Self-Response Rates Definition

$$\text{Overall self-response rate} = \frac{\text{(Paper responses + Suff. CQA resp + Suff. Internet resp)}}{\text{Self-Response Rate Universe}} * 100$$

Note that the rates in this report do not match the self-response rates available in the UTS self-response reports because this report (1) counts paper responses as soon as they are identified as in the mail stream or checked in; and (2) includes Update Leave enumeration areas (TEA 6) in the calculations.

The rates in this report are the same as those available in the public-facing map.
