No. 356.—CIVIL SERVICE: Number of Positions, by Status, on July 1, 1911, Additions by Appointments, etc., and Subtractions by Separations, etc., During the Fiscal Year, and Number of Positions on June 30, 1912.

[Source: The Civil Service Commission.]

[This table is based upon the number of positions shown in the Official Register of 1903, and changes in the service since reported by the departments and offices. Some of the reports were not made in such manner as to permit of a definite distinction as to employment in Washington and elsewhere. The figures are therefore to be regarded as approximate only. Omissions to report certain changes, as explained in the detailed tables, and neglect of details necessary only for statistical purposes also contribute to making the figures approximate only.]

[1] Figures in the presidential column are from Senate Document No. 836, Sixty-first Congress, third session, furnished in response to Senate resolution of Dec. 21, 1910.

[2] Most of the unclassified appointments and separations in the Department of Commerce and Labor were of persons appointed under the Thirteenth Census Act, outside of the provisions of the Civil Service Act and Rules.

[3] Mechanics and laborers in navy yards are unclassified according to an opinion of the Attorney General, July 6, 1909. Separations are not reported. The number of appointments was 12,807, and the total number of positions has remained for several years about 25,000.

[4] The positions are in the Post Office Inspection Service and the envelope agencies.

[5] The 8,228 presidential positions are those of postmasters, the increase during the year being 234. The larger number of the unclassified positions are those of clerks and assistant postmasters in third-class post offices. The number of competitive positions on July 1, 1911, in this table is larger than that given in the table for last year by 3,778 positions of assistant postmasters and clerks classified by executive order of Sept. 30, 1910, in effect Dec. 1, 1910, and the number of unclassified positions is correspondingly smaller.

[6] Changes in the force of unclassified fourth-class postmasters are not reported, but the total number diminished during the year by 786.

[7] The number (4,601) under excepted positions indicates pension examining surgeons and specialists for pensions.

[1] On account of the abundance of eligibles remaining from the previous year few examinations were held; percentage upon the basis of these figures would therefore be deceptive.

[2] The railway mail papers were not rated in time to give number passed, and it is therefore not possible to give figures.

[1] The civil-service rules prior to Apr., 1903, defined the Departmental Service as including all classified positions except those in the Post Office, Customhouse, Internal Revenue, and Government Printing Services. The majority of such positions is found in the field, not in the departments at Washington, but all former reports have shown them as "Departmental," following the civil-service rule referred to. In this report for the first time an effort has been made to limit "Departmental" to its original meaning, showing field-service examinations under a separate heading; hence the apparent great discrepancy in the "Departmental" figures as compared with those in previous reports.

No. 357.—CIVIL SERVICE: NUMBER OF PERSONS EXAMINED, ETC.—Continued.

Branch of service and period covered.	Approximate number of classified competitive positions.	Examined.	Passed.	Per cent that passed.	Appointed.	Per cent appointed of those that passed.
