Description of Table 2.

This table shows for the state the population indicating one race and the population indicating two or more races. The latter is grouped into the population indicating exactly two races and the population indicating three or more races. In addition the table shows the population in each of the 15 specific combinations of two races. The population indicating two races includes the vast majority of the population indicating two or more races.

In addition to the 15 combinations of two races (for example, "Asian ***and*** Black or African American"), there are 20 combinations of three races (for example, "American Indian and Alaska Native ***and*** Asian ***and*** Native Hawaiian and Other Pacific Islander"), 15 combinations of four races, 6 combinations of five races, and 1 combination of six races. The redistricting file includes data for the population in each of these 57 combinations of two or more races.
