U.S. SIGNAL SERVICE CHART
Showing the
FREQUENCY OF STORM CENTRES.
Number of Storm Centres passing over each point deduced from the average of the two years March 1871 to February 1873 inclusive.
Compiled from data collected at the Office of the Chief Signal Officer of the Army.
From 1 to 5.
From 5 to 10
From 10 to 15.
From 15 to 20.
From 20 to 22.5.
over 22.5.
Note.
This Chart shows the frequency with which the centre of areas of low barometer (assumed to average fifty miles in diameter) have passed over any given district. It does not include local thunder or hail storms.
