U. S. DEPARTMENT OF COMMERCE BUREAU OF THE CENSUS

1950 CENSUS OF POPULATION

PRELIMINARY COUNTS

September 19, 1950 Washington 25, D. C. Series PC-2, No. 46

PRELIMINARY

POPULATION OF PENNSYLVANIA, BY COUNTIES
APRIL 1, 1950

(The figures in this report are preliminary counts of population as compiled in field offices and supersede those for the same areas which have been published in Series PC-1. Figures for some areas not published in Series PC-1 are also included in this report. Additional reports in Series PC-2 will be issued as preliminary counts for other States become available)

The population of Pennsylvania as of April 1, 1950, was 10,462,628, according to a preliminary count of the returns of the 1950 Decennial Census of Population, reported today by Roy V. Peel, Director, Bureau of the Census, Department of Commerce. This figure represents a gain of 562,448, or 5.7 percent, over the 9,900,180 inhabitants of the State enumerated in the 1940 Census.

The preliminary population counts shown below represent the number of persons enumerated in the State, each county, and each incorporated place of 1,000 or more, but not the final verified population totals. The final population totals may differ from the preliminary counts because of the allocation to the place of usual residence of persons who were enumerated elsewhere, the inclusion of crews of vessels docked within an area but not included in the preliminary count, and because of other revisions.
