Course: Census Data with R

JERZY WIECZOREK

Jerzy Wieczorek is an Assistant Professor of Statistics at Colby College. His research focuses on model selection and assessment, from cross-validation in high-dimensional settings to multiple comparisons-corrected visualization of estimates with uncertainty.

Before completing his PhD in Statistics at Carnegie Mellon University, Jerzy worked on small area estimation as a mathematical statistician at the U.S. Census Bureau. He also holds a BS degree in Engineering from Olin College and a MS degree in Statistics from Portland State University. As a volunteer, Jerzy has provided technical assistance on data analysis, visualization, and dissemination for DataKind, Statistics Without Borders, and StatAid.
