SCHEDULE B

STATISTICAL CLASSIFICATION OF DOMESTIC AND FOREIGN COMMODITIES EXPORTED FROM THE UNITED STATES

AND REGULATIONS GOVERNING STATISTICAL RETURNS OF EXPORTS OF COMMODITIES

PART I
ALPHABETIC INDEX

JANUARY 1, 1944, EDITION
(THIS SCHEDULE SUPERSEDES JANUARY 1, 1943, ISSUE)

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C.

STATISTICAL CLASSIFICATION OF DOMESTIC COMMODITIES AND FOREIGN COMMODITIES (REEXPORTS) EXPORTED FROM THE UNITED STATES AND REGULATIONS GOVERNING THE STATISTICAL RETURNS OF EXPORTS

(Abbreviations used in the following regulations are: Sec.—Section; T. D.—Treasury Decision; F.C.S.R.—Foreign Commerce Statistical Regulation; and F.C.S.D.—Foreign Commerce Statistical Decision)

DEPARTMENT OF COMMERCE
OFFICE OF THE SECRETARY
WASHINGTON, January 1, 1944

To Exporters, Collectors of Customs, Postmasters, and Others Concerned:

Beginning with the 1st day of January, 1944, the annexed schedule will govern in the classification of domestic and foreign commodities exported from the United States to foreign countries and United States territories and possessions. (Shipments from the United States to the Territory of Alaska are classified according to a mimeographed schedule published *separately* (Schedule H).) Before shipments may leave this country, whether by rail, air, water, highway, or other method of transportation, the United States Government requires that specific information for statistical purposes be shown on a Shipper's Export Declaration, Commerce Form 7525,[1] and that such declaration be filed by the shipper or his agent with a United States Collector of Customs at a port or border point of exit in the United States; or if shipped by parcel post, such declaration must be filed with the postmaster from which post office the merchandise is shipped.

Shipper's Export Declarations covering exportations to foreign ports must be filed prior to clearance. (Section 30.31, 30.33, 30.38, 30.39, F.C.S.R.)

1. *Penalty.*—The agent or other employee of any railway or transportation company who shall transport any merchandise into a foreign country before the delivery of export declarations as required by law shall be liable to a penalty of $50 for each offense. (Section 30.40, F.C.S.R.)

2. *Source of statistical information.*—The kinds, quantities and values of articles exported from the United States to foreign countries or shipped between the United States and its territories and possessions are compiled from the Shipper's Export Declarations, Commerce Form 7525, and all data required therein must be furnished in accordance with the instructions on the face of the form and its reverse side. (Sections 30.7(a), F.C.S.R.)

The contents of all copies of the Shipper's Export Declarations must be treated as confidential and may not be disclosed to others than the parties in interest by employees of the Customs Service, the Department of Commerce, and other United States Government Agencies without the written consent of the Secretary of Commerce. (Section 30.5(b), F.C.S.R.)

Collectors should impress upon exporters that the data in the Shipper's Export Declarations are the major source of information for compiling the statistics of exports published by the Bureau of the Census of this Department.

The Shipper's Export Declaration must be prepared in triplicate for shipments by vessel or air, and in duplicate for shipments by rail, car, ferry or other vehicle by the shipper, owner, or his authorized agent.[2]

The Shipper's Export Declaration must be prepared by the shipper, owner or consignor, or his properly authorized agent. If the Shipper's Export Declaration is prepared by an agent of the shipper, his authority to sign such declaration must be in the form of a properly executed power of attorney, signed by the owner, shipper or consignor, or in a less formal written authorization such as that printed on the Shipper's Export Declaration. The production of a power of attorney or authorization may be waived if the collector has personal knowledge that the person signing the declaration is authorized or is held out to the public by the shipper as his agent. In every event the data required in the Shipper's Export Declaration must be correct and be based on personal knowledge of the facts stated, or on invoices or information furnished by the principal. (Section 30.7(b), F.C.S.R.) (F.C.S.D. 33.)

3. *Type of shipments.*—Commerce Form 7525 or 7525-V, Shipper's Export Declaration, should be used for:

(*a*) All domestic export and foreign export (reexport) shipments (exclusive of Lend-Lease) to foreign countries and to United States Territories and Possessions.

(*b*) Shipments of merchandise withdrawn from bonded storage warehouses or from bonded manufacturing warehouses for exportation.

(*c*) Shipments exported with benefit of drawback.

Commerce Form 7525-DA or DA-V, Defense Aid Shipper's Export Declaration, should be used instead of Form 7525 or 7525-V for all exportations made under the Defense Aid (Lend-Lease) program.

---

[1] Unless otherwise specified, regulations relating to Commerce Form 7525, also apply to the revised vertical Commerce Form 7525-V and the Defense Aid (Lend-Lease) Shipper's Export Declaration (Commerce Forms 7525-DA and 7525-DA-V). Forms 7525 and 7525-V may be used interchangeably for all exports except those made under the Defense Aid (Lend-Lease) program. Forms 7525-DA and 7525-DA-V may be used interchangeably for Defense Aid (Lend-Lease) shipments.

[2] A copy of the Shipper's Export Declaration is acceptable in various foreign countries to meet certain of their entry requirements. Therefore, on shipments to those countries, an additional copy of the declaration may be submitted in order to expedite the movement of those shipments. This list of countries includes Canada, Haiti, Panama, Argentina, and Uruguay for air-express shipments.

4. *In-transit shipments and transshipments of merchandise.*—Commerce Form 7513, Shipper's Export Declaration for In-Transit Goods should be used for foreign merchandise: (*a*) Shipped in-transit through the United States, (*b*) transshipped in ports of the United States for foreign countries, (*c*) exported from General Order Warehouse, (*d*) rejected and exported, and (*e*) exported from Foreign Trade Zones. (Section 30.37(a) F.C.S.R.)

Commerce Form 7513-DA, Defense Aid Shipper's Export Declaration for In-Transit Goods should be used in lieu of Commerce Form 7513 for in-transit shipments made under the Defense Aid (Lend-Lease) program.

Shipper's Export Declarations, on Commerce Form 7525, are not required for foreign merchandise shipped in-transit through the United States from one foreign country to another. In lieu thereof, Shipper's Export Declaration for In-Transit goods, on Commerce Form 7513, will be used as provided in 19CFR 16.31(a) and (b) (Article 906(a) and (b), Customs Regulations 1937). (Section 30.29(a), F.C.R.S.)

Any Shipper's Export Declarations on Commerce Form 7525 filed by shippers for in-transit goods in addition to Commerce Form 7513 under a misunderstanding of the regulation, should not be forwarded to the Section of Customs Statistics, Foreign Trade Division at New York, Collectors should make a careful check of the outward foreign vessel manifest and railroad car manifest for the purpose of detecting such duplication of declarations.

5. *Export License Regulations.*—At the present time, the exportation of many commodities from the United States are subject to export license requirements. For more detailed information exporters are referred to the Comprehensive Export Schedule, issued by the Foreign Economic Administration, Washington, D. C. Copies of this publication may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C. for the price of twenty cents per copy. The individual or general export license number must be shown on all copies of the Shipper's Export Declaration in accordance with the instructions shown on the face of the form.

6. *Preparation and accuracy of statistical information.*—Shipper's Export Declarations must be legible and must be prepared on typewriter or in ink. Collectors will require that the data therein be complete and be inserted in the spaces provided therefor on the declaration form. If upon examination, any export declarations are found to be inaccurate or incomplete, either in the description of articles, or in omitting to state proper quantities, and values, or insertion of the intermediate country instead of the country of final destination, or containing any error apparent on the face of the declaration, the correction thereof will be required before the declaration is accepted. (Section 30.15, F.C.S.R.)

7. *Country of destination of exports.*—The place (city) and country of ultimate destination must be shown on the Shipper's Export Declaration. If the country of ultimate destination of the commodities exported is different from that for which the vessel, car or other vehicle clears or departs, collectors will require exporters and shippers or their agents to state in the Shipper's Export Declaration as the country of ultimate destination, the country to which the commodities are sold or destined for market. Special care should be taken to state the final destination of goods shipped through Canada to Europe and of goods shipped through Chile or Peru destined to Bolivia. (Section 30.11(a), F.C.S.R.)

For shipments by vessel, the foreign port and country of unlading must be shown on the Shipper's Export Declaration in addition to the country of ultimate destination. (F.C.S.D. 32.)

8. *Description of articles exported.*—The description of merchandise in export declarations must be stated in specific and not in general terms. Such designations as "fruits," "provisions," "groceries," "canned goods," "hardware," "machinery," or any other general term must not be used. The articles should be described in sufficient detail to permit of their classification under the proper classes of export Schedule B giving total quantity and value of each article, but omitting invoice details for different marks, sizes, and kinds of the same article. (Section 30.14(a), F.C.S.R.)

9. *Net quantities and gross shipping weights.*—The number of packages, boxes, barrels, bales, etc., must be specified, with quantities in the unit stated in this schedule, in net weight, exclusive of the weight of barrels, boxes, bottles, cans, cartons, jars, tubes and other immediate containers or other coverings, and of salt or pickle in the case of salted or pickled fish and meats. Tons, where required, should be given in long tons of 2,240 pounds, unless short tons of 2,000 pounds are specified. (Section 30.14(b), F.C.S.R.)

In addition to specifying the quantity in the units required by Schedule B, the gross shipping weight (in pounds) including the weight of all containers, must be stated on the Shipper's Export Declarations. (Section 30.14(c), F.C.S.R.)

In stating quantities, fractions of less than one-half will be ignored and fractions of one-half or over should be stated as a whole number. (Section 30.12, F.C.S.R.)

10. *Value of exports.*—Articles exported to foreign countries or shipped to United States Territories and Possessions shall be valued at their actual cost or the value which they may truly bear at the time of exportation of shipment in the ports of the United States from which they are exported or shipped, including the value of cartons, cases, crates, boxes, sacks, and coverings of any kind. (Section 30.9(a), F.C.S.R.)

The value stated should be the actual cost, or selling price if the goods are sold, including actual or estimated inland freight charges from the interior place of shipment to the seaport or border point of exportation. If shipped on consignment without a sale having been made, the market value at the time of exportation in the ports of the United States from which exported should be stated. (Section 30.9(b), F.C.S.R.)

Freight and other charges from the port of departure in the United States to the place of destination in the foreign country or noncontiguous territory to which shipped must *not* be included in the export value. (Section 30.9(c), F.C.S.R.)

When oils, other liquids, and compressed gases are shipped in steel drums, acids in carboys, and other goods in containers of high value as compared with the value of the contents, and the inclusion of the value of the containers with the value of the contents would raise the unit price of the commodity above the usual average price, (when the value of these metal drums and containers represent a value of 20 percent or more of the total value of the containers plus contents), the exporter should show in the declaration the quantity and value of the containers separately from the quantity and value of the contents, showing in another item the total value of the commodity including containers.

Values should be stated in whole dollars only, ignoring fractions of a dollar less than 50 cents and counting 50 cents and upward as $1. (Section 30.12, F.C.S.R.)

11. *Separation of domestic exports and foreign exports (re-exports).*—The export declaration must show foreign goods separately from goods of domestic production. Only those goods will be reported as foreign which have undergone no change in form or condition or enhancement in value by the application of labor in the United States, Articles made from foreign materials or changed from the condition in which imported by repacking, grinding, refining, or smelting will be classed as of domestic production or manufacture. (Section 30.8(a), F.C.S.R.)

The designation "D" for "domestic" and "F" for "foreign" must be shown in the appropriate column of the Shipper's Export Declaration.

Articles exported which are the growth, produce, or manufacture of the United States and articles of foreign origin which have been changed in form and enhanced in value by labor or manufacture in the United States are to be classed as domestic production or manufacture. (Section 30.8(b), F.C.S.R.)

Articles exported which had been previously imported, and which are the growth, produce, or manufacture of foreign countries, and are exported in the same condition in which imported, will be classified as of foreign origin. (Section 30.8(c), F.C.S.R.)

12. *Mail exportations.*—Shipper's Export Declarations on Commerce Form 7525 are required for exports by mail valued at $25 and over, shipped by business concerns in the United States to business concerns outside continental United States. (F.C.S.D. 26.)

13. *In-transit shipments.*—Commodities which, on arriving in the United States, from a foreign country are shown by the manifest, bill of lading, or invoice to be destined to a foreign country and are entered for shipment in-transit through or for transshipment in the port of the United Stated will not be included in the statistics of exports from the United States, but will be returned in a special in-transit report. (See paragraph No. 4.)

14. *Baggage.*—Shipper's Export Declarations are not required for personal effects or baggage of travelers, except for shipments requiring individual export control licenses. (Section 30.47, F.C.S.R.)

15. *Temporary exportations.*—Articles sent out of the country temporarily, such as automobiles for touring purposes, commercial samples, circuses, race horses, and other articles intended to be returned to the United States, which are not sold and do not enter the trade of the country to which sent, should not be included in the statistics as exports when shipped abroad. (Section 30.2(b), F.C.S.R.)

16. *Documentation.*—For shipments to Canada or Mexico by rail consisting of two or more cars, a separate Shipper's Export Declaration must be furnished for each car in order to avoid any possible delay at the border. (Section 30.42(d), F.C.S.R.)

If a shipment is divided at the port of exit by accident or intention, part being exported in one vessel or car and part in another, the agent of the carrier will note the amount shipped on the declaration attached to the vessel or car manifest. Declarations in triplicate covering subsequent shipments must be prepared by the carrier's agent from records of the previous shipment and be presented to the collector when the remainder is shipped. The number of the original declaration must be noted on each of the copies and duplicates. (Section 30.43. F.C.S.R.)

On shipments from interior points, the declaration should, wherever possible, be delivered to the rail carrier at point of origin or be mailed to the consignee, broker, steamship line, or agent designated to attend to the exportation at the port or border point of exit.

When declarations are delivered to rail carrier at point of origin, they must be attached to the waybill or be mailed to the agent of the delivering carrier at the port or border point of exit so as to reach there prior to arrival of the shipment covered thereby.

Upon arrival of the goods at the port or border point of exit the declarations will be delivered to the Collector of Customs, who will retain the original and the triplicate copy, certify and deliver the duplicate to the party designated to attend to the exportation, as a permit to export and as evidence that the original declaration has been filed with the Collector of Customs.

If the shipment originates at, or the declaration is prepared at the port or border point of exit, the shipper, owner, or his authorized agent must deliver the declaration in triplicate to the Collector of Customs.

17. *Shipments to United States Government Agencies or Establishments.*—No export declarations are required for shipments of office furniture, equipment and supplies, household goods and personal property shipped by United States Government offices or employees to United States offices or employees in foreign countries or noncontiguous territories for their exclusive use, or for shipments of books, maps, charts, and pamphlets made by United States Government offices to foreign libraries or Government establishments, or for shipment of military and naval supplies and equipment for the use of United States military and naval forces abroad, or for supplies, equipment, and other merchandise shipped to United States Government agencies or establishments. (Section 30.46, F.C.S.R.)

18. *Oaths.*—The original Shipper's Export Declaration for shipments by vessel must be verified by oath before a notary public, customs officer, or other person authorized to administer oaths. The oath is not required on declarations for shipments made by rail, vehicle, ferry or aircraft. (Section 30.7(c), F.C.S.R.) (F.C.S.D. 33.)

19. *Disposition of documents.*—The export declarations are to be transmitted by Collectors of Customs to the Section of Customs Statistics, Foreign Trade Division, at New York immediately after clearance of vessels and aircraft or departure of trains, in accordance with the provisions of F.C.S.D. 33 and instructions issued by the Bureau of the Census, Department of Commerce. (Section 30.28, F.C.S.R.)

20. *Classification decisions.*—Collectors and shippers are invited when the proper class under which a given article should be returned is in doubt, to submit such cases to the Section of Customs Statistics, Foreign Trade Division, Customs House, New York City, or the Foreign Trade Division, Bureau of the Census, Washington, D. C. (Section 30.1, F.C.S.R.)

21. *Classification Schedules:*

(a) *Schedule B, Statistical Classification of Domestic Commodities and Foreign Commodities (Reexports) Exported from the United States.*—Exporters should purchase a copy of Commerce Department Schedule B as the information contained therein is

necessary for the accurate preparation of these declarations. Schedule B may be purchased for a nominal charge from the Superintendent of Documents, Government Printing Office, Washington, D. C., or from the New York Field Office of the Department of Commerce, or from Collectors of Customs.

(b) *Schedule H, Statistical Classification and Code Numbers of Shipments of Merchandise to Alaska.*—This schedule may be obtained from Collectors of Customs, the Field Offices of the Department of Commerce, located in the principal cities of the United States, and from the Bureau of the Census, Washington, D. C. There is no charge for this publication.

22. *Purchases of forms used in reporting exports.*—Copies of the Commerce Form 7525-V and 7513 may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C., and Collectors of Customs, located in principal cities for the price of thirty cents per block of 100. Copies of the Defense Aid (Lend-Lease) Export Declarations (Commerce Forms 7525-DA, 7525-DA-V and 7513-DA) may be purchased from the Superintendent of Documents, Government Printing Office, for the price of thirty cents per block of 100. These forms may be printed by private parties, provided they conform strictly to the official form, in size, wording, color, and arrangement, including the instructions on the back of the documents.

23. On the last day of each month customs port will notify the Section of Customs Statistics, Foreign Trade Division, Customhouse, New York, New York, of the date and number of the last declaration passed at the port during the month. Where no declarations have been filed during the month a No Transactions report (Commerce Form 550) should be transmitted. (Section 30.21, F.C.S.R.)

24. *More detailed information relating to the preparation of the Shipper's Export Declaration may be obtained from the July 1942 issue of the Foreign Commerce Statistical Regulations (Title 15, Chapter I, Part 30, Code of Federal Regulations), copies of which may be obtained free of charge from Department of Commerce Field Office, located in principal cities; the Section of Customs Statistics, Foreign Trade Division, Customhouse, New York, New York; and the Foreign Trade Division, Bureau of the Census, Washington, D. C.*

Schedule J—CODE CLASSIFICATION OF VESSEL REGISTRY (FLAG) AND METHOD OF TRANSPORTATION

VESSEL SHIPMENTS

00 American vessels.
01 Philippines (use 00 for American) vessels
02 Argentine vessels.
03 Hungarian vessels.
04 Belgian vessels.
05 Brazilian vessels.
06 British vessels.
07 Chilean vessels.
08 Chinese vessels.
09 Cuban vessels.
10 Danish vessels.
11 Netherlands vessels.
12 Estonian vessels.
13 Finnish vessels.
14 French vessels.
15 German vessels.
16 Greek vessels.
17 Guatemalan vessels.
18 Honduran vessels.
19 Italian vessels.
20 Japanese vessels.
21 Yugoslavian vessels.
22 Latvian vessels.
23 Lithuanian and Memel vessels.

VESSEL SHIPMENTS—Continued

24 Mexican vessels.
25 Norwegian vessels.
26 Peruvian vessels.
27 Polish vessels.
28 Portuguese vessels.
29 Rumanian vessels.
30 U.S.S.R. (Russian) vessels.
31 Spanish vessels.
32 Swedish vessels.
33 Turkish vessels.
34 Uruguayan vessels.
35 Siamese (Thailand) vessels.
36 Nicaraguan vessels.
37 Danzig vessels.
38 Panamanian vessels.
39 Paraguayan vessels.
40 Dominican vessels.
41 Czecho-Slovakian vessels.
42 Costa Rican vessels.
43 Egyptian vessels.
44 Colombian vessels.
45 Venezuelan vessels.
46 Haitian vessels.
48 Ecuadoran vessels.
49 Bulgarian vessels.

VESSEL SHIPMENTS—Continued

50 Armenian vessels.
51 Moroccan vessels.
52 Arabian vessels.
53 Syrian vessels.
54 Bolivian vessels.
55 Iraq vessels.
57 Palestinian vessels.
58 Icelandic vessels.
59 Greenland vessels.
60 Swiss vessels.
61 Eire vessels.

SHIPMENTS OTHER THAN BY VESSEL

91 Shipments by air.
93 Shipments by rail.
95 Shipments by truck.
98 All other (including parcel post and ferry shipments).

CODE CLASSIFICATION OF UNITS OF QUANTITY WITH ABBREVIATIONS

1	LB	Pound
2	TON	Long ton (2,240 lbs.)
3	LYD	Linear yard
4	SYD	Square yard
5	BU	Bushel
7	GAL	Gallon
8	PFG	Proof gallon
9	PR	Pair
10	DPR	Dozen pair
11	CWT	Hundredweight
12	BKT	Basket
13	BOX	Box
13	PK	Pack (cards)
14	BAL	Bale
15	BBL	Barrel
17	BCH	Bunch
18	CRD	Cord
20	NO	Number
20	PC	Piece
20	ROL	Roll
21	DOZ	Dozen
22	GR	Gross
23	M	M (1,000)
24	C	C (100)
25	SET	Set
26	SQ	Square
28	LFT	Linear foot
28	CFT	Cubic foot
28	SFT	Square foot
30	MBF	M (1,000) bd. feet
34	AOZ	Avoirdupois ounce
35	TOZ	Troy ounce
36	MGR	Milligram
37	GRM	Gram
38	MCF	M cubic feet
43	CAR	Carat
46	RM	Ream
47	CLB	Content pound
49	STN	Short ton (2,000 lbs.)
50	CEL	Cell (battery)
51	RND	Round

CODE CLASSIFICATION OF ECONOMIC CLASSES

Crude materials:
- 0. Agricultural.
- 1. Nonagricultural.

Crude foodstuffs:
- 2. Agricultural.
- 3. Nonagricultural.

Manufactured foodstuffs and beverages:
- 4. Agricultural.
- 5. Nonagricultural.

Semimanufactures:
- 6. Agricultural.
- 7. Nonagricultural.

Finished manufactures:
- 8. Agricultural.
- 9. Nonagricultural.

HOW TO USE
THE SCHEDULE B ALPHABETIC INDEX
(PART I)

1. Use the alphabetic index as you would a dictionary of commodity descriptions.

2. Refer to the usual specific name of the commodity, i.e., "emery powder," "welded steel boiler tubes," "turret lathe," etc. If the commodity description contains two or more key words, such as "welded steel boiler tubes," look up all the key words if you do not find a clear description under one of the key words you try.

3. Insert the Schedule B number shown in the required column of the "Shipper's Export Declaration." Insert in the proper column of the declaration the quantity of the commodity being shipped in terms of the unit of quantity shown in the index. A few commodities which require the quantity to be shown in two different units have been marked with an asterisk (*) in the index. For example, "cotton" must be reported both in bales and pounds. The units of quantity shown after the commodity descriptions are abbreviations. The complete names of the units of quantity are shown on page XI.

4. If you do not locate the commodity under its usual specific name, refer to the name of the general group of commodities of which it is a part -- i.e., "abrasives natural and artificial," "steel tubular products and fittings," "metal-working lathes," etc. Specific commodities are listed under these general headings and a code number is provided for all commodities of each general type which are not shown individually.

5. As in previous editions of Schedule B, code number 9999.90 should be assigned to commodities which are not clearly described in Schedule B.
