APPENDIX

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE STATE, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STANDARD METROPOLITAN STATISTICAL AREAS OF 250,000 OR MORE: 1960

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the box headings, color and residence refer to classifications after allocations were made. See text for further explanation. Median not shown where base is less than 200]

Table D-1.—SELECTED CHARACTERISTICS OF THE POPULATION PRIOR TO ALLOCATION FOR NONRESPONSE, FOR THE STATE, BY COLOR AND URBAN-RURAL RESIDENCE, AND FOR STANDARD METROPOLITAN STATISTICAL AREAS OF 250,000 OR MORE: 1960—Con.

[Data are based on final weighted sample figures after all replications. For persons in replicated households, the values shown are those of the persons in the substitute households. The term "nonresponse" denotes the absence of an entry on the schedule because it was never made, because it was poorly marked or was otherwise not readable by the mechanical equipment, or because it was inconsistent with another entry. The term "allocation" means that a characteristic was assigned during tabulation because of nonresponse. In the box headings, color and residence refer to classifications after allocations were made. See text for further explanation. Median not shown where base is less than 200]
