Issues/ Concerns

For SBE, as the fires continue in Western states, many homeless people are hunkering down in place or trying to find more shelters and soup kitchens so they can be indoors to mitigate smoke hazards. However, mobile food vans are decreasing and many will not be in the streets due to secondary fire hazards from smoke.

ACOs currently impacted

- ***Directly affected by the fire or smoke with possible closures of ACO***

- WA state - [REDACTED]

- OR state - [REDACTED]

- CA state – [REDACTED]

- ***Indirect impact from the fires with smoke hazards for field workers***

- 8 ACO's in Northern CA – [REDACTED]

- 3 ACO's in Central CA – [REDACTED]

- Other ACOs may need to be added to this list as the fires move and expand

Background: 2020 Census Service Based Enumeration (SBE)

- The SBE operation is conducted at service-based locations and targeted non-sheltered outdoor locations (TNSOLs) to provide an opportunity for people experiencing homelessness to be included in the census. These service-based locations include:
 - Shelters For People Experiencing Homelessness
 - Soup Kitchens
 - Regularly Scheduled Mobile Food Vans
- Planned modes of data collection for SBE are:
 - In-Person interview
 - Paper listings—Field staff pick up a paper listing from the GQ administrator.
 - Paper listings are keyed at the National Processing Center.
 - Drop Off/Pick Up – adding this option for Shelters
- Conduct SBE data collection: 9/22 – 9/24
 - TNSOL Enumeration: Evening of 9/23 through morning of 9/24
