U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 22, 1951 | WAUKESHA COUNTY, WISCONSIN | (35-067) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	3,049
	1945	2,967
Approximate land area	acres 1950	355,840
Proportion in farms	percent 1950	83.6
Land owned by farm operators	acres 1950	207,926
Land rented from others by farm operators	acres 1950	90,003
Land managed by farm operators	acres 1950	10,656
Land rented to others by farm operators	acres 1950	11,089
Land in farms	acres 1950	297,496
	1945	306,754
Average size of farm	acres 1950	97.6
	1945	103.4
Value of land and buildings	average per farm, dollars 1950*	18,790
	1945	12,564
	average per acre, dollars 1950*	194.73
	1945	121.52
Land in farms according to use:		
Cropland harvested	farms reporting 1949	2,867
	1944	2,899
	acres 1949	179,512
	1944	195,399
1 to 9 acres	farms reporting 1949	423
	1944	278
10 to 19 acres	farms reporting 1949	225
	1944	178
20 to 29 acres	farms reporting 1949	182
	1944	154
30 to 49 acres	farms reporting 1949	411
	1944	482
50 to 99 acres	farms reporting 1949	1,126
	1944	1,265
100 to 199 acres	farms reporting 1949	451
	1944	488
200 acres and over	farms reporting 1949	49
	1944	54
Cropland used only for pasture	farms reporting 1949	1,495
	1944[1]	960
	acres 1949	27,174
	1944[1]	14,671
Cropland not harvested and not pastured	farms reporting 1949	519
	acres 1949	7,471
	1944	2,366
Woodland pastured	farms reporting 1949	1,241
	1944	1,097
	acres 1949	29,372
	1944	23,031
Woodland not pastured	farms reporting 1949	589
	1944	346
	acres 1949	9,930
	1944	4,437
Other pasture (not cropland and not woodland)	farms reporting 1949	944
	1944[1]	1,768
	acres 1949	19,771
	1944[1]	47,474
Other land (house lots, roads, wasteland, etc.)	farms reporting 1949	2,908
	1944	2,928
	acres 1949	24,266
	1944	19,376
Irrigated land in farms	farms reporting 1949	7
	1944	1
	acres 1949	78
	1944	1
Land irrigated by sprinklers	farms reporting 1949	7
	acres 1949	76
FARM OPERATORS		
Residing on farm operated	operators reporting 1950	2,871
	1945	2,[illegible]
Not residing on farm operated	operators reporting 1950	[illegible]
	1945	137
With other income of family exceeding value of agricultural products sold	operators reporting 1949	780
Working off their farm, total	operators reporting 1949	1,225
	1944	610
100 days or more	operators reporting 1949	849
	1944	427

[1]Data for 1944 not strictly comparable with those for 1949.

Item		County total
FARMS BY SIZE

[1]For 1949, does not include acres for farms with less than 15 bushels harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 22, 1951 | WAUPACA COUNTY, WISCONSIN | (35-068) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

[2]For 1950, does not include acres for farms reporting less than 1/2 acre.

U. S. DEPARTMENT OF COMMERCE · Preliminary · BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release Mar. 24, 1951 · WAUSHARA COUNTY, WISCONSIN · (35-069) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 21, 1951 | WINNEBAGO COUNTY, WISCONSIN | (35-070) | Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	2,357

[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE — Preliminary — BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 26, 1951 — WOOD COUNTY, WISCONSIN — (35-071) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total

[1]For 1949, does not include acres for farms with less than 15 bushels harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release August 15, 1951 | STATE OF WYOMING | (83-000) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every State in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this State and for the counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		State total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	12,614
	1945	13,076
Approximate land area	acres 1950	62,403,840
Proportion in farms	percent 1950	55.1
Land owned by farm operators	acres 1950	16,749,897
Land rented from others by farm operators	acres 1950	10,061,964
Land managed by farm operators	acres 1950	8,481,755
Land rented to others by farm operators	acres 1950	872,724
Land in farms	acres 1950	34,420,892
	1945	33,116,554

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | ALBANY COUNTY, WYOMING | (83-001). Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 1,1951 | BIG HORN COUNTY, WYOMING | (83-002) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total

[1]For 1949, does not include acres for farms with less than 10 bags harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | CAMPBELL COUNTY, WYOMING | (85-003) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 21, 1951 | CARBON COUNTY, WYOMING | (55-004) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | *Preliminary* | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 4, 1951 | CONVERSE COUNTY, WYOMING | (83-005) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total

[1]For 1949, does not include acres for farms with less than 10 bags harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 1, 1951 | CROOK COUNTY, WYOMING | (83-006) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	627
	1945	638
Approximate land area	acres 1950	1,854,080

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | FREMONT COUNTY, WYOMING | (88-007) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 4, 1951 | GOSHEN COUNTY, WYOMING | (83-008) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item			County total
FARMS, ACREAGE, AND VALUE

[1]For 1949, does not include acres for farms with less than 10 bags harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | HOT SPRINGS COUNTY, WYOMING | (83-009) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	199
	1945	216
Approximate land area	acres 1950	1,294,080

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 4, 1951 | JOHNSON COUNTY, WYOMING | (83-010) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	337

*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 4, 1951 | LARAMIE COUNTY, WYOMING | (83-011) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item			County total

[1]For 1949, does not include acres for farms with less than 10 bags harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 1, 1951 | LINCOLN COUNTY, WYOMING | (83-012) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	711
	1945	764
Approximate land area	acres 1950	2,624,640

U. S. DEPARTMENT OF COMMERCE | **Preliminary** | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 4, 1951 | NATRONA COUNTY, WYOMING | (83-013) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

U. S. DEPARTMENT OF COMMERCE | **Preliminary** | **BUREAU OF THE CENSUS**

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 1, 1951 | NIOBRARA COUNTY, WYOMING | (83-014) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 4, 1951 | PARK COUNTY, WYOMING | (83-015) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 2, 1951 | PLATTE COUNTY, WYOMING | (85-016) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 24, 1951 | SHERIDAN COUNTY, WYOMING | (83-017) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | SUBLETTE COUNTY, WYOMING | (85-018)Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item			County total
FARMS, ACREAGE, AND VALUE			
Farms	number	1950	220
		1945	278
Approximate land area	acres	1950	5,120,640
Proportion in farms	percent	1950	17.6
Land owned by farm operators	acres	1950	409,592
Land rented from others by farm operators	acres	1950	128,377
Land managed by farm operators	acres	1950	25,025
Land rented to others by farm operators	acres	1950	11,831

[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | SWEETWATER COUNTY, WYOMING | (83-019) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	169
	1945	161

*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 | TETON COUNTY, WYOMING | (88-020) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (A) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total

U. S. DEPARTMENT OF COMMERCE

Preliminary

BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951

UINTA COUNTY, WYOMING

(85-021) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total

[1]For 1949, does not include acres for farms with less than 10 bags harvested.
[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE — Preliminary — BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release May 23, 1951 — WASHAKIE COUNTY, WYOMING — (83-022) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	277
	1945	317
Approximate land area	acres 1950	1,447,680

[2]For 1950, does not include acres for farms reporting less than 1/2 acre.
*Less than 1 acre.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release June 1, 1951 | WESTON COUNTY, WYOMING | (83-023) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1945 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. A similar report will be released for every county in the United States. A preliminary report, carrying State totals only, will be issued following the publication of figures for all of the counties in the State. After that, final figures for this county and for other counties in the State will be published in a State Report.

Generally, the data for both 1950 and 1945 are based upon the tabulation of reports for all farms in the county. However, the 1950 data for items followed by a star (*) represent estimates for all farms made on the basis of reports from a sample of approximately 20 percent of the farms.

Inventory items are for April 1, 1950 and January 1, 1945; and production items are for the calendar years 1949 and 1944.

Item		County total
FARMS, ACREAGE, AND VALUE		
Farms	number 1950	283
	1945	313
Approximate land area	acres 1950	1,541,120

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release April 27, 1951 ALASKA (01-000) Series AC50-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1940 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision. Final figures for Alaska will be published in Volume I, Part 34, 1950 Census of Agriculture.

Inventory items are for April 1, 1950 and October 1, 1939; and production items are for the calendar year 1949 and for the 12-month period preceding the Census date in 1939.

U. S. DEPARTMENT OF COMMERCE Preliminary BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release August 1, 1951 HAWAII (04-000) Series AC50-1

FARM CENSUS SHOWS INCREASE IN THE NUMBER OF FARMS IN HAWAII

There are 5,748 farms in Hawaii, according to preliminary figures for the 1950 Census of Agriculture released today by Roy V. Peel, Director of the Bureau of the Census.

Even though there was a change in the definition of a farm, there are about one-sixth more farms in Hawaii than there were in 1940. The greatest increase took place in Honolulu County where the number increased from 1,286 in 1940 to 1,827. In 1950, places of 3 or more acres were counted as farms only if agricultural products, exclusive of a home garden, with a value of $150 or more were produced in 1949. Places of less than 3 acres were counted as farms only if the value of agricultural products sold amounted to $150 or more. In the 1940 and 1930 censuses places of 3 or more acres were counted as farms if any agricultural products, other than a small home garden, were produced during the preceding year, while places of less than 3 acres were counted as farms if the agricultural production was valued at $150 or more.

The value of farm land and buildings in Hawaii increased from almost 113 million dollars in 1940 to almost 200 million dollars in 1950. The average value of farm land and buildings rose from $45.38 in 1940 to $79.03 in 1950. About 3,800 of the 5,748 farms in the Territory had electricity in 1950. The number of farms reporting tractors more than quadrupled in the 10-year period from 1940 to 1950. In 1950, approximately one farm in six reported a tractor.

Expenditures for farm labor comprised the most important expenditure on Hawaiian farms in 1949, totaling more than 57 1/2 million dollars. Expenditures for feed for livestock and poultry totaled almost 6 1/2 million dollars, while those for gasoline and other petroleum fuel and oil products amounted to more than 5 1/2 million dollars. The value of all farm products sold from Hawaiian farms in 1949 totaled 164 1/2 million dollars, amounting to more than three times the value of farm products sold in 1939. Crops, including fruits and vegetables, accounted for more than 143 million dollars of the total sales, while livestock and livestock products amounted to approximately 21 million dollars. The sales of whole milk from Hawaiian farms increased from nearly 4 1/2 million gallons in 1939 to about 7 1/2 million gallons in 1949.

Almost twice as many chickens were on farms in 1950 as in 1940. The number of chickens on farms in the Territory on April 1, 1950, totaled 472,006 as compared with 272,590 in 1940. The number of chickens sold increased from 166,545 in 1939 to 613,746 in 1949. The acreage used for the production of vegetables for sale was more than 50 percent greater in 1949 than in 1939. Almost 5,000 acres were used for the production of vegetables for sale in 1949.

The figures in this report are preliminary and are subject to revision. Final figures for Hawaii will be published in Volume I, Part 34, 1950 Census of Agriculture.

U. S. DEPARTMENT OF COMMERCE | Preliminary | BUREAU OF THE CENSUS

1950 CENSUS OF AGRICULTURE

FARMS, FARM CHARACTERISTICS, FARM PRODUCTS

For release February 24, 1951 | THE VIRGIN ISLANDS OF THE UNITED STATES | (C6-000) Series A050-1

This release presents figures from the 1950 Census of Agriculture, together with available comparative data from the 1940 Census of Agriculture. The figures from the 1950 Census are preliminary and are subject to revision.

Final figures for the Virgin Islands will be published in Volume I, Part 34, 1950 Census of Agriculture.

Inventory items are for April 1, 1950 and 1940; and production items are for the calendar years 1949 and 1939.

Item			Total
FARMS, ACREAGE, AND VALUE

U. S. DEPARTMENT OF COMMERCE

BUREAU OF THE CENSUS

Preliminary

1950 CENSUS OF AGRICULTURE

FARM CENSUS SHOWS CHANGES IN PUERTO RICO

For release June 8, 1952 | PUERTO RICO | Series AC50-1

The number of farms in Puerto Rico in 1950 was 53,515 or 2,004 less than in 1940, according to a special report released today by Roy V. Peel, Director of the Bureau of the Census. More than half the decrease in the number of farms during the decade resulted from the change in definition of a farm, whereby places containing less than three cuerdas were not counted as farms.

Land in Puerto Rico farms in 1950 totalled 1,844,886 cuerdas, (1 cuerda = 0.9712 acres) a decrease of 40,988 cuerdas or 2.2 percent since 1940. Land in farms in 1950 represented almost 82 percent of the total land area of the Island. The number of farms containing 260 cuerdas or more increased 14.5 percent from 1940 to 1950. However, land in farms containing 260 cuerdas or more decreased almost 30,000 cuerdas during the ten years. The 1,072 farms having 260 cuerdas and over contained 41.1 percent of all land in farms in Puerto Rico and 40 percent of all the cropland in the Island in 1950.

According to the 1950 Census, there were on farms in Puerto Rico, 36,390 horses and colts; 289,389 cattle and calves; 3,121 sheep and lambs; 39,311 goats and kids; and 91,069 hogs and pigs. The number of each of these kinds of livestock except horses and colts was less in 1950 than 10 years earlier.

A much larger proportion of the operators of farms in Puerto Rico owned their farms in 1950 than at any previous U. S. Census. In 1950, almost 94 percent of the farms in Puerto Rico were operated by their owners. There were over 7,000 more farmers operating the farms they owned in 1950 than in 1940. Farm tenancy in Puerto Rico decreased from 20.2 percent in 1940 to 5.4 percent in 1950. Farm tenancy in 1950 was lower than at any previous census. Part of the decrease in tenancy resulted from the sale of tenant-operated farms to their operators by such agencies as the Puerto Rico Reconstruction Administration, Land Authority of Puerto Rico, etc. Also, a part of the decrease in the number of tenants may have resulted from the change in census procedure whereby places worked by medianeros were not counted as farms in 1950. The decrease in the number of farms operated by managers from 1,303 in 1940 to 421 in 1950, resulted in part from changes in definition. In 1940 and prior censuses, a considerable number of small farms operated by foremen, the sons of owners, etc., were classified as operated by managers. In 1950, such farms were classified as operated by owners, rather than by managers. While less than one percent of the farms in Puerto Rico in 1950 were operated by managers, land in farms operated by managers represented 18.4 percent of all land in farms in Puerto Rico, and the cropland used for crops in farms of managers comprised 19.3 percent of all cropland in farms in Puerto Rico.

Almost one-fifth of the farms in Puerto Rico are sugarcane farms, while one-sixth of the farms are part-time farms, and almost one-fourth are subsistence farms. In 1950, farms in Puerto Rico were classified by type of farm, in general, on the basis of the relationship of the value of the farm products sold from a particular source or sources to the total value of all farm products sold. Farms for which the value of all farm products sold was less than $150 were classified either as subsistence or part-time farms. If the farm operator reported that he worked off the farm 75 days or more during the year preceding the census, the farm was classified as a part-time farm. If the value of the farm products sold was less than $150, and the farm operator reported that he worked off the farm less than 75 days during the year preceding the census, then the farm was classified as a subsistence farm.

Farms with a value of farm products sold of $150 or more were classified by type on the basis of the source from which fifty percent or more of the value of all farm products sold was derived. For example, if the value of sugarcane represented fifty percent or more of the value of all farm products sold, the farm was classified as a sugarcane farm. If the value of cotton, rice, pigeon peas, cowpeas, dry beans, corn, sweetpotatoes, dasheens, yams, taniers, and cassava sold represented fifty percent or more of all the value of farm products sold the farm was classified as a minor-crop farm.

If the value of sugarcane, coffee, or tobacco sold or the combined value of cotton, rice, pigeon peas, cowpeas, dry beans, corn, sweetpotatoes, dasheens, yams, taniers, and cassava sold was not equal to fifty percent or more of the value of all farm products sold, but the combined value of all these crops represented fifty percent or more of the value of all farm products sold, the farm was classified as a general-crop farm. Farms on which the value of hogs, cattle, milk, poultry and poultry products sold represented fifty percent or more of the total value of farm products sold were classified as livestock farms.

Farms that could not be classified as sugarcane, coffee, tobacco, minor-crop, fruit, livestock, or general-crop farms but on which the combined value of all crops and livestock and livestock products sold represented fifty percent or more of the total value of all farm products sold, were classified as crop-and-livestock farms. Miscellaneous farms represented farms with a value of farm products sold of $150 or more which could not be classified as sugarcane, coffee, tobacco, minor-crop, fruit, livestock, general-crop, or crop-and-livestock farms.

While sugarcane farms represented less than one-fifth of all the farms in Puerto Rico, they contained more than two-fifths of all the land in farms and more than one-half of all the cropland used for crops.

The most significant changes in the acreage and production of crops between 1939 and 1949, were the increase of 114,000 cuerdas in the area from which sugarcane was harvested, the 86 percent increase in the area from which pineapples were harvested, and the decrease of 50 percent or more in the area of rice, cowpeas, dry beans, and sweetpotatoes.

Land planted in sugarcane as of December 1, 1949, amounted to 366,441 cuerdas and represented 47.7 percent of cropland used for crops. On the basis of area, coffee is the second most important crop in Puerto Rico. In 1949, coffee was harvested from 176,386 cuerdas. This area of coffee comprised 22.9 percent of the cropland used for crops in 1950. Other important crops having an area harvested of 20,000 or more cuerdas in 1949 were bananas with 44,241 cuerdas, corn with 39,497 cuerdas, tobacco with 26,834 cuerdas, sweetpotatoes with 23,818 cuerdas, and pigeon peas with 20,436 cuerdas. The total area of these seven crops having 20,000 or more cuerdas in 1949 comprised 90.7 percent of cropland from which crops were harvested.

According to the 1950 Census, there were 51,157 parcelas having an area of at least one-fourth of a cuerda but less than three cuerdas on which crops were harvested in 1949 or on which there were cattle, goats, hogs, or poultry in April 1950. Data concerning the production of farm products on these parcelas and the number of livestock on these places were contained in a release issued on July 3, 1951.

Detailed data by municipalities for the 1950 Census of Agriculture for Puerto Rico will be contained in the final report to be published in August or September 1952.
