MEMORANDUM FOR: Barbara A. Anderson
Chair
Census Scientific Advisory Committee

From: John H. Thompson 
Director
U.S. Census Bureau

Subject: Census Responses to the Census Scientific Advisory Committee
(CSAC) Recommendations

The U.S. Census Bureau thanks the Census Scientific Advisory Committee (CSAC) for its advice. Your expertise is necessary to ensure that the Census Bureau continues to provide relevant and timely statistics used by federal, state, and local governments, as well as business and industry, in an increasingly technologically oriented society.

We are responding to the committee recommendations, submitted as a result of the September 17-18, 2015, meeting.
