[a] Including only the reported value of live stock on farms.
[b] Values for 1870 were reported in depreciated currency. To reduce to specie basis of other years they must be diminished one-fifth.
[c] Including estimated value of live stock on ranges.
[d] Value of land, with improvements, except buildings, $13,058,007,995; value of buildings, $3,556,639,496. The Twelfth Census was the first to collect separate statistics of buildings on farms.
[e] Including value of live stock on ranges as well as on farms. Value of domestic animals, $2,979,197,586. This figure is more nearly comparable than that in the table with the returns for value of live stock at earlier censuses.

NOTE BY MESSRS. MAUGER & AVERY.—This table exhibits in a concise form the prices of the three grades of a standard domestic fleece wool in the seaboard markets at the beginning of each quarter. In its present shape it is deemed to be intelligible to all interested in wool. In the special features of character and condition, "washed Ohio fleece wool" is less subject to variation than any other description, and thus is more a basis of value than any other class. Wool, owing to its wide variety, difference in character and condition, and liability to shrink in cleaning, is precluded from speculative operations which apply to products which may be dealt in as "futures." For these reasons the prices of wool are not liable to the same changes as cotton, wheat, etc.

[a] The price on board fixed at Baltimore by the Seaboard Coal Association.
[b] Price of soft-coal pool.
[c] Owing to unusual conditions in the coal market the association price for 1902 is not a correct guide as to the actual selling price. Clearfield coal selling as high as $7 at the mines and as high as $9 in New York Harbor. Unsettled conditions lasted until the 1st of March, 1903, or nearly so; then, on April 1, prices were made $3.30 at Baltimore; later on in the year this price was discounted from 10 to 15 per cent.

NOTE.—In the above table the course of prices of commodities is shown, and in each case the price is multiplied by the annual per capita consumption, which precludes any one commodity having more than its proper weight in the aggregate. Breadstuffs include many quotations of wheat, corn, oats, rye, barley, beans, and pease; meats include live hogs, beef, sheep, and many provisions, lard, tallow, etc.; dairy and garden products embrace eggs, vegetables, fruits, milk, butter, cheese, etc.; other food includes fish, liquors, condiments, sugar, rice, tobacco, etc.; clothing covers the raw material of each industry, and many quotations of woolen, cotton, silk, and rubber goods, as well as hides, leather, boots, and shoes; metals include various quotations of pig iron and partially manufactured and finished products, as well as the minor metals, tin, lead, copper, etc., and coal and petroleum; miscellaneous includes many grades of hard and soft lumber, laths, brick, lime, glass, turpentine, hemp, linseed oil, paints, fertilizers, and drugs. The third decimal is given for accuracy of comparison.

[a] Grain embraces wheat flour reduced to its equivalent in wheat, corn, rye, oats, barley, malt, and pease.

[b] Receipts at New York, Portland, Boston, Philadelphia, and Baltimore include shipments from the West to foreign countries through these ports on through bills of lading. Receipts at Portland via Montreal are duplications of receipts reported at Montreal. Receipts at Baltimore include flour ground by city millers, and therefore duplicate an equivalent quantity of wheat received in grain.

NOTE.—The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph companies, the former having previously in operation over 12,000 miles of line and the latter 8,706 miles. Capital stock of the Western Union, $100,000,000.

The Western Union has exclusive contracts with several international cable companies, operating eight Atlantic cables, and guarantees 5 per cent annual dividends on the stock of the American Telegraph and Cable Company; amount, $14,000,000.

Besides the above, there are new lines of telegraph which have complied with the United States telegraph act of 1866, and are operating wires with or without connection with railway companies.

The New York Mutual Telegraph Company, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and has extended its lines north and south, operating from Boston

to Chicago, St. Louis, Washington, etc. Capital stock, $2,500,000. This line is now leased and operated by the Western Union Telegraph Company, at a rental of 6 per cent per annum on the stock.

The Baltimore and Ohio Railroad Telegraph, having lines coextensive with its railway system and branches, besides many newly extended wires south and west, constituting 6,711 miles of line and 54,087 miles of wire, was purchased in 1887 for $5,000,000 by the Western Union Company, which now owns and operates it.

The lines of the American Rapid Telegraph Company, comprising 2,684 miles of poles and 20,370 miles of wire, and extending from Boston to New York, Washington, and Chicago, have been purchased by the Western Union Telegraph Company for $550,000 in its stock at par. These lines have been operated by the Western Union Company under a lease since July 10, 1885, as a part of its system.

The Northwestern Telegraph Company owns 8,000 miles of wire. It is leased to the Western Union for ninety-nine years, which guarantees dividends (6 per cent after 1896) and interest on bonds.
