* From the above number of tanneries reported, and the very small quantity of hides tanned, it is probable the assistant marshal has returned plantation tanneries, where one or more vats are used; they are, therefore, rejected as tanneries in the general aggregate.

* From the above number of tanneries reported, and the very small quantity of hides tanned, it is probable the assistant marshal has returned plantation tanneries, where one or more vats are used; they are, therefore, rejected in the general aggregate.

KENTUCKY—Continued.

* The above amount of capital invested in non-enumerated manufactures in the city of Cincinnati appears extravagant, and more especially so from the marshal's returning no product of value from said capital of $4,443,312. The numbers of the marshal are given, but it appears, from a publication of Charles Cist, who took the census of Cincinnati, that the value of the manufactures amounts to $17,432,670.

INDIANA.
