[1] The cities of Hilo and Honolulu have legally established limits and therefore are treated as incorporated places.

Δ The revised population total for Nampa is 18,897. The figure in the table excludes population for an area misclassified as outside, rather than inside, the city limits. This error was discovered too late for correction in the detailed distributions.

[1] Revised since publication of 1950 reports.

Δ The revised population total for North Chicago is 22,938. The figure in the table excludes population for an area misclassified as outside, rather than inside, the city limits. This error was discovered too late for correction in the detailed distributions.
