data.census.gov: Changing the way you get data at the U.S. Census Bureau

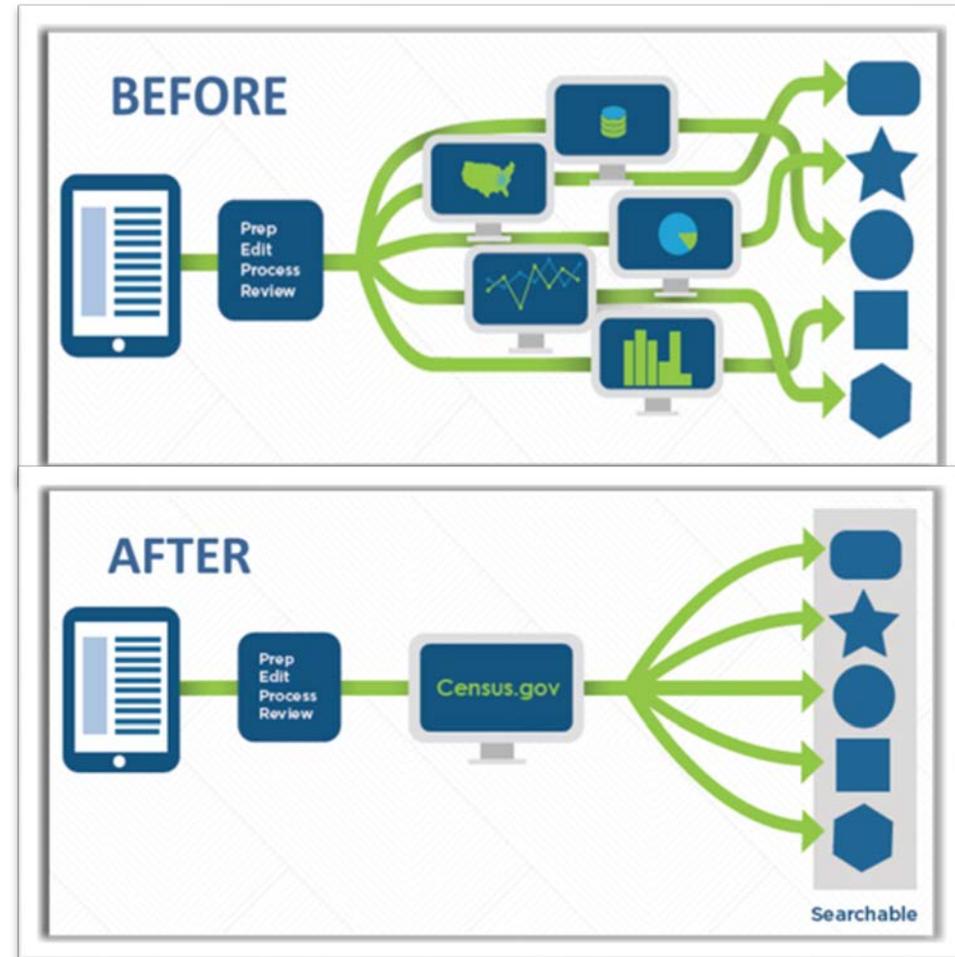

Data.census.gov is now exclusively releasing data:

- Streamline access to data on census.gov search
- Maintain best of current tools
- Reduce redundancies and costs
- Provide greater access to Census API

Data.census.gov is still a work in progress:

- Agile software development process
- Two month cycle of development:
 - Develop, Release, Feedback, Redefine, Release Again

American FactFinder Retired in Summer 2019 and decommissioned in Spring 2020.

Latest Updates

Highlights from Latest Release

- More collections of geographies added
- Ability to change Table ID within the Advanced Search
- Ability to print tables
- Updated layout for reference map view
- Responsive design for table display in mobile devices
- Descriptions on column headers on select datasets

More collections of geographies added

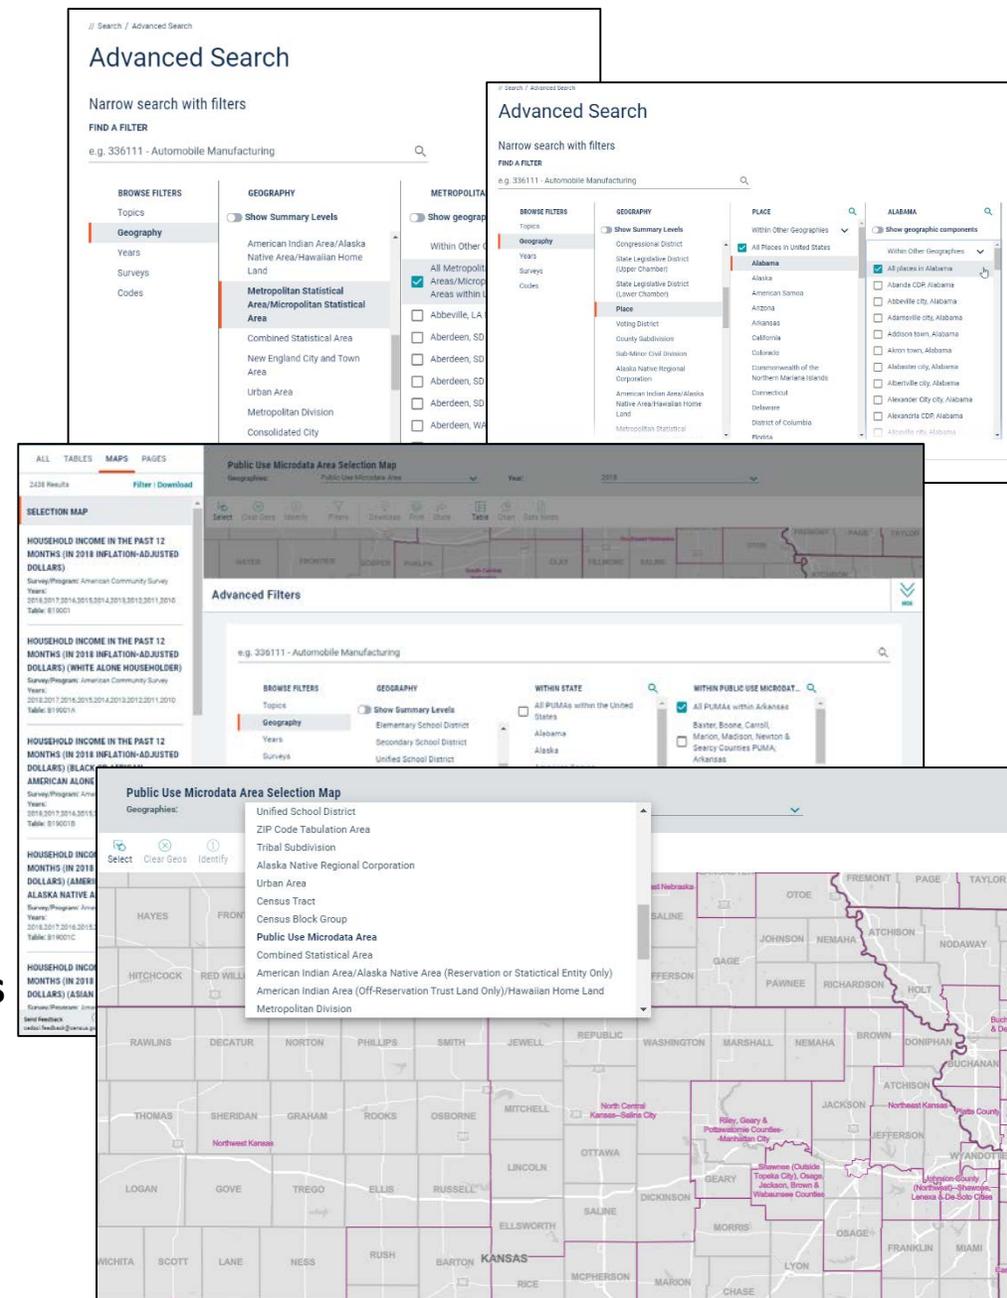

Collection of geographies found in data.census.gov right now:

- All States in the United States
- All Counties within the United States and all States
- All Places within the United States and all States
- All Congressional Districts for the 111th through **116th** Congresses in the United States and within States
- All American Indian Areas / Alaska Native Areas / Hawaiian Home Lands (AIA/ANA/HHL) within the United States and by State
- **All ZIP Code Tabulation Areas (ZCTAs) in the United States**
- **All State Legislative Districts, Upper Chamber and Lower Chamber within State**
- **All County Subdivisions within State and County**
- **All Urban Areas within the United States**
- **All Metropolitan-Micropolitan Statistical Areas within the United States**
- **All Census Tracts within State and County**
- **All School Districts (Elementary, Secondary, and Unified) within States**
- **All Block Groups within Counties, and Tracts**
- **All Combined Statistical Areas within the United States**
- **All Public Use Microdata Areas (PUMAs) within the United States and all**

Bold: New Release since Oct 2019

How to access 2017 ACS 5-Year data for educational attainment in all census tracts within Gallatin County, Montana

1. Use Advanced Search to specify
2. Click "Geography" → click "Tract" → click "Montana" → click "Gallatin County, Montana" → select "All Census Tracts within Gallatin County, Montana" → then click on "SEARCH" button.

The screenshot displays the 'Advanced Search' interface on the U.S. Census Bureau website. On the left, the 'Explore Census Data' header is visible with a search bar and a link to 'Advanced Search' highlighted by a red arrow. The main search area is titled 'Advanced Search' and includes a search bar with the placeholder 'e.g. age, sex, population...'. Below this is a 'Narrow search with filters' section with a search bar for 'FIND A FILTER' (e.g. 336111 - Automobile Manufacturing). The filter navigation pane on the left shows 'Geography' selected. The 'GEOGRAPHY' section has 'Tract' selected. The 'WITHIN STATE' list has 'Montana' selected. The 'MONTANA' list has 'Gallatin County, Montana' selected. The 'GALLATIN COUNTY, MONTANA' list has 'All Census Tracts within Gallatin County, Montana' selected. The 'SEARCH' button is circled in red at the bottom right.

How to access 2017 ACS 5-Year data for educational attainment in all census tracts within Gallatin County, Montana (continued)

The image displays three sequential screenshots of the Census Bureau's data selection interface. The first screenshot shows the 'TOPICS' menu with 'Education' selected and 'Educational Attainment' checked. The second screenshot shows the 'YEARS' menu with '2017' selected. The third screenshot shows the 'SURVEYS' menu with 'ACS 5-Year Estimates Detailed Tables' selected. A 'SEARCH' button is circled in red in the bottom right of the third screenshot.

1. Click "Topics" → click "Education" → then select "Educational Attainment"
4. Click "Years" → then select "2017"
5. Click "Surveys" → then select "ACS 5-Year Estimates Detailed Tables"
6. Click on "SEARCH"

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban and rural areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols

An "X" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "X" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of means cannot be calculated because one or both of the estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "X" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "X" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "X" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "X" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "X" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

How to find all census tracts in Gallatin County, Montana through map?

The screenshot shows the 'Census Tract Selection Map' interface. On the left, there are navigation tabs for 'ALL', 'TABLES', 'MAPS', and 'PAGES', with 'MAPS' selected. Below these are statistics for 'AGE AND SEX', 'POPULATION 60 YEARS AND OVER IN THE UNITED STATES', 'POPULATION 60 YEARS AND OVER IN PUERTO RICO', and 'POPULATION 65 YEARS AND OVER IN THE UNITED STATES'. The main map area shows a map of Gallatin County, Montana, with a dropdown menu open for 'Geographies'. The menu items are: American Indian/Alaska Native/Native Hawaiian Area, Elementary School District, Secondary School District, Unified School District, ZIP Code Tabulation Area, Tribal Subdivision, Alaska Native Regional Corporation, Urban Area, **Census Tract** (highlighted with a red box), Census Block Group, Public Use Microdata Area, and Combined Statistical Area. A legend at the bottom left indicates 'Selected Geographies' with a count of 0.

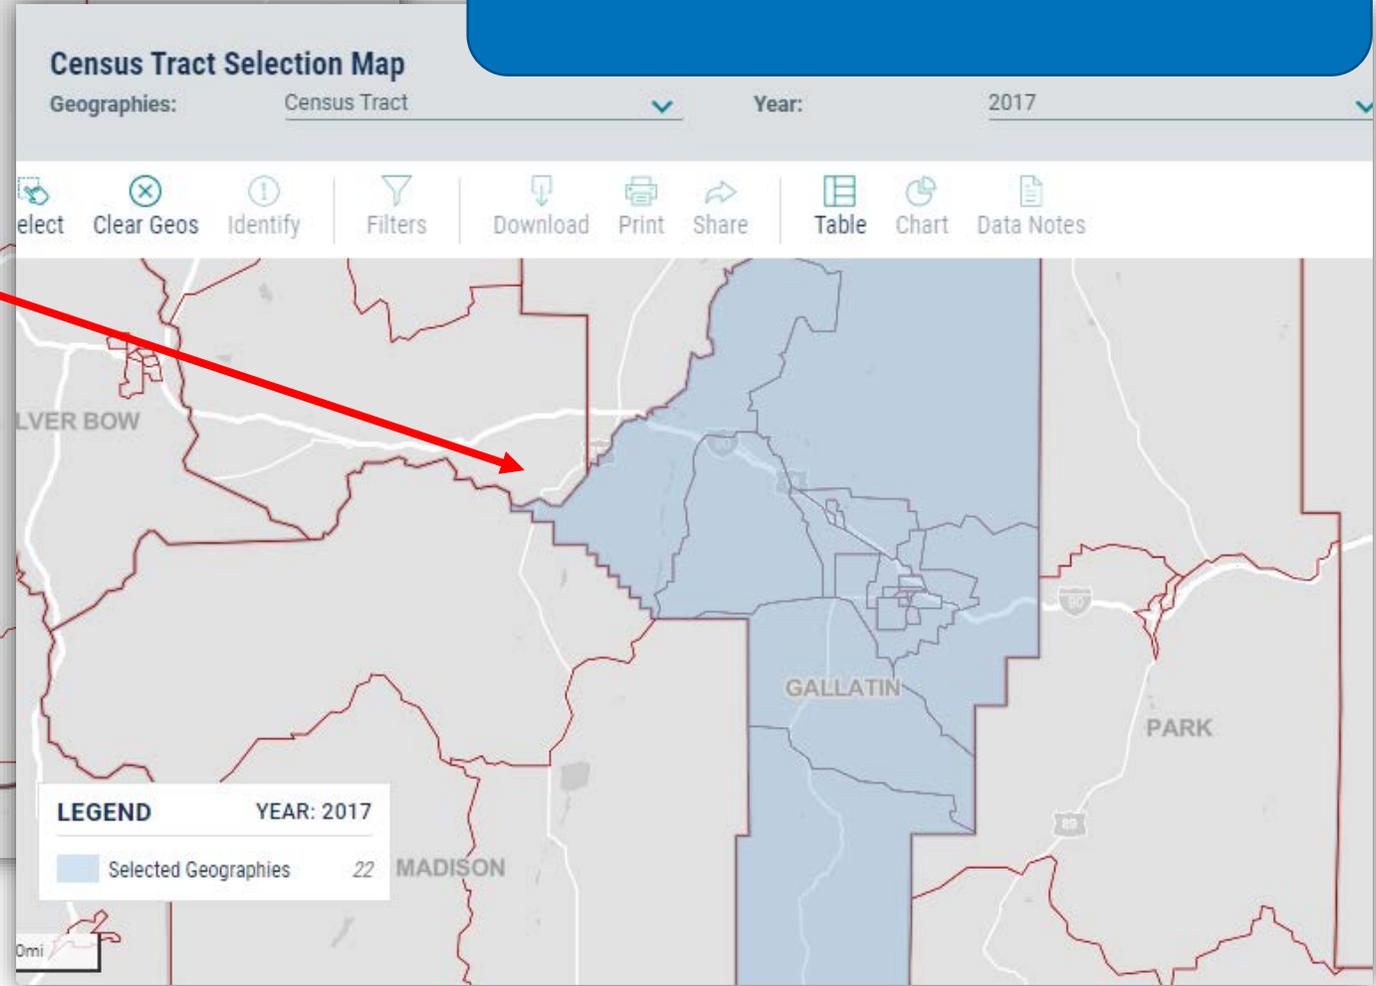

Go to the map → select “Census Tract” at Geographies dropdown → click on an individual tract to add it.

The screenshot shows the 'Census Tract Selection Map' interface after a census tract has been selected. The 'Geographies' dropdown is now set to 'Census Tract' and the 'Year' is set to '2018'. The map shows several census tracts highlighted in blue. A tooltip for tract '5.01' is visible, with a 'Select' button and a link to '5.01 PROFILE'. The legend at the bottom left indicates 'Selected Geographies' with a count of 3.

How to find all census tracts in Gallatin County, Montana through map?

Or use the rectangle tool to add multiple tracts at one time.

Mapping: View Table of Mapped Estimate

You can now create a table view of the single estimate you mapped

1. Click Customize Map
2. Click View Table in the left panel
3. View your table

The screenshot displays the United States Census Bureau web application interface. The top navigation bar includes the 'United States Census Bureau' logo and a search bar containing the text 'commuting'. Below the search bar, the main content area is titled 'Total-Workers 16 Years And Over-Estimate'. The interface is divided into several sections: a left sidebar with a legend and a 'VIEW TABLE' button, a central map showing state-level data, and a 'Map Table' section at the bottom. The 'Map Table' section contains a table with two columns: 'Geography' and 'Workers 16 years and over-Estimate'. The table lists data for Alaska, Maine, North Carolina, Missouri, Pennsylvania, Michigan, Nebraska, and Oregon. A red arrow points from the 'VIEW TABLE' button in the left sidebar to the 'Map Table' section. Another red arrow points from the 'CUSTOMIZE MAP' button in the top right corner to the 'Map Table' section. A third red arrow points from the 'VIEW TABLE' button to the 'Map Table' section.

Geography	Workers 16 years and over-Estimate
Alaska	355403
Maine	665930
North Carolina	4858875
Missouri	2890814
Pennsylvania	6136003
Michigan	4615506
Nebraska	986223
Oregon	1994598

Census Geocoder Address Lookup

Find the block group and census tract for an address:

- Click **Address** under “Find Geographies Using...”
- Enter street address (example: **2300 Empire Ave, Burbank, CA 91504**)
- Click **Find**

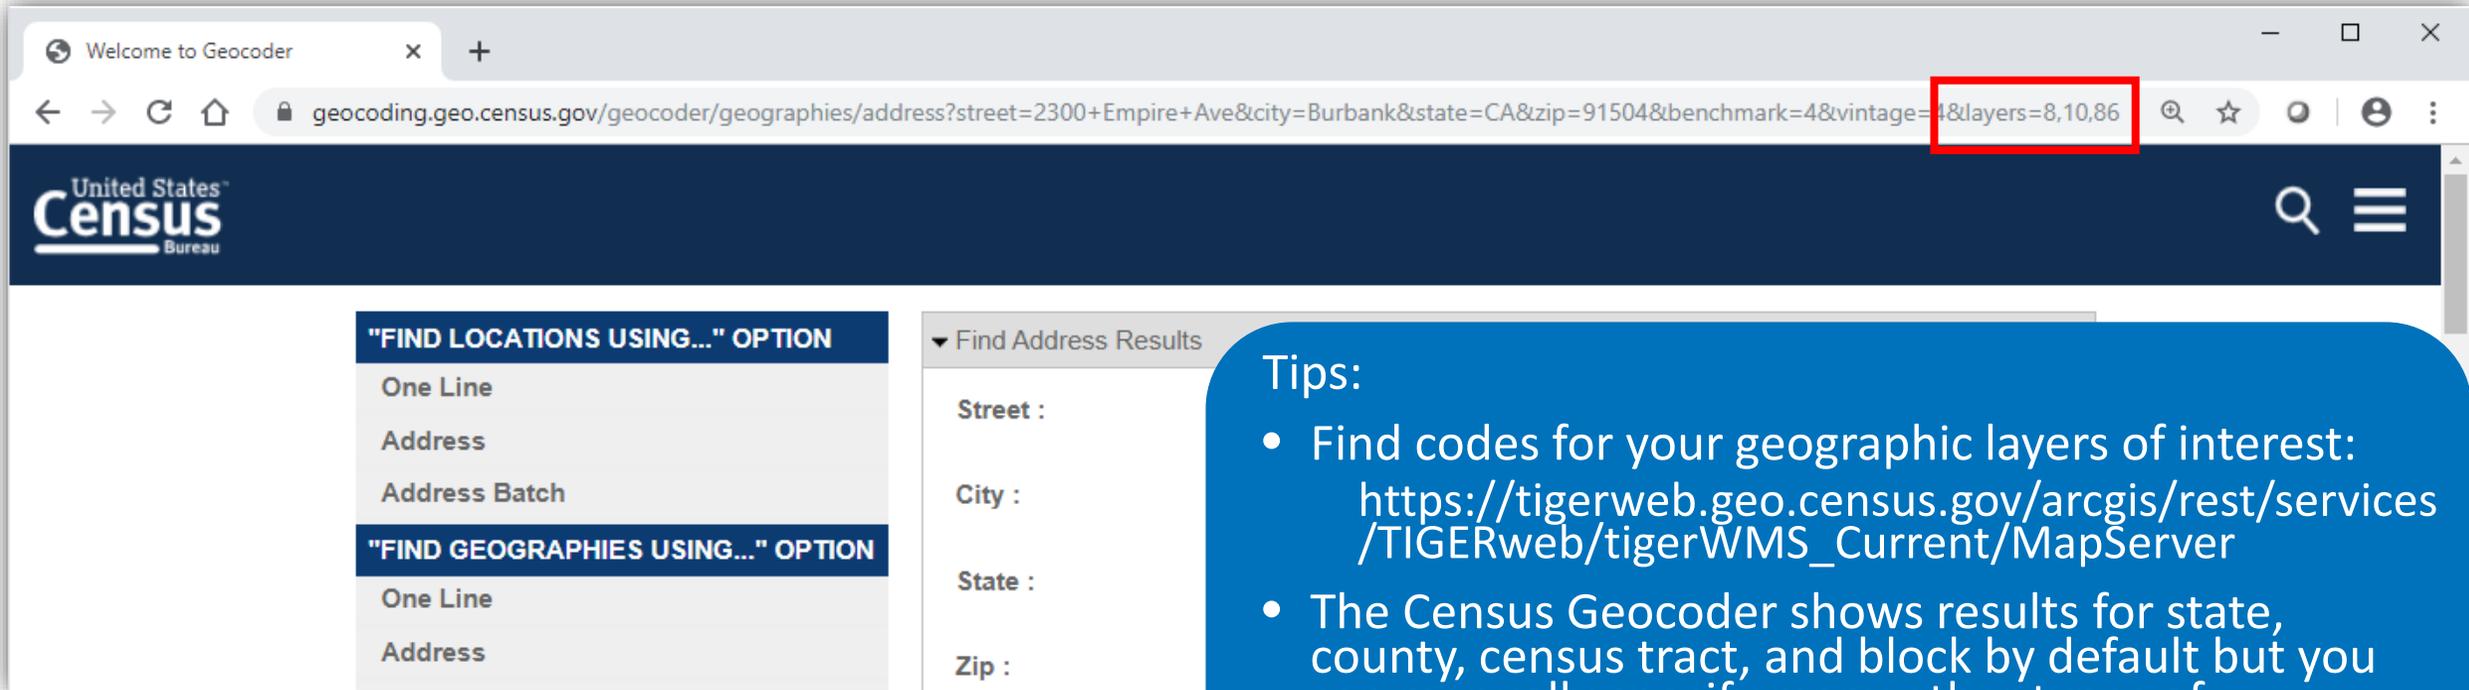

The screenshot shows the Census Geocoder interface. On the left, there are three main sections: "FIND LOCATIONS USING..." OPTION, "FIND GEOGRAPHIES USING..." OPTION, and "ABOUT DATA...". Under "FIND GEOGRAPHIES USING..." OPTION, the "Address" option is highlighted with a red box. The main form area is titled "Find Address Results" and contains several input fields: "Street" (2300 Empire Ave), "City" (Burbank), "State" (CA), and "Zip" (91504). Below these are "Benchmark" (Public_AR_Current) and "Vintage" (Current_Current) dropdown menus. A "FIND" button is located at the bottom left of the form area, also highlighted with a red box.

geocoding.geo.census.gov/geocoder

Census Geocoder Address Lookup (continued)

Edit URL to get results for block group (8), census tract (10) and county (86)

- Add **&layers=8,10,86** to the end of the URL
- Press **enter**

The screenshot shows a web browser window with the URL `geocoding.geo.census.gov/geocoder/geographies/address?street=2300+Empire+Ave&city=Burbank&state=CA&zip=91504&benchmark=4&vintage=4&layers=8,10,86`. The `&layers=8,10,86` portion is highlighted with a red box. The page content includes the United States Census Bureau logo, navigation options for finding locations and geographies, and a 'Find Address Results' section with fields for Street, City, State, and Zip.

Tips:

- Find codes for your geographic layers of interest:
https://tigerweb.geo.census.gov/arcgis/rest/services/TIGERweb/tigerWMS_Current/MapServer
- The Census Geocoder shows results for state, county, census tract, and block by default but you can manually specify many other types of geographies by editing the URL

Census Geocoder Address Lookup (continued)

- View the **NAME** section under the headings for **Census Block Groups**, **Census Tracts**, and **Counties**
- The street address falls within **Block Group 1**, **Census Tract 3105.01**, **Los Angeles County**

Overcoming Roadblocks

Collections of Geographies: Where Are the Checkboxes to Select All Geos in a List?

We do not have all the collections available that AFF had. While we work to add them:

- Use maps on data.census.gov to select individual geographies or small groupings
- Use FTP sites or API
- Guides on how to access these data through the API are available on our Resource Page at: <https://www.census.gov/data/what-is-data-census-gov.html>

Geographic Comparison Tables

Geographic Comparison Table:

data.census.gov offers more flexibility to create a view similar to a Geographic Comparison Table for any estimate and set of geographies

- Map the estimate you are interested in and select “View Table” in the left panel of the “Customize Map” view

The screenshot displays the data.census.gov interface. The top navigation bar includes the United States Census Bureau logo, a search bar with 'dp03' entered, and a search button. Below the navigation bar, the main content area is titled 'Total—Total Population—Estimate'. It shows the survey/program as 'American Community Survey', the product as '2017: ACS 5-Year Estimates Subj', and the data variable as 'Total—Total population—Estimate'. The geographies are set to 'State'. A map of the United States is shown with several states highlighted in blue. A legend on the left side of the map shows population ranges and their corresponding colors. A red arrow points from the 'VIEW TABLE' button in the left panel to the 'Map Table' section. The 'Map Table' section is a table with two columns: 'Geography' and 'Total population—Estimate'. The table lists the following states and their population estimates:

Geography	Total population—Estimate
Alabama	4850771
Arizona	6809946
Arkansas	2977944
California	38982847
Colorado	5436519
Connecticut	3594478
Delaware	943732

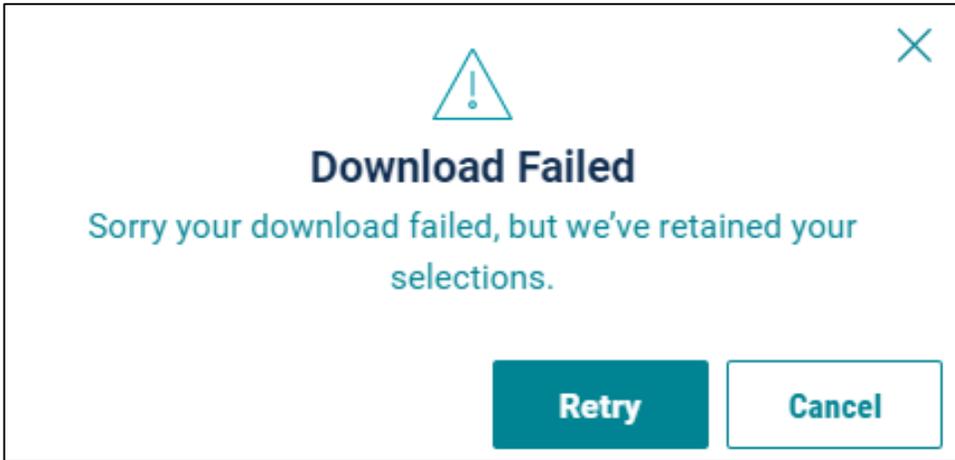

Topics Hierarchy

Topics Hierarchy has changed: Familiarize yourself with new topics layout.

The screenshot displays a multi-level navigation menu for the Census Bureau's data tools. The menu is organized into columns and levels, with red boxes highlighting specific items:

- Level 1 (RACE AND ETHNICITY):**
 - races alone
 - 02 - All available basic races alone or in combination
 - 03 - All available basic race combinations
 - American Indian and Alaska Native** (highlighted)
 - Asian
 - Black or African American
 - Hispanic or Latino
 - Native Hawaiian and
- Level 2 (AMERICAN INDIAN AND ALASKA NATIVE):**
 - Alaska Native
 - 006 - American Indian and Alaska Native alone (300, A01-Z99)
 - 01A - American Indian and Alaska Native alone (300,A01-R99)
 - 50A - American Indian and Alaska Native alone (300,A01-R99) or in any combination
 - Alaska Native
 - American Indian** (highlighted)
- Level 3 (AMERICAN INDIAN):**
 - Mono
 - Nanticoke
 - Nanticoke Lenni-Lenape
 - Narragansett
 - Navajo** (highlighted)
 - Nez Perce
 - Nipmuc
 - Nor
 - Nor
 - Om
 - On
- Level 4 (NAVAJO):**
 - Navajo
 - 4R - All available Nav tribes
 - 10U - Navajo alone (F F70)
 - 244 - Navajo Nation tr grouping alone (F62-F
 - 245 - Navaio Nation tr
- Level 5 (TOPICS):**
 - Business and Economy
 - Education
 - Employment
 - Families and Living Arrangements
 - Government
 - Health
 - Housing
 - Income and Poverty
 - Race and Ethnicity
 - Populations and People** (highlighted)
- Level 6 (POPULATIONS AND PEOPLE):**
 - Populations and People
 - Age and Sex
 - Ancestry
 - Computer and Internet Use
 - Counts, Estimates, and Projections
 - Language Spoken at Home
 - Native and Foreign Born** (highlighted)
 - Older Population
 - Population Change and Components
- Level 7 (NATIVE AND FOREIGN BORN):**
 - Native and Foreign Born
 - Citizenship
 - Foreign Born** (highlighted)
 - Native Born
 - Place of Birth

Download Errors

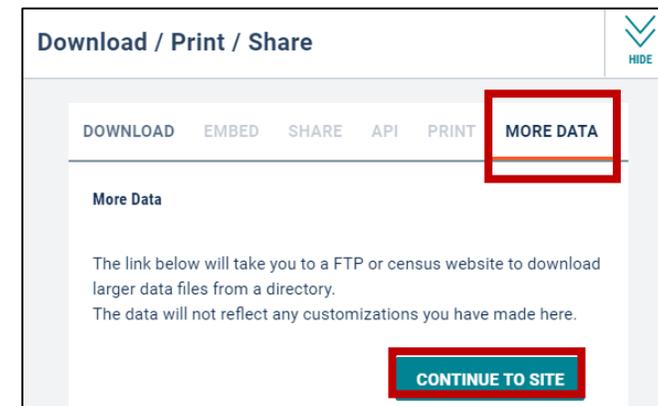

Break your download into smaller pieces by using:

- Fewer geographies
- Fewer tables/vintages in a single download
- Smaller tables

Example: Download median income from Detailed Table B19013 instead of Subject Table S1903

U.S. Department of Commerce
Economics and Statistics Administration
U.S. CENSUS BUREAU
census.gov

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban and rural areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols

An "r" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "s" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of means cannot be calculated because one or both of the estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "t" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "u" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "x" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test for sampling variability is not appropriate.

An "y" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "z" entry in the estimate and margin of error column indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "0" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

https://data.census.gov/tables?q=Total Population in the United States&g=shdp000&tid=DP05&ds=ACSDP1Y2018_DP05&vintage=2018&lastDisplayedRow=20 1/4

An establishment is a single physical location at which business is conducted or services or industrial operations are performed. It is not necessarily identical with a company or enterprise, which may consist of one or more establishments. When two or more activities are carried on at a single location under a single ownership, all activities generally are grouped together as a single establishment. The entire establishment is classified on the basis of its major activity and all data are included in that classification.

MEDIAN HOUSEHOLD INCOME IN THE PAST 12 MONTHS (IN 2016 INFLATION-ADJUSTED DOLLARS)

Survey/Program: American Community Survey
 Universe: Households
 Year: 2016
 Estimates: 5-Year
 Table ID: B19013

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "***" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

Where can I find training and resources on using data.census.gov and Microdata Access?

data.census.gov Resources page

<https://census.gov/data/what-is-data-census-gov.html>

The screenshot displays the 'Resources' page on data.census.gov, organized into several sections:

- Frequently Asked Questions:** Includes questions such as 'How is data.census.gov built?', 'What data are available?', 'When will American FactFinder (AFF) be released?', and 'What are the known limitations and differences?'. Each question has a corresponding answer link.
- Using data.census.gov:** A list of 17 links for various tasks, such as 'Accessing Race Iterated Tables', 'Advanced Search', 'Copying Cells and Headers', 'Customize Table', 'Download', 'Export a Table', 'Geographic Profiles', 'Landing Page', 'Mapping', 'Resources Page', 'Search Grocery Stores in Maryland', 'Single Search', and 'Tips and Tricks'. Each link includes a file size indicator.
- Flyers:** A list of 10 links for various guides and documents, including 'Advanced Filters Menu', 'How to Access Data for AIAN Population Groupings', 'How to Access Data for Congressional Districts', 'How to Access Data for State Legislative Districts', 'How to Access Economic Data Using data.census.gov', 'How to Access Geographic Comparison Tables', 'How to Download A Table as a CSV File', 'How to Download All Congressional Districts from the Census API', 'How to Export Tables and Copy Paste Cells', and 'How to Gather Pseudo Geographies All Tracts'.
- Using Microdata Access:** A single link for 'Using Microdata Access: With ACS 1-Year Estimates - Public Use Microdata Sample'.
- Webinars:** Three featured webinar cards:
 - data.census.gov: Navigating a New Site for Census Bureau Data:** A video by Tyson Weister, a 'DATA-TOOL' expert, explaining how to use the new site.
 - New Updates to data.census.gov - August 2019:** A training webinar exploring the latest updates to the site.
 - The 2017 Economic Census First Look: How to Access It On data.census.gov:** A training webinar providing an overview of the 2017 Economic Census and a demo of the new platform.
- How to Visualize Data for Your Area on data.census.gov:** A 'DATA-TOOL' resource explaining how to visualize popular statistics for a specific area.
- Tables Using data.census.gov:** A resource explaining how to customize and download tables in different formats.
- Learn two easy ways to get started with your search on data.census.gov:** A resource providing quick tips for searching the site.
