Chapter IV.—SIZE OF ESTABLISHMENTS

INTRODUCTION

This chapter presents statistics by size of establishments according to number of wage earners employed and also measured by size according to gross value of products manufactured.

The base used for the first classification is the yearly average of wage earners (calculated by dividing the sum of the numbers reported for the several months of the year by 12) engaged in manufacturing activities. The numbers reported as engaged in distribution, construction, and other nonmanufacturing activities are not included.

The distribution of factory wage earners by establishments grouped according to number employed differed somewhat in 1939 from that in 1929. Comparative figures for the two census years are:

SIZE CLASS	PERCENT OF TOTAL WAGE EARNERS	
	1939	1929
Total	**100.0**	**100.0**
1 to 5	2.6	3.2
6 to 20	6.9	6.7
21 to 50	9.7	9.2
51 to 100	10.8	10.1
101 to 250	18.7	17.9
251 to 500	16.1	15.1
501 to 1,000	13.0	13.3
1,001 to 2,500	11.9	13.0
2,501 or more	10.5	11.5

Table 6 of this chapter gives the statistics for number of establishments, number of wage earners, value of products, and value added by manufacture for both 1939 and 1929, according to size of establishments by value of products.

The table below gives the percent distribution for wage earners and value of products classified according to size by value of products.

TABLE 3.—SUMMARY FOR ESTABLISHMENTS CLASSIFIED AS TO SIZE BY NUMBER OF WAGE EARNERS, FOR INDUSTRY GROUPS AND FOR INDUSTRIES: 1939

[In cases where any figure for a size group cannot be given separately without disclosing data for individual establishments, it has been combined with that for another group. An (x) appears in the column where the figure has been omitted and in the cases of individual industries the combined figure is printed in italics. In the totals for "All industry groups" however, the data for each establishment have been included in the figure for the size group in which the establishment belongs, and thus these totals differ from the sums of the figures in the size-group columns]

TABLE 4.—SUMMARY FOR ESTABLISHMENTS CLASSIFIED AS TO SIZE BY NUMBER OF WAGE EARNERS, FOR GEOGRAPHIC DIVISIONS AND FOR STATES: 1939

[In cases where any figure for a size group cannot be given separately without disclosing data for individual establishments, it has been combined with that for another group and an (x) appears in the column where the figure has been omitted. For States, but not for geographic divisions, the combined figures are printed in italics. In the totals for the United States, however, the data for each establishment have been included in the figure for the size group in which the establishment belongs, and thus these totals differ from the sums of the figures in the size-group columns]

TABLE 7.—SUMMARY FOR ESTABLISHMENTS CLASSIFIED AS TO SIZE BY VALUE OF PRODUCTS, FOR INDUSTRY GROUPS AND FOR INDUSTRIES: 1939

[In cases where any figure for a size group cannot be given separately without disclosing data for individual establishments, it has been combined with that for another group. An (x) appears in the column where the figure has been omitted and in the cases of individual industries the combined figure is italicized. In the totals for "All industry groups," however, the data for each establishment have been included in the figure for the size group in which the establishment belongs, and thus these totals differ from the sums of the figures in the size-group columns]

TABLE 8.—SUMMARY FOR ESTABLISHMENTS CLASSIFIED AS TO SIZE, BY VALUE OF PRODUCTS, FOR GEOGRAPHIC DIVISIONS AND FOR STATES: 1939

[In cases where any figure for a size group cannot be given separately without disclosing data for individual establishments, it has been combined with that for another group and an (x) appears in the column where the figure has been omitted. For States, but not for geographic divisions, the combined figures are italicized. In the totals for the United States, however, the data for each establishment have been included in the figure for the size group in which the establishment belongs, and thus these totals differ from the sums of the figures in the size-group columns]
