

The Census Information Center (CIC) Program

A premier partner of the United States Census Bureau

HISTORY

In 1988, the Census Bureau and the National Urban League entered into a cooperative venture to broaden the delivery of Census data and information to minority communities.

CENSUS INFORMATION CENTER PROGRAM

EXPANSION

- 1988 – The CIC pilot program begins, modeled after the State Data Center Program, with 5 organizations:
 - National Urban League
 - National Council of La Raza
 - Asian & Pacific Islander American Health Forum
 - Americans for Indian Opportunity
 - Southwest Voter Research Institute
- 2000 – The network grows from 5 to 59 organizations
- 2018 – There are currently 52 CICs

WHO ARE WE?

- **52 Local Community-based & National Non-Profits**
 - 12 with Asian American focus
 - 10 with African American focus
 - 8 with Hispanic focus
 - 5 with Native American focus
 - 2 with Arab American & Polish American focus
 - 1 with Native Hawaiian & Other Pacific Islander focus
 - 2 with Rural focus
 - 1 with Children focus
 - 8 with Diverse focuses
 - 16 Colleges & Universities

MISSION & VISION

The mission of the CIC Program is to promote and provide timely access to Census Bureau data products through a wide network of organizations to empower underserved population groups.

The vision is to facilitate community empowerment through sustainable data access, analysis, and education.

GUIDANCE, STRUCTURE & REQUIREMENTS

WHY US?

- We are trusted voices within our communities
- We are members of the communities we represent
- We serve our communities in multiple ways in addition to census related functions
- We are local, state, national leaders
- And... we're data nerds!

WHAT DO WE DO?

- **Data Dissemination**
 - Data requests
 - Technical assistance
 - Training, workshops and presentations
 - Customized reports, fact sheets, policy briefs
- **Promote Census**
 - 2020 Census Complete Count Committees
 - Community Dialogues

IMPACTS: DIRECT & INDIRECT

- **Effective use of census data**
 - Allocation of funds
 - Influence policy at the grassroots level
 - Decisions about community development
 - Obtaining grants
- **Greater understanding of & trust in Census Bureau within our communities**
 - Improved participation in census and surveys
 - Increased funding for communities

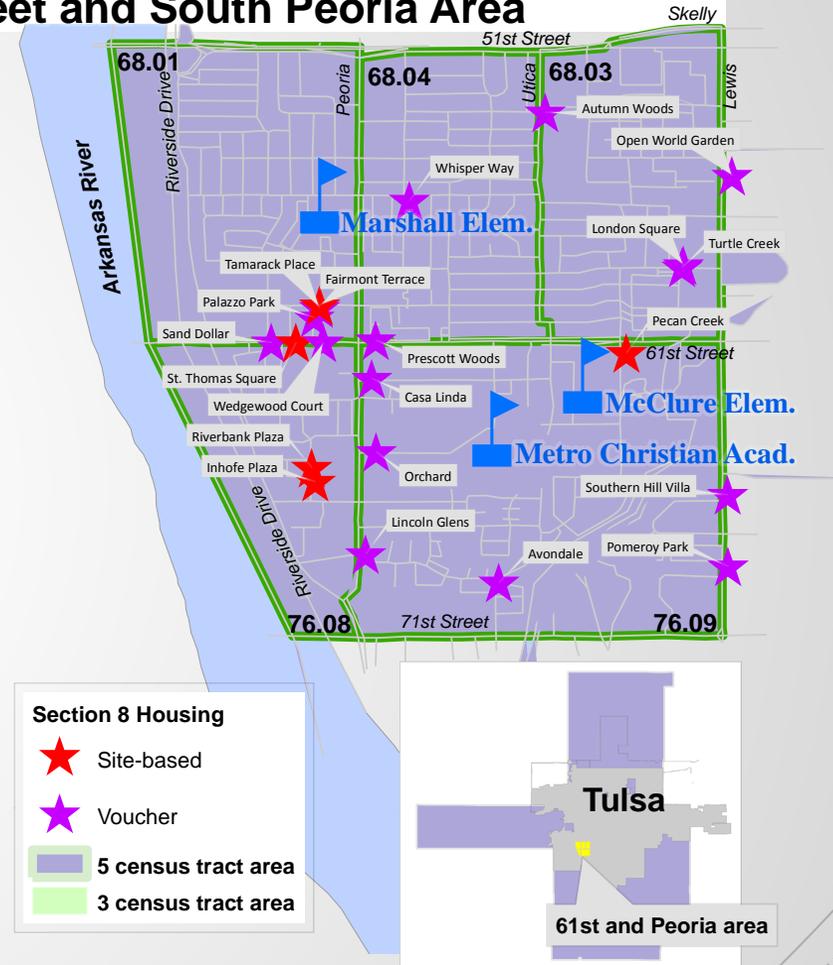

So what do CICs
REALLY do?

In This Issue

- Parents with Nonstandard Working Schedules
- The Growing Black-White Wage Gap
- Urban Revival is a Myth

Issue: #505 **December 13, 2017**

The Census Information Center of Eastern Oklahoma, a program of the Community Service Council, provides access to data generated from the U.S. Census Bureau.

Parents Burning the Midnight (and Weekend) Oil

From: U.S. Census Bureau, Census Blogs

Of the 72.3 million children in the United States living with at least one of their parents, 43 percent (31.0 million) live with a parent who is working a nonstandard schedule.

Any schedule that does not reflect the traditional Monday through Friday daytime schedule is considered nonstandard. Parents with more than one job are considered nonstandard workers if any of the jobs have nonstandard schedules, such as evenings/nights, irregular or weekend hours.

NiLPnote: The Trump administration has decided to propose to effectively exclude over 18 percent of the Latino population from the 2020 Census. By calling on the US Congress to approve adding a Citizenship Question, the administration is willing to make this the most inaccurate Census in history as part of the Trump Reign of Immigration Terror.

Arturo Vargas of NALEO, a member of the Census Bureau's National Advisory Committee on Race, Ethnic and other Populations, reacted to this decision as follows:

"The Department of Commerce decision to add a citizenship question to the 2020 Census is an affront to the federal government's constitutional duty to carry out a complete count of the entire U.S. population. It undermines the work of the Census Bureau, needlessly wastes millions of taxpayer dollars because it is unnecessary and untested, and is clearly intended to depress the response rates by Latinos. NALEO will join hundreds of others who believe in a just democracy to fight this decision and ensure a fair and accurate Census."

The final decision of which questions are included in the 2020 Census lies with the US Congress. By April 1st the Census Bureau is required to submit the list of questions to Congress for approval. It is there where this decision by the Trump Administration can be stopped. But the Commerce Secretary apparently has discretionary authority to add this question, although this is also something that could be stopped by Congress.

As the article below reports, this move by the Trump Administration will be challenged legally, an action being led by Xavier Becerra, California's attorney general.

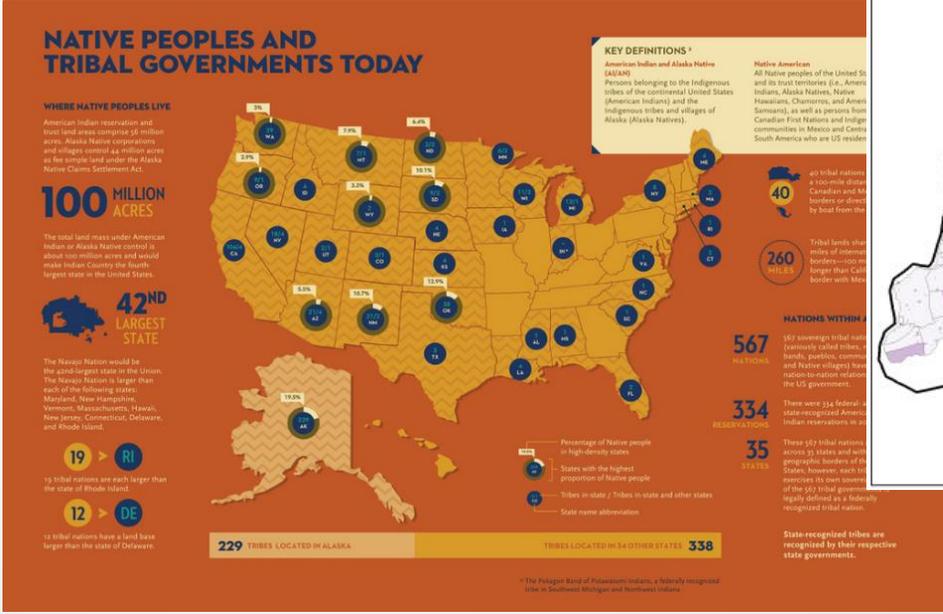

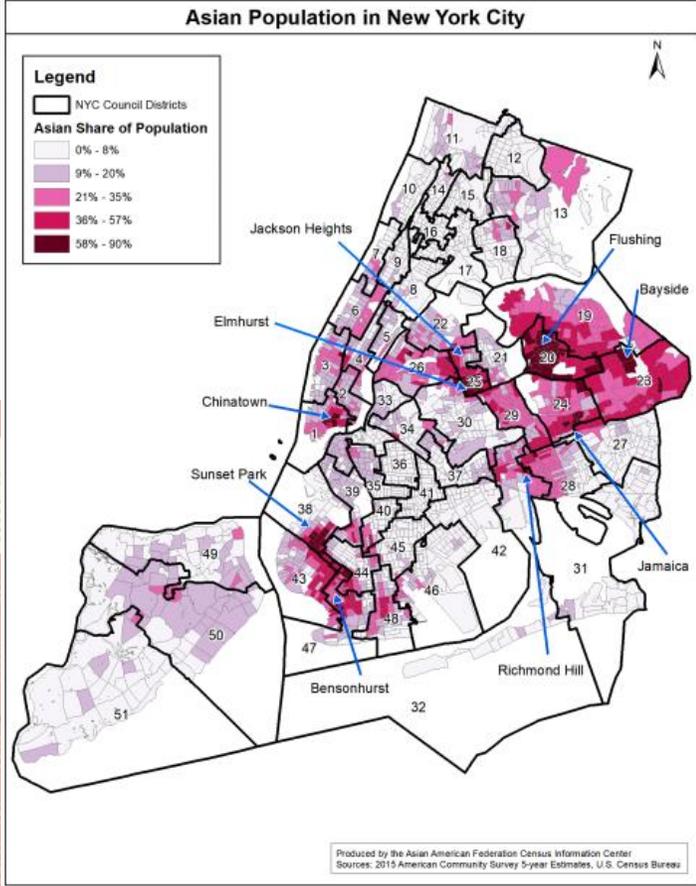

Vargas hosted an interactive webinar to discuss the implications of this critical issue for the Latino community, and address how NALEO and its partners plan to move forward if the Secretary directed the Census Bureau to add a citizenship question to the 2020 Census.
