classes of products. Thus, although the figures given are in most cases fairly close approximations of the actual values of the classes of products covered by the designations of the industries and their branches, they do not show these values exactly, for the reason that many establishments manufacture minor products not normally belonging to the industries in which such establishments are classified. (See sec. 12, p. 6.)

[4] Value of products less cost of materials.

[5] Not including 84,646 salaried officers and employees of central administrative offices, with salaries aggregating $225,512,798. For purposes of comparison with figures published for earlier years, these figures should be added to those given in the table, making combined totals of 1,340,382 salaried officers and employees and $3,147,328,676. (See "Central-administrative-office employees," p. 1193.)

TABLE III.—SUMMARY, BY STATES, FOR ALL INDUSTRIES COMBINED, 1925 AND 1923, AND FOR INDIVIDUAL INDUSTRIES, 1925

[This table presents, for each State, statistics for all industries for which separate figures can be given without disclosing operations of individual establishments. See "General explanations," pp. 3-12; in particular, secs. 24 and 26, and sec. 27, explaining the difference between the statistics for 1923 as here presented and as previously published]
