[1] The number of persons in families shown here exceeds the difference between total persons (table 271) and persons not in families (unrelated individuals in households and persons in group quarters shown in this table) because of differences in the methods of inflating the sample.

[2] See footnotes on pages 773 and 774.

Table 281.—CHILDREN UNDER 18 YEARS OLD LIVING WITH ONE OR BOTH PARENTS, BY MARITAL STATUS AND SEX OF PARENT, BY REGIONS, DIVISIONS, AND STATES: 1960

[See text for source of data]

Region, division, and State	All children under 18 living with one or both parents	Children living with--											
		Both parents	One parent										
			Married, spouse absent				Widowed		Divorced		Single	
			Separated		Other							
			Male	Female	Male	Female	Male	Female	Male	Female	Male	Female

APPENDIX

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

[1] Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."
[2] Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

[1] Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."
[2] Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

[1] Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."
[2] Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

[1] Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."
[2] Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

[1] Limited to persons who were allocated to the categories "wife of head," "other relative of head," or "nonrelative of head."
[2] Erroneously excludes nonresponses on decade of birth for group quarters members other than inmates.

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STATES: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the boxheadings, color and residence refer to classifications after allocations were made. See text for further explanation]
