CORRECTION NOTE

As stated on page III, chapter C corresponds to the PC(1)-C individual State reports. After completion of the computer tabulation on which the PC(1)-C reports were based, a misclassification was discovered between the farm and nonfarm components of the rural population. This misclassification did not affect the data for the rural area as a whole, or for urban areas or the State as a whole. Certain portions of the tabulations were reprocessed for presentation in chapter C and corrected farm-nonfarm figures are presented here. As a result of this reprocessing, however, the distributions by certain characteristics for the total rural population implicit in the farm-nonfarm data presented in tables 48 to 58, 70 to 80, and 134 to 137 may not always be consistent with the area-wide totals shown in chapter C; these differences, which are relatively minor, may occur in the data on school enrollment, residence in 1965, occupation, income, and poverty.

Some respondents misunderstood the question on which the data for "Persons of Spanish origin or descent" are based (see page App. 10 for definitions of the "Spanish heritage" population). As a result of this misinterpretation, there is a substantial overstatement in this report in the number of such persons shown in tables 49, 60, 71, 81, 102, and 119 and in the statistics on vocational training, marital history, and disability shown for such persons in tables 51, 52, and 53. The data presented in this report for the various other "Spanish heritage" groups are not affected.
