Twelfth Census of the United States.

CENSUS BULLETIN.

No. 70. WASHINGTON, D. C. July 11, 1901.

URBAN POPULATION IN 1900.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, relates to urban population and shows for the several states and territories, considered separately and as a whole, the proportion of the population living in cities or other subdivisions possessing all the essential characteristics of urban life.

At the census of 1890 the discussion of urban population was limited to places of 8,000 inhabitants or more, in order that the results of that census could be brought into direct comparison with the published results of former censuses. That this limit of population was a somewhat arbitrary one was not questioned then, and the discussion of urban population at that census could have been extended to advantage to include all places having at least 4,000 inhabitants. This was done, tentatively, at least, at the census of 1880, and while the higher limit of population is used at the present census for purposes of comparison, the discussion is made to comprehend as well the lower limit of population.

In every section of the country, outside of certain of the New England states, there is not much difficulty in distinguishing between the urban and rural elements of the population, as only dense bodies of population are chartered, and their limits are sharply defined by the acts of incorporation. In most of the New England states, however, a town, which is the usual division of the county, is chartered bodily as a city when certain conditions of population are fulfilled, and so a city may contain a considerable proportion of rural population, and, conversely, a town may contain a compact body of population of magnitude sufficient to be classed as urban. In these states, therefore, an arbitrary rule concerning urban population is made to include, in addition to the population of cities and other incorportions of the proper size, that of all towns having the requisite number of inhabitants but containing no incorporated city, village, or borough.

Considering, first, the higher limit of population, there are, approximately, 25,000,000 persons living in incorporated places and New England towns of 8,000 inhabitants or more in 1900 as compared with a population of very nearly 18,300,000 in incorporations and towns of similar size in 1890, as set forth in detail by states and territories in table 1.

CP 13M

TABLE 1.—TOTAL AND URBAN POPULATION, BY STATES AND TERRITORIES, ARRANGED GEOGRAPHICALLY, ON THE BASIS OF PLACES OF 8,000 INHABITANTS OR MORE: 1890 AND 1900.

Hawaii	154,001	89,990	39,306	22,907	1	1	25.5	25.5

[1] Exclusive of 63,592 persons in Alaska and 91,219 persons in the military and naval service of the United States (including civilian employees, etc.) stationed abroad.

[2] Including, in addition to the general population of the states and organized territories (62,622,250), 180,182 Indians and other persons in Indian Territory and 145,282 Indians and other persons on Indian reservations, etc., specially enumerated, and 89,990 persons in Hawaii, enumerated under the direction of the Hawaiian Government, but excluding 32,052 persons in Alaska. The 145,282 Indians and other persons on Indian reservations are credited to the several states and territories in which the reservations are situated.

As shown by table 1, there are 546 places in 1900 which conform to the conditions of this discussion, considered with respect to the higher limit of population, and these places contain an aggregate of 25,031,505 persons, constituting 32.9 per cent of the total population considered; that is, the total population of the entire area of enumeration in 1900, exclusive of Alaska and of persons enumerated at stations abroad. At the census of 1890 there were 448 such places, having an aggregate population of 18,295,410 and constituting 29 per cent of the total population considered at that census. If the population of Indian Territory, Indian reservations,[1] and Hawaii is excluded from the statements of population from which these percentages are derived, there remains in 1900 a total of 24,992,199 persons living in places of 8,000 inhabitants or more, out of a total population of 75,468,039, equivalent to 33.1 per cent, and in 1890 a total of 18,272,503 persons living in similar places, out of a total population of 62,622,250, equivalent to 29.2 per cent. These latter figures are comparable with the published results concerning urban population at preceding censuses, as shown by table 2.

TABLE 2.—TOTAL AND URBAN POPULATION AT EACH CENSUS: 1790 TO 1900.

CENSUS YEARS.	Total population.	Urban population.[1]	Number of places.	Percentage of urban of total population.
1900	75,468,039	24,992,199	545	33.1
1890	62,622,250	18,272,503	447	29.2
1880	50,155,783	11,318,547	286	22.6
1870	38,558,371	8,071,875	226	20.9
1860	31,443,321	5,072,256	141	16.1
1850	23,191,876	2,897,586	85	12.5
1840	17,069,453	1,453,994	44	8.5
1830	12,866,020	864,509	26	6.7
1820	9,638,453	475,135	13	4.9
1810	7,239,881	356,920	11	4.9
1800	5,308,483	210,873	6	4.0
1790	3,929,214	131,472	6	3.4

[1] Population of places of 8,000 inhabitants or more at each census.

According to these figures, there were in 1790 but 6 places having 8,000 inhabitants or more, containing, in all, but 131,472 persons, or only 3.4 per cent of the total population at that census. At the census of 1830, the proportion of the total population living in places of like size had been increased to 6.7 per cent, representing 864,509 persons living in 26 places, out of a total population for the entire country of 12,866,020. At the census of 1850, there were 2,897,586 persons living in 85 places of upwards of 8,000 inhabitants, equivalent to 12.5 per cent of the entire population, which comprised then 23,191,876 persons. In 1880 the proportion, as compared with 1850, had nearly doubled, there being, out of a total population of 50,155,783 at that census, 11,318,547 persons, or 22.6 per cent, living in 286 such places. During the succeeding decade there was a very large increase in urban population, so that at the census of 1890 very nearly 30 per cent of the population was found living in 447 cities or equivalent incorporations of 8,000 inhabitants or more, comprising, as before stated, 18,272,503 persons out of a total population of 62,622,250. The proportion of urban population has increased during the past ten years at a less rapid rate, there being, according to the figures of the present census, not quite one-third (33.1 per cent) of the population now living in places of 8,000 inhabitants or more, exclusive of Alaska, Indian Territory, Indian reservations, Hawaii, and persons enumerated at stations abroad.

[1] Population of Indian reservations in 1900, 134,476.

The urban population in 1890, as stated in table 2, differs slightly from that given in the census report for 1890, owing to minor changes made in the totals for Connecticut, Nebraska, and Vermont.

There has been a notable increase since 1890 in the proportion of urban population in the North Atlantic division of states, considered as a whole, and this statement is true, in a somewhat less degreee, of the North Central division. As shown by table 1, 58.6 per cent of the total population of the North Atlantic division and 30.6 per cent of that of the North Central division in 1900 live in places of 8,000 inhabitants or more as compared with 51.7 per cent for the former and 25.9 per cent for the latter division at the census of 1890. In Rhode Island 81.2 per cent of the population in 1900 live in cities or towns of 8,000 inhabitants or more, while this element also constitutes 76 per cent of the population in Massachusetts, 68.5 per cent in New York, 61.2 per cent in New Jersey, and 53.2 per cent in Connecticut. These are the only states, aside from the District of Columbia, in which the proportion of urban population, measured on this basis, is greater than one-half of the total population in 1900, but in Pennsylvania, Delaware, Maryland, Illinois, and California there is between 40 and 50 per cent of the total population living in places of this size.

As before stated, it has been decided, for the purposes of the discussion of urban population at the present census, to lower the limit of population to include all incorporated places with a population of 4,000 or more, and all New England towns of like population which do not contain any incorporated places within their limits. It is assumed that, under this definition of urban population, a somewhat closer approximation to true conditions can be obtained than has been the case under the practice of preceding censuses, and on this basis the percentage of urban population in 1900 is raised to 37.3, as shown by table 3.

TABLE 3.—TOTAL AND URBAN POPULATION, BY STATES AND TERRITORIES, ARRANGED GEOGRAPHICALLY, ON THE BASIS OF PLACES OF 4,000 INHABITANTS OR MORE: 1890 AND 1900.

[1] Exclusive of 63,592 persons in Alaska and 91,219 persons in the military and naval service of the United States (including civilian employees, etc.) stationed abroad.

[2] Including, in addition to the general population of the states and organized territories (62,622,250), 180,182 Indians and other persons in Indian Territory and 145,282 Indians and other persons on Indian reservations, etc., specially enumerated, and 89,990 persons in Hawaii, enumerated under the direction of the Hawaiian Government, but excluding 32,052 persons in Alaska. The 145,282 Indians and other persons on Indian reservations are credited to the several states and territories in which the reservations are situated.

Under the definition of urban population, it appears from table 3 that there are 28,411,698 persons living in 1,158 incorporated places and New England towns of 4,000 inhabitants or more, and that this number of persons constitutes 37.3 per cent of the total population in 1900, exclusive of that of Alaska and of persons enumerated at stations abroad. At the census of 1890 there were 20,768,881 persons living in 899 similar places and New England towns, representing 32.9 per cent of the entire population considered in 1890. As previously stated, a table was presented in the census report for 1880, giving the number and population of places, including towns in New England, having 4,000 inhabitants or more, for each state and territory comprehended by that census. In determining the amount of population to be included as urban in the New England states, discretion was exercised, and, as stated in the report "after what seemed a reasonable deduction for the rural parts of the town or township, the remainder has been treated as city population"—a somewhat different process from that adopted at the present census. The results, shown by said table for 1880, are probably sufficiently approximate to warrant their use for purposes of comparison, and the figures showing the amount of urban population in the several states and territories in 1880 are, therefore, reproduced in table 4.

TABLE 4.—TOTAL AND URBAN POPULATION, BY STATES AND TERRITORIES, ARRANGED GEOGRAPHICALLY, ON THE BASIS OF PLACES OF 4,000 INHABITANTS OR MORE: 1880.

[1] Dakota territory.

On the basis of the figures presented in table 4, there were 12,936,110 persons living in places with a population of 4,000 or more in 1880, representing 25.8 per cent of the total population at that census, as compared with 32.9 per cent in 1890 and 37.3 per cent in 1900. The population upon which the percentages for 1890 and 1900 are based includes, however, that of Indian Territory, Indian reservations, and Hawaii, which, if excluded, would give slightly larger percentages for those two censuses, namely, 33.1 for 1890 and 37.6 for 1900.

As shown by table 3, there are 21,046,695 persons living in the North Atlantic division of states in 1900, and of this number 13,613,736, or 64.7 per cent, live in incorporated places and towns containing upwards of 4,000 inhabitants, as previously explained. In 1890 there was 57.9 per cent, and in 1880, 48 per cent, of the population of the states comprising this division, living under, approximately, similar conditions.

The proportion of urban population in 1900 in the Western and North Central divisions, respectively, is not much more than one-half of what it is in the North Atlantic division, the exact percentages being 35.9 for the Western and 35.5 for the North Central division. Of the total population of the Western division in 1890, those living in places of 4,000 inhabitants and upwards constituted 33.4 per cent as against 27.5 per cent in 1880, while of the total population of the North Central division this element in 1890 constituted 30.1 per cent as against 21.1 per cent in 1880.

The urban element in 1900 constitutes somewhat more than one-eighth (13.5 per cent) of the total population of the South Central division, and not quite one-fifth (19.6 per cent) of that of the South Atlantic division. At the two preceding censuses the proportion of urban population in these two divisions was slightly less than in 1900, the percentages being 12 in 1890 and 8.8 in 1880 for

the former, and 17.5 in 1890 and 13.7 in 1880 for the latter division.

Considering the urban element with respect to individual states, it appears from table 3 that, aside from the District of Columbia, there are 9 states in which the proportion of urban population ranges from not quite one-half to more than nine-tenths of their total population in 1900, while, on the other hand, there are 19 states and territories in which the urban element in 1900 constitutes less than one-sixth of their entire population, as shown by the following summary, in which the percentages of urban population in the several states and territories in 1900 are presented in their order, beginning with the highest:

Rhode Island	91.6	Ohio	44.8
Massachusetts	86.9	Delaware	41.4
New York	71.2	Colorado	41.2
New Jersey	67.5	Michigan	37.2
Connecticut	65.5	Washington	36.4
Pennsylvania	51.1	Maine	36.2
Illinois	51.0	Missouri	34.9
California	48.9	Wisconsin	34.5
Maryland	48.2	Minnesota	31.0
New Hampshire	46.7	Indiana	30.6
Utah	29.4	Georgia	13.9
Montana	28.8	South Carolina	11.7
Wyoming	28.8	West Virginia	11.6
Oregon	27.6	Arizona	10.6
Hawaii	25.5	Nevada	10.6
Louisiana	25.1	Alabama	10.0
Vermont	21.0	North Carolina	8.0
Nebraska	20.8	South Dakota	7.2
Iowa	20.5	Arkansas	6.9
Kentucky	19.7	Idaho	6.2
Kansas	19.2	New Mexico	6.1
Florida	16.5	North Dakota	5.4
Virginia	16.5	Mississippi	5.3
Texas	14.9	Oklahoma	5.0
Tennessee	14.1	Indian Territory	2.5

There are 38 cities in 1900 in each of which the population exceeds 100,000, and these cities have a combined population of 14,208,347, or practically one-half of the entire urban element of the country, considered on the basis of places of 4,000 inhabitants or more. This great concentration of population in these 38 cities, which are distributed over 21 states (including the District of Columbia), has a very material influence on the percentage of urban population in the states affected, as shown by table 5.

TABLE 5.—TOTAL AND URBAN POPULATION, EXCLUSIVE OF CITIES OF 100,000 AND OVER, FOR CERTAIN STATES, ARRANGED GEOGRAPHICALLY: 1900.

STATES AND TERRITORIES.	Total population of state.	CITIES OF 100,000 AND OVER.		POPULATION, EXCLUSIVE OF CITIES OF 100,000 AND OVER.				Per cent of total urban of total population of state.
		Number.	Population.	Total population.	Urban population.	Number of places.	Per cent of urban of total population.

Nebraska	1,066,300	1	102,555	963,745	119,138	10	12.4	20.8
South Central division:								
Kentucky	2,147,174	1	204,731	1,942,443	218,915	19	11.3	19.7
Tennessee	2,020,616	1	102,320	1,918,296	183,566	8	9.6	14.1
Louisiana	1,381,625	1	287,104	1,094,521	60,172	8	5.5	25.1
Western division:								
Colorado	539,700	1	133,859	405,841	88,325	7	21.8	41.2
California	1,485,053	2	445,261	1,039,792	281,394	22	27.1	48.9

By the exclusion of the population of the large cities from the consideration of urban population in certain states, as shown by table 5, the proportion of the urban element to the total population is very much lowered, particularly in Maryland, Louisiana, Missouri, Minnesota, New York, and Illinois. For example, if the population of Baltimore is excluded from the consideration of urban population in Maryland in 1900, there is only 9.4 per cent of the population living in places of at least 4,000 inhabitants, as against 48.2 per cent when the total urban element of the state, including that city, is considered. Substantially these same conditions are also observable in Louisiana when the population of New Orleans is excluded, while in Illinois the percentage of urban population, exclusive of Chicago, is reduced to 24.4, or less than one-half of the percentage for the state considered in its entirety. Similarly, the exclusion of the population of the large cities reduces the percentage of urban population from 71.2 to 34.8 in the state of New York, from 34.9 to 10.7 in Missouri, from 31 to 12.7 in Minnesota, from 41.2 to 21.8 in Colorado, from 48.9 to 27.1 in California, and from 51.1 to 30.9 in Pennsylvania.

There is a very great disproportion in the amount of urban population contained in each of the great geographical divisions of the country, as shown by table 6.

TABLE 6.—DISTRIBUTION OF URBAN POPULATION BY GEOGRAPHICAL DIVISIONS: 1890 AND 1900.

GEOGRAPHICAL DIVISIONS.	URBAN POPULATION IN 1900.		URBAN POPULATION IN 1890.	
	Number.	Per cent.	Number.	Per cent.
The United States	28,411,698	100.0	20,768,881	100.0
North Atlantic division	13,613,736	47.9	10,071,957	48.5
South Atlantic division	2,049,520	7.2	1,554,190	7.5
North Central division	9,343,213	32.9	6,744,936	32.5
South Central division	1,896,655	6.7	1,339,232	6.4
Western division	1,469,268	5.2	1,035,659	5.0
Hawaii	39,306	0.1	22,907	0.1

From table 6 it appears that over four-fifths of the entire urban element of the country in 1900 is found in the North Atlantic and North Central divisions, the first-named division containing 47.9 per cent and the second 32.9 per cent of the total. This was also the case in 1890, when these two divisions combined contained substantially the same proportion of the total urban element at that census.

The percentage of increase in urban population during the past ten years is greater than the total population, the increase in the two classes of population being presented by geographical divisions in table 7.

TABLE 7.—INCREASE IN TOTAL AND URBAN POPULATION, BY GEOGRAPHICAL DIVISIONS: 1890 TO 1900.

GEOGRAPHICAL DIVISIONS.	TOTAL POPULATION.		URBAN POPULATION.		INCREASE IN TOTAL POPULATION.		INCREASE IN URBAN POPULATION.

Western division	4,091,349	3,102,269	1,469,268	1,035,659	989,080	31.9	433,609	41.9
Hawaii	154,001	89,990	39,306	22,907	64,011	71.1	16,399	71.6

[1] Exclusive of 63,592 persons in Alaska and 91,219 persons in the military and naval service of the United States (including civilian employees, etc.) stationed abroad.

[2] Including, in addition to the general population of the states and organized territories (62,622,250), 180,182 Indians and other persons in Indian Territory and 145,282 Indians and other persons on Indian reservations, etc., specially enumerated, and 89,990 persons in Hawaii, enumerated under the direction of the Hawaiian Government, but excluding 32,052 persons in Alaska.

There has been an increase since 1890 in urban population, for the country as a whole, of 7,642,817, or very nearly 37 per cent, as compared with an increase in total population during the same period of not quite 21 per cent. In the South Central and Western divisions there has been an increase in urban population in ten years of very nearly 42 per cent as against an increase in total population of practically 26 and 32 per cent, respectively. The urban element has increased during the decade about 38 per cent in the North Central division as against 17 per cent in total population, 35 per cent in the North Atlantic division as against substantially 21 per cent in total population, and not quite 32 per cent in the South Atlantic division as against very nearly 18 per cent in total population.

The relative increase in total and urban population from 1890 to 1900 is presented in detail by states and territories, arranged geographically, in table 8.

TABLE 8.—INCREASE IN TOTAL AND URBAN POPULATION, BY STATES AND TERRITORIES, ARRANGED GEOGRAPHICALLY: 1890 TO 1900.

STATES AND TERRITORIES.	TOTAL POPULATION.		URBAN POPULATION.		INCREASE IN TOTAL POPULATION.		INCREASE IN URBAN POPULATION.

[1] Decrease.

The population of cities having 25,000 inhabitants or more in 1900 was presented in detail in bulletin 11, issued October 25, 1900, but since the publication of that bulletin 2 cities have been added and a few minor changes made, due to a revision of the figures as originally printed. These changes are embodied in table 9, which, with the necessary corrections in the explanatory text which follows the table, covers substantially the same points as bulletin 11, which is thus, in effect, superseded by the present bulletin.

There are, in all, 161 cities which have a population of 25,000 or more in 1900, and table 9 shows the population of the 161 cities, arranged according to their relative rank in 1900, at each of the last three censuses, together with the increase by number and per cent during the two decades ending in 1890 and 1900, respectively.

TABLE 9.—POPULATION OF CITIES HAVING 25,000 INHABITANTS OR MORE IN 1900, ARRANGED ACCORDING TO POPULATION.

[The first column under each census year shows the order of the cities named when arranged according to population.]

CITIES.	POPULATION.						INCREASE FROM 1890 TO 1900.		INCREASE FROM 1880 TO 1890.	
	1900		1890		1880		Number.	Per cent.	Number.	Per cent.

[1] Decrease.

[2] Includes Duluth village (population 2,645), set apart by act of legislature February 23, 1877, but which again became part of the city by the act of March 2, 1887.

TABLE 9.—POPULATION OF CITIES HAVING 25,000 INHABITANTS OR MORE IN 1900, ARRANGED ACCORDING TO POPULATION—Continued.

CITIES.	POPULATION.						INCREASE FROM 1890 TO 1900.		INCREASE FROM 1880 TO 1890.

[1] Decrease. [2] No census taken of Honolulu, Hawaii, in 1880.

As shown by table 9, New York, under the act of consolidation which became effective January 1, 1898, has grown to be a city of very nearly 3,500,000 inhabitants in 1900, as compared with a population for what was formerly New York city of a little more than 1,500,000 in 1890, and of substantially 1,200,000 in 1880. The population of the territory now comprised within the present limits of New York was, approximately, 2,500,000 in 1890 and 1,900,000 in 1880. It is the premier city of the country in point of population, a position which it has uniformly held at each decennial census since and including 1790.

Chicago, with practically 1,700,000 inhabitants, and Philadelphia, with not quite 1,300,000 inhabitants, hold the second and third places in 1900, the same as in 1890, although at the census of 1880 their positions were reversed, Philadelphia then having very nearly 850,000 inhabitants as compared with not much more than 500,000 for Chicago.

St. Louis, Boston, and Baltimore, the next largest cities, have not changed their rank in 1900 as compared with 1890, and each of these 3 cities now has a population somewhat in excess of half a million. Boston was the fourth city in rank in 1880, but was passed by St. Louis in 1890, while Baltimore has occupied the sixth place at each of the three census periods considered.

Cleveland and Buffalo have both increased materially in population during the last ten years, and now take precedence over San Francisco and Cincinnati, which in 1890 were the seventh and eighth places in point of population. Pittsburg also shows a large increase in population since 1890, and is now the eleventh largest city in the country, having exchanged places with New Orleans.

Among the most notable changes in the rank of cities which have taken place in 1900, as compared with 1880, may be mentioned that of Seattle, which has advanced from the 151st to the 48th place; that of Los Angeles, from the 135th to the 36th place; that of Duluth, from the 152d to the 72d place; that of Kansas City, Kans., from the 155th to the 76th place; and that of Portland, Oreg., from the 106th to the 42d place. Other noticeable changes in rank from 1880 to 1900 are Birmingham, from 156 to 100; Tacoma, from 157 to 104; Spokane, from 158 to 106; Dallas, from 137 to 88; and Saginaw, from 136 to 89.

The 161 cities combined have a population in 1900 of 19,757,618, as compared with a population for the same cities of 14,903,162 in 1890, giving an increase in the population of these cities from 1890 to 1900 of 4,854,456, or 32.6 per cent. No similar comparison can be made for the preceding ten years, 1880 to 1890, as no census was taken in 1880 for one city, namely, Honolulu, Hawaii.

The 160 cities, exclusive of Honolulu, had a combined population of 19,718,312 in 1900, as compared with a population for the same cities of 14,880,255 in 1890, and of 9,951,318 in 1880.

The absolute increase in the population of these 160 cities from 1890 to 1900 was, therefore, 4,838,057, or 90,880 less than the absolute increase from 1880 to 1890, when it was 4,928,937.

The percentage of increase in population of the same 160 cities from 1890 to 1900 was 32.5 as against 49.5 from 1880 to 1890.

The combined population of the 161 cities at each of the three census periods is distributed in table 10 by classified sizes, giving, in addition, the number of cities included under each class, respectively.

TABLE 10.—POPULATION OF CITIES HAVING 25,000 INHABITANTS OR MORE IN 1900, ACCORDING TO CLASSIFIED SIZES.

CLASSIFIED SIZES.	Number of cities.	POPULATION.			INCREASE FROM 1890 TO 1900.		INCREASE FROM 1880 TO 1890.

[1] Exclusive of population of Honolulu, Hawaii, for which no census was taken in 1880.

As shown by the above summary, there are 19 cities which have 200,000 inhabitants or more in 1900, 19 cities which have between 100,000 and 200,000 inhabitants, 40 cities which have between 50,000 and 100,000 inhabitants, and 83 cities which have between 25,000 and 50,000 inhabitants. There were 124 cities in 1890 which had a population of 25,000 or more, but of these cities Brooklyn and Long Island City now form a part of New York city, showing a net gain of 39 cities in 1900, as compared with 1890. Of the 124 cities in 1890, 16 had 200,000 inhabitants or more, 12 had between 100,000 and 200,000 inhabitants, 30 had between 50,000 and 100,000 inhabitants, and 66 had between 25,000 and 50,000.

In 1880 there were but 20 cities which contained more than 100,000 inhabitants, but in 1890 this number had increased to 28, and in 1900 to 38.

In 1900 there are 78 cities of 50,000 inhabitants or more as compared with 58 in 1890 and 35 in 1880.

The combined population in 1900 of the 19 cities of the first class is 11,795,809 as against a population in 1890 of 8,893,928, representing an increase during the ten years of 2,901,881, or 32.6 per cent. The same cities showed an

increase from 1880 to 1890 of 2,571,922, or 40.7 per cent.

The 19 cities of the first class comprise New York, which, with more than 3,000,000 inhabitants, properly stands by itself; 2 cities, Chicago and Philadelphia, each of which has a population in excess of a million; 3 cities, St. Louis, Boston, and Baltimore, which have a population of half a million each; 5 cities, Cleveland, Buffalo, San Francisco, Cincinnati, and Pittsburg, which have a population of between 300,000 and 400,000 each, and 8 cities, New Orleans, Detroit, Milwaukee, Washington, Newark, Jersey City, Louisville, and Minneapolis, which have a population of between 200,000 and 300,000 each. The aggregate population represented by each of these 5 subgroups is summarized in table 11.

TABLE 11.—POPULATION OF CITIES HAVING 200,000 INHABITANTS OR MORE IN 1900, ACCORDING TO CLASSIFIED SIZES.

CLASSIFIED SIZES.	Number of cities.	POPULATION.			INCREASE FROM 1890 TO 1900.		INCREASE FROM 1880 TO 1890.

Cities of 300,000 and under 400,000	5	1,724,455	1,351,539	960,767	372,916	27.6	390,772	40.7
Cities of 200,000 and under 300,000	8	1,996,793	1,553,475	1,053,516	443,318	28.5	499,959	47.5

The 19 cities of the second class have a combined population in 1900 of 2,412,538, and show an increase of 33.4 per cent from 1890 to 1900, as against an increase of 79.2 per cent from 1880 to 1890.

The 40 cities of the third class have a combined population in 1900 of 2,709,338, as against a population in 1890 of 2,067,169, which is equivalent to an increase during the decade of 31.1 per cent, as compared with an increase of 51.1 per cent during the preceding ten years.

The 83 cities of the fourth class have a combined population in 1900 of 2,839,933, having gained since 1890 706,524 in number, or 33.1 per cent, as against an increase of 68.6 per cent from 1880 to 1890.

The 19 cities of the first class are the only group of cities which show a larger numerical increase during the past decade than during the ten years from 1880 to 1890, although the four groups show very even percentages of increase from 1890 to 1900, varying from 31.1 to 33.4 per cent, the percentage of increase for the 161 cities combined being 32.6.

The total population represented by the 161 cities is distributed by states and territories in table 12.

TABLE 12.—COMBINED POPULATION OF THE 161 CITIES HAVING 25,000 INHABITANTS OR MORE IN 1900, DISTRIBUTED BY STATES AND TERRITORIES.

Hawaii	1	39,306	22,907	----------	16,399	71.6	----------	----------

[1] Decrease.

The following-named states and territories in 1900 do not contain any city with a population of 25,000 or more: Arizona, Idaho, Indian Territory, Mississippi, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, South Dakota, Vermont, and Wyoming.

Of the whole number of cities having 25,000 inhabitants or more in 1900, 70 are found in the North Atlantic division, 49 in the North Central division, 18 in the South Central division, 12 in the Western division, 11 in the South Atlantic division, and 1 in Hawaii. Massachusetts has the largest number of such cities, namely, 20, and is followed by Pennsylvania with 18, and New York with 12.

The most significant growth of cities, shown by the above table, is that for the 3 cities in the state of Washington, namely, Seattle, Spokane, and Tacoma. These 3 cities combined had only 4,981 inhabitants in 1880, but their population had increased to 98,765 in 1890, and to 155,233 in 1900, the increase during the past decade being equivalent to 57.2 per cent.

Nebraska is the only state in which the combined population of the cities contained therein shows a decrease from 1890 to 1900.

The city of New York, as constituted prior to the act of consolidation which became effective January 1, 1898, had a population in 1890 of 1,515,301, as compared with a population in 1900 of 3,437,202, showing an apparent increase of 1,921,901, or 126.8 per cent.

In 1890 the city comprised all of what is now the borough of Manhattan and the greater part of what is now the borough of Bronx, but, under the act of consolidation referred to, Kings county, Richmond county, the larger part of Queens county, and a small part of Westchester county became a part of the city.

Manhattan borough comprises all that part of the old city of New York lying to the south of the Harlem River, this area being known formerly as Manhattan Island.

Bronx borough was formed from that part of the old city of New York lying to the north of the Harlem River, and the small part of Westchester county annexed under the act of consolidation. All of this area was at one time a part of Westchester county, but in 1873 the towns of Morrisania, West Farms, and Kings Bridge were annexed to New York, and under the act which took effect January 1, 1898, all of the town of Westchester and parts of the towns of Eastchester and Pelham became a part of the city.

Under an act of the legislature the towns of Flatbush, Flatlands, Gravesend, and New Utrecht were absorbed by the city of Brooklyn in 1894, the town of Flatbush becoming the twenty-ninth ward, the town of New Utrecht the thirtieth ward, the town of Gravesend the thirty-first ward, and the town of Flatlands the thirty-second ward of the city. The city thus became coextensive with Kings county, and on January 1, 1898, the city of Brooklyn

became the borough of Brooklyn, one of the 5 boroughs of what is now the city of New York.

Richmond county, or what is commonly known as Staten Island, under the provisions of the same act, became the borough of Richmond.

Queens borough was organized at the same time from what was Long Island City, the towns of Flushing, Jamaica, and Newtown, and a small portion of the town of Hempstead, all of which were civil divisions of Queens county. The remaining towns of the county, Oyster Bay and North Hempstead, together with the greater part of the town of Hempstead, were taken to form the new county of Nassau. The first ward of Queens borough comprises what was formerly Long Island City, the second ward what was formerly Newtown town, the third ward what was formerly Flushing town, the fourth ward what was formerly Jamaica town, and the fifth ward that part of the town of Hempstead now within the limits of the borough of Queens.

It is impossible to state definitely the population in 1890 of that part of the town of Hempstead, Queens county, which became a part of Queens borough, and of the parts of the towns of Eastchester and Pelham, Westchester county, which became a part of Bronx borough, but table 13 shows the estimated population for the city of New York, as now constituted, and in detail for each borough of the city, from 1790 to 1900.

TABLE 13.—ESTIMATED POPULATION OF NEW YORK CITY AND ITS BOROUGHS, AS NOW CONSTITUTED: 1790 TO 1900.

BOROUGHS.	1900	1890	1880	1870	1860	1850	1840	1830	1820	1810	1800	1790
New York city	3,437,202	2,507,414	1,911,698	1,478,103	1,174,779	696,115	391,114	242,278	152,056	119,734	79,216	49,401
Manhattan borough	1,850,093	1,441,216	1,164,673	942,292	813,669	515,547	312,710	202,589	123,706	96,373	60,515	33,131
Bronx borough	200,507	88,908	51,980	37,393	23,593	8,032	5,346	3,023	2,782	2,267	1,755	1,781
Brooklyn borough	1,166,582	838,547	599,495	419,921	279,122	138,882	47,613	20,535	11,187	8,303	5,740	4,495
Richmond borough	67,021	51,693	38,991	33,029	25,492	15,061	10,965	7,082	6,135	5,347	4,564	3,835
Queens borough	152,999	87,050	56,559	45,468	32,903	18,593	14,480	9,049	8,246	7,444	6,642	6,159

The preceding table shows that the area comprised within the present limits of the city of New York had an estimated population of 49,401 in 1790, which had grown to 696,115 in 1850, representing an increase of 646,714, or 1,309.1 per cent. The population of the present city of New York had grown to 2,507,414 in 1890, or an increase since 1850 of 1,811,299, or 260.2 per cent. Since 1890 there has been an increase of 929,788, or 37.1 per cent, the population in 1900 being 3,437,202.

William R. Merriam

Director of the Census.

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 71. WASHINGTON, D. C. July 24, 1901.

MANUFACTURES.

ARIZONA, NEW MEXICO, INDIAN TERRITORY, AND OKLAHOMA.

Hon. WILLIAM R. MERRIAM,
Director of the Census.

SIR: I transmit herewith, for publication in bulletin form, the statistics for manufactures and mechanical industries for the territories of Arizona, New Mexico, Indian Territory, and Oklahoma for the census year 1900, taken in accordance with the provisions of section 7 of the act of March 3, 1899. This section requires that "The schedules of inquiries relating to the products of manufacturing and mechanical establishments shall embrace the name and location of each establishment; character of organization, whether individual, cooperative, or other form; date of commencement of operations; character of business or kind of goods manufactured; amount of capital invested; number of proprietors, firm members, copartners, or officers, and the amount of their salaries; number of employees, and the amount of their wages; quantity and cost of materials used in manufactures; amount of miscellaneous expenses; quantity and value of products; time in operation during the census year; character and quantity of power used; and character and number of machines employed."

In each of the above particulars the requirements of the law have been observed, but certain of the data thus elicited are reserved for publication in the final volumes.

These statistics were gathered by census enumerators, except for Santa Fe, Socorro, and Albuquerque, in New Mexico, and Guthrie and Oklahoma, in Oklahoma, which were withdrawn from the enumerators and assigned to special agents in accordance with the further provision of section 7 of the Census Act. There is no city in any of these territories with a population of 20,000 or more, and for the Twelfth Census the detailed statistics of cities by industries have been confined to those of that size. Wherever the phrase "urban manufactures" is used in this bulletin, it applies only to those cities or towns which were withdrawn from the enumerators and committed to special agents, and only to manufacturing establishments within the corporate limits of such places.

The statistics of these territories are presented in tables showing the comparative figures at the several censuses; the industries divided between the hand trades, and the manufactures proper, also the statistics of governmental establishments, institutions, and establishments with a product of less than $500, which three latter classes were not reported at previous censuses; the totals for the industries in cities withdrawn from the enumerators and assigned to special agents, placing them in comparison with the totals for the territory and the territory exclusive of these cities; the totals for the territory by counties; and the totals for the territory by specified industries.

These territories represent frontier conditions, and the inhabitants are chiefly interested in the development of their agricultural resources and in mining. They have not yet reached the stage which is favorable to the development of manufactures, and nearly all of the industries shown as existing in each of the territories are the mechanical industries that relate essentially to the building up of new countries, such as lumber and timber products, the smelting and refining of metals, and flour and grist mills.

The aggregate value of products for all the territories does not equal the total value of the manufactured products of the state of Delaware. The increase, when measured by the percentage method, is abnormal, and the use of this method in stating the progress of new countries can be justified only on the ground of uniformity of treatment. In the territory of Arizona the increase is made more striking by the fact that the statistics of the smelting and refining establishments which have grown up in connection with the mines are now, for the first time, included as manufactures. The following table contains in one aggregate the statistics of all four territories, as returned at the censuses of 1890 and 1900. The percentages of increase in this table are much greater than those showing the increase in population.

COMBINED SUMMARY: ARIZONA, NEW MEXICO, INDIAN TERRITORY, AND OKLAHOMA: 1890 AND 1900.

	1900	1890	Per-cent of increase.
Number of establishments	2,393	295	711.2
Capital	$18,832,523	$1,882,415	900.4
Wage-earners, average number	9,636	1,621	494.4
Total wages	$5,081,376	$898,055	465.8
Miscellaneous expenses	$1,046,864	$159,429	556.6
Cost of materials used	$18,054,222	$1,229,616	1,368.3
Value of products, including custom work and repairing	$37,897,103	$2,893,119	1,209.9

In drafting the schedules of inquiry for the census of 1900, care was taken to preserve the basis of comparison with prior censuses. Comparison may be made safely with respect to all the items of inquiry except those relating to capital, the average number of employees, and the total amount of wages. Live capital, that is, cash on hand, bills receivable, unsettled ledger accounts, raw materials, stock in process of manufacture, finished products on hand, and other sundries, was first called for at the census of 1890. No definite attempt was made, prior to the census of 1890, to secure a return of live capital invested.

Changes were made in the inquiries relating to employees and wages in order to eliminate defects found to exist on the form of inquiry adopted in 1890. At the census of 1890 the average number of persons employed during the entire year was called for, and also the average number employed at stated weekly rates of pay, and the average number was computed for the actual time the establishments were reported as being in operation. At the census of 1900 the greatest and least numbers of employees were reported, and also the average number employed during each month of the year. The average number of wage-earners (men, women, and children) employed during the entire year was ascertained by using 12, the number of calendar months, as a divisor into the total of the average numbers reported for each month. This difference in the method of ascertaining the average number of wage-earners during the entire year, may have resulted in a variation in the number, and should be considered in making comparisons.

At the census of 1890 the number and salaries of proprietors and firm members actively engaged in the business or in supervision were reported, combined with clerks and other officials. In cases where proprietors and firm members were reported without salaries, the amount that would ordinarily be paid for similar services was estimated. At the census of 1900 only the number of proprietors and firm members actively engaged in the industry or in supervision was ascertained, and no salaries were reported for this class. It is therefore impossible to compare the number and salaries of salaried officials of any character for the two censuses.

Furthermore, the schedules for 1890 included in the wage-earning class, overseers, foremen, and superintendents (not general superintendents or managers), while the census of 1900 separates from the wage-earning class such salaried employees as general superintendents, clerks, and salesmen. It is possible that this change in the form of the question has resulted in eliminating from the wage-earners, as reported by the present census, many high-salaried employees included in that group for the census of 1890.

The reports show a capital of $18,832,523 invested in manufactures and mechanical industries in the 2,393 establishments reporting for the four territories. This sum represents the value of land, buildings, machinery, tools, and implements, and the live capital utilized, but does not include the capital stock of any of the manufacturing corporations of the territories. The value of the products is returned at $37,897,103, to produce which involved an outlay of $608,923 for salaries of employees, $5,081,376 for wages, $1,046,864 for miscellaneous expenses, including rent, taxes, etc., and $18,054,222 for materials used, mill supplies, freight, and fuel. It is not to be assumed, however, that the difference between the aggregate of these sums and the value of the product is, in any sense, a measure of manufacturing profits in the territories during the census year. The census schedule takes no cognizance of the cost of selling manufactured articles, or of interest on capital invested, or of the mercantile losses incurred in the business, or of depreciation in plant. The value of the product given is the value as obtained or fixed at the shop or factory. This statement is necessary in order to avoid erroneous conclusions from the figures presented.

The value of products for the territories, $37,897,103, is the gross value, and not the net or true value. The difference between these two should be carefully noted. The gross value is found by adding the values of products in the separate establishments. But the finished product of one establishment is often the raw material for another. In such cases the value of the former reappears in the latter, and thus the original cost of certain materials may be included several times in the gross value. The net or true value is found by subtracting from the gross value the value of all materials purchased in a partly manufactured form. In this way the duplications in the gross value are eliminated.

At the census of 1890 the schedule was so framed that it was impossible to find the net or true value. In the present census the schedule asked for the value of materials in two classes, those purchased in the crude state and those purchased in the partly manufactured form. From the answers to these questions the net or true value of products may be computed. Thus, in the territories, the gross value of products for 1900 was $37,897,103. The value of materials purchased in a partly manufactured form was $5,285,453. The difference, $32,611,650, is the net or true value of products, and represents the increase in the value of raw materials resulting from the various processes of manufacture.

Very respectfully,

S. N. D. North

Chief Statistician for Manufactures.

ARIZONA.

Arizona was organized as a territory on February 24, 1863. Prior to that date, it formed a part of the territory of New Mexico; therefore, the Ninth Census (1870) was the first census in which the statistics for the territory were published separately.

Table 1 shows the manufacturing and mechanical industries of the territory of Arizona as returned at the censuses of 1870 to 1900, inclusive, with the percentages of increase for each decade.

TABLE 1.—COMPARATIVE SUMMARY, 1870 TO 1900, WITH PER CENT OF INCREASE FOR EACH DECADE.

	DATE OF CENSUS.				PER CENT OF INCREASE.		
	1900	1890	1880	1870	1890 to 1900	1880 to 1890	1870 to 1880
Number of establishments	314	76	66	18	313.2	15.2	266.7
Capital	$10,157,408	$616,629	$272,600	$150,700	1,547.2	126.2	80.9
Wage-earners, average number	3,268	458	220	84	613.5	108.2	161.9
Total wages	$2,369,065	$302,146	$111,180	$45,580	684.1	171.8	143.9
Miscellaneous expenses	$433,272	$49,231	(1)	(1)	780.1	----------	----------
Cost of materials used	$8,464,410	$353,814	$380,023	$110,090	2,292.3	[2] 6.9	245.2
Value of products, including custom work and repairing	$21,315,189	$947,547	$618,365	$185,410	2,149.5	53.2	233.5

[1] Not reported. [2] Decrease.

While Table 1 shows a rapid increase in the manufacturing and mechanical industries, especially during the past decade, the territory is preeminently a mining and stock-raising region, and the people are chiefly occupied in the development of the natural resources. The totals for 1870 include 2 establishments engaged in milling and smelting quartz and copper not included in subsequent censuses. The statistics for smelting and refining, which were included in the report on mining at the censuses of 1880 and 1890, are now included in the report on manufactures and constitute more than 80 per cent of the total product of the territory. This accounts for the abnormal increase shown in the products.

With the exception of the smelting and refining of ores, manufacturing is almost wholly limited to the so-called neighborhood industries, and practically the entire product is consumed at or near the point of production. The lumber mills and the construction and repair shops of steam railroads are the exceptions to this rule.

Table 2 divides the industries of the territory between the hand trades and the manufactures proper. This table also gives the statistics for governmental establishments, institutions, and establishments with a product of less than $500, none of which were reported at previous censuses, and therefore are omitted from the other tables and their use confined to Table 2.

TABLE 2.—SUMMARY FOR ALL ESTABLISHMENTS.

CLASSES.	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	COST OF MATERIALS USED.				Value of products, including custom work and repairing.
				Average number.	Total wages.		Total.	Purchased in raw state.	Purchased in partially manufactured form.	Fuel, freight, etc.	
Total	369	$10,185,840	364	3,284	$2,375,296	$435,595	$8,492,309	$4,092,663	$1,895,493	$2,504,153	$21,357,353
Hand trades[1]	122	201,688	135	243	163,601	25,242	317,450	900	296,450	20,100	662,088
Establishments with a product of less than $500	49	22,247	53	10	1,966	2,198	5,957	16	5,941	----------	14,353
Governmental establishments	1	5,000	----------	2	1,320	----------	13,984	12,834	100	1,050	16,987
Penal, eleemosynary, and educational institutions	5	1,185	----------	4	2,945	125	7,958	----------	7,848	110	10,824
All other establishments	192	9,955,720	176	3,025	2,205,464	408,030	8,146,960	4,078,913	1,585,154	2,482,893	20,653,101

[1] Includes bicycle and tricycle repairing, 6; blacksmithing and wheelwrighting, 38; boots and shoes, custom work and repairing, 11; carpentering, 15; clothing, men's, custom work and repairing, 13; clothing, women's, dressmaking, 3; dyeing and cleaning, 1; lock and gun smithing, 1; masonry, brick and stone, 2; millinery, custom work, 7; painting, house, sign, etc., 5; plastering and stuccowork, 1; plumbing, and gas and steam fitting, 8; watch, clock, and jewelry repairing, 11.

In addition to the 369 active establishments in the territory during the census year, with a capital of $10,185,840, shown in Table 2, there were 10 idle establishments with a capital of $163,775.

The detailed statistics of the census of 1900 are presented in the two tables which follow.

Table 3 shows the totals for the territory by counties.

Table 4 shows the totals for the territory by specified industries.

TABLE 3.—MANUFACTURES

NEW MEXICO.

The territory of New Mexico was organized in 1850, and then included Arizona and parts of Nevada and Colorado; in 1860 it included Arizona and part of Colorado. Table 1 shows the manufacturing and mechanical industries of the territory of New Mexico, as returned at the censuses of 1850 to 1900, inclusive, with the percentages of increase for each decade.

TABLE 1.—COMPARATIVE SUMMARY, 1850 TO 1900, WITH PER CENT OF INCREASE FOR EACH DECADE.

	DATE OF CENSUS.						PER CENT OF INCREASE.				
	1900	1890	1880	1870	1860	1850	1890 to 1900	1880 to 1890	1870 to 1880	1860 to 1870	1850 to 1860
Number of establishments	420	127	144	182	82	23	230.7	[1] 11.8	[1] 20.9	122.0	256.5
Capital	$2,698,786	$965,938	$463,275	$1,450,695	$2,008,350	$68,300	179.4	108.5	[1] 68.1	[1] 27.8	2,840.5
Wage-earners, average number	2,600	849	557	427	1,074	81	206.2	52.4	30.4	[1] 60.2	1,225.9
Total wages	$1,350,586	$470,361	$218,731	$167,281	$341,306	$20,772	187.1	115.0	30.8	[1] 51.0	1,543.1
Miscellaneous expenses	$204,337	$76,638	(2)	(2)	(2)	(2)	166.6				
Cost of materials used	$2,914,138	$691,420	$871,352	$380,957	$367,892	$110,220	321.5	[1] 20.6	[1] 1.1	139.5	233.8
Value of products, including custom work and repairing	$5,605,795	$1,516,195	$1,284,846	$1,489,868	$1,249,123	$249,010	269.7	18.0	[1] 13.8	19.3	401.6

[1] Decrease. [2] Not reported.

The figures for the earlier censuses are preserved in this table as possessing a certain historical value, but, in view of the changes which have occurred in the boundaries of the territory, they should not be used for comparative purposes until 1870, since which date there has been no change in its area.

New Mexico is a mining and stock-raising region, with agricultural pursuits ranking next in importance. The most important manufacturing industry in the territory is the railroad repair shops, followed by carpentering, lumber and timber products, and flour and grist mills. The totals for 1860 included 15 establishments engaged in mining and, in 1870, 7 establishments engaged in milling and smelting quartz not included in subsequent censuses. The statistics of mining have not been included since 1860; the statistics for smelting and refining, which were included in the report on mining at the censuses of 1880 and 1890, are now included in the report on manufactures. The census for 1900 includes 2 smelting and refining establishments, one of copper and one of lead, which are not separately shown, but which together have a product of nearly one million dollars.

One notable development of the decade is the establishment of four wool-scouring establishments within the borders of the territory. New Mexico has a larger number of sheep than any other state or territory, and the possession of facilities for scouring the wool before it is forwarded to eastern markets is proving of great advantage to the growers.

Table 2 divides the industries of the territory between the hand trades and the manufactures proper. This table also gives the statistics for establishments with a product of less than $500, which were not reported at previous censuses, and therefore are omitted from the other tables and their use confined to Table 2.

TABLE 2.—SUMMARY FOR ALL ESTABLISHMENTS.

CLASSES.	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	COST OF MATERIALS USED.				Value of products, including custom work and repairing.
				Average number.	Total wages.		Total.	Purchased in raw state.	Purchased in partially manufactured form.	Fuel, freight, etc.	
Total	479	$2,746,276	528	2,603	$1,350,921	$206,589	$2,920,631	$1,195,715	$1,488,515	$236,401	$5,621,332
Hand trades[1]	169	252,973	190	304	182,895	64,233	612,749	50,945	541,495	20,309	1,170,444
Establishments with a product of less than $500	59	47,490	70	3	335	2,252	6,493	1,273	5,220	----------	15,537
All other establishments	251	2,445,813	268	2,296	1,167,691	140,104	2,301,389	1,143,497	941,800	216,092	4,435,351

[1] Includes bicycle and tricycle repairing, 7; blacksmithing and wheelwrighting, 45; boots and shoes, custom work and repairing, 20; carpentering, 29; clothing, men's, custom work and repairing, 15; clothing, women's, dressmaking, 2; furniture, cabinetmaking, repairing, and upholstering, 5; masonry, brick and stone, 6; millinery, custom work, 4; painting, house, sign, etc., 8; plastering and stuccowork, 2; plumbing, and gas and steam fitting, 5; sewing machine repairing, 2; watch, clock, and jewelry repairing, 19.

In addition to the 479 active establishments in the territory during the census year, with a capital of $2,746,276, shown in Table 2, there were 8 idle establishments with a capital of $108,289.

Table 3 combines the totals for the industries in Albuquerque, Santa Fe, and Socorro, and places them in comparison with the totals for the entire territory, and the territory exclusive of the cities.

TABLE 3.—URBAN MANUFACTURES.

	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	Cost of materials used.	Value of products, including custom work and repairing.
				Average number.	Total wages.			
Total for territory	420	$2,698,786	458	2,600	$1,350,586	$204,337	$2,914,138	$5,605,795
Total for urban manufactures	160	980,197	175	1,100	576,578	89,022	1,092,797	2,210,425
Albuquerque	102	793,644	117	926	497,268	70,476	953,597	1,879,413
Santa Fe	39	82,053	39	89	44,740	13,446	88,966	204,123
Socorro	19	104,500	19	85	34,570	5,100	50,234	126,889
Total for territory, exclusive of urban manufactures	260	1,718,589	283	1,500	774,008	115,315	1,821,341	3,395,370
Per cent of urban manufactures to total for territory	38.1	36.3	38.2	42.3	42.7	43.6	37.5	39.4

It appears from this table that 39.4 per cent of the manufactured product of the territory was produced in these three cities. The industries most developed are those which are common to rural as well as urban localities.

The detailed statistics of the census of 1900 are presented in the three tables which follow.

Table 4 shows the totals for the territory by counties.

Table 5 shows the totals for the territory by specified industries.

Table 6 shows the totals for all industries in the cities withdrawn from the enumerators.

TABLE 4.—MANUFACTURES

	COUNTIES, AND MANUFACTURING AND MECHANICAL INDUSTRIES.	Number of establishments.	CAPITAL. Total.	Land.	Buildings.	Machinery, tools, and implements.	Cash and sundries.	Proprietors and firm members.	SALARIED EMPLOYEES. Number.	Salaries.	AVERAGE NUMBER OF WAGE-EARNERS AND TOTAL WAGES. Total. Average number.	Wages.

INDIAN TERRITORY.

Table 1 shows the manufacturing and mechanical industries of the Indian Territory, as returned at the censuses of 1890 (the first census at which separate totals were published) and 1900, with the percentages of increase for the decade.

TABLE 1.—COMPARATIVE SUMMARY, 1890 AND 1900, WITH PER CENT OF INCREASE FOR THE DECADE.

	1900	1890	Per cent of increase.		1900	1890	Per cent of increase.
Number of establishments	789	20	3,845.0	Miscellaneous expenses	$163,174	$11,590	1,307.9
Capital	$2,624,265	$204,329	1,184.3	Cost of materials used	$2,225,730	$127,864	1,640.7
Wage-earners, average number	1,714	167	926.3	Value of products, including custom work and repairing	$3,892,181	$248,932	1,463.6
Total wages	$553,899	$73,222	656.5				

The industries in this territory are similar to those found in frontier states, with the exception of cotton ginning and the manufacture of cottonseed oil and cake, which latter industry had no existence at the census of 1890, but is now among the most important in the territory.

Table 2 divides the industries of the territory between the hand trades and the manufactures proper. This table also gives the statistics of establishments with a product of less than $500, which were not reported at previous censuses, and therefore are omitted from the other tables and their use confined to Table 2.

[1] Includes bicycle and tricycle repairing, 4; blacksmithing and wheelwrighting, 212; boots and shoes, custom work and repairing, 16; carpentering, 9; clothing, men's, custom work and repairing, 12; clothing, women's, dressmaking, 9; furniture, cabinetmaking, repairing, and upholstering, 1; lock and gun smithing, 1; masonry, brick and stone, 1; millinery, custom work, 23; painting, house, sign, etc., 1; plumbing, and gas and steam fitting, 1; watch, clock, and jewelry repairing, 12.

In addition to the 1,137 active establishments in the territory, with a capital of $2,787,592, shown in Table 2, there were 14 idle establishments, with a capital of $28,181.

The detailed statistics of the census of 1900 are presented in the two tables which follow.

Table 3 shows the totals for the territory by nations.

Table 4 shows the totals for the territory by specified industries.

BY NATIONS: 1900.

AVERAGE NUMBER OF WAGE-EARNERS AND TOTAL WAGES—continued. Men, 16 years and over. Average number.	Men, 16 years and over. Wages.	Women, 16 years and over. Average number.	Women, 16 years and over. Wages.	Children, under 16 years. Average number.	Children, under 16 years. Wages.	MISCELLANEOUS EXPENSES. Total.	Rent of works.	Taxes, not including internal revenue.	Rent of offices, interest, etc.	Contract work.	COST OF MATERIALS USED. Total.	Principal materials, including mill supplies and freight.	Fuel and rent of power and heat.	Value of products, including custom work and repairing.

OKLAHOMA.

Table 1 shows the manufacturing and mechanical industries of the territory of Oklahoma as returned at the censuses of 1890 (the first census at which separate totals were published) and 1900, with the percentages of increase for the decade.

TABLE 1.—COMPARATIVE SUMMARY, 1890 AND 1900, WITH PER CENT OF INCREASE FOR THE DECADE.

	1900	1890	Per cent of increase.
Number of establishments	870	72	1,108.3
Capital	$3,352,064	$95,519	3,409.3
Wage-earners, average number	2,054	147	1,297.3
Total wages	$807,826	$52,326	1,443.8
Miscellaneous expenses	$246,081	$21,970	1,020.1
Cost of materials used	$4,449,944	$56,518	7,773.5
Value of products, including custom work and repairing	$7,083,938	$180,445	3,825.8

There has been a remarkable increase in the manufactures and mechanical industries of this territory since 1890, an increase even more striking than the increase in population (544.2 per cent), exceeding that of any other state or territory. The number of establishments has increased twelvefold, and the value of products ninefold. Compared with older localities, however, the amount of manufacturing carried on in the territory is still insignificant. Oklahoma is essentially an agricultural and stock-raising territory, and the industries most developed are those which are common to rural as well as urban localities. A notable product is the manufacture of cottonseed oil, which has grown up in connection with the rapid development of the cotton crop of the territory.

Table 2 divides the industries of the territory between the hand trades and manufactures proper. This table also gives the statistics for governmental establishments, institutions, and establishments with a product of less than $500, none of which were reported at previous censuses, and therefore are omitted from the other tables and their use confined to Table 2.

TABLE 2.—SUMMARY FOR ALL ESTABLISHMENTS.

CLASSES.	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	COST OF MATERIALS USED.				Value of products, including custom work and repairing.
				Average number.	Total wages.		Total.	Purchased in raw state.	Purchased in partially manufactured form.	Fuel, freight, etc.	
Total	1,161	$3,477,489	1,322	2,160	$814,173	$250,857	$4,477,279	$3,142,204	$1,120,756	$214,319	$7,160,210
Hand trades [1]	336	282,908	390	506	206,792	44,430	435,151	4,310	400,509	30,332	955,356
Governmental establishments	2	8,450		3	1,200	10	2,093		1,965	128	6,500
Educational institutions	1	5,260		2	500	60	630		90	540	1,225
Establishments with product of less than $500	288	111,715	323	101	4,647	4,706	24,612	1,558	23,054		68,547
All other establishments	534	3,069,156	609	1,548	601,034	201,651	4,014,793	3,136,336	695,138	183,319	6,128,582

[1] Embraces bicycle and tricycle repairing, 8; blacksmithing and wheelwrighting, 160; boots and shoes, custom work and repairing, 15; carpentering, 34; clothing, men's, custom work and repairing, 20; clothing, women's, dressmaking, 6; dyeing and cleaning, 2; furniture, cabinetmaking, repairing, and upholstering, 4; lock and gun smithing, 3; masonry, brick and stone, 3; millinery, custom work, 39; painting, house, sign, etc., 12; plumbing, and gas and steam fitting, 4; sewing machine repairing, 1; watch, clock, and jewelry repairing, 25.

In addition to the 1,161 active establishments in the territory during the census year, with a capital of $3,477,489, there were 5 idle establishments with a capital of $13,720.

Table 3 combines the totals for the industries in Guthrie and Oklahoma City, and places them in comparison with the totals for the entire territory, and the territory exclusive of the cities.

TABLE 3.—URBAN MANUFACTURES.

	Number of establishments.	Capital.	Proprietors and firm members.	Wage-earners. Average number.	Wage-earners. Total wages.	Miscellaneous expenses.	Cost of materials used.	Value of products, including custom work and repairing.
Total for territory	870	$3,352,064	999	2,054	$807,826	$246,081	$4,449,944	$7,083,938
Total for urban manufactures	186	1,015,279	203	804	343,846	71,484	1,166,425	2,079,361
Guthrie	85	415,240	96	346	139,077	36,706	430,869	837,374
Oklahoma City	101	600,039	107	458	204,769	34,778	735,556	1,241,987
Total for territory, exclusive of urban manufactures	684	2,336,785	796	1,250	463,980	174,597	3,283,519	5,004,577
Per cent of urban manufactures to total for territory	21.4	30.3	20.3	39.1	42.6	29.0	26.2	29.4

The detailed statistics of the census of 1900 are presented in the three tables which follow.

Table 4 shows the totals for all industries in the cities withdrawn from the enumerators.

Table 5 shows the totals for the territory by counties.

Table 6 shows the totals for the territory by specified industries.

TABLE 4.—MANUFACTURES IN CITIES.

Withdrawn cities.	Number of establishments.	Capital. Total.	Capital. Land.	Capital. Buildings.	Capital. Machinery, tools, and implements.	Capital. Cash and sundries.	Proprietors and firm members.	Salaried employees. Number.	Salaried employees. Salaries.	Average number of wage-earners and total wages. Total. Average number.	Total. Wages.	Men, 16 years and over. Average number.	Men, 16 years and over. Wages.
Total for cities	186	$1,015,279	$71,625	$157,190	$413,048	$373,416	203	75	$61,713	804	$343,846	733	$329,997

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 72. WASHINGTON, D. C. July 13, 1901.

POPULATION BY SEX, GENERAL NATIVITY, AND COLOR, BY GROUPS OF STATES AND TERRITORIES: 1900.

GROUP 2.—DELAWARE, DISTRICT OF COLUMBIA, FLORIDA, GEORGIA, HAWAII, IDAHO, AND ILLINOIS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, is one of a series of bulletins in which the population is distributed by sex, general nativity, and color, for the several states and territories arranged in groups, as follows:

GROUP 1.—Alabama, Alaska, Arizona, Arkansas, California, Colorado, and Connecticut.

GROUP 2.—Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, and Illinois.

GROUP 3.—Indiana, Indian Territory, Iowa, and Kansas.

GROUP 4.—Kentucky, Louisiana, Maine, Maryland, and Massachusetts.

GROUP 5.—Michigan, Minnesota, and Mississippi.

GROUP 6.—Missouri, Montana, Nebraska, Nevada, and New Hampshire.

GROUP 7.—New Jersey, New Mexico, New York, and North Carolina.

GROUP 8.—North Dakota, Ohio, Oklahoma, and Oregon.

GROUP 9.—Pennsylvania, Rhode Island, South Carolina, and South Dakota.

GROUP 10.—Tennessee, Texas, and Utah.

GROUP 11.—Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

This series of bulletins is supplemented by a single bulletin in which the results for the entire country are summarized by states and territories.

The total population of each of the 7 states and territories included in group 2 is distributed by sex, general nativity, and color, in tables 1 to 3, and these presentations are supplemented by a similar distribution, for the same states and territories, of the population of each county, in table 4, and of each place having 2,500 inhabitants or more, in table 5.

The designation "native white—native parents," wherever used in this bulletin, comprehends all native white persons having either both parents native born, one parent native born and one parent unknown, or both parents unknown, while the designation "native white—foreign parents" comprehends all native white persons having either one or both parents foreign born.

The figures contained in this bulletin are derived from the detailed tabulation of the population returns of the Twelfth Census, taken as of June 1, 1900, and are subject to correction.

CP 13M

[1] Persons of negro descent, Chinese, Japanese, and Indians.

[2] Includes all persons of negro descent.

TABLE 5.—NATIVE AND FOREIGN BORN AND WHITE AND COLORED POPULATION, CLASSIFIED BY SEX, FOR PLACES HAVING 2,500 INHABITANTS OR MORE: 1900.

[This table includes all incorporated places having 2,500 inhabitants or more, so far as they have been returned by the census enumerators separate from the population of the townships, precincts, districts, etc., of which they form a part. In Hawaii, Honolulu city (so called) is used, although it is not in reality incorporated.]

[1] Persons of negro descent, Chinese, Japanese, and Indians.

[2] Includes all persons of negro descent.

From the figures presented in table 1, it appears, with respect to sex, that of the 7 states and territories in this group there is a larger proportion of males in 5, namely, Delaware, Florida, Hawaii, Idaho, and Illinois, and a larger proportion of females in 2, namely, District of Columbia and Georgia, as shown by table 6.

TABLE 6.—PERCENTAGE OF MALES AND FEMALES OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	Males.	Females.	STATES AND TERRITORIES.	Males.	Females.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Delaware	51.0	49.0	Hawaii	69.1	30.9
District of Columbia	47.4	52.6	Idaho	57.7	42.3
Florida	52.1	47.9	Illinois	51.3	48.7
Georgia	49.8	50.2			

In the territory of Hawaii there is a very large excess of males over females in 1900, or 69.1 per cent of males as against 30.9 per cent of females. The males also constitute 57.7 per cent of the total population of Idaho and 52.1 per cent of that of Florida, while in the District of Columbia and Georgia, in each of which there is a slight excess of females, the males constitute but 47.4 and 49.8 per cent, respectively, of the total population.

The proportion of foreign born in 1900 in each of the 7 states and territories under consideration is given in table 7.

TABLE 7.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Delaware	92.5	7.5	Hawaii	41.1	58.9
District of Columbia	92.8	7.2	Idaho	84.8	15.2
Florida	95.5	4.5	Illinois	79.9	20.1
Georgia	99.4	0.6			

The foreign born element in 1900 constitutes very nearly three-fifths of the population of Hawaii, and comprises mainly Chinese and Japanese. Of the remaining states and territories considered the largest proportions of foreign born are found in Illinois and Idaho, or about one-fifth for the former and a little more than one-seventh for the latter. About one-thirteenth of the population of Delaware and of the District of Columbia, respectively, and a little more than one-twenty-second of that of Florida, is foreign born, but in Georgia this element does not represent much more than one-half of one per cent of the total population. In the consideration of the native and foreign born elements of the population in 1900, it should be borne in mind that at the present census Indians and other persons on Indian reservations are included in the statement of population, which was not the case, however, at preceding censuses. The inclusion of this element affects, in certain cases, the percentage of native and foreign born, and this is particularly true of Idaho, where the Indian population, which is largely native born, constitutes between 2 and 3 per cent of the total population in 1900.

The distribution of the population according to the percentage of white and colored in each state and territory considered is shown in table 8.

TABLE 8.—PERCENTAGE OF WHITE AND COLORED OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	White.	Colored.[1]	STATES AND TERRITORIES.	White.	Colored.[1]
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Delaware	83.4	16.6	Hawaii	43.4	56.6
District of Columbia	68.7	31.3	Idaho	95.5	4.5
Florida	56.3	43.7	Illinois	98.2	1.8
Georgia	53.3	46.7			

[1] Includes persons of negro descent, Chinese, Japanese, and Indians.

Over 98 per cent of the population of Illinois in 1900, and more than 95 per cent of that of Idaho, is white, while of the remaining states and territories, exclusive of Hawaii, the white element constitutes considerably more than one-half of the population of Georgia and Florida, more than two-thirds of that of the District of Columbia, and more than four-fifths of that of Delaware.

The colored element in 1900 constitutes a considerable proportion of the total population of the District of Columbia, Florida, and Georgia, and a somewhat less proportion of that of Delaware, comprising, in each case, mainly persons of negro descent.

There is a large colored element in Hawaii, made up of 25,767 Chinese, 61,111 Japanese, and 233 persons of negro descent, the entire colored element in 1900 constituting 56.6 per cent of the total population of the territory. The white element in Hawaii in 1900 includes, for census purposes, 37,656 Hawaiians or part Hawaiians, 28,819 Caucasians, and 415 South Sea Islanders.

A final summary by percentages is presented in table 9, giving the proportion of the total population represented by each element of the white population in 1900.

TABLE 9.—PERCENTAGE OF NATIVE AND FOREIGN WHITE OF THE TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	Total white.	NATIVE WHITE.		Foreign white.
		Native parents.	Foreign parents.	
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*

Georgia	53.3	51.6	1.1	0.6
Hawaii	43.4	24.6	10.5	8.3
Idaho	95.5	55.6	26.4	13.5
Illinois	98.2	47.1	31.1	20.0

Of the total population of Illinois in 1900, foreign white persons constitute 20 per cent and native white persons of foreign parentage 31.1 per cent, these two elements combined representing a little over one-half of the entire population of the state. These same two elements of the white population in 1900 constitute practically 40 per cent of the total population of Idaho, from 18 to 20 per cent of that of Delaware, the District of Columbia, and Hawaii, a little over 8 per cent of that of Florida, and less than 2 per cent of that of Georgia.

William Rossiter

Director of the Census.

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 73. WASHINGTON, D. C. July 23, 1900.

MANUFACTURES.

IDAHO, NEVADA, AND WYOMING.

Hon. WILLIAM R. MERRIAM,
Director of the Census.

SIR: I transmit herewith, for publication in bulletin form, the statistics of manufacturing and mechanical industries for the states of Idaho, Nevada, and Wyoming for the census year 1900, taken in accordance with the provisions of section 7 of the act of March 3, 1899. This section requires that "The schedules of inquiries relating to the products of manufacturing and mechanical establishments shall embrace the name and location of each establishment; character of organization, whether individual, cooperative, or other form; date of commencement of operations; character of business or kind of goods manufactured; amount of capital invested; number of proprietors, firm members, copartners, or officers, and the amount of their salaries; number of employees, and the amount of their wages; quantity and cost of materials used in manufactures; amount of miscellaneous expenses; quantity and value of products; time in operation during the census year; character and quantity of power used; and character and number of machines employed."

In each of the above particulars the requirements of the law have been observed, but certain of the data thus elicited are reserved for publication in the final volumes.

These statistics were gathered by census enumerators, except for Carson City, Reno, and Virginia City, in Nevada, and Cheyenne and Laramie, in Wyoming, which were withdrawn from the enumerators and assigned to special agents, in accordance with the further provision of section 7 of the Census Act. There is no city in any of these states with a population of over 20,000, and, for the Twelfth Census, the detailed statistics of cities by industries have been confined to those of that size. Wherever the phrase "urban manufactures" is used in this bulletin, it applies only to those cities or towns which were withdrawn from the enumerators and committed to special agents, and only to manufacturing establishments within the corporate limits of such places.

CP 13M

The statistics of these states are presented in tables showing the comparative figures at the several censuses; the industries divided between the hand trades and the manufactures proper, also the statistics of governmental establishments, institutions, and establishments with a product of less than $500, which three latter classes were not reported at previous censuses; the totals for the industries in cities withdrawn from the enumerators and assigned to special agents, placing them in comparison with the totals for the state and the state exclusive of these cities; the totals for the state by counties; and the totals for the state by specified industries.

These states represent frontier conditions similar to those existing in the territories reported in Bulletin No. 71. Their mechanical industries are chiefly such as are incidental to mining and the development of agricultural resources. They are not manufacturing states in the true significance of the term, and practically all the industries shown are industries intimately connected with the building up of new sections of country, such as lumber and timber products, smelting and refining of metals, flour and grist mills, and the hand trades.

The state of Nevada shows an actual decline in the number of establishments reported and the value of their product at each census since 1870, save the present. This decline from 1870 to 1880 is largely attributable to the fact that the figures for 1870 contained reports from 93 quartz-milling establishments, with a product of $12,119,719,[1] not included in subsequent censuses. The decrease from 1880 to 1890 is plainly due to the decadence of the Nevada mining industries, the decrease in population, and distance from transportation lines. Thus the production of borax, once a considerable industry in Nevada, has fallen to a comparatively small amount, on account of the development of richer deposits in Southern California, which are contiguous to trunk lines of railroads,

[1] Ninth Census of the United States, Industry and Wealth, page 544.

enabling the landing of the material at a much lower cost at the points of consumption. The increase shown in the figures from 1890 to 1900 is more apparent than real. Nevada is a state exceedingly difficult to canvass, owing to its sparse settlement, and the canvass of the manufacturing and mechanical industries at the census of 1890 was undoubtedly defective. At the Twelfth Census a closer and more careful canvass was made and this is the real explanation of the apparent increase. It should be added that in all of the states represented in this bulletin and the territories represented in Bulletin No. 71, the same difficulties attended the canvass of the manufacturing and mechanical industries, and it is fair to assume that, in each instance, the figures given are somewhat below the actual facts.

In drafting the schedules of inquiry for the census of 1900, care was taken to preserve the basis of comparison with prior censuses. Comparison may be made safely with respect to all the items of inquiry except those relating to capital, the average number of employees, and the total amount of wages paid. Live capital, that is, cash on hand, bills receivable, unsettled ledger accounts, raw materials, stock in process of manufacture, finished products on hand, and other sundries, was first called for at the census of 1890. No definite attempt was made, prior to the census of 1890, to secure a return of live capital invested.

Changes were made in the inquiries relating to employees and wages in order to eliminate defects found to exist on the form of inquiry adopted in 1890. At the census of 1890 the average number of persons employed during the entire year was called for, and also the average number employed at stated weekly rates of pay, and the average number was computed for the actual time the establishments were reported as being in operation. At the census of 1900 the greatest and least numbers of employees were reported, and also the average number employed during each month of the year. The average number of wage-earners (men, women, and children) employed during the entire year was ascertained by using 12, the number of calendar months, as a divisor into the total of the average numbers reported for each month. This difference in the method of ascertaining the average number of wage-earners during the entire year may have resulted in a variation in the number, and should be considered in making comparisons.

At the census of 1890 the number and salaries of proprietors and firm members actively engaged in the business or in supervision were reported, combined with clerks and other officials. In cases where proprietors and firm members were reported without salaries, the amount that would ordinarily be paid for similar services was estimated. At the census of 1900 only the number of proprietors and firm members actively engaged in the industry or in supervision was ascertained, and no salaries were reported for this class. It is therefore impossible to compare the number and salaries of salaried officials of any character for the two censuses.

Furthermore, the schedules for 1890 included in the wage-earning class, overseers, foremen, and superintendents (not general superintendents or managers), while the census of 1900 separates from the wage-earning class such salaried employees as general superintendents, clerks, and salesmen. It is possible that this change in the form of the question has resulted in eliminating from the wage-earners, as reported by the present census, many high-salaried employees included in that group for the census of 1890.

The reports show a capital of $6,825,743 invested in manufactures and mechanical industries in the 1,153 establishments reporting for the 3 states. This sum represents the value of land, buildings, machinery, tools, and implements, and the live capital utilized, but does not include the capital stock of any of the manufacturing corporations of these states. The value of the products is returned at $9,965,447, to produce which involved an outlay of $208,123 for salaries of employees, $2,664,960 for wages, $389,585 for miscellaneous expenses, including rent, taxes, etc., and $4,766,955 for materials used, mill supplies, freight, and fuel. It is not to be assumed, however, that the difference between the aggregate of these sums and the value of the product is, in any sense, indicative of the profits in the manufacture of the products during the census year. The census schedule takes no cognizance of the cost of selling manufactured articles, or of interest on capital invested, or of the mercantile losses incurred in the business, or of depreciation in plant. The value of the product given is the value as obtained or fixed at the shop or factory. This statement is necessary in order to avoid erroneous conclusions from the figures presented.

The value of products for the states, $9,965,447, is the gross value, and not the net or true value. The difference between these two should be carefully noted. The gross value is found by adding the values of products in the separate establishments. But the finished product of one establishment is often the raw material for another. In such cases the value of the former reappears in the latter and thus the original cost of certain materials may be included several times in the gross value. The net or true value is found by subtracting from the gross value the value of all materials purchased in a partly manufactured form. In this way the duplications in the gross value are eliminated.

At the census of 1890 the schedule was so framed that it was impossible to find the net or true value. In the present census the schedule asked for the value of the materials in two classes, those purchased in the crude state and those purchased in the partly manufactured form. From the answers to these questions the net or true value of products may be computed. Thus, in these states, the gross value of products for 1900 was $9,965,447. The value of materials purchased in a partly manufactured form was $2,882,882. The difference between them, $7,082,565, is the net or true value of products, and represents the increase in the value of raw materials resulting from the various processes of manufacture.

Very respectfully,

S. N. D. North

Chief Statistician for Manufactures.

IDAHO.

Table 1 shows the manufacturing and mechanical industries of the state of Idaho as returned at the censuses of 1870 (the first census at which separate totals were published) to 1900, inclusive, with the percentages of increase for each decade. This table also presents the total population of the state in comparison with the average number of wage-earners employed by manufacturing establishments, and the assessed value of all real estate and improvements in comparison with the value of the land and buildings owned and reported by manufacturers as capital.

TABLE 1.—COMPARATIVE SUMMARY, 1870 TO 1900, WITH PER CENT OF INCREASE FOR EACH DECADE.

	DATE OF CENSUS.				PER CENT OF INCREASE.		
	1900	1890	1880	1870	1890 to 1900	1880 to 1890	1870 to 1880
Number of establishments	591	140	162	101	322.1	[1] 13.6	60.4
Capital	$2,941,524	$1,018,916	$667,215	$742,300	189.4	57.2	[1] 10.1

Per cent of manufacturing employees to total population	0.9	0.8	1.2	1.8			
Assessed value of real estate		$9,977,463	$2,297,526	(2)		334.3	
Value of land and buildings invested in manufactures [4]	$958,991	$226,668	(2)	(2)	323.1		
Per cent invested in manufactures		2.3					

[1] Decrease.
[2] Not reported.
[3] Exclusive of 2,625 Indians and other persons on Indian reservations, which classes were not included at previous censuses.
[4] Does not include value of hired property.

The table indicates a healthy growth in the manufactures of the state during the past thirty years, the value of products increasing 283.8 per cent, and the amount paid for wages 667.2 per cent, from 1870 to 1900.

Mining and agriculture are the principal industries of the state. Its mountains are well supplied with gold, silver, lead, and copper, while the river valleys are unsurpassed for the growth of cereals and the raising of stock. More than one-fifth of the lead product of the United States in 1899[1] was taken from the mines of this state, and in the production of silver Idaho ranked fourth.

Table 2 divides the industries of the state between the hand trades and the manufactures proper. This table also gives the statistics for governmental establishments and establishments with a product of less than $500, neither of which was reported at previous censuses, and therefore are omitted from the other tables, and their use confined to Table 2.

TABLE 2.—SUMMARY FOR ALL ESTABLISHMENTS.

CLASSES.	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	COST OF MATERIALS USED.				Value of products, including custom work and repairing.
				Average number.	Total wages.		Total.	Purchased in raw state.	Purchased in partially manufactured form.	Fuel, freight, etc.	
Total	667	$2,980,757	749	1,486	$863,664	$144,571	$2,063,674	$814,938	$1,120,914	$127,822	$4,040,851
Hand trades [1]	208	316,137	247	164	102,137	25,100	230,423	200	202,801	27,422	577,776
Governmental establishments	1	6,700		2	1,260		1,995	1,420	325	250	2,747
Establishments with a product of less than $500	75	32,533	80	7	316	1,975	6,311		6,201	110	17,572
All other establishments	383	2,625,387	422	1,313	759,951	117,496	1,824,945	813,318	911,587	100,040	3,442,756

[1] Includes bicycle and tricycle repairing, 6; blacksmithing and wheelwrighting, 94; boots and shoes, custom work and repairing, 19; carpentering, 12; clothing, men's, custom work and repairing, 11; clothing, women's, dressmaking, 4; furniture, cabinetmaking, repairing, and upholstering, 5; lock and gun smithing, 2; millinery, custom work, 22; painting, house, sign, etc., 7; plumbing, and gas and steam fitting, 2; taxidermy, 1; watch, clock, and jewelry repairing, 23.

In addition to the 667 active establishments in the state during the census year, with a capital of $2,980,757, shown in Table 2, there were 2 idle establishments with a capital of $26,275. The 283 shops, designated as hand trades and establishments with a product of less than $500, form 42.4 per cent of the total number of establishments, 11.5 per cent of the number of wage-earners, 11.9 per cent of wages, and the value of their products 14.7 per cent of the totals for the state. In Idaho, as in other frontier states, the people are engaged chiefly in mining and in the development of natural resources. Manufacturing is limited to the production or repair of articles for local consumption, and the demand for these products has stimulated the growth of the so-called neighborhood industries.

[1] All statements regarding minerals for 1899 have been taken from the annual report of the Geological Survey, 1899–1900, Part VI, Mineral Resources of the United States.

Table 3 shows the totals for the state by counties. There are no cities in the state with a population of 20,000 or over, and no cities were withdrawn from the enumerators for special presentation. Of the 591 establishments reported for the state, 269, or 45.5 per cent, are located in the counties of Ada, Bannock, Kootenai, Latah, and Nez Perce, in which are also located the principal cities and towns. The establishments in these counties give employment to 980 wage-earners, or 66.4 per cent of the total number in the state. They also pay 68.0 per cent of the total wages, and the value of their products forms 58.4 per cent of the total for the state.

Table 4 shows the totals for the state by specified industries. From this table it appears that the manufacture of

lumber and timber products is the principal manufacturing industry of the state. There were in 1893 some 7,000,000 acres of timber land in the state, a supply which has only begun to be worked.[1] This abundance of timber land has resulted in a marked development of the manufacture of lumber and timber products. The number of establishments engaged in this industry has increased from 41 to 117 since 1890, while the capital employed and the value of products have more than doubled.

NEVADA.

Table 1 shows the manufacturing and mechanical industries of the state of Nevada as returned at the censuses of 1870 (the first census at which separate totals were published) to 1900, inclusive, with the percentages of increase for each decade. This table also presents the total population of the state in comparison with the average number of wage-earners employed by manufacturing establishments, and the assessed value of real estate and improvements in comparison with the value of land and buildings owned and reported by manufacturers as capital.

TABLE 1.—COMPARATIVE SUMMARY: 1870 TO 1900, WITH PER CENT OF INCREASE FOR EACH DECADE.

	DATE OF CENSUS.				PER CENT OF INCREASE.		
	1900	1890	1880	1870	1890 to 1900	1880 to 1890	1870 to 1880
Number of establishments	228	95	184	330	140.0	[1] 48.4	[1] 44.2
Capital	$1,472,784	$1,211,269	$1,323,300	$5,127,790	21.6	[1] 8.5	[1] 74.2
Wage-earners, average number	601	558	577	2,859	7.7	[1] 3.3	[1] 79.8
Total wages	$416,732	$376,535	$461,807	$2,498,473	10.7	[1] 18.5	[1] 81.5
Miscellaneous expenses	$68,457	$53,869	(2)	(2)	27.1		
Cost of materials used	$826,138	$439,058	$1,049,794	$10,315,984	88.2	[1] 58.2	[1] 89.8
Value of products, including custom work and repairing	$1,643,675	$1,105,063	$2,179,626	$15,870,539	48.7	[1] 49.3	[1] 86.3

Wage-earners engaged in manufactures	601	558	577	2,859	7.7	[1] 3.3	[1] 79.8
Per cent of manufacturing employees to total population	1.5	1.2	0.9	6.7			
Assessed value of real estate	$16,578,404	$16,934,721	$17,941,030	(4)	[1] 2.1	[1] 5.6	
Value of land and buildings invested in manufactures [5]	$458,651	$397,533	(2)	(2)	15.4		
Per cent invested in manufactures	2.8	2.3					

[1] Decrease.
[2] Not reported.
[3] Exclusive of 1,673 Indians and other persons on Indian reservations, which classes were not included at previous censuses.
[4] Figures not available.
[5] Does not include value of hired property.

The decrease in the manufacturing industries of the state, as indicated by the statistics presented in Table 1, is a reflection of the decline of gold and silver mining, which has always been the chief industry of the state. The discovery of silver in Nevada in 1858 caused an influx of immigrants, and the population continued to increase until soon after 1880. About this time thousands of miners left the state by reason of the apparent exhaustion of some of the richer deposits of gold and silver, and the general decrease has continued to the present time. The majority of the manufacturing establishments of the state are embraced by the neighborhood industries—that is, establishments engaged in the production or repair of articles for local consumption—and naturally the decrease in population has brought about a decrease in this class of industries. The state showed an actual decline in the number of establishments reported, and in the value of their product in 1880 as compared with 1870. This decrease is attributable in part to the fact that the figures for 1870 contained reports from 93 quartz-milling establishments with a product of $12,119,719,[1] not included in subsequent censuses.

[1] Ninth Census of the United States, Industry and Wealth, page 544.

From 1880 to 1890 there was a further decrease in the number of establishments reporting in the state, in the capital invested, and in the value of products amounting, in the latter item, to 49.3 per cent. From 1890 to 1900 the statistics indicate an increase in all of the items reported, and more particularly in the number of establishments, where the increase equals 140 per cent, the increase in the value of the product equaling 48.7 per cent. It seems altogether probable that this increase is more apparent than real and does not accurately represent existing conditions in the state of Nevada. It is a state exceedingly difficult to canvass owing to the sparse settlement of a great area of country; and the canvass of manufacturing and mechanical industries at the census of 1890 was undoubtedly defective. The closer and more careful canvass made in 1900 must be accepted as the explanation of the contradictory character of the statistics.

Table 2 divides the industries of the state between the hand trades and the manufactures proper. This table also gives the statistics for governmental establishments, institutions, and establishments with a product of less than $500, none of which were reported at previous censuses, and therefore are omitted from the other tables, and their use confined to Table 2.

TABLE 2.—SUMMARY FOR ALL ESTABLISHMENTS.

CLASSES.	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	COST OF MATERIALS USED.				Value of products, including custom work and repairing.
				Average number.	Total wages.		Total.	Purchased in raw state.	Purchased in partially manufactured form.	Fuel, freight, etc.	
Total	261	$1,531,789	278	617	$426,692	$69,628	$832,058	$298,892	$447,045	$86,121	$1,673,880
Hand trades[1]	95	123,675	103	67	45,297	12,263	87,205		74,202	13,003	237,848
Governmental establishments	1	28,400		7	7,900	445	1,650		1,420	230	19,500
Eleemosynary institutions	1	3,540		7	1,400		1,613		1,573	40	3,013
Establishments with a product of less than $500	31	27,065	31	2	660	726	2,657	25	2,632		7,692
All other establishments	183	1,349,109	144	534	371,435	56,194	738,933	298,867	367,218	72,848	1,405,827

[1] Includes bicycle and tricycle repairing, 2; blacksmithing and wheelwrighting, 49; boots and shoes, custom work and repairing, 14; carpentering, 3; clothing, men's, custom work and repairing, 9; clothing, women's, dressmaking, 1; furniture, cabinetmaking, repairing and upholstering, 2; lock and gun smithing, 1; millinery, custom work, 4; painting, house, sign, etc., 1; plumbing, and gas and steam fitting, 3; watch, clock, and jewelry repairing, 6.

In addition to the 261 active establishments in the state during the census year with a capital of $1,531,789, shown in Table 2, there were 6 idle establishments with a capital of $98,285. The 126 shops designated as hand trades, and establishments with a product of less than $500, form 48.3 per cent of the total number of establishments, 11.2 per cent of the number of wage-earners, 10.8 per cent of wages, and the value of their products 14.7 per cent of the totals for the state.

Table 3 combines the totals for the industries in Carson City, Reno, and Virginia City, and places them in comparison with the totals for the entire state and the state exclusive of the cities.

TABLE 3.—URBAN MANUFACTURES.

	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	Cost of materials used.	Value of products, including custom work and repairing.
				Average number.	Total wages.			
Total for state	228	$1,472,784	247	601	$416,732	$68,457	$826,138	$1,643,675
Total for urban manufactures	109	620,522	114	216	156,533	39,479	281,719	637,232
Carson City	36	260,434	39	71	57,434	17,377	61,977	185,387
Reno	51	320,833	54	122	86,745	16,762	200,350	392,707
Virginia City	22	39,255	21	23	12,354	5,340	19,392	59,138
Total for state, exclusive of urban manufactures	119	852,262	133	385	260,199	28,978	544,419	1,006,443
Per cent of urban manufactures to total for state	47.8	42.1	46.2	35.9	37.6	57.7	34.1	38.8

Carson City, Reno, and Virginia City were withdrawn from the enumerators, and the collection of the statistics placed in the hands of special agents appointed for this purpose. Table 3 emphasizes the concentration of the industries of the state in its cities. Of the 228 establishments in the entire state, 109 or 47.8 per cent are located in the 3 cities. The capital reported for these establishments is 42.1 per cent of that for the entire state. They furnish employment to 35.9 per cent of the total number of wage-earners in the state, and pay 37.6 per cent of the total amount for wages, and their product forms 38.8 per cent of the total for the state.

Table 4 shows the totals for the state by counties.

Table 5 shows the totals for the state by specified industries. This table indicates that the leading manufacturing industry of the state is the railroad repair shops, followed by the flouring and grist mill industry, and the printing and publishing of newspapers and periodicals.

Table 6 shows the totals for all industries in the cities withdrawn from the enumerators.

TABLE 4.—MANUFACTURES

WYOMING.

Table 1 shows the manufacturing and mechanical industries of the state of Wyoming, as returned at the censuses of 1870 (the first census at which separate totals were published) to 1900, inclusive, with the percentages of increase for each decade. This table also presents the total population of the state in comparison with the average number of wage-earners employed by the manufacturing establishments, and the assessed value of all real estate and improvements in comparison with the value of the land and buildings owned and returned by manufacturers as capital.

TABLE 1.—COMPARATIVE SUMMARY, 1870 TO 1900, WITH PER CENT OF INCREASE FOR EACH DECADE.

	DATE OF CENSUS.				PER CENT OF INCREASE.		
	1900	1890	1880	1870	1890 to 1900	1880 to 1890	1870 to 1880
Number of establishments	334	190	57	32	75.8	233.3	78.1
Capital	$2,411,435	$1,411,184	$364,673	$889,400	70.9	287.0	[1] 59.0
Wage-earners, average number	2,241	1,022	391	502	119.3	161.4	[1] 22.1
Total wages	$1,386,140	$787,169	$187,798	$347,578	76.1	319.2	[1] 46.0
Miscellaneous expenses	$178,532	$94,073	(2)	(2)	89.8		
Cost of materials used	$1,885,449	$1,084,432	$601,214	$280,156	73.9	80.4	114.6
Value of products, including custom work and repairing	$4,301,240	$2,367,601	$898,494	$765,424	81.7	163.5	17.4
Total population	[3] 90,570	60,705	20,789	9,118	49.2	192.0	128.0
Wage-earners engaged in manufactures	2,241	1,022	391	502	119.3	161.4	[illegible]
Per cent of manufacturing employees to total population	2.5	1.7	1.9	5.5			
Assessed value of real estate	(4)	$12,719,221	$4,485,291	(4)		183.6	
Value of land and buildings invested in manufactures [5]	$685,648	$356,090	(2)	(2)	92.5		
Per cent invested in manufactures		2.8					

[1] Decrease.
[2] Not reported.
[3] Exclusive of 1,961 Indians and other persons on Indian reservations, which classes were not included at previous censuses.
[4] Figures not available.
[5] Does not include value of hired property.

The increase in the number of establishments reported in Wyoming since 1870—nearly tenfold—would seem to indicate a marked development in the manufacturing and mechanical industries of the state during the past thirty years. Wyoming, however, is chiefly a stock-raising and mining region, and the manufactures are almost entirely limited to products which are for local consumption; therefore, the increase in the number of establishments has been chiefly in the neighborhood industries, which are carried on in small shops, and the capital invested, wages paid, and value of products have not increased in the same ratio. Rich deposits of iron ore have been exploited and abundant supplies of petroleum discovered in recent years, but the lack of transportation facilities has proved a serious handicap to their rapid development, and, consequently, to the development of the manufactures which are closely allied to these industries.

Table 2 divides the industries of the state between the hand trades and the manufactures proper. This table also gives the statistics for governmental establishments and establishments with a product of less than $500, neither of which were reported at previous censuses, and therefore are omitted from the other tables, and their use confined to Table 2.

TABLE 2.—SUMMARY FOR ALL ESTABLISHMENTS.

CLASSES.	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	COST OF MATERIALS USED.				Value of products, including custom work and repairing.
				Average number.	Total wages.		Total.	Purchased in raw state.	Purchased in partially manufactured form.	Fuel, freight, etc.	
Total	380	$2,440,958	412	2,250	$1,391,471	$180,131	$1,897,184	$458,676	$1,332,399	$106,109	$4,324,752
Hand trades [1]	138	168,595	153	278	201,374	48,214	362,372	900	348,200	13,272	807,934
Governmental establishments	5	14,905	--------	6	4,380	450	8,105	5,356	1,816	933	11,853
Establishments with a product of less than $500	41	14,618	40	3	951	1,149	3,630	121	3,509	----------	11,659
All other establishments	196	2,242,840	219	1,963	1,184,766	130,318	1,523,077	452,299	978,874	91,904	3,493,306

[1] Includes bicycle and tricycle repairing, 5; blacksmithing and wheelwrighting, 30; boots and shoes, custom work and repairing, 18; carpentering, 19; clothing, men's, custom work and repairing, 17; clothing, women's, dress-making, 3; furniture, cabinetmaking, repairing, and upholstering, 3; lock and gun smithing, 2; masonry, brick and stone, 3; millinery, custom work, 10; painting, house, sign, etc., 5; plastering and stuccowork, 2; plumbing, and gas and steam fitting, 7; taxidermy, 1; watch, clock, and jewelry repairing, 13.

In addition to the 380 active establishments in the state during the census year, with a capital of $2,440,958, shown in Table 2, there were 3 idle establishments, with a capital of $60,850. The 179 shops designated as hand trades and establishments with a product of less than $500 embrace nearly half of the number reported for the entire state, while the capital invested, wages paid, and value of products form less than one-fifth of the totals for these items.

Table 3 combines the totals for the industries in Cheyenne and Laramie, and places them in comparison with the totals for the entire state and the state exclusive of the cities.

TABLE 3.—URBAN MANUFACTURES.

	Number of establishments.	Capital.	Proprietors and firm members.	WAGE-EARNERS.		Miscellaneous expenses.	Cost of materials used.	Value of products, including custom work and repairing.
				Average number.	Total wages.			
Total for state	334	$2,411,435	372	2,241	$1,386,140	$178,532	$1,885,449	$4,301,240
Total for urban manufactures	100	968,576	103	979	682,102	100,798	853,976	1,898,365
Cheyenne	71	645,105	79	589	474,111	71,546	542,428	1,254,074
Laramie	29	323,471	24	390	207,991	29,252	311,548	644,291
Total for state, exclusive of urban manufactures	234	1,442,859	269	1,262	704,038	77,734	1,031,473	2,402,875
Per cent of urban manufactures to total for state	29.9	40.2	27.7	43.7	49.2	56.5	45.3	44.1

Of the 334 establishments in the state, 100, or 29.9 per cent, are located in the 2 cities. The capital reported for these establishments is 40.2 per cent of that for the entire state. They furnish employment to 43.7 per cent of the total number of wage-earners, pay 49.2 per cent of the total amount for wages, and their products form 44.1 per cent of the value of the total for the state.

Table 4 shows the totals for the state by counties.

Table 5 shows the totals for the state by specified industries.

Table 6 shows the totals for all industries in the cities withdrawn from the enumerators.

TABLE 4.—MANUFACTURES

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 74. WASHINGTON, D. C. July 20, 1901.

REPORT ON BOUNDARIES OF TERRITORIAL ACQUISITIONS.

Hon. WILLIAM R. MERRIAM,
Director of the Census.

SIR: I have the honor to transmit herewith, for publication as a census bulletin, the "Report of a Conference upon the Boundaries of the Successive Acquisitions of Territory by the United States." The conference was constituted of representatives of the Department of State, the Coast and Geodetic Survey, the Geological Survey, the Census Office, and the Library of Congress. It was appointed at the request of the Census Office, and as an advisory committee to that office on certain controverted subjects.

In the "Statistical Atlas of the United States, Based upon Results of the Eleventh Census," is a map (Plate I) giving the boundaries of the successive acquisitions of territory by the United States, exclusive of Alaska. The Twelfth Census will probably publish a similar map. Another Government office issues a map giving the same information. In nearly all essentials the two agree, but, naturally, in certain minor points, differences between them may be found. Some of the differences relate to a matter —namely, the true boundary of the Louisiana Purchase— which is of timely interest, now that the centennial anniversary of that purchase is approaching.

Thinking that in such a matter even minor discrepancies between coordinate branches of the Government should, if possible, be harmonized, and seeking the friendly criticism of disinterested experts upon the conclusions of the Census Office, the Acting Director addressed identical letters to the Secretary of State, the Superintendent of the Coast and Geodetic Survey, the Director of the Geological Survey, and the Commissioner of the Land Office, asking each to appoint a representative. The representatives appointed held five meetings, and on every point voted upon, with one exception, reached unanimous conclusions. These conclusions in some cases sustained the position of the Census Office, in some cases sustained the position of the Land Office, and in some cases departed from both. It should be carefully observed that the conference was simply one to advise the Census Office, and that its findings have no official standing, but are entitled only to such weight as is carried by the names of the individuals signing the report. Even so, there is no doubt that its results have materially decreased the conflicts of official authority in this field. The main conclusions of the conference, as detailed in the following pages, may be summarized as follows:

1. The region between the Mississippi River and lakes Maurepas and Pontchartrain to the west, and the Perdido River to the east, should not be assigned either to the Louisiana Purchase or to the Florida Purchase, but marked with a legend indicating that title to it between 1803 and 1819 was in dispute.

2. The line between the Mississippi River and the Lake of the Woods, separating the territory of the United States prior to 1803 from the Louisiana Purchase, should be drawn from the most northwestern point of the Lake of the Woods to the nearest point on the Mississippi River, in Lake Bemidji.

3. The western boundary of the Louisiana Purchase between 49° and 42° north followed the watershed of the Rocky Mountains; thence it ran east along the parallel of 42° north to a point due north of the source of the Arkansas River, and thence south to that source.

4. The northwestern boundary of Texas as annexed extended up the principal stream of the Rio Grande to its source and thence due north to the parallel of 42° north.

5. The southern boundary of the Mexican Cession of 1848 should be drawn from a point on the Rio Grande eight miles north of Paso, instead of from one about thirty miles further north, as is the usual practice at present, west three degrees, and thence north to the first branch of the Gila River.

The cordial thanks of the Census Office are due to the other branches of the Government service which have aided our work generously and without stint.

Yours, respectfully,

Walter F. Willcox
Chief Statistician for Methods and Results.

CP 13M

REPORT

OF

A CONFERENCE UPON THE BOUNDARIES

OF

The Successive Acquisitions of Territory by the United States, November, 1899, to January, 1900.

The undersigned representatives of the Department of State, the Coast and Geodetic Survey, the Geological Survey, the Census Office, and the Library of Congress, constituting a conference upon the boundaries of the successive acquisitions of territory by the United States, so far as discrepancies respecting them have been found to exist, and called together by a circular letter of the Acting Director of the Census, dated November 16, 1899, beg leave to report as follows:

On November 20, 1899, the conference held its first meeting in the Pavilion of the Seals, Library of Congress, that room having been kindly provided for the purpose by the Librarian of Congress. There were present, Mr. Andrew H. Allen, representing the Department of State; Mr. O. H. Tittmann, representing the Coast and Geodetic Survey; Mr. Harry King, from the General Land Office; Mr. Henry Gannett, representing the Geological Survey; and Mr. Walter F. Willcox, representing the Census Office. Mr. P. Lee Phillips, Chief of the Division of Maps and Charts in the Library of Congress, also attended the meeting to render such assistance as might be desired in the way of advice touching maps, etc., and their accessibility. Mr. King, of the General Land Office, announced that he attended merely as an auditor, without the intention of participating in the action of the conference, but with the purpose of reporting the contemplated scope of its work to the Commissioner of the General Land Office. The conference then proceeded to organize by the election of Mr. Willcox as chairman and Mr. Allen as secretary. Mr. Phillips was invited by the conference to take part in its business as a member, and very kindly consented to do so.

The territorial acquisitions, concerning the boundaries of which discrepancies had been noted, were taken up in chronological order. The subject of the

LOUISIANA PURCHASE

was thus first considered, and the situation discovered was, briefly, that the territory came into the possession of the United States through the treaty of 1803 with France, having the same extent as when ceded by France to Spain in 1763, and as when retroceded to France by Spain by the treaty of San Ildefonso, of October 1, 1800. To ascertain the extent of this territory eastward, the conference examined the several well-known authorities upon the early history of Louisiana—Marbois, Ellicott, Gayarré, Darby, Stoddard, and others; the treaties involved; letters of Monroe, Jefferson, and Talleyrand; certain maps; the text of the grant to Crozat by Louis XIV, in 1712; the presentation of the case by the Commissioner of the General Land Office in his volume entitled "The Louisiana Purchase;" etc. This examination failed, however, to enable the conference to determine the dispute about the territory between the Mississippi and Perdido rivers, claimed alike by Spain and France, and afterwards by the United States, and finally released by Spain in the treaty of 1819, in language assigning no limits to West Florida. The conference concluded that the boundary line of this territory at the Mississippi River, as claimed by Spain, should be so defined by a legend on the map, and that the boundary line at the Perdido River, as claimed by the United States, should be similarly indicated. This conclusion was reached with an understanding or admission of the following facts touching the territory between the two rivers claimed by Spain as a part of West Florida: That the territory of Louisiana, as described by France and granted to Crozat by Louis XIV, extended on the east to the river Mobile, which, with the port, was ceded specifically by France to England by the treaty of Paris in 1763, Spain at the same time ceding the Floridas to Great Britain, with St. Augustine and the bay of Pensacola—thus, inferentially at least, determining the respective boundaries of Louisiana and West Florida; that the first occupation of the interior of the territory between the rivers Mississippi and Perdido by the Spaniards, was during the war of the American Revolution, when it belonged to Great Britain; that Great Britain retroceded the Floridas to Spain in 1783, at which time the Louisiana territory belonged to Spain by the French cession in the preliminaries of peace of 1762 (confirmed in 1763), whereby "all the country known under the name of Louisiana" was transferred; that Spain in 1800 retroceded Louisiana to France as it was received from France in 1763; that France in 1803 ceded the territory of Louisiana to the United States, as discovered and held by France, ceded to Spain, and retroceded to France; and, finally, that in 1819 Spain ceded to the United States all the territory held or claimed by His Catholic Majesty under the names of East and West Florida. In addition to the grounds of dispute between France and Spain, and the United States and Spain, here shown, there was a conflicting claim con-

cerning the extent of West Florida, born of the contention between French and Spanish discoverers and settlers in the sixteenth and seventeenth centuries; and there was also the claim of the French, by right of La Salle's descent of the Mississippi in 1682, to "all the country drained by that river."

With reference to the Louisiana boundary, there remained but one point of difference between the maps under consideration. Article II of the definitive treaty of peace of 1783, between the United States and Great Britain, after defining the northern boundary to the Lake of the Woods, continues as follows: " * * * Thence through the said lake to the most northwestern point thereof, and from thence on a due west course to the river Mississippi." Such a line as that described being obviously impossible, the Mississippi River being south not west of the Lake of the Woods, the line drawn by the conference was a line from the most northwestern point of that lake to the nearest point on the Mississippi. This line the conference regarded as justified by rules of international law and practice respecting vaguely described boundaries in such topographical circumstances.

THE OREGON TERRITORY

was the next subject to receive the attention of the conference. There seemed to be nothing in the history of that part of our possessions to warrant mention of the claim of Spain rather than that of Great Britain, and the final settlement of the question of sovereignty and boundaries by the treaty of 1846, fixing the 49th parallel, "by an amicable compromise," as the northern boundary west of the Rocky Mountains, seemed to be a recognition by the United States of the importance of the British pretensions sufficient to warrant mention on the map. The treaty of 1819 (the Florida Cession) had already served as a conclusive relinquishment by Spain of any claim in this quarter. Therefore the conference, considering these facts together with the historical narrative of discoveries and occupations on the northwest coast of America by both Spanish and British explorers and adventurers, and the part played by traders, explorers, and settlers from the United States within the territory known under the name of Oregon in the eighteenth century, determined to place as a legend on the face of the map, to describe briefly and with historical accuracy the area in question, the following words: Oregon Territory discovered and settled; British claim extinguished, 1846.

TEXAS

was next in order for discussion and determination, and the conference decided, almost without debate, that the northwestern boundary of that territory as admitted to statehood in the Union, should be that defined on the map of the General Land Office—the line there shown coinciding closely with the line on the Disturnell "Map of the United Mexican States," 1847, filed with the treaty of 1848 as a part of that convention.

THE FIRST MEXICAN CESSION.

The southern boundary of the United States west of the Rio Grande, 1848, was determined in the same manner but with a different result, the line adopted being that indicated on the Disturnell map, according to the conference's interpretation of that chart. The facts are adequately stated by Major Emory at page 16 of his Report on the United States and Mexican Boundary Survey, Vol. 1, as follows:

"It is proper for me, however, before closing this chapter, to refer to a publication issued by Mr. J. R. Bartlett, one of the late commissioners on the part of the United States, which professes to give an accurate account of the affairs of the commission. It is not my purpose to review that work, and expose its errors, but simply to correct some statements affecting myself.

"Mr. Bartlett's principal achievement on the boundary was the agreement with General Conde, the Mexican Commissioner, fixing the initial point on the Rio Bravo [i. e. Rio Grande], in the parallel of 32° 22′, instead of a point as laid down on the treaty map, about eight miles above El Paso, which would have brought it to the parallel of 31° 52′. That agreement is no less remarkable than the adroitness and success with which Mr. Bartlett convinced the the authorities at Washington of its correctness.

"The question has been so thoroughly discussed that a reproduction of it is not called for. It is sufficient to say here that it was disapproved by the astronomer and surveyor on the commission at the time, and was finally repudiated by the government.

"* * * My signature as surveyor was only required, as alleged, to perfect the *official documents*; the words of the order were, '*You will sign the map of the initial point agreed upon by the two commissioners.*'

"By reference to the treaty it will be seen that any agreement of the kind required the action of the joint commission, and that the joint commission was to be composed, not only of the *two* commissioners, but of the two surveyors also.

"I refused to recognize the act as that of the joint commission, and signed the map as the order directed, carefully and studiously attaching a certificate that it was the initial point of the two *commissioners*; and to prevent the possibility of misconstruction, an agreement in writing was entered into with Mr. Salazar, and our signatures attested by witnesses, showing that the map was only that of the boundary agreed upon by the two commissioners, and nothing else.

"This course, while it permitted me to obey a specific order in writing from a superior, left the government free to act, and repudiate the agreement by the two commissioners, as it subsequently did."

As the line on the Disturnell map delimiting the southern boundary of the United States under the treaty of 1848 is identical with the northern boundary of the territory purchased in 1853, the conference next arrived at the point of considering

THE GADSDEN PURCHASE.

An examination of the treaties, of the report of Major W. H. Emory, already referred to and quoted, and other evidence, together with a study of the treaty map, developed the fact that the repudiated line agreed to by one of the United States commissioners, Mr. J. R. Bartlett, and the Mexican Commissioner, General Conde, seems to have been adopted by the General Land Office, though after having been run only one and one-half degrees west from the point of beginning, about 38 miles north of Paso,

the survey was abandoned and the line repudiated by the Government of the United States. The line indicated by the treaty or Disturnell map begins at a point about eight miles north of Paso or El Paso, runs west three degrees on a parallel, and thence north on a meridian to the first branch of the Gila River. This line was adopted by the conference as the eastern part of the northern boundary of the Gadsden Purchase. The conclusion was reached after consideration of Mr. Bartlett's claims, Major Emory's report, the action of the Government, and the treaty map.

A map indicating the boundary lines discussed and the conclusions reached respecting them is submitted by the conference.

WASHINGTON, *April 5, 1900.*

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 75. WASHINGTON, D. C. July 20, 1901.

SCHOOL, MILITIA, AND VOTING AGES.

Persons of School Age, Males of Militia Age, Males of Voting Age, and Citizenship of Foreign Born Males 21 Years of Age and Over, by Groups of States and Territories: 1900.

GROUP 2.—DELAWARE, DISTRICT OF COLUMBIA, FLORIDA, GEORGIA, HAWAII, IDAHO, AND ILLINOIS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, is one of a series of bulletins which show by sex the number of persons of school age, the number of males of militia age, the number of males of voting age, and the number of foreign born males 21 years of age and over, classified by citizenship, for the several states and territories, arranged in groups, as follows:

GROUP 1.—Alabama, Alaska, Arizona, Arkansas, California, Colorado, and Connecticut.

GROUP 2.—Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, and Illinois.

GROUP 3.—Indiana, Indian Territory, Iowa, and Kansas.

GROUP 4.—Kentucky, Louisiana, Maine, Maryland, and Massachusetts.

GROUP 5.—Michigan, Minnesota, and Mississippi.

GROUP 6.—Missouri, Montana, Nebraska, Nevada, and New Hampshire.

GROUP 7.—New Jersey, New Mexico, New York, and North Carolina.

GROUP 8.—North Dakota, Ohio, Oklahoma, and Oregon.

GROUP 9.—Pennsylvania, Rhode Island, South Carolina, and South Dakota.

GROUP 10.—Tennessee, Texas, and Utah.

GROUP 11.—Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

This series of bulletins is supplemented by a single bulletin in which the results for the entire country are summarized by states and territories.

CP 13M

A distribution of the number of persons of school, militia, and voting ages, classified by sex, general nativity, and color, is given in tables 1 to 5, for each of the 7 states and territories included in group 2. A similar distribution, covering the same states and territories, is given for each city having a population of 25,000 or more, in tables 6 to 10; for each county, in table 11; and for each place having 2,500 inhabitants or more, in table 12.

Similarly, for the same states and territories, the males of voting age are further classified by general nativity, color, citizenship, and literacy, by states and territories, in tables 13 to 16; for cities of 25,000 inhabitants or more, in tables 17 to 19; and by counties, in table 20.

In several of the tables contained in this bulletin, there are certain designations used which require some explanation. The designation "native white—native parents" comprehends all native white persons having either both parents native born, one parent native born and one parent unknown, or both parents unknown, while the designation "native white—foreign parents" comprehends all native white persons having either one or both parents foreign born. The designation "illiterate" comprehends all persons who can neither read nor write or who can read but not write.

The figures contained in this bulletin are derived from the detailed tabulation of the population returns of the Twelfth Census, taken as of June 1, 1900, and are subject to correction.

[1] Native born persons of negro descent.

[2] Native born Chinese, Japanese, and Indians.

PERSONS OF SCHOOL AGE.

The designation "persons of school age" includes, for census purposes, all persons from 5 to 20 years of age, inclusive, although there is but little uniformity in the age limits prescribed by the several states and territories.

The number of persons of school age, in each of the 7 states and territories considered in this bulletin, is presented in detail by sex, general nativity, and color, in tables 1 to 3. Table 21, which follows, shows for the same states and territories the proportion of this class who are either native or foreign born.

TABLE 21.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL PERSONS OF SCHOOL AGE: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Delaware	97.6	2.4	Hawaii	74.9	25.1
Dist. of Columbia	98.3	1.7	Idaho	96.2	3.8
Florida	98.1	1.9	Illinois	93.6	6.4
Georgia	99.9	0.1			

In all the states and territories comprising this group by far the larger proportion of persons of school age are of native birth, the largest percentage of foreign born, with the exception of Hawaii, being shown for Illinois, or 6.4 per cent. In Hawaii foreign born persons of school age constitute 25.1 per cent of all the persons of school age in 1900.

The proportion of native and foreign white and colored persons of school age in 1900 in each state and territory under consideration is shown in table 22.

TABLE 22.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL PERSONS OF SCHOOL AGE: 1900.

STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Delaware	66.1	13.3	2.4	18.2

Florida	49.3	5.1	1.5	44.1
Georgia	50.6	1.0	0.1	48.3
Hawaii	37.9	26.8	5.8	29.5
Idaho	61.1	32.7	3.1	3.1
Illinois	52.1	40.0	6.4	1.5

[1] Persons of negro descent, Chinese, Japanese, and Indians.

In Delaware substantially two-thirds of the total number of persons of school age in 1900 are native whites of native parentage, while a little less than one-fifth are colored, and a little more than one-eighth are native whites of foreign parentage. In Idaho 61 per cent are native whites of native parentage and nearly 33 per cent native whites of foreign parentage, these two elements together constituting more than nine-tenths of the whole number of persons of school age in the state. In the District of Columbia, Florida, and Georgia practically one-half of all the persons of school age are native whites of native parentage, while the colored element represents very nearly one-half of the whole in Florida and Georgia, and about one-third in the District of Columbia. More than nine-tenths of all the persons of school age in Illinois are native white, those of native parentage constituting somewhat more than one-half and those of foreign parentage two-fifths of the whole number in 1900. In Hawaii very nearly three-tenths of all the persons of school age in 1900 are colored, being principally Chinese and Japanese, while native white persons of native parentage constitute 37.9 per cent, native white persons of foreign parentage 26.8 per cent, and foreign white persons 5.8 per cent. The white element of the population of school age in Hawaii in 1900 includes, for census purposes, 13,652 Hawaiians and part Hawaiians, 10,114 Caucasians, and 61 South Sea Islanders.

MALES OF MILITIA AGE.

The natural militia ages are from 18 to 44 years, inclusive, and the number of males between these ages in the 7 states and territories under consideration is presented in detail by general nativity and color in table 4. The males of militia age in these states and territories in 1900 are distributed by percentages, according to whether they are native or foreign born, in table 23.

TABLE 23.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL MALES OF MILITIA AGE: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Delaware	89.1	10.9	Hawaii	13.9	86.1
Dist. of Columbia	92.2	7.8	Idaho	75.8	24.2
Florida	93.1	6.9	Illinois	72.9	27.1
Georgia	99.1	0.9			

In Hawaii 86.1 per cent of all males of militia age in 1900 are of foreign birth, while in Idaho and Illinois foreign born males of militia age constitute about one-fourth of the whole number of males of this class. In Delaware a little over one-tenth, and in the District of Columbia and Florida about one-fourteenth of the males of militia age are also foreign born, but in Georgia practically all are of native birth.

A further distribution of the males of militia age, by percentages, according to general nativity and color, is shown in table 24.

TABLE 24.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL MALES OF MILITIA AGE: 1900.

STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Delaware	60.2	12.4	10.7	16.7
District of Columbia	47.3	15.3	7.2	30.2
Florida	43.9	3.7	5.5	46.9
Georgia	52.5	1.4	0.9	45.2
Hawaii	11.2	2.2	6.6	80.0
Idaho	48.4	25.4	20.3	5.9
Illinois	41.7	28.9	27.0	2.4

[1] Persons of negro descent, Chinese, Japanese, and Indians.

Colored males of militia age in Hawaii in 1900 constitute four-fifths of the total number of males of this class,

the colored element in this territory being composed, as before stated, almost wholly of Chinese and Japanese. In Florida and Georgia nearly one-half, in the District of Columbia nearly one-third, and in Delaware about one-sixth of all the males of militia age in 1900 are colored, persons of negro descent comprising practically all of this element in each case. In Illinois and Idaho the colored element is small, but in each of these states foreign white males constitute a very considerable proportion of all males of militia age in 1900, or more than one-fourth in Illinois and about one-fifth in Idaho.

The white males of militia age in Hawaii in 1900 constitute one-fifth of the whole number and include, for census purposes, 7,369 Hawaiians or part Hawaiians, 7,055 Caucasians, and 129 South Sea Islanders.

MALES OF VOTING AGE.

The number of males of voting age, that is, all males 21 years of age and over, in each of the 7 states and territories included in group 2, is presented in detail by general nativity and color in table 5. The relative proportions of native and foreign born males of voting age in these states and territories, based upon the returns of the Twelfth Census, are given in table 25.

TABLE 25.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL MALES OF VOTING AGE: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Delaware	87.4	12.6	Hawaii	16.4	83.6
Dist. of Columbia	87.9	12.1	Idaho	70.8	29.2
Florida	91.6	8.4	Illinois	66.5	33.5
Georgia	98.6	1.4			

Of the whole number of males of voting age in 1900 one-third of those in Illinois, and between one-fourth and one-third of those in Idaho, are foreign born. In Delaware and the District of Columbia this same element constitutes about one-eighth, and in Florida about one-twelfth of the whole number of males of voting age. In Hawaii, however, over four-fifths of the males of voting age are foreign born, principally Chinese and Japanese. In Georgia upwards of 98 in every 100 males of voting age are native born.

Classifying the potential voters as native and foreign white and colored, the following percentages are obtained in table 26.

TABLE 26.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL MALES OF VOTING AGE: 1900.

STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]	STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.				Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*		*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*
Delaware	61.6	10.3	12.5	15.6	Hawaii	14.2	2.0	8.4	75.4
District of Columbia	47.2	13.3	11.5	28.0	Idaho	47.8	20.5	25.0	6.7
Florida	45.3	3.6	7.0	44.1	Illinois	41.9	22.6	33.3	2.2
Georgia	52.7	1.4	1.3	44.6					

[1] Persons of negro descent, Chinese, Japanese, and Indians.

With the exception of Hawaii, there is no state or territory in this group in which less than 40 per cent of the males of voting age in 1900 are native whites of native parentage, this element comprising 61.6 per cent in Delaware and 52.7 per cent in Georgia. In Illinois foreign white males constitute 33.3 per cent, and native white males of foreign parentage 22.6 per cent of all males of voting age, these two elements combined constituting more than one-half of all males of this class in 1900, while in Idaho these same two elements represent nearly one-half of the total number of males of voting age in that state. In Florida and Georgia the colored males of voting age constitute a little over 44 per cent of the whole number of males of voting age in 1900, while in the District of Columbia they represent 28 per cent, and in Delaware 15.6 per cent, this element being composed, in each case, almost wholly of persons of negro descent. In Hawaii colored males of voting age constitute 75.4 per cent of all males of voting age in 1900, but in this territory the colored element is practically all Chinese and Japanese. White males of voting age in Hawaii in 1900 include, for census purposes, 10,101 Hawaiians and part Hawaiians, 9,250 Caucasians, and 225 South Sea Islanders.

The number of males of voting age are classified according to literacy, in detail, by general nativity and color in tables 13, 14, and 15, and from these tables are derived the percentages of literate and illiterate males of voting age shown in tables 27, 28, and 29, respectively.

TABLE 27.—PERCENTAGE OF LITERATE AND ILLITERATE NATIVE AND FOREIGN BORN MALES OF VOTING AGE: 1900.

Illinois	81.3	18.7	77.2	22.8	93.1	6.9	66.7	33.3

[1] Includes all persons of negro descent.

There is only a comparatively small percentage of illiterates among males of voting age in Illinois, Idaho, and the District of Columbia, but in the remaining states and territories of this group the percentages are somewhat larger, or 14 per cent in Delaware, 22.1 per cent in Florida, 31.6 per cent in Georgia, and 34.4 per cent in Hawaii. These large percentages of illiterate males of voting age in Delaware, Florida, and Georgia are due in good part to the presence among the males of voting age of a large number of illiterate persons of negro descent, and in Hawaii of illiterate Chinese and Japanese.

In Georgia, Florida, and Delaware, there is also a considerable illiterate element among native white males of voting age who are of native parentage, the percentage in this class being in Georgia 12.1 per cent, in Florida 8.6 per cent, and in Delaware 8 per cent. Illiterate foreign white males of voting age constitute in Delaware 17.6 per cent, and in Hawaii 39.3 per cent, of the whole number of foreign white males of voting age in 1900.

The illiterate white element of the population of voting age in Hawaii in 1900 includes, for census purposes, 657 Hawaiians and part Hawaiians, 2,545 Caucasians, and 133 South Sea Islanders.

Foreign born males of voting age are distributed according to citizenship and literacy in table 16, and from the figures therein presented is derived table 30, showing the proportion of foreign born males of voting age in 1900 who are naturalized or who have taken out first naturalization papers.

TABLE 30.—PERCENTAGE OF FOREIGN BORN MALES OF VOTING AGE DISTRIBUTED ACCORDING TO CITIZENSHIP: 1900.

STATES AND TERRITORIES.	Naturalized.	First naturalization papers filed.	Aliens.	Unknown.	STATES AND TERRITORIES.	Naturalized.	First naturalization papers filed.	Aliens.	Unknown.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*		*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*
Delaware	60.4	4.0	19.5	16.1	Hawaii	1.8	1.1	94.5	2.6
District of Columbia	67.1	6.5	16.7	9.7	Idaho	58.0	8.9	20.9	12.2
Florida	45.1	5.6	24.1	25.2	Illinois	69.7	3.5	11.2	15.6
Georgia	57.2	5.3	16.0	21.5					

There are 6,816 foreign born males of voting age in 1900 in Delaware, and of this number 60.4 per cent are reported as being naturalized. Of the 10,101 foreign born males of voting age in 1900 in the District of Columbia, 67.1 per cent are naturalized, and of the 11,736 males of this class in Florida, 45.1 per cent are naturalized. In Georgia there are 7,012, and in Idaho 15,747, foreign born males of voting age, and in each of these states over one-half are naturalized. There are 468,882 foreign born males of voting age in Illinois, of which more than two-thirds are naturalized. In Hawaii, on the contrary, the naturalized constitute only 1.8 per cent of the foreign born males of voting age in that territory in 1900, this being due to the presence of a large number of alien

Chinese and Japanese. Outside of Hawaii, where the alien element constitutes all but 5.5 per cent of the foreign born males of voting age in 1900, the largest percentage of aliens is that for Florida, or 24.1 per cent, as against 11.2 per cent for Illinois, the latter being the smallest percentage of aliens reported for any of the states and territories included in this group.

There is a considerable proportion of illiterates among the alien element in these 7 states and territories, as indicated by table 31.

TABLE 31.—PERCENTAGE OF LITERATE AND ILLITERATE FOREIGN BORN MALES OF VOTING AGE, IN DETAIL, ACCORDING TO CITIZENSHIP: 1900.

STATES AND TERRITORIES.	NATURALIZED.		FIRST NATURALIZATION PAPERS FILED.		ALIENS.		UNKNOWN.	
	Literate.	Illiterate.	Literate.	Illiterate.	Literate.	Illiterate.	Literate.	Illiterate.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*
Delaware	89.5	10.5	81.9	18.1	61.7	38.3	80.3	19.7
District of Columbia	96.7	3.3	92.0	8.0	86.1	13.9	95.0	5.0
Florida	91.4	8.6	87.1	12.9	83.8	16.2	86.7	13.3
Georgia	95.8	4.2	94.7	5.3	83.6	16.4	92.6	7.4
Hawaii	81.9	18.1	54.2	45.8	59.9	40.1	48.2	51.8
Idaho	96.4	3.6	91.4	8.6	70.9	29.1	92.5	7.5
Illinois	94.3	5.7	90.5	9.5	79.5	20.5	91.9	8.1

From table 31 it appears that of all the aliens in 1900 the illiterates constitute more than 40 per cent in Hawaii, 38.3 per cent in Delaware, 29.1 per cent in Idaho, 20.5 per cent in Illinois, a little over 16 per cent in Georgia and Florida respectively, and 13.9 per cent in the District of Columbia. Of foreign born males of voting age in 1900 who have taken out their first naturalization papers, the illiterates constitute 45.8 per cent in Hawaii, 18.1 per cent in Delaware, 12.9 per cent in Florida, and between 5 and 10 per cent in the remaining states and territories under consideration.

William Rhodes Davis

Director of the Census.

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 76. WASHINGTON, D. C. July 22, 1901.

POPULATION BY SEX, GENERAL NATIVITY, AND COLOR, BY GROUPS OF STATES AND TERRITORIES: 1900.

GROUP 3.—INDIANA, INDIAN TERRITORY, IOWA, AND KANSAS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, is one of a series of bulletins in which the population is distributed by sex, general nativity, and color, for the several states and territories arranged in groups, as follows:

GROUP 1.—Alabama, Alaska, Arizona, Arkansas, California, Colorado, and Connecticut.

GROUP 2.—Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, and Illinois.

GROUP 3.—Indiana, Indian Territory, Iowa, and Kansas.

GROUP 4.—Kentucky, Louisiana, Maine, Maryland, and Massachusetts.

GROUP 5.—Michigan, Minnesota, and Mississippi.

GROUP 6.—Missouri, Montana, Nebraska, Nevada, and New Hampshire.

GROUP 7.—New Jersey, New Mexico, New York, and North Carolina.

GROUP 8.—North Dakota, Ohio, Oklahoma, and Oregon.

GROUP 9.—Pennsylvania, Rhode Island, South Carolina, and South Dakota.

GROUP 10.—Tennessee, Texas, and Utah.

CP 13M

GROUP 11.—Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

This series of bulletins is supplemented by a single bulletin in which the results for the entire country are summarized by states and territories.

The total population of each of the 4 states and territories included in group 3 is distributed by sex, general nativity, and color, in tables 1 to 3, and these presentations are supplemented by a similar distribution, for the same states and territories, of the population of each county, in table 4, and of each place having 2,500 inhabitants or more, in table 5.

The designation "native white—native parents," wherever used in this bulletin, comprehends all native white persons having either both parents native born, one parent native born and one parent unknown, or both parents unknown, while the designation "native white—foreign parents" comprehends all native white persons having either one or both parents foreign born.

The figures contained in this bulletin are derived from the detailed tabulation of the population returns of the Twelfth Census, taken as of June 1, 1900, and are subject to correction.

TABLE 1.—POPULATION BY SEX, GENERAL NATIVITY, AND COLOR, BY STATES AND TERRITORIES: 1900.

[1] Persons of negro descent, Chinese, Japanese, and Indians.

[2] Includes all persons of negro descent.

Briefly analyzing the figures presented in table 1, it appears, first, with respect to sex, that in each case the males constitute a larger percentage of the total population in 1900, as shown by table 6.

TABLE 6.—PERCENTAGE OF MALES AND FEMALES OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	Males.	Females.	STATES AND TERRITORIES.	Males.	Females.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Indiana	51.1	48.9	Iowa	51.8	48.2
Indian Territory	53.3	46.7	Kansas	52.3	47.7

In each of the 4 states and territories considered, there is an excess of males over females in 1900, the males constituting 51.1 per cent of the total population of Indiana, 51.8 per cent of that of Iowa, 52.3 per cent of that of Kansas, and 53.3 per cent of that of Indian Territory.

The proportion of foreign born in 1900 in each of the 4 states and territories under consideration is shown in table 7.

TABLE 7.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Indiana	94.4	5.6	Iowa	86.3	13.7
Indian Territory	98.8	1.2	Kansas	91.4	8.6

The foreign born element in 1900 constitutes somewhat more than one-eighth of the total population of Iowa, while in Kansas it constitutes a little more than one-twelfth, and in Indiana about one-eighteenth. In Indian Territory the proportion of foreign born is very small, this element constituting only 1.2 per cent of the total population of the territory in 1900. In the consideration of the native and foreign born elements of the population in 1900, it should be borne in mind that at the present census Indians and other persons on Indian reservations are included in the statement of population, which was not the case, however, at preceding censuses. The inclusion of this element affects materially, in certain cases, the percentage of native and foreign born, and this is particularly true of Indian Territory, where the Indian population, which is almost wholly native born, constitutes a very considerable proportion of the total population.

The distribution of the population according to the percentage of white and colored in each state and territory considered is shown in table 8.

TABLE 8.—PERCENTAGE OF WHITE AND COLORED OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	White.	Colored.[1]	STATES AND TERRITORIES.	White.	Colored.[1]
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Indiana	97.7	2.3	Iowa	99.4	0.6
Indian Territory	77.2	22.8	Kansas	96.3	3.7

[1] Persons of negro descent, Chinese, Japanese, and Indians.

The white element in 1900 constitutes in Indiana 97.7 per cent, in Iowa 99.4 per cent, and in Kansas 96.3 per cent, of the total population, the small colored element in each of these states being composed almost wholly of persons of negro descent. In Indian Territory, however, the whites constitute 77.2 per cent, and the colored 22.8 per cent, of the total population of the territory in 1900, the latter element being comprised in good part of Indians.

A final summary by percentages is presented in table 9, giving the proportion of the total population represented by each element of the white population in 1900.

TABLE 9.—PERCENTAGE OF NATIVE AND FOREIGN WHITE OF TOTAL POPULATION: 1900.

STATES AND TERRITORIES.	Total white.	NATIVE WHITE.		Foreign white.
		Native parents.	Foreign parents.	
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Indiana	97.7	77.6	14.5	5.6
Indian Territory	77.2	73.4	2.6	1.2
Iowa	99.4	56.5	29.2	13.7
Kansas	96.3	68.9	18.8	8.6

Of the total population of Iowa in 1900, foreign white persons constitute 13.7 per cent and native white persons of foreign parentage 29.2 per cent, these two elements combined representing upwards of two-fifths of the entire population of the state. These same two elements of the white population constitute a little over one-fourth of the total population of Kansas in 1900, and about one-fifth of that of Indiana. In Indian Territory these same two elements represent only 3.8 per cent of the total population, the native white element of foreign parentage alone representing 2.6 per cent.

William Rhode Merriam

Director of the Census.

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 77. WASHINGTON, D. C. July 27, 1901.

SCHOOL, MILITIA, AND VOTING AGES.

Persons of School Age, Males of Militia Age, Males of Voting Age, and Citizenship of Foreign Born Males 21 Years of Age and Over, by Groups of States and Territories: 1900.

GROUP 3.—INDIANA, INDIAN TERRITORY, IOWA, AND KANSAS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, is one of a series of bulletins which show by sex the number of persons of school age, the number of males of militia age, the number of males of voting age, and the number of foreign born males 21 years of age and over, classified by citizenship, for the several states and territories, arranged in groups, as follows:

GROUP 1.—Alabama, Alaska, Arizona, Arkansas, California, Colorado, and Connecticut.

GROUP 2.—Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, and Illinois.

GROUP 3.—Indiana, Indian Territory, Iowa, and Kansas.

GROUP 4.—Kentucky, Louisiana, Maine, Maryland, and Massachusetts.

GROUP 5.—Michigan, Minnesota, and Mississippi.

GROUP 6.—Missouri, Montana, Nebraska, Nevada, and New Hampshire.

GROUP 7.—New Jersey, New Mexico, New York, and North Carolina.

GROUP 8.—North Dakota, Ohio, Oklahoma, and Oregon.

GROUP 9.—Pennsylvania, Rhode Island, South Carolina, and South Dakota.

GROUP 10.—Tennessee, Texas, and Utah.

GROUP 11.—Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

This series of bulletins is supplemented by a single bulletin in which the results for the entire country are summarized by states and territories.

CP 13M

A distribution of the number of persons of school, militia, and voting ages, classified by sex, general nativity, and color, is given in tables 1 to 5, for each of the 4 states and territories included in group 3. A similar distribution, covering the same states and territories, is given for each city having a population of 25,000 or more, in tables 6 to 10; for each county, in table 11; and for each place having 2,500 inhabitants or more, in table 12.

Similarly, for the same states and territories, the males of voting age are further classified by general nativity, color, citizenship, and literacy, by states and territories, in tables 13 to 16; for cities of 25,000 inhabitants or more, in tables 17 to 19; and by counties, in table 20.

In several of the tables contained in this bulletin, there are certain designations used which require some explanation. The designation "native white—native parents" comprehends all native white persons having either both parents native born, one parent native born and one parent unknown, or both parents unknown, while the designation "native white—foreign parents" comprehends all native white persons having either one or both parents foreign born. The designation "illiterate" comprehends all persons who can neither read nor write or who can read but not write.

The figures contained in this bulletin are derived from the detailed tabulation of the population returns of the Twelfth Census, taken as of June 1, 1900, and are subject to correction.

[1] Native born persons of negro descent.

[2] Native born Chinese, Japanese, and Indians.

PERSONS OF SCHOOL AGE.

The designation "persons of school age" includes, for census purposes, all persons from 5 to 20 years of age, inclusive, although there is but little uniformity in the age limits prescribed by the several states and territories.

The number of persons of school age, in each of the 4 states and territories considered in this bulletin, is presented in detail by sex, general nativity, and color, in tables 1 to 3. Table 21, which follows, shows for the same states and territories the proportion of this class who are either native or foreign born.

TABLE 21.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL PERSONS OF SCHOOL AGE: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Indiana	98.8	1.2	Iowa	96.8	3.2
Indian Territory	99.7	0.3	Kansas	98.1	1.9

Persons of school age in Indiana, Iowa, and Kansas in 1900 are very nearly all native born, the foreign born of this class constituting in Indiana but 1.2 per cent, in Iowa 3.2 per cent, and in Kansas 1.9 per cent, of the whole number of persons of school age. In Indian Territory foreign born persons of school age in 1900 are even fewer, relatively, than in any of the 3 states above mentioned, this element representing only three-tenths of 1 per cent of the whole number of persons of school age in the territory.

The proportion of native and foreign white and colored persons of school age in 1900 in each state and territory under consideration is shown in table 22.

TABLE 22.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL PERSONS OF SCHOOL AGE: 1900.

STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Indiana	83.0	13.6	1.2	2.2
Indian Territory	73.6	2.4	0.3	23.7
Iowa	60.7	35.6	3.2	0.5
Kansas	71.2	23.1	1.9	3.8

[1] Persons of negro descent, Chinese, Japanese, and Indians.

Native white persons of native parentage constitute in 1900 more than four-fifths of the whole number of persons of school age in Indiana, over seven-tenths in Indian Territory and Kansas, and slightly more than three-fifths in Iowa. In Iowa 35.6 per cent of the persons of school age are native white of foreign parentage and 3.2 per cent are foreign white, these two elements combined constituting 38.8 per cent of the whole number in 1900. In Kansas native whites of foreign parentage constitute 23.1 per cent, and in Indiana 13.6 per cent, of all persons of school age, the foreign white element representing only 1.9 per cent in Kansas and 1.2 per cent in Indiana.

Colored persons of school age constitute 23.7 per cent of all persons of school age in Indian Territory in 1900, being principally Indians, but in the 3 states considered the percentages are much less, being only 3.8 per cent in Kansas, 2.2 per cent in Indiana, and 0.5 per cent in Iowa.

MALES OF MILITIA AGE.

The natural militia ages are from 18 to 44 years, inclusive, and the number of males between these ages in the 4 states and territories under consideration is presented in

detail by general nativity and color in table 4. The males of militia age in these states and territories in 1900 are distributed, by percentages, according to whether they are native or foreign born, in table 23.

TABLE 23.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL MALES OF MILITIA AGE: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Indiana	94.0	6.0	Iowa	83.3	16.7
Indian Territory	97.8	2.2	Kansas	89.6	10.4

In all of the states and territories considered native born males of militia age constitute upwards of four-fifths of the whole number of males of militia age in 1900, the foreign born males of militia age constituting 16.7 per cent in Iowa, 10.4 per cent in Kansas, 6 per cent in Indiana, and only 2.2 per cent in Indian Territory.

Males of militia age are further distributed, by percentages, according to general nativity and color, in table 24.

TABLE 24.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL MALES OF MILITIA AGE: 1900.

STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Indiana	73.3	18.0	6.0	2.7
Indian Territory	75.0	3.0	2.1	19.9
Iowa	51.2	31.4	16.7	0.7
Kansas	66.6	19.3	10.4	3.7

[1] Persons of negro descent, Chinese, Japanese, and Indians.

In Iowa 31.4 per cent of all males of militia age in 1900 are native white of foreign parentage and 16.7 per cent are foreign white, these two elements together representing nearly one-half of the whole number of males of militia age. In Kansas these same two elements combined constitute 29.7 per cent, and in Indiana 24 per cent, of all males of militia age. In Indian Territory practically one-fifth of all males of militia age in 1900 are colored, this element comprising principally Indians.

MALES OF VOTING AGE.

The number of males of voting age, that is, all males 21 years of age and over, in each of the 4 states and territories included in group 3, is presented in detail by general nativity and color in table 5. The relative proportions of native and foreign born males of voting age in these states and territories, based upon the returns of the Twelfth Census, are given in table 25.

TABLE 25.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL MALES OF VOTING AGE: 1900.

STATES AND TERRITORIES.	Native born.	Foreign born.	STATES AND TERRITORIES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Indiana	89.8	10.2	Iowa	75.1	24.9
Indian Territory	96.9	3.1	Kansas	83.8	16.2

Of the whole number of males of voting age in 1900, the native born constitute more than three-fourths in all of the states and territories considered, Iowa having the largest proportion of foreign born, or 24.9 per cent, while Kansas has 16.2 per cent, Indiana 10.2 per cent, and Indian Territory 3.1 per cent.

Classifying the potential voters as native and foreign white and colored, the following percentages are obtained in table 26.

TABLE 26.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL MALES OF VOTING AGE: 1900.

STATES AND TERRITORIES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Indiana	71.9	15.4	10.1	2.6
Indian Territory	73.7	3.3	3.0	20.0
Iowa	50.6	23.8	24.9	0.7
Kansas	64.9	15.2	16.2	3.7

[1] Persons of negro descent, Chinese, Japanese, and Indians.

Native whites of native parentage constitute in Indiana and Indian Territory nearly three-fourths, and in Kansas nearly two-thirds, of the whole number of males of voting age in 1900. The largest proportion of foreign white males of voting age in the states and territories under consideration is found in Iowa, and if the native whites of foreign parentage are added, the white males of voting age either of foreign birth or extraction constitute very nearly one-half of all the potential voters in the state. In Kansas these same two elements combined constitute a little less than one-third, and in Indiana a trifle over one-fourth, of all males of voting age in 1900.

In Indian Territory colored males of voting age in 1900 constitute one-fifth of all the potential voters in the territory and are composed principally of Indians.

The number of males of voting age are classified according to literacy, in detail by general nativity and color, in tables 13, 14, and 15, and from these tables are derived the percentages of literate and illiterate males of voting age shown in tables 27, 28, and 29, respectively.

TABLE 27.—PERCENTAGE OF LITERATE AND ILLITERATE NATIVE AND FOREIGN BORN MALES OF VOTING AGE: 1900.

Indiana	72.3	27.7	70.9	29.1	100.0	----------	76.8	23.2
Indian Territory	58.7	41.3	66.7	33.3	----------	----------	68.8	31.2
Iowa	78.0	22.0	74.5	25.5	100.0	----------	11.0	89.0
Kansas	71.9	28.1	86.8	13.2	50.0	50.0	51.9	48.1

[1] Includes all persons of negro descent.

There is only a very small percentage of illiterates in 1900 among males of voting age as a whole in Indiana, Iowa, and Kansas, but in Indian Territory nearly one-sixth of the whole number of males of voting age are illiterate, due principally to the number of Indians in the territory. There is also in Indian Territory a considerable proportion of illiterates in 1900 among native white males of voting age who are of native parentage, the illiterate males of voting age constituting 10.9 per cent of this entire element. Of the foreign white males of voting age in the same territory 16.8 per cent are illiterate, while in Indiana 9.6 per cent, in Kansas 6.4 per cent, and in Iowa 5.2 per cent, of this element are illiterate. There is also a considerable proportion of illiterates among the colored males of voting age in all the states and territories in this group, the percentages ranging from 23.3 in Iowa to 35.9 in Indian Territory.

Foreign born males of voting age are distributed according to citizenship and literacy in table 16, and from the figures therein presented is derived table 30, showing the proportion of foreign born males of voting age in 1900 who are naturalized or who have taken out first naturalization papers.

TABLE 30.—PERCENTAGE OF FOREIGN BORN MALES OF VOTING AGE DISTRIBUTED ACCORDING TO CITIZENSHIP: 1900.

STATES AND TERRITORIES.	Naturalized.	First naturalization papers filed.	Aliens.	Unknown.	STATES AND TERRITORIES.	Naturalized.	First naturalization papers filed.	Aliens.	Unknown.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*		*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*
Indiana	60.6	13.4	4.5	21.5	Iowa	74.4	3.6	7.2	14.8
Indian Territory	46.2	7.3	14.3	32.2	Kansas	61.6	10.9	3.9	23.6

There are 158,025 foreign born males of voting age in Iowa in 1900, and of this number 117,524, or very nearly three-fourths, are naturalized. In Indiana and Kansas, however, the naturalized element constitutes only about three-fifths of the potential voters of foreign birth, the whole number of such persons in Indiana in 1900 being 73,317, and in Kansas 67,025. There are 3,000 foreign born males of voting age in Indian Territory in 1900, and of these less than one-half, or 46.2 per cent, are reported as naturalized.

The alien element constitutes 14.3 per cent of all the foreign born males of voting age in 1900 in Indian Territory, 7.2 per cent in Iowa, 4.5 per cent in Indiana, and 3.9 per cent in Kansas.

The percentage of illiterates among the foreign born males of voting age in 1900, classified by citizenship, is shown, for each state and territory considered, in table 31.

TABLE 31.—PERCENTAGE OF LITERATE AND ILLITERATE FOREIGN BORN MALES OF VOTING AGE, IN DETAIL, ACCORDING TO CITIZENSHIP: 1900.

STATES AND TERRITORIES.	NATURALIZED.		FIRST NATURALIZATION PAPERS FILED.		ALIENS.		UNKNOWN.	
	Literate.	Illiterate.	Literate.	Illiterate.	Literate.	Illiterate.	Literate.	Illiterate.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*
Indiana	92.3	7.7	85.5	14.5	70.8	29.2	91.9	8.1
Indian Territory	90.4	9.6	84.5	15.5	72.8	27.2	76.4	23.6
Iowa	95.3	4.7	94.2	5.8	89.3	10.7	95.1	4.9
Kansas	94.6	5.4	91.2	8.8	84.3	15.7	93.4	6.6

In Indiana and Indian Territory there is a large percentage of illiterates among the aliens in 1900, the exact percentages being 29.2 for Indiana and 27.2 for Indian Territory. In Kansas the illiterates constitute 15.7 per cent of all the aliens in that state in 1900, and in Iowa 10.7 per cent. There is also between 4 and 10 per cent of illiterates among the naturalized males of voting age in 1900 in the 4 states and territories considered, the largest percentage being 9.6 for Indian Territory and the smallest 4.7 for Iowa.

William R. Merriam

Director of the Census.

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 78. WASHINGTON, D. C. July 30, 1901.

POPULATION BY SEX, GENERAL NATIVITY, AND COLOR, BY GROUPS OF STATES AND TERRITORIES: 1900.

GROUP 4.—KENTUCKY, LOUISIANA, MAINE, MARYLAND, AND MASSACHUSETTS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, is one of a series of bulletins in which the population is distributed by sex, general nativity, and color, for the several states and territories arranged in groups, as follows:

GROUP 1.—Alabama, Alaska, Arizona, Arkansas, California, Colorado, and Connecticut.

GROUP 2.—Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, and Illinois.

GROUP 3.—Indiana, Indian Territory, Iowa, and Kansas.

GROUP 4.—Kentucky, Louisiana, Maine, Maryland, and Massachusetts.

GROUP 5.—Michigan, Minnesota, and Mississippi.

GROUP 6.—Missouri, Montana, Nebraska, Nevada, and New Hampshire.

GROUP 7.—New Jersey, New Mexico, New York, and North Carolina.

GROUP 8.—North Dakota, Ohio, Oklahoma, and Oregon.

GROUP 9.—Pennsylvania, Rhode Island, South Carolina, and South Dakota.

GROUP 10.—Tennessee, Texas, and Utah.

CP 13M

GROUP 11.—Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

This series of bulletins is supplemented by a single bulletin in which the results for the entire country are summarized by states and territories.

The total population of each of the 5 states included in group 4 is distributed by sex, general nativity, and color, in tables 1 to 3, and these presentations are supplemented by a similar distribution, for the same states, of the population of each county, in table 4, and of each place having 2,500 inhabitants or more, in table 5.

The designation "native white—native parents," wherever used in this bulletin, comprehends all native white persons having either both parents native born, one parent native born and one parent unknown, or both parents unknown, while the designation "native white—foreign parents" comprehends all native white persons having either one or both parents foreign born.

The figures contained in this bulletin are derived from the detailed tabulation of the population returns of the Twelfth Census, taken as of June 1, 1900, and are subject to correction.

[1] Persons of negro descent, Chinese, Japanese, and Indians.

[2] Includes all persons of negro descent.

TABLE 5.—NATIVE AND FOREIGN BORN AND WHITE AND COLORED POPULATION, CLASSIFIED BY SEX, FOR PLACES HAVING 2,500 INHABITANTS OR MORE: 1900.

[This table includes all incorporated places having 2,500 inhabitants or more, so far as they have been returned by the census enumerators separate from the population of the townships, precincts, districts, etc., of which they form a part. In Maine and Massachusetts all towns having 2,500 inhabitants or more, but which do not contain an incorporated place with that amount of population, are also used.]

CITIES, TOWNS, AND VILLAGES.	NATIVE BORN.		FOREIGN BORN.		NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.		FOREIGN WHITE.		TOTAL COLORED.[1]		NEGRO.[2]

[1] Persons of negro descent, Chinese, Japanese, and Indians.

[2] Includes all persons of negro descent.

The percentage of males and females in each of the 5 states considered is shown in table 6.

TABLE 6.—PERCENTAGE OF MALES AND FEMALES OF TOTAL POPULATION: 1900.

STATES.	Males.	Females.	STATES.	Males.	Females.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Kentucky	50.8	49.2	Maryland	49.6	50.4
Louisiana	50.3	49.7	Massachusetts	48.7	51.3
Maine	50.5	49.5			

Of the 5 states considered in this bulletin, the greatest disproportion of the sexes is found in Massachusetts, where the females constitute 51.3 per cent of the entire population of the state as against 48.7 per cent of males. In Maryland there is also a slight excess of females over males, but in the remaining states of this group the males are slightly in excess, Kentucky showing the largest proportion of males, or 50.8 per cent.

The proportion of foreign born in 1900 in each of the 5 states under consideration is given in table 7.

TABLE 7.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL POPULATION: 1900.

STATES.	Native born.	Foreign born.	STATES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Kentucky	97.7	2.3	Maryland	92.1	7.9
Louisiana	96.2	3.8	Massachusetts	69.8	30.2
Maine	86.6	13.4			

In Massachusetts the foreign born element in 1900 constitutes about three-tenths, in Maine a little more than one-eighth, and in Maryland a little less than one-twelfth, of the entire population of the state. In Kentucky and Louisiana the proportion of foreign born is comparatively small, or 2.3 and 3.8 per cent, respectively. In the consideration of the native and foreign born elements of the population in 1900, it should be borne in mind that at the present census Indians and other persons on Indian reservations are included in the statement of population, which was not the case, however, at preceding censuses. The inclusion of this element affects materially, in certain cases, the percentage of native and foreign born, but it is not appreciable in any of the states of this group.

The distribution of the population according to the percentage of white and colored in each state considered is shown in table 8.

TABLE 8.—PERCENTAGE OF WHITE AND COLORED OF TOTAL POPULATION: 1900.

STATES.	White.	Colored.[1]	STATES.	White.	Colored.[1]
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Kentucky	86.7	13.3	Maryland	80.2	19.8
Louisiana	52.8	47.2	Massachusetts	98.7	1.3
Maine	99.7	0.3			

[1] Persons of negro descent, Chinese, Japanese, and Indians.

In Maine substantially all of the population in 1900 is white, the colored element representing but three-tenths of 1 per cent of the entire population of the state, while very nearly the same condition exists in Massachusetts, where but 1.3 per cent of the entire population are colored. In Louisiana, however, 47.2 per cent, in Maryland 19.8 per cent, and in Kentucky 13.3 per cent, of the entire population in 1900 are colored, this element being made up practically of persons of negro descent.

A final summary by percentages is presented in table 9, giving the proportion of the total population represented by each element of the white population in 1900.

TABLE 9.—PERCENTAGE OF NATIVE AND FOREIGN WHITE OF TOTAL POPULATION: 1900.

STATES.	Total white.	NATIVE WHITE.		Foreign white.
		Native parents.	Foreign parents.	
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Kentucky	86.7	77.9	6.5	2.3
Louisiana	52.8	41.3	7.8	3.7
Maine	99.7	71.0	15.3	13.4
Maryland	80.2	57.2	15.1	7.9
Massachusetts	98.7	36.8	32.0	29.9

In Massachusetts in 1900 foreign white persons constitute 29.9 per cent and native white persons of foreign parentage 32 per cent, these two elements combined representing nearly two-thirds of the total population of the state. These same two elements of the white population constitute more than one-fourth of the total population of Maine in 1900, nearly one-fourth of that of Maryland, a little more than one-tenth of that of Louisiana, and about one-twelfth of that of Kentucky.

William R. Merriam

Director of the Census

Twelfth Census of the United States.

CENSUS BULLETIN.

No. 79. WASHINGTON, D. C. August 8, 1901.

SCHOOL, MILITIA, AND VOTING AGES.

Persons of School Age, Males of Militia Age, Males of Voting Age, and Citizenship of Foreign Born Males 21 Years of Age and Over, by Groups of States and Territories: 1900.

GROUP 4.—KENTUCKY, LOUISIANA, MAINE, MARYLAND, AND MASSACHUSETTS.

This bulletin, prepared under the direction of Mr. WILLIAM C. HUNT, chief statistician for population, is one of a series of bulletins which show by sex the number of persons of school age, the number of males of militia age, the number of males of voting age, and the number of foreign born males 21 years of age and over, classified by citizenship, for the several states and territories, arranged in groups, as follows:

GROUP 1.—Alabama, Alaska, Arizona, Arkansas, California, Colorado, and Connecticut.

GROUP 2.—Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, and Illinois.

GROUP 3.—Indiana, Indian Territory, Iowa, and Kansas.

GROUP 4.—Kentucky, Louisiana, Maine, Maryland, and Massachusetts.

GROUP 5.—Michigan, Minnesota, and Mississippi.

GROUP 6.—Missouri, Montana, Nebraska, Nevada, and New Hampshire.

GROUP 7.—New Jersey, New Mexico, New York, and North Carolina.

GROUP 8.—North Dakota, Ohio, Oklahoma, and Oregon.

GROUP 9.—Pennsylvania, Rhode Island, South Carolina, and South Dakota.

GROUP 10.—Tennessee, Texas, and Utah.

GROUP 11.—Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.

This series of bulletins is supplemented by a single bulletin in which the results for the entire country are summarized by states and territories.

CP 13M

A distribution of the number of persons of school, militia, and voting ages, classified by sex, general nativity, and color, is given in tables 1 to 5, for each of the 5 states included in group 4. A similar distribution, covering the same states, is given for each city having a population of 25,000 or more, in tables 6 to 10; for each county, in table 11; and for each place having 2,500 inhabitants or more, in table 12.

Similarly, for the same states, the males of voting age are further classified by general nativity, color, citizenship, and literacy, by states, in tables 13 to 16; for cities of 25,000 inhabitants or more, in tables 17 to 19; and by counties, in table 20.

In several of the tables contained in this bulletin, there are certain designations used which require some explanation. The designation "native white—native parents" comprehends all native white persons having either both parents native born, one parent native born and one parent unknown, or both parents unknown, while the designation "native white—foreign parents" comprehends all native white persons having either one or both parents foreign born. The designation "illiterate" comprehends all persons who can neither read nor write or who can read but not write.

The figures contained in this bulletin are derived from the detailed tabulation of the population returns of the Twelfth Census, taken as of June 1, 1900, and are subject to correction.

[1] Includes all persons of negro descent. [2] Chinese, Japanese, and Indians.

TABLE 12.—PERSONS OF SCHOOL, MILITIA, AND VOTING AGES, BY SEX, GENERAL NATIVITY, AND COLOR, FOR PLACES HAVING 2,500 INHABITANTS OR MORE: 1900.

[This table includes all incorporated places having 2,500 inhabitants or more, so far as they have been returned by the census enumerators separate from the population of the townships, precincts, districts, etc., of which they form a part. In Maine and Massachusetts all towns having 2,500 inhabitants or more, but which do not contain an incorporated place with that amount of population, are also used.]

CITIES, TOWNS, AND VILLAGES.	5 TO 20 YEARS, INCLUSIVE.								MALES 18 TO 44 YEARS, INCLUSIVE.				MALES 21 YEARS AND OVER.

[1] Native born persons of negro descent.

[2] Native born Chinese, Japanese, and Indians.

PERSONS OF SCHOOL AGE.

The designation "persons of school age" includes, for census purposes, all persons from 5 to 20 years of age, inclusive, although there is but little uniformity in the age limits prescribed by the several states and territories.

The number of persons of school age, in each of the 5 states considered in this bulletin, is presented in detail by sex, general nativity, and color in tables 1 to 3. Table 21, which follows, shows for the same states the proportion of this class who are either native or foreign born.

TABLE 21.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL PERSONS OF SCHOOL AGE: 1900.

STATES.	Native born.	Foreign born.	STATES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Kentucky	99.7	0.3	Maryland	97.4	2.6
Louisiana	98.8	1.2	Massachusetts	84.1	15.9
Maine	91.0	9.0			

Of all the persons of school age in Massachusetts in 1900, a little less than one-sixth are foreign born, while in Maine the same element constitutes 9 per cent of the entire number of persons of school age. In Maryland 2.6 per cent, and in Louisiana 1.2 per cent, of the total number of persons of school age are foreign born, but in Kentucky persons of school age are practically all of native birth.

The proportion of native and foreign white and colored persons of school age in 1900 in each state under consideration is shown in table 22.

TABLE 22.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL PERSONS OF SCHOOL AGE: 1900.

STATES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Kentucky	81.2	5.4	0.3	13.1
Louisiana	44.2	6.0	1.2	48.6
Maine	68.5	22.2	9.0	0.3
Maryland	61.1	15.2	2.6	21.1
Massachusetts	35.3	47.8	15.8	1.1

[1] Persons of negro descent, Chinese, Japanese, and Indians.

In Massachusetts 15.8 per cent of the persons of school age in 1900 are foreign white and 47.8 per cent are native white of foreign parentage, these two elements together constituting upwards of three-fifths of the entire number of persons of school age in the state. In Maine these same two elements constitute nearly one-third, and in Maryland more than one-sixth, of the whole number of persons of school age. In Kentucky and Louisiana these two elements represent but a comparatively small proportion of the total number of persons of school age, or 5.7 per cent in the former and 7.2 per cent in the latter.

Colored persons of school age constitute in Louisiana 48.6 per cent, in Maryland 21.1 per cent, and in Kentucky 13.1 per cent, of the entire number of persons of school age in 1900, this element in these states being composed almost wholly of persons of negro descent.

MALES OF MILITIA AGE.

The natural militia ages are from 18 to 44 years, inclusive, and the number of males between these ages in the 5 states under consideration is presented in detail by general nativity and color in table 4. The males of militia age in these states in 1900 are distributed, by percentages, according to whether they are native or foreign born, in table 23.

TABLE 23.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL MALES OF MILITIA AGE: 1900.

STATES.	Native born.	Foreign born.	STATES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Kentucky	97.7	2.3	Maryland	90.6	9.4
Louisiana	94.9	5.1	Massachusetts	60.0	40.0
Maine	81.2	18.8			

In Massachusetts 40 per cent, in Maine 18.8 per cent, and in Maryland 9.4 per cent, of the males of militia age in 1900 are foreign born. In Louisiana and Kentucky the proportion of foreign born among males of militia age in 1900 is less, the percentage for the former being 5.1 and for the latter 2.3.

Males of militia age are further distributed, by percentages, according to general nativity and color, in table 24.

TABLE 24.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL MALES OF MILITIA AGE: 1900.

STATES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Kentucky	74.8	9.0	2.3	13.9
Louisiana	38.9	10.5	4.9	45.7
Maine	67.8	13.1	18.7	0.4
Maryland	54.0	17.0	9.2	19.8
Massachusetts	32.1	26.6	39.5	1.8

[1] Persons of negro descent, Chinese, Japanese, and Indians.

In Massachusetts 39.5 per cent of the entire number of males of militia age in 1900 are foreign white and 26.6 per cent are native white of foreign parentage, these two elements combined representing practically two-thirds of all males of militia age. In Maine these same two elements combined constitute nearly one-third, in Maryland something more than one-fourth, in Louisiana between one-sixth and one-seventh, and in Kentucky more than one-tenth, of all males of militia age. Colored males of militia age in 1900 constitute 45.7 per cent of all males of militia age in Louisiana, while in Maryland they constitute 19.8 per cent, and in Kentucky 13.9 per cent, this element in all of these states being composed almost wholly of persons of negro descent.

MALES OF VOTING AGE.

The number of males of voting age, that is, all males 21 years of age and over, in each of the 5 states included in group 4, is presented in detail by general nativity and color in table 5. The relative proportions of native and foreign born males of voting age in these states, based upon the returns of the Twelfth Census, are given in table 25.

TABLE 25.—PERCENTAGE OF NATIVE AND FOREIGN BORN OF TOTAL MALES OF VOTING AGE: 1900.

STATES.	Native born.	Foreign born.	STATES.	Native born.	Foreign born.
	Per cent.	*Per cent.*		*Per cent.*	*Per cent.*
Kentucky	95.4	4.6	Maryland	86.7	13.3
Louisiana	92.0	8.0	Massachusetts	58.8	41.2
Maine	82.2	17.8			

Foreign born males of voting age in 1900 constitute in Massachusetts 41.2 per cent of all males of voting age, while in Maine this same element constitutes 17.8 per cent, and in Maryland 13.3 per cent, of all males of voting age. In Louisiana and Kentucky the proportions are even less, or 8 and 4.6 per cent, respectively.

Classifying the potential voters as native and foreign white and colored, the following percentages are obtained in table 26.

TABLE 26.—PERCENTAGE OF NATIVE AND FOREIGN WHITE AND COLORED OF TOTAL MALES OF VOTING AGE: 1900.

STATES.	NATIVE WHITE.		Foreign white.	Colored.[1]
	Native parents.	Foreign parents.		
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Kentucky	73.9	7.7	4.6	13.8
Louisiana	37.2	9.6	7.8	45.4
Maine	72.3	9.6	17.7	0.4
Maryland	53.4	14.6	13.1	18.9
Massachusetts	38.1	19.6	40.7	1.6

[1] Persons of negro descent, Chinese, Japanese, and Indians.

In Massachusetts foreign white persons constitute 40.7 per cent, and native white persons of foreign parentage 19.6 per cent, of the whole number of males of voting age in 1900, these two elements combined representing a trifle over three-fifths of all males of voting age in the state. In Maine and Maryland these same two elements combined constitute a little more than one-fourth, in Louisiana a little more than one-sixth, and in Kentucky not quite one-eighth, of all males of voting age in 1900.

Colored males of voting age constitute in Louisiana 45.4 per cent, in Maryland 18.9 per cent, and in Kentucky 13.8 per cent, of the whole number of males of voting age in 1900, this element in each of these states being principally persons of negro descent.

The number of males of voting age are classified according to literacy, in detail by general nativity and color, in tables 13, 14, and 15, and from these tables are derived the percentages of literate and illiterate males of voting age shown in tables 27, 28, and 29, respectively.

TABLE 27.—PERCENTAGE OF LITERATE AND ILLITERATE NATIVE AND FOREIGN BORN MALES OF VOTING AGE: 1900.

Kentucky	50.5	49.5	72.1	27.9	----------	----------	52.6	47.4
Louisiana	38.7	61.3	61.6	38.4	45.5	54.5	23.6	76.4
Maine	82.7	17.3	71.3	28.7	100.0	----------	55.8	44.2
Maryland	59.5	40.5	58.6	41.4	100.0	----------	----------	----------
Massachusetts	89.5	10.5	71.2	28.8	92.7	7.3	93.2	6.8

[1] Includes all persons of negro descent.

The proportion of illiterates in 1900 among males of voting age as a whole is comparatively small in both Maine and Massachusetts, being in each case 6.4 per cent, but in Louisiana 37.6 per cent, in Kentucky 18.8 per cent, and in Maryland 12.5 per cent, of all males of voting age are illiterate. The proportion of illiterates in each of the 3 states last named is due in good part to the presence among males of voting age of a considerable number of illiterate persons of negro descent.

Of the native white males of voting age who are of native parentage in Louisiana in 1900, 20.3 per cent are illiterate, while in Kentucky 15.5 per cent of this element are illiterate. Of foreign white males of voting age in Louisiana 24.6 per cent are illiterate, while in Maine 21.4 per cent, in Massachusetts 13.8 per cent, in Maryland 10.7 per cent, and in Kentucky 8.6 per cent, are illiterate. The proportion of illiterates among colored males of voting age in 1900 in all of the states of this group is considerable, the percentages ranging from 14.2 in Massachusetts to 61.2 in Louisiana.

Foreign born males of voting age are distributed according to citizenship and literacy in table 16, and from the figures therein presented is derived table 30, showing the proportion of foreign born males of voting age in 1900 who are naturalized or who have taken out first naturalization papers.

TABLE 30.—PERCENTAGE OF FOREIGN BORN MALES OF VOTING AGE DISTRIBUTED ACCORDING TO CITIZENSHIP: 1900.

STATES.	Naturalized.	First naturalization papers filed.	Aliens.	Unknown.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
Kentucky	74.3	2.7	6.9	16.1
Louisiana	49.6	3.7	30.0	16.7
Maine	34.3	2.0	44.6	19.1
Maryland	67.0	3.0	14.4	15.6
Massachusetts	43.5	4.3	37.3	14.9

Foreign born males of voting age in Massachusetts in 1900 number 347,731, and of these 151,285, or 43.5 per cent, are naturalized. Of the 42,687 foreign born males of voting age in 1900 in Maryland, 67 per cent are naturalized, and of the 38,732 males of this class in Maine, 34.3 per cent are naturalized. Of the 26,171 foreign born males of voting age in 1900 in Louisiana, 49.6 per cent are naturalized, and of the 25,224 males of this class in Kentucky, 74.3 per cent are naturalized.

Of the whole number of foreign born males of voting age in 1900, the alien element constitutes 44.6 per cent in Maine, 37.3 per cent in Massachusetts, 30 per cent in Louisiana, 14.4 per cent in Maryland, and 6.9 per cent in Kentucky.

There is a large proportion of illiterates among the alien element in these 5 states, as indicated by table 31.

TABLE 31.—PERCENTAGE OF LITERATE AND ILLITERATE FOREIGN BORN MALES OF VOTING AGE, IN DETAIL, ACCORDING TO CITIZENSHIP: 1900.

STATES.	NATURALIZED.		FIRST NATURALIZATION PAPERS FILED.		ALIENS.		UNKNOWN.	
	Literate.	Illiterate.	Literate.	Illiterate.	Literate.	Illiterate.	Literate.	Illiterate.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*
Kentucky	92.4	7.6	90.4	9.6	80.5	19.5	91.3	8.7
Louisiana	88.3	11.7	78.0	22.0	50.0	50.0	79.4	20.6
Maine	84.5	15.5	91.6	8.4	72.3	27.7	81.4	18.6
Maryland	92.2	7.8	86.2	13.8	74.9	25.1	88.5	11.5
Massachusetts	96.5	3.5	92.6	7.4	73.2	26.8	85.6	14.4

In Louisiana the illiterates constitute one-half of all the aliens in the state in 1900, while in Maine, Maryland, and Massachusetts about one-fourth, and in Kentucky nearly one-fifth, of the whole number of aliens are illiterate. Of the naturalized foreign born males of voting age in Maine in 1900, 15.5 per cent are illiterate, while in Louisiana 11.7 per cent, in Maryland 7.8 per cent, in Kentucky 7.6 per cent, and in Massachusetts 3.5 per cent, of this same element are illiterate.

William Rhodes Davis

Director of the Census.
