[a] During the period from May 1, 1900, to July 25, 1901, merchandise brought from Porto Rico was dutiable at 15 per cent of regular rates. The duties collected thereon were as follows: May 1, 1900, to June 30, 1900, $134,593.88; July 1, 1900 to July 25, 1901, $448,193.91. See explanation of terms, page 11 of full report "Commerce and Navigation," 1909.

[b] From 1850 to 1866, inclusive, the figures of import values represent net general imports, the amount of duty collected being the annual amounts collected on merchandise only, without any deductions for expenses of collection, and omitting collections from tonnage, etc. For 1867 and later years the figures of import values represent imports for consumption, the average ad valorem rates on dutiable merchandise being based on ordinary duties, and those on free and dutiable merchandise being based on total duties collected.

[c] Export duty from the Philippine Islands not included.
