

National Advisory Committee Recommendation on AIAN Enrollment Question Moderator Guide

To: Director John Thompson
From: Ditas Katague, Chair, NAC
Topic: Recommendation on AIAN Focus Group Moderator's Guide
Date: November 25, 2015

Dear Director Thompson,

For your consideration and response, the NAC consensus recommendation is written below:

The NAC recommends that Director Thompson establish a working group (ad hoc perhaps) to specifically address the enrollment question, forthcoming Native Hawaiian recognition issues, and any other urgent issues impacting domestic nations. This working group will be charged with a shortened time-frame given the time sensitive nature of the enrollment question research for 2017 national testing.

In addition to this official consensus recommendation, under a separate email I will be forwarding the other comments that were compiled for your information, and if you so choose, for consideration and/or response.

Thank you. Please let me know if you have any questions.

Sincerely,
Ditas Katague
NAC Chair
