# About the Census Bureau

- The U.S. Census Bureau is the federal government's largest statistical agency.
- We conduct more than 130 censuses and surveys each year, including
  - **The Decennial Census** – the once-a-decade population and housing count of the United States
  - **The American Community Survey** – the ongoing annual survey of the nation's population
  - **The Census of Governments** – identifies the scope and nature of the nation's state and local government sector
  - **The Economic Census** – the official five-year measure of American business
- Our mission is to serve as the leading source of quality data about America's people, places, and economy.

## Census Economic Surveys

- Census Bureau Economic Surveys are a key source for official statistics companies can use:
  - Monthly and Quarterly are small sample surveys that provide the most **TIMELY** data available
  - Annual surveys have larger samples and provide the most up-to-date **TREND** data available
  - Every 5 years, the Economic Census measures all businesses and provides the most **COMPREHENSIVE** data available
- These surveys set the standard for U.S. economic statistics, and are fueled by the data provided by individual businesses

# The *Economic Census (EC)*

- NAICS: Every 2- thru 6-digit code covered by the Census Bureau
  - Excludes Agriculture (NAICS 11) and other selected types of business (see [https://www.census.gov/programs-surveys/economic-census/guidance/understanding-naics.html#par\\_textimage](https://www.census.gov/programs-surveys/economic-census/guidance/understanding-naics.html#par_textimage) for full list of exclusions)
- Geography: Provides data at the national, state, metro area, county, and place levels
- Other Dimensions: Data by business size, Franchise status, etc.
- Over 200 data variables shown, including variables like the number of establishments, employment, payroll, and sales plus sector-specific variables (inventories, assets, expenses, etc.)
- Product Lines data
- Released on [data.census.gov](https://data.census.gov), *Census Business Builder*, and other Census tools

Also have related data based on the race, ethnicity, gender, and veteran status of the business owner in the *Survey of Business Owners* and the *Annual Survey of Entrepreneurs*

# The Health Care and Social Assistance Sector

This sector comprises establishments providing health care and social assistance for individuals. The sector includes both **health care** and **social assistance** because it is sometimes difficult to distinguish between the boundaries of these two activities.

The industries in this sector are arranged on a continuum starting with:

- establishments providing medical care exclusively,
- continuing with those providing health care and social assistance, and
- finally finishing with those providing only social assistance.

Establishments in this sector deliver services by **trained professionals**. All industries in the sector share this **commonality of process**, namely, labor inputs of health practitioners or social workers with the requisite expertise. Many of the industries in the sector are defined based on the **educational degree held by the practitioners** included in the industry.
