Error in Estimates for Hawaii Geographies in the EEO Tabulation 2006-2010

The Census Bureau identified errors in the EEO Tabulation 2006-2010 estimates of the number of people with the following four race and ethnicity categories: not Hispanic or Latino, Native Hawaiian and Other Pacific Islander and White; not Hispanic or Latino, Native Hawaiian and Other Pacific Islander and Asian; not Hispanic or Latino, Native Hawaiian and Other Pacific Islander, Asian, and White; and Balance of not Hispanic or Latino, which includes the balance of non-Hispanic individuals who reported multiple races or reported Some Other Race alone. The specification of the estimates referred to an invalid base reference table, resulting in an estimate of zero people in these categories. The percentages for these race and ethnicity categories were correct. These errors occurred on tables EEO-ALL01R and EEO-ALL01W for geographies in Hawaii only.

Corrected tables were released on June 13, 2013 in American FactFinder.
