[1] Value of crops with production reported in 1924, exclusive of sugar cane and root crops for forage.
[2] A minus sign (−) denotes decrease and a plus sign (+) an increase.
[3] Change in value as actually reported, due to change in production and to lower prices.
[4] Increase or decrease in value on basis of 1919 prices for both 1919 and 1924 crops. The percentages in this section represent the net quantitative increase or decrease in production.
[5] Decrease of actual 1924 values over values computed for 1924 on basis of 1919 prices.

[1] Value of crops with production reported in 1924.

[2] Includes 3,169,149 acres of oats unthreshed and 5,172,326 acres of corn hogged off, not reported separately prior to 1924 and excludes a few crops for which the acreage is not available.

[3] Not available.

[4] Excludes velvet beans, the acreage of which was largely duplicated in the acreage shown for "Hay and forage."

[5] Includes "velvet beans" only.

[6] Exclusive of root crops for forage.

[7] Included in the hay production is an undetermined tonnage of sorghum cut for hay, the acreage being shown separately.

[8] Includes the value of an undetermined tonnage of sorghum cut for hay, no corresponding value being shown in previous years.

[9] See footnote 10.

[10] Including farm gardens in 1899 and 1909, in 1919 vegetables raised for sale only, and in 1924 only 7 vegetables, cabbages, cantaloupes, lettuce, onions, sweet corn, tomatoes, and watermelons, grown for sale. The value of the farm gardens in 1919 (included in the total for crops with no acreage reports) was $344,666,000.

No. 598.—ESTIMATED VALUE OF 22 CROPS AND OF ALL CROPS: BY STATES

[NOTE.—The following tabulation gives the estimated total value of 22 crops—corn, wheat, oats, barley, rye, buckwheat, flaxseed, rice, potatoes, sweet potatoes, all hay, tobacco, lint cotton, beans, broomcorn, grain sorghums, hops, oranges, cloverseed, peanuts, cranberries, and apples, in 1922 to 1926, and the calculated value of all crops in 1922 to 1926, based upon ratio of the 22 crops to all crops in the census year 1919. The slight differences in the total value of crops in the United States between Table 549 and this table are due to different methods of estimating. In this table, where each State is shown separately, a more detailed method is used than is practicable in Table 549]

[NOTE.—Acreage and production accredited to State in which made into sugar, except 1926 credited to States where grown. "Crop" represents deliveries to factories and includes a small quantity produced in Canada for United States factories. "Per cent of sucrose in beets" is based on analysis; "Per cent extracted" is per cent of total weight of beets actually recovered by factories. United States totals include data for States not specified, covering 58,000 acres of beets in 1925. Tons of 2,000 pounds]

[1] 1 gallon of sirup taken as equivalent to 8 pounds of sugar.
[2] Totals cover the 10 States listed; also, from 1919 to 1923 Connecticut, which produced only a negligible quantity of sugar and sirup. These 11 States produced 97.1 per cent of the maple sugar and 97.2 per cent of the maple sirup made in the United States in 1919 as reported by the Bureau of the Census. That bureau also reported 98.1 per cent of the trees tapped in 1919 as being in these States.

No. 625. PRODUCTION, CONSUMPTION, EXPORTS, IMPORTS, AND PRICES OF COTTON

[NOTE.—All quantities in thousands of bales, reduced to equivalent of 500 pounds, gross weight. Production statistics relate to the growth year indicated in the stub. Other statistics for the most part relate to the 12-months period roughly corresponding to the marketing of the given crop; there have been minor variations from time to time in the periods covered. An exception appears in the price statistics from 1902 to 1909 which represent marketings of the preceding crop up to Mar. 31. Prices for 1902 to 1909 represent the average grade at New Orleans. Prices from 1910 to date represent average price on the farm of all lint cotton throughout the country. Production, consumption, and exports include linters]
