[1] The figures relate to coin and bullion only prior to 1895; subsequently they include ore also.

[2] Gold and silver can not be separately stated in domestic exports prior to 1864, but it is probable that the greater portion of the exports was gold, under which head the silver in question is included.

[1] The figures of this table do not in most instances agree with those under corresponding heads in the table following, owing to the fact that the schedules of the tariff and the classifications of the Bureau of Statistics do not fully coincide as to the articles included. See note 2, p. 503.

[2] Figures for 1911 by schedules were compiled from data somewhat preliminary, but foot to agree with revised totals.
