PART IV.

INDUSTRY.

1. AGRICULTURE.—The following table will show the relative number of farms, and quantity of acres in each in the several States and Territories, as well as the value of farms and implements. The unimproved land embraces such as is in occupancy and necessary to the enjoyment of the improved, though not itself reclaimed. Meadow lands in all of the States are therefore regarded improved. The returns do not, however, distinguish always very clearly the improved from the unimproved.

TABLE CLXXXIII.—*Farming Lands and Improvements*, 1850.

States and Territories.	Farms, Plantations, &c.	Acres of improved land.	Acres of unimproved land.	Average number of acres to each farm.	Cash value of farms.	Value of farming implements and machinery.	Average value of farms.	Average value of farming implements and machinery.	Average value of farms, implements and machinery.

The average number of acres embraced in each farm in the United States is 203, valued at $2,258, and upon each farm there is an average of $105 in implements and machinery. In Louisiana, so complicated is the sugar process, the average machinery is $863 to the farm.

By another table prepared by sections, it would seem that only about one-thirteenth of the whole area of the organized States and Territories is improved, and about one-eighth more is occupied and not improved. In New England about 26 acres in the 100 are improved, in the South 16 acres, in the Northwest 12, and in the Southwest 5. In the South the number of acres to the farm is largest, but the value per acre is most in the Middle States. The average value per acre for the Union, improved and unimproved, is $11.14. The whole number of acres occupied is 293,560,614, or nearly one-sixth part of the national domain.

TABLE CLXXXIV.—*Agricultural Ratio. Tables of the States*, 1850.

The annexed table embraces the returns of agricultural products and live stock by the Census of 1840 and 1850. The quantity of wheat in 1850 is believed to be understated, and the crop was also short. Rough rice is returned for 1850, and clean rice for 1840. Corrections have been made in the cotton and sugar returns since the publication of the Quarto Census, pounds having been intended by the enumerators in many cases, where they returned bales or hogsheads. It is impossible to reconcile the hemp and flax returns of 1840 and 1850. No doubt in both cases tons and pounds have often been confounded. In a few of the States, such as Indiana and Illinois, the returns of 1850 were rejected altogether for insufficiency. Letters from Kentucky entitled to high credit, state the water-rotted hemp for that year to be not a third as much as the census gives, and the dew-rotted to be about 22,000 tons. In this case the whole hemp crop of 1850 may have reached 35 or 40,000 tons, and that of 1840, 25 to 30,000 tons.†

* Exclusive of Texas and California.

† By the manufacturing schedules it appears that 18,276 tons hemp were consumed by the manufacturers of Kentucky and Missouri, and by the receipts at the cities of St. Louis, Cincinnati and New Orleans, with proper deductions, that 14 or 15 thousand tons hemp were exported in the rough to other States.

* Dairy products.

† Amounts produced by individuals less than a bale, hogshead or ton of any agricultural product, where these measures are adopted, are not aggregated or reported. Hence a large production of such articles escaped enumeration. This is important to be observed in reading the county tables.

TABLE CLXXXVII.—*Ratio of Farm Land to Area and Crops to Population in the several sections of the United States*—1850 *and* 1840.

Geographical Divisions.	Proportion of improved land to the whole in each section.	Proportion of occupied land to the whole.	Average value of occupied land per acre.	Average value of implements and machinery per acre.	Horses, asses, and mules to each person.	Cows, working oxen and other cattle to each person.	Sheep and swine to each person.	Bush. wheat, rye, barley and buckwheat to each person.	Bushels of corn to each person.	Bushels of Irish and sweet potatoes to each person.	Bushels of peas and beans to each person.	Value of home manufacture to each person.

Slaveholding "	22.28	19.14	101.23	1.16	7.17	25.62

There would have been little difficulty in framing a table like the following for all of the States, had time admitted, with other similar ones for cotton, sugar, rice, &c., showing the producers of under five bales, hogsheads, &c., between 5 and 10, 10 and 100, 100 and 500. The counties here selected have been taken at random, and represent New England, the South and the West, to wit: Franklin in Kentucky; Point Coupee, Ouachita, Rapides, Plaquemines and East Feliciana in Louisiana; Allegan, Barry, Branch and Berrien, in Michigan; Erie in Ohio; Potter and Pike in Pennsylvania; Bristol, Kent and Washington in Rhode Island; Abbeville, Anderson, Barnwell, Beaufort, Charleston, Marlboro', and Marion, in South Carolina.

TABLE CLXXXIX.—*Landholders occupying in certain Counties.*

Counties in the States of	Less than 5 acres.	5 and less than 10.	10 and less than 50.	50 and less than 100.	100 and less than 500.	500 and less than 1,000.	1,000 and less than 10,000.	10,000 and upwards.	No. of farms classified.
Kentucky	70	40	230	205	365	29	4	.....	943
Louisiana	64	6	214	185	622	260	206	1	1,558
Michigan	9	7	526	1,250	1,359	21	9	.....	3,181
Ohio	.....	.....	164	381	491	16	3	.....	1,055
Pennsylvania	.....	.....	58	344	625	10	7	.....	1,044
Rhode Island	43	41	400	574	1,176	16	.....	.....	2,250
South Carolina	60	106	1,392	773	4,951	1,472	1,230	16	9,400

Of the cultivators embraced, one in 9 in Kentucky, one in 22 in Louisiana, one in 27 in Rhode Island, one in 56 in South Carolina, and one in 198 in Michigan, cultivate less than ten acres. Of the larger cultivators, South Carolina and Louisiana show an excess.

The latest returns of agriculture are for the crop of 1849. Consulting the Prices Current at the points of production and consumption, and forming the mean, a table of valuation has been prepared. The approximation is as near as can be arrived at.

* Exclusive of Texas—area 237,504 miles; improved land 643,976 acres; unimproved 10,852,363 acres; value of farms $16,550,008; implements and machinery $2,151,704.

† Exclusive of unorganized Territories.

TABLE CXC.—*Value of the Agricultural Products of the United States*, 1850.

Products.	Value.	Products.	Value.
Indian corn	$296,035,552	Live stock, over 1 year old—annual product	$175,000,000
Wheat	100,485,944	Animals slaughtered	55,000,000
Cotton	98,603,720	Poultry on the basis of 1840	13,000,000
Hay	96,870,494	Feathers	2,000,000
Oats	43,975,253	Milk, (not included in butter and cheese)	7,000,000
Butter	50,135,248	Eggs	5,000,000
Potatoes—Irish	26,319,158	Cord wood on the basis of 1840	20,000,000
Potatoes—sweet	19,134,074	Home made manufactures—one-half for agricultural part.—(*Tucker.*)	13,746,822
Wool	15,755,087	Small crops—basis of Rhode Island for onions, carrots, &c	5,000,000
Tobacco	13,982,686	Residuum of crops, not consumed by stock, corn fodder, cotton, seed, straw, rice flour, and manure, (Patent Reports)	100,000,000
Cane sugar	12,378,850	Cattle, sheep, and pigs, under one year old	50,000,000
Rye	7,803,847	Add for orchard and garden products of cities, not included in above—milk, butter, poultry, horses, cows, &c., in cities and towns	15,000,000
Orchard products	7,723,186	Total agricultural products—1849, 1850	1,299,197,082
Buckwheat	6,909,838	To which add for increase since 1850, and for the greater value of agricultural products would give total for 1854	1,600,000,000
Peas and beans	5,762,436		
Market garden products	5,280,030		
Cheese	5,276,795		
Hemp	5,247,430		
Rice	4,000,000		
Barley	3,616,910		
Molasses	2,540,179		
Beeswax and honey	2,376,606		
Clover seed	2,344,890		
Maple sugar	1,712,671		
Hops	1,223,960		
Flaxseed	843,468		
Grass seeds (other than clover)	833,602		
Flax	770,967		
Wine	442,498		
Silk cocoons	5,421		

By a special resolution of the Senate, the Census Office was requested to furnish a statement showing the quantity of land cultivated in each of the agricultural staples of the country. The time was not sufficient for the collection of material necessary to prepare such a statement fully for the present volume, as an extensive correspondence would be required. By an examination of the marshals' returns, showing the average product to the acre in every county for a good crop, and the actual product in the year of the census, approximate data were obtained from which the following table was compiled. It is the best that can be offered, and is the only table of the kind ever published.

TABLE CXCI.—*Land actually cultivated in the several crops of the United States*, 1849–'50.

Products.	Acres.	Products.	Acres.
Indian corn	31,000,000	Tobacco	400,000
Meadow or pasture lands—that proportion which is regarded improved, and exclusive of hay crop	20,000,000	Sugar	400,000
Hay	13,000,000	Barley	300,000
Wheat	11,000,000	Rice	175,000
Oats	7,500,000	Hemp	110,000
Cotton	5,000,000	Flax	100,000
Rye	1,200,000	Orchards	500,000
Peas and beans	1,000,000	Gardens	500,000
Irish potatoes	1,000,000	Vineyards	250,000
Sweet potatoes	750,000	Other products	1,000,000
Buckwheat	600,000	Improved, but not in actual cultivation	17,247,614
		Total improved lands	113,032,614

It would thus appear that the actual crops do not account for 17,247,614 acres, which are returned as being improved. It is possible the total reported as improved is exaggerated by a part of this difference, say 9,000,000 acres, which would leave about 8,000,000 for waste, yet improved lands.†

* Professor Tucker estimated the crop of 1840 at $654,987,597. It was no doubt nearer $800,000,000.

† The New York State census of 1845 reports 11,757,276 acres improved land, a near approximation to the United States census of 1850. Of this amount only 3,851,594 were cultivated in barley, peas, beans, buckwheat, turnips, potatoes, flax, wheat, corn, rye, and oats, leaving nearly eight millions for meadows, hay, gardens, orchards, &c., and unaccounted for. The State reports of Ohio for 1851 show 1,677,253 acres in wheat, and 1,664,429 acres in corn. If the occupied land sustained the same relation to the whole population in 1840

TABLE CXCII.—*Ratio per cent. of Population and certain Products in the States to the total of the United States.*

The table which follows is very incomplete, but nothing better can be framed from the returns, which in general were very carelessly made or entirely neglected.

and 1800 as in 1850, it would seem that 77,000,000 acres have been taken up or brought into use in the last ten years, and 226,000,000 acres in the last fifty years. In the same period 4,129,777 acres were brought into use in England.

The following table was prepared for the English House of Commons in 1827 in statute acres.

Divisions.	Cultivated.	Uncultivated.	Unprofitable.	Summary.
England	25,632,000	3,454,000	3,256,400	32,342,400
Wales	3,117,000	530,000	1,105,000	4,752,000
Scotland	5,265,000	5,950,000	8,523,930	19,738,930
Ireland	12,125,280	4,900,000	2,416,664	19,441,944
British Islands	383,690	166,000	569,469	1,119,159
Total	46,522,970	15,000,000	15,871,463	77,394,333

Of this total, 19,135,990 acres were in arable lands and gardens, 27,386,980 in meadows, pastures and marshes, 15,000,000 wastes, capable of improvement, 15,871,463 wastes, incapable of improvement. In France there are 82,790,702 acres improved land, in Prussia 39,478,704, in Austria 138,808,366. Unimproved in France, 38,238,616, in Austria 25,812,517, in Prussia 28,741,156. By the census of 1849–50 for Austria and Prussia, it appears that the former had 3,229,884 horses, 112,820 asses and mules, 5,910,886 milch cows, 3,239,365 working oxen, 13,583,254, other cattle, and the latter, 1,575,417 horses, 7,475 asses and mules, 3,078,126 cows, 676,395 oxen 1,617,123 other cattle, 16,296,928 sheep, 2,466,316 swine, and produced 15,998,450 bushels corn, 96,803,080 of rye, 114,503,300 of oats, 21,583,320 lbs. tobacco, 21,581,890 lbs. wool, 423,555,000 bushels Irish potatoes, 29,143,000 bushels barley, and 6,670,670 gallons wine.

* Crop underrated. In 1852, Virginia reports gave 3,450 tons dew-rotted hemp and 1,149 tons water-rotted.]

TABLE CXCIII.—*Actual Crops per acre on the average as returned by the Marshals for* 1849-50.

Mississippi	15,110	....	....	....	....	Total	74,031	2,681	551	15,745	8,327

There are in the Southern States 74,031 cotton plantations, including all producers of more than five bales. 2,681 sugar planters including the smallest; 551 estates making more than 20,000 pounds of rough rice each; 15,745 tobacco estates of 3,000 pounds each and over in Kentucky, Tennessee and Virginia; 8,327 hemp planters in Kentucky and Missouri. Only such States are taken as are considered crop States.

2. MANUFACTURES.—The complete statistics of manufactures in the United States are being now aggregated from the returns of the census of 1850. They are no doubt quite as full and reliable as those of the census of 1810, 1820 or 1840, and perhaps more complete.* It will be very long before any country can expect entire accuracy in such reports, although by their means close and valuable approximations may be made. The heavy expense at which these statistics were obtained and the extensive ground which they cover entitle them to publication, and all chances of material error can be guarded against by appending to them notes of comparison with the local reports of the several States, cities, associations, etc.

* For example, in 1840, 6 or 8 importing merchants were given to Abbeville, S. C. where there was not in fact one, and in Boston $3,442,399 was given as the capital invested and $4,016,573 the product, though the State census of manufactures in 1839 reported $5,630,572 capital and $11,671,576 product in the same articles. The whole manufacturing product of the United States in 1810 was estimated at $172,000,000 and in 1840 about $500,000,000.

The following tables have undergone a few revisions since their first preparation and are proper to be placed in the present volume. There are 121,855 establishments of every description reported, producing each of any kind of manufactured article the amount annually of five hundred dollars. The capital invested in real and personal estate is $527,209,193; the value of raw material used, including fuel, $554,655,038; the amount paid for labor, $229,736,377, and the gross annual value produced $1,013,336,463, making 43 per cent. profit upon the whole investment. The ratio of profits in the several States is also given, presenting some anomalies which cannot at present be reconciled. Those who will examine the manufacturing returns of 1840 and 1820 will find still greater ones. The figures giving the number of hands employed and the value of annual product are no doubt entirely correct, the chances of error being mainly in the returns of the cost of raw material and the amount of capital invested. An average profit of 43 per cent. would not be too high for the whole industrial operations of the country. The number of hands employed of all ages was 719,479 males and 225,512 females; total, 944,991. The County tables of this volume will show the amount of capital invested, the hands employed and the total product of every county in the United States. The motive power, as steam, horse, water, etc. was ascertained for each establishment requiring such, but has not been prepared in tabular form. As the examination of the Industrial schedules progresses it is probable many of the figures in the tables will be modified and corrected.

3. COMMERCE.—The statistics of the various branches of commerce in the several States, though ascertained by the census of 1840, were omitted among the items of that of 1850, except as to the number of persons employed and the nature of the business employing them. There were in 1850 100,752 merchants proper, and 14,917 traders, if reliance can be placed on the figures, which is doubtful. Prof. Tucker from the returns, estimated the annual product from commerce in 1840 at $97,721,086; $40,680,081, or more than half being for the Middle States, $13,528,740 for the New England, $11,967,281 for the South, $14,255,964 for the South-west, and $17,289,020 for the North-west. Without doubt the figures are low. It would be fair to estimate the home and foreign commerce of the United States in 1850 at $1,500,000,000,* paying a profit of 20 per cent, or $300,000,000, or more than the profits of manufactures. However these are but mere hypotheses.

The following statistics are presented as a proper and necessary appendage to the Industrial Report of the census. They have been carefully collected in the office from official sources, or such as are regarded official, as Seybert, Pitkins, Hazard, &c., and will give in a condensed form all that can be desired here in relation to the early and growing commerce of the Colonies, States,

* The Western River commerce has been estimated at $339,502,744; Lake and River commerce together, $653,976,202. (*Corwin's Report on Steam Marine of the Interior.*) If half the agricultural products and all of the manufacturing were subjects of commerce, the whole commercial movement might be estimated at between $1,500,000,000 and $2,000,000,000. Mr. Walker, in his Treasury Report of 1847, estimated the whole products of the country at $3,000,000,000 annually. $300,000,000 profit in commerce would be less than $3,000 to each of the 100,752 merchants reported in 1850

and Union, the countries with which the commerce was conducted, the nature of the commodities bartered, the extent of revenues, expenditures, debt, tonnage, with instructive ratio tables. A digest has never before been published of these matters, so complete.

* "During the war of the Revolution, our commerce was suspended; after the peace in 1783, our trade continued to languish; it had to contend with domestic and foreign obstacles; foreign nations entertained a jealousy concerning these States; at home a rivalship was prevalent amongst the several members of the confederacy, and checked the prosperity of the nation. Each of the thirteen independent sovereignties contemplated its own immediate interests; some of the States declared the commercial intercourse with them to be equally free to all nations, and they cautiously avoided to lay duties on such merchandize as was subject to them, when imported into other States."

From the records of the English custom house: Exports from America to Great Braitain 1784, £749,345; imports to America from Great Britain, £3,679,467; 1785, exports £893,594, imports £2,308,023; 1786, exports £443,119, imports £1,603,465; 1787, exports £893,637, imports £2,009,111; 1788, exports £1,023,784, imports £1,886,142; 1789, exports £1,050,198, imports £2,525,298; 1790, exports £1,191,071, imports £3,431,778.

† From March 4, 1789, to Dec. 31, 1791. ‡ 9 months of 1843. ‖ 6 months of 1843.

4. INTERNAL IMPROVEMENTS.—The following will show the number of miles of rail roads existing in the United States in each year since the period of their first introduction: In 1828, 3 miles, 1829, 28; 1830, 41; 1831, 54; 1832, 131; 1833, 576; 1834, 762; 1835, 918; 1836, 1,102; 1837, 1,421: 1838, 1,843; 1839, 1,920; 1840, 2,167; 1841, 3,319; 1842, 3,877; 1843, 4,174; 1844, 4,311; 1845, 4,511; 1846, 4,870; 1847, 5,336; 1848, 5,682; 1849, 6,350; 1850, 7,355; 1851, 9,090 1852, 11,631; 1853, 13,379; 1854, 17,317.

The following will show the present results of rail roads and canals in the United States. The funded debt of rail roads, in 1853 was $130,000,000, and their gross earnings $38,356,[illegible]. A report of 2,356 miles of canals, shows a total cost of $54,676,936. There were in 1853, 89 telegraphic lines having 23,261 miles of wire. At present the miles of wire may be estimated at over 30,000.

TABLE CCXIII.—*Rail Roads and Canals*, 1854.

In Great Britain 7,686 miles of railway in 1853 were open to traffic, and charters existed for 2,164 miles more; in 1850, 625 miles were opened, in 1853, 350 miles. Total capital invested 1852, £264,165,680. Total passengers conveyed, 102,286,660. Total receipts from all sources, £18,635,879. In France, 1853, there were 4,070 kilometres (⅝ of a mile, 1,093 yards) of railroad in operation, 1890 under construction, and 3,665 proposed. Dr. Lardner estimated the railroads opened in the world in 1845, 18,656, and in construction 7,820, with a total capital of about £500,000,000. A late French authority, 1854, states the miles of railroad in Europe to be 52,011 kilom. of which 45,589 were opened. The relation of the governments to each other with regard to railroads and in proportion to territory, is expressed in the figures. France 0.77, Prussia 1.06, smaller German States 1.30, Belgium 3.06, Great Britain 3.91.

The number of miles of railway now in operation upon the surface of the globe is 35,480, of which 16,890 are in the Eastern Hemisphere, and 18,590 are in the Western; and which are distributed as follows:

In the United States 17,317 miles, British Provinces 823, Island of Cuba 359, Panama 31, South America 60, Great Britain 7,686, Germany 5,340, France 2,480, Belgium 532, Russia 422, Sweden 75, Italy 170, Spain 60, Africa 25, India 100.

PART V.

PROPERTY, REVENUE, TAXATION, &c.

THE value of real and personal estate in the United States in 1850 was $7,066,562,966. Supposing this to be correct, and estimating the increase since that time to have averaged as much as in Kentucky, which in 1853 was $366,957,487, the total in 1854 would be upwards of $7,500,000,000 for the official and $9,000,000,000 for the real. This is but an approximation, as the taxable property is only included, which in all of the States is greatly less than the whole. The real estate in farms alone, as was seen in another place, amounted in value to $3,271,575,426 in 1850. From the official report of States and cities, collected independently of the census: Taxable property of Texas, 1850, $51,814,615; 1853, $99,155,114; Pennsylvania, 1852, $531,370,454; California, 1852, $64,388,175; Ohio, 1850, $430,839,685; Virginia, 1850, $274,680,926 for lands alone; Arkansas, 1852, $43,569,458; Illinois, 1851, real $86,512,537, real and personal $119,868,336; Iowa, 1852, $38,927,370; Louisiana, 1850, $220,165,172; 1851, $270,000,000; New York, 1852, real $946,467,907, personal $221,802,950; Tennessee, 1850, $159,558,183; Maryland, 1851, $191,888,088; Georgia, 1853, lands $116,437,117, city property included $19,314,347; Mississippi, taxable land valued at $76,901,031; Indiana, 1853, assessed value of property $265,097,614; Baltimore, real and personal, 1850, $80,237,960; Mobile, 1850, $11,985,960; 1851, $17,670,295; New York city, real $227,015,855, real and personal $320,110,866; 1853, 413,086,932; Savannah, 1848, $3,600,000 real estate; New Orleans, 1853, $66,350,266 for real, and for real and personal $83,588,055; Boston, 1850, real $105,093,400, personal $74,907,100, total $180,000,000; Charleston, 1852, $11,942,886; 1854, $23,000,000 by a new assessment of real estate.

The total debt of the United States July 1, 1854, as reported by the Secretary of the Treasury, was $47,180,506.05; the amount of bonds and stocks outstanding on June 30, 1853, of the General and State governments, cities, counties, rail roads, banks, insurance companies is estimated by the Secretary at $1,178,567,882, of which those held by foreigners are between $184,184,714 and $222,225,315 or between one-fifth and one-sixth. The property owned by State governments exclusively of lots, buildings, &c. devoted to government uses he estimates at $171,889,889.

Receipts into the Treasury, 1852: revenues from customs $47,339,326, for public lands $2,043,239, total receipts $49,728,386. Expenditure: civil list $3,422,939, foreign intercourse $4,132,671, including $3,180,000 to Mexico, miscellaneous $5,198,828, War Department $8,225,246, navy $8,928,236, public debt $6,275,815, total expenditure $46,007,896. Revenue of Great Britain, 1853, £50,468,193, of which £21,622,493 from imposts. Relative annual expenditure of Britain $256,000,000, debt $3,822,000,000; of France $285,600,000; debt $943,000 000; of Russia, $77,650,000, debt $550,000,000; of Spain $51,000,000, debt $700,000,000.

An attempt was made by the Census to ascertain the amount paid for Taxes in the U. States, but the returns are very incomplete. The following is the best that can be digested from the returns and embraces but a part of the States. The total of taxation in these States appears to be $25,055,129. Estimating the same proportion in the other States, the total would be swelled to about $43,000,000, or including federal taxes about $63,000,000, an average of $4.21 to each white person or $3.38 to each inhabitant. In 1852 the Secretary of State collected material upon this subject, which was embodied not long after in a full report. Upon averaging a few States fully returned, he estimated the amount paid by each individual for clergy, road building, militia, poor rates, town expenses, schools, county, state and federal expenses together at $2.55; excluding clergy, road and militia, $2.15.

TABLE CCXV.—*Annual Taxes.*

* Including bonds to banks, &c. $3,500,000. † Average of two years. ‡ 1853. ‖ Exclusive of sinking fund account, the revenue from which $373,537 in 1852 and expenditures from same for same year $341,011. § But a small part of this is the State debt proper, viz. $2,154,319. ¶ Including bonds to rail road companies. ** No debt except what has been used of the United States revenue fund—exact amount not stated. †† The valuation used for purposes of taxation is explained on page 23. ‡‡ 1851.

NOTE.—The amount of $99,609 set down as the debt of Delaware was a sum borrowed from the Farmers' Bank to meet extraordinary expenses of the Commonwealth for 1852; it is only a temporary loan, being principal and interest.

Of a grand total of bonds outstanding June 30, 1852, by the States, amounting to $190,718,221, $110,972,108 is estimated by the Secretary of the Treasury as held by foreigners.

For all marked thus (*a*) the revenue, expenditure and debt are taken from official replies to inquiries—all others are from the American Almanac, 1853. In several States the personal property is estimated from partial returns.

The total number of real estate holders in the U. States, upon a rough estimate from the returns of two or three States which were examined, cannot fall short of 1,500,000, or one to 3.19 of the free males over 21 years of age. In the counties of the following States, which are named upon page 153, the real estate holders are thus classified: In Connecticut $215,535 in real estate were owned by free blacks, and $88,000 by mulattoes, total $303,535; in Louisiana $311,465 by free blacks, and $3,958,830 by free mulattoes, total $4,270,295; New York city, owned by mulattoes $44,000, by blacks $65,310; New Orleans, including Lafayette, mulattoes $1,991,050, blacks $222,970; in Barnwell, Beaufort, and Charleston, S. C., 58 free colored owned under $1,000 each in real estate, 10 between $1,000 and $5,000 each, 2 between $5,000 and $10,000, etc.

Counties in the States of	Persons owning under $1,000.		Between 1,000 and 5,000.		5,000 and 10,000.		10,000 & 50,000.		50,000 & 100,000.		100,000 and 500,000.		500,000 and 1,000,000		Aggregate.		Aggregate in the counties classified.

INDIANS.—The number of Indians within the territory of the United States was stated by General Knox, Secretary of War, to be 76,000 in 1789. In consequence of annexation of new territory, notwithstanding the extinction of tribes, the whole number in 1825 reported by the Indian Department, was 129,366, exclusive of those in the Missouri valley, &c. In 1853 the present commissioner of Indian Affairs estimated the total number at 400,764, of which 271,930 were in California, Oregon, Texas, &c., and therefore not embraced in 1828. This would show a decline of 532 upon the number then existing. The names of tribes and past and present locations will be seen on page 94, quarto census. The following are the numbers of some of the largest tribes in 1853: Creeks of Indian country, 25,000; Cherokees of Indian country, 19,130; Choctaws of Indian country, 17,000; Sioux of Minnesota, 8,000; Chippewas of Minnesota, 8,000; California Indians, 100,000; Oregon and Washington Indians, 23,000; Utah Indians, 11,500; New Mexico Indians, 45,000; Texas Indians, 29,000; Missouri Valley Indians, 43,450; Arkansas River Indians, 20,000.

MISCELLANEOUS.—1850, 865 Whig and 742 Democratic papers published in the United States as shown by the returns. In 1830, exclusive of the army and navy, there were 3,806 persons in the employment of the federal government; in 1854 the number is 35,456, a nine-fold increase, the population having increased about five-fold. The coinage of the United States Mint and branches was in 1800, $317,760 gold, $224,256 silver, $20,279 copper, total $571,335; in 1820, $1,319,020 gold, $301,630 silver, $44,075 copper, total $1,664,765; 1852, $53,205,623 gold, $347,310 silver, $51,620 copper, total $57,104,559.

The steam marine of the United States, by report of the Secretary of the Treasury in 1852, consisted of ocean steamers 96, ordinary 322, propellers 67, ferry boats 80; total 625 of 212,500 tonnage. High pressure 213, low pressure 412, officers and crew 11,700, passengers 33,342,816, of which 24,009,550 were on ferry boats. The inland steam marine consists of 767 steamers of 204,733 tonnage, carrying 5,860,950 passengers, of which 2,451,915 by ferry boats. That of Great Britain was but 1,184 boats of 142,080 tonnage.

The following will show the number of vessels built in the United States: In 1815 136 ships, 224 brigs, 680 schooners, 274 sloops and canal boats, total 1,314, tons 154,624. In 1820 44 ships, 68 brigs, 455 schooners, 145 sloops and canal boats, 43 steamers, total 785, tons 77,098. In 1852 255 ships, 79 brigs, 584 schooners, 267 sloops and canal boats, 259 steamers, 1,444 total, 351,493 tons.

The amount of tonnage at several periods will here be seen: In 1820 619,047 registered, 661,118 enrolled, total 1,280,166, in whale fishery 35,391, coasting trade 559,080. In 1840 899,764 registered, 1,280,999 enrolled, total 2,180,764, in whale fishery, 136,929, coasting trade, 1176,694. In 1852 1,869,446 registered, 2,338,932 enrolled, total 4,138,440, in whale fishing 193,797, incoasting trade 2,608,621. Tonnage entered 1851, Great Britain, native 4,388,245, foreign 2,599,988; France, native 866,145, foreign 1,312,411; U. States, native 3,054,239, foreign 1,239,091.

The commerce of the Lakes in 1852 was thus estimated: Owned steam, 77,031 tons, owned sail, 138,914 tons; American entered steam, 1,434,779, American entered sail, 464,822 tons; foreign entered steam, 157,587, foreign sail, 174,619 tons; American cleared steam, 1,482,548, American cleared sail, 438,062 tons; foreign cleared steam, 898,562, foreign cleared sail, 166,010 tons. Exports, $132,017,470 coasting; imports, $132,457,933 coasting; exports, $8,207,750, imports, $3,912,147 Canadian and foreign; value coasting trade $314,473,458; value foreign trade, $12,119,877. *Andrew's Report.*

Revenues collected at ports in the U. States for the year ending 30th June, 1853: New York, $38,250,941.58, Boston $7,206,642.52, Philadelphia $4,537,046.16, Baltimore $835,437.59, New Orleans $2,628,421.32, San Francisco $1,794,140.68, Charleston $432,229.19, Portland $350,349.22, Savannah $125,755.26, St. Louis $204,760.78, Cincinnati $251,649.90, New Haven $125,173.49, Mobile $102,951.47, Louisville, $48,307.67, Oswego $128,607.27, Richmond $73,032.98, Norfolk $31,255.51, all other districts $1,678,266.64. New Orleans.—Receipts by river, 1851, $115,833,793; 1850, $103,924,083; 1853, $134,233,735; received at the Hudson River by canals, 1852, $33,859,102; 1853, $34,443,06.

Public Domain.—Lands sold from opening of land office to 30th June, 1852, 102,113,931 acres, granted for schools &c., 40,582,678 deaf and dumb asylums, 44,071, for internal improvements, 10,007,677; military service, 12,760,219; reserved for Indians, 3,469,725; swamp lands granted to States, 28,155,670; lands unsold, 1,387,534,991 acres.

Patent Office.—In 1841, 847 applications, 312 caveats, 435 patents issued; 1847, 1531 applications, 533 caveats, 572 patents issued; 1852, 2,639 applications, 993 caveats, 1,639 patents issued.

Upon the subject of agriculture the following notes are given in regard to sugar and cotton. Similar ones upon other crops are excluded for want of space, but will be found admirably digested in the report of the Patent Office for the present year.

Sugar crop of Louisiana, 1833, 30,000 hhds., 1839-40 119,947, 1844-5 204,913 hhds., 1846, planters producing over 1,000 hhds. 8, 900 3, 800 8, 700 20, 600 20, 500 48, 400 45, 300 99, 200 104, under 200 407, or 160 planters produced half of the crop. The largest crops to a planter were 2,025 and 2,324 hhds. 1852, sugar-houses in Louisiana 1,474, of which by steam power 914, horse 560, product 233,922 hhds.; product of molasses 70 gallons to the hogshead. Product 1854 442,324 hhds., 3,100,000 gals. molasses. The whole consumption of sugar in the United States in 1851 is estimated at 569,406,575 lbs; now largely increased.

Cotton crop 1790 1,500,000 lbs. 1800 35,000,000, 1810 85,000,000, 1820 160,000,000, 1827 757,000 bales, 1833 1,070,000, 1838 1,801,000, 1840 2,178,000, 1843 2,379,000, 1847 1,779,000, 1849 2,727,000, 1851 2,355,000, 1852 3,015,029, 1853 3,-232,832, 1854 2,930,027. American Consumption north of Virginia, 1844 407,000 bales, 1848 623,000, 1850 597,000, 1854 610,571, to which add about 100,000 bales in the south and west. Continental consumption, 1846 452,000, 1848 622,000, 1851 504,000, 1852 603,029. Great Britain, 1852, all kinds consumed, 1,650,000 bales. France, American cotton, 300,000. The receipts of cotton in England other than from the United States in 1853 was 450,000 bales.

Average prices of cotton, 1821 16.2, 1825 20.9, 1835, 16.8, 1836 16.8, 1840 8.6, 1841, 10.2, 1842 8.1, 1843 6, 1844 8.1, 1845 6, 1846 7.9; 1847 10.1, 1848 7.6, 1849 6.5. Average price from 1825 to 1830 12.8, 1830 to 1835 10.0, 1835 to 1840 14.4, 1840 to 1845 8.1, 1845 to 1850 7.3 cents.

The following will show the present results of rail roads and canals in the United States. The funded debt of rail roads, in 1853 was $130,000,000, and their gross earnings $38,356,[illegible]. A report of 2,356 miles of canals, shows a total cost of $54,676,936. There were in 1853, 89 telegraphic lines having 23,261 miles of wire. At present the miles of wire may be estimated at over 30,000.

TABLE CCXIII.—*Rail Roads and Canals*, 1854.

States.	Canals, miles.	RAIL ROADS. Number.	Miles in operation.	Miles in construction.	Cost.	States.	Canals, miles.	RAIL ROADS. Number.	Miles in operation.	Miles in construction.	Cost.

In Great Britain 7,686 miles of railway in 1853 were open to traffic, and charters existed for 2,164 miles more; in 1850, 625 miles were opened, in 1853, 350 miles. Total capital invested 1852, £264,165,680. Total passengers conveyed, 102,286,660. Total receipts from all sources, £18,635,879. In France, 1853, there were 4,070 kilometres (⅝ of a mile, 1,093 yards) of railroad in operation, 1890 under construction, and 3,665 proposed. Dr. Lardner estimated the railroads opened in the world in 1845, 18,656, and in construction 7,820, with a total capital of about £500,000,000. A late French authority, 1854, states the miles of railroad in Europe to be 52,011 kilom. of which 45,589 were opened. The relation of the governments to each other with regard to railroads and in proportion to territory, is expressed in the figures. France 0.77, Prussia 1.06, smaller German States 1.30, Belgium 3.06, Great Britain 3.91.

The number of miles of railway now in operation upon the surface of the globe is 35,480, of which 16,890 are in the Eastern Hemisphere, and 18,590 are in the Western; and which are distributed as follows:

In the United States 17,317 miles, British Provinces 823, Island of Cuba 359, Panama 31, South America 60, Great Britain 7,686, Germany 5,340, France 2,480, Belgium 532, Russia 422, Sweden 75, Italy 170, Spain 60, Africa 25, India 100.

PART V.

PROPERTY, REVENUE, TAXATION, &c.

THE value of real and personal estate in the United States in 1850 was $7,066,562,966. Supposing this to be correct, and estimating the increase since that time to have averaged as much as in Kentucky, which in 1853 was $366,957,487, the total in 1854 would be upwards of $7,500,000,000 for the official and $9,000,000,000 for the real. This is but an approximation, as the taxable property is only included, which in all of the States is greatly less than the whole. The real estate in farms alone, as was seen in another place, amounted in value to $3,271,575,426 in 1850. From the official report of States and cities, collected independently of the census: Taxable property of Texas, 1850, $51,814,615; 1853, $99,155,114; Pennsylvania, 1852, $531,370,454; California, 1852, $64,388,175; Ohio, 1850, $430,839,685; Virginia, 1850, $274,680,926 for lands alone; Arkansas, 1852, $43,569,458; Illinois, 1851, real $86,512,537, real and personal $119,868,336; Iowa, 1852, $38,927,370; Louisiana, 1850, $220,165,172; 1851, $270,000,000; New York, 1852, real $946,467,907, personal $221,802,950; Tennessee, 1850, $159,558,183; Maryland, 1851, $191,888,088; Georgia, 1853, lands $116,437,117, city property included $19,314,347; Mississippi, taxable land valued at $76,901,031; Indiana, 1853, assessed value of property $265,097,614; Baltimore, real and personal, 1850, $80,237,960; Mobile, 1850, $11,985,960; 1851, $17,670,295; New York city, real $227,015,855, real and personal $320,110,866; 1853, 413,086,932; Savannah, 1848, $3,600,000 real estate; New Orleans, 1853, $66,350,266 for real, and for real and personal $83,588,055; Boston, 1850, real $105,093,400, personal $74,907,100, total $180,000,000; Charleston, 1852, $11,942,886; 1854, $23,000,000 by a new assessment of real estate.

The total debt of the United States July 1, 1854, as reported by the Secretary of the Treasury, was $47,180,506.05; the amount of bonds and stocks outstanding on June 30, 1853, of the General and State governments, cities, counties, rail roads, banks, insurance companies is estimated by the Secretary at $1,178,567,882, of which those held by foreigners are between $184,184,714 and $222,225,315 or between one-fifth and one-sixth. The property owned by State governments exclusively of lots, buildings, &c. devoted to government uses he estimates at $171,889,889.

Receipts into the Treasury, 1852: revenues from customs $47,339,326, for public lands $2,043,239, total receipts $49,728,386. Expenditure: civil list $3,422,939, foreign intercourse $4,132,671, including $3,180,000 to Mexico, miscellaneous $5,198,828, War Department $8,225,246, navy $8,928,236, public debt $6,275,815, total expenditure $46,007,896. Revenue of Great Britain, 1853, £50,468,193, of which £21,622,493 from imposts. Relative annual expenditure of Britain $256,000,000, debt $3,822,000,000; of France $285,600,000; debt $943,000 000; of Russia, $77,650,000, debt $550,000,000; of Spain $51,000,000, debt $700,000,000.

The following will show the present results of rail roads and canals in the United States. The funded debt of rail roads, in 1853 was $130,000,000, and their gross earnings $38,356,[illegible]. A report of 2,356 miles of canals, shows a total cost of $54,676,936. There were in 1853, 89 telegraphic lines having 23,261 miles of wire. At present the miles of wire may be estimated at over 30,000.

An attempt was made by the Census to ascertain the amount paid for Taxes in the U. States, but the returns are very incomplete. The following is the best that can be digested from the returns and embraces but a part of the States. The total of taxation in these States appears to be $25,055,129. Estimating the same proportion in the other States, the total would be swelled to about $43,000,000, or including federal taxes about $63,000,000, an average of $4.21 to each white person or $3.38 to each inhabitant. In 1852 the Secretary of State collected material upon this subject, which was embodied not long after in a full report. Upon averaging a few States fully returned, he estimated the amount paid by each individual for clergy, road building, militia, poor rates, town expenses, schools, county, state and federal expenses together at $2.55; excluding clergy, road and militia, $2.15.

TABLE CCXV.—*Annual Taxes.*

States.	Annual Taxes.

* Including bonds to banks, &c. $3,500,000. † Average of two years. ‡ 1853. ‖ Exclusive of sinking fund account, the revenue from which $373,537 in 1852 and expenditures from same for same year $341,011. § But a small part of this is the State debt proper, viz. $2,154,319. ¶ Including bonds to rail road companies. ** No debt except what has been used of the United States revenue fund—exact amount not stated. †† The valuation used for purposes of taxation is explained on page 23. ‡‡ 1851.

NOTE.—The amount of $99,609 set down as the debt of Delaware was a sum borrowed from the Farmers' Bank to meet extraordinary expenses of the Commonwealth for 1852; it is only a temporary loan, being principal and interest.

Of a grand total of bonds outstanding June 30, 1852, by the States, amounting to $190,718,221, $110,972,108 is estimated by the Secretary of the Treasury as held by foreigners.

For all marked thus (*a*) the revenue, expenditure and debt are taken from official replies to inquiries—all others are from the American Almanac, 1853. In several States the personal property is estimated from partial returns.

The total number of real estate holders in the U. States, upon a rough estimate from the returns of two or three States which were examined, cannot fall short of 1,500,000, or one to 3.19 of the free males over 21 years of age. In the counties of the following States, which are named upon page 153, the real estate holders are thus classified: In Connecticut $215,535 in real estate were owned by free blacks, and $88,000 by mulattoes, total $303,535; in Louisiana $311,465 by free blacks, and $3,958,830 by free mulattoes, total $4,270,295; New York city, owned by mulattoes $44,000, by blacks $65,310; New Orleans, including Lafayette, mulattoes $1,991,050, blacks $222,970; in Barnwell, Beaufort, and Charleston, S. C., 58 free colored owned under $1,000 each in real estate, 10 between $1,000 and $5,000 each, 2 between $5,000 and $10,000, etc.

Counties in the States of	Persons owning under $1,000.		Between 1,000 and 5,000.		5,000 and 10,000.		10,000 & 50,000.		50,000 & 100,000.		100,000 and 500,000.		500,000 and 1,000,000		Aggregate.		Aggregate in the counties classified.

INDIANS.—The number of Indians within the territory of the United States was stated by General Knox, Secretary of War, to be 76,000 in 1789. In consequence of annexation of new territory, notwithstanding the extinction of tribes, the whole number in 1825 reported by the Indian Department, was 129,366, exclusive of those in the Missouri valley, &c. In 1853 the present commissioner of Indian Affairs estimated the total number at 400,764, of which 271,930 were in California, Oregon, Texas, &c., and therefore not embraced in 1828. This would show a decline of 532 upon the number then existing. The names of tribes and past and present locations will be seen on page 94, quarto census. The following are the numbers of some of the largest tribes in 1853: Creeks of Indian country, 25,000; Cherokees of Indian country, 19,130; Choctaws of Indian country, 17,000; Sioux of Minnesota, 8,000; Chippewas of Minnesota, 8,000; California Indians, 100,000; Oregon and Washington Indians, 23,000; Utah Indians, 11,500; New Mexico Indians, 45,000; Texas Indians, 29,000; Missouri Valley Indians, 43,450; Arkansas River Indians, 20,000.

MISCELLANEOUS.—1850, 865 Whig and 742 Democratic papers published in the United States as shown by the returns. In 1830, exclusive of the army and navy, there were 3,806 persons in the employment of the federal government; in 1854 the number is 35,456, a nine-fold increase, the population having increased about five-fold. The coinage of the United States Mint and branches was in 1800, $317,760 gold, $224,256 silver, $20,279 copper, total $571,335; in 1820, $1,319,020 gold, $301,630 silver, $44,075 copper, total $1,664,765; 1852, $53,205,623 gold, $347,310 silver, $51,620 copper, total $57,104,559.

The steam marine of the United States, by report of the Secretary of the Treasury in 1852, consisted of ocean steamers 96, ordinary 322, propellers 67, ferry boats 80; total 625 of 212,500 tonnage. High pressure 213, low pressure 412, officers and crew 11,700, passengers 33,342,816, of which 24,009,550 were on ferry boats. The inland steam marine consists of 767 steamers of 204,733 tonnage, carrying 5,860,950 passengers, of which 2,451,915 by ferry boats. That of Great Britain was but 1,184 boats of 142,080 tonnage.

The following will show the number of vessels built in the United States: In 1815 136 ships, 224 brigs, 680 schooners, 274 sloops and canal boats, total 1,314, tons 154,624. In 1820 44 ships, 68 brigs, 455 schooners, 145 sloops and canal boats, 43 steamers, total 785, tons 77,098. In 1852 255 ships, 79 brigs, 584 schooners, 267 sloops and canal boats, 259 steamers, 1,444 total, 351,493 tons.

The amount of tonnage at several periods will here be seen: In 1820 619,047 registered, 661,118 enrolled, total 1,280,166, in whale fishery 35,391, coasting trade 559,080. In 1840 899,764 registered, 1,280,999 enrolled, total 2,180,764, in whale fishery, 136,929, coasting trade, 1176,694. In 1852 1,869,446 registered, 2,338,932 enrolled, total 4,138,440, in whale fishing 193,797, incoasting trade 2,608,621. Tonnage entered 1851, Great Britain, native 4,388,245, foreign 2,599,988; France, native 866,145, foreign 1,312,411; U. States, native 3,054,239, foreign 1,239,091.

The commerce of the Lakes in 1852 was thus estimated: Owned steam, 77,031 tons, owned sail, 138,914 tons; American entered steam, 1,434,779, American entered sail, 464,822 tons; foreign entered steam, 157,587, foreign sail, 174,619 tons; American cleared steam, 1,482,548, American cleared sail, 438,062 tons; foreign cleared steam, 898,562, foreign cleared sail, 166,010 tons. Exports, $132,017,470 coasting; imports, $132,457,933 coasting; exports, $8,207,750, imports, $3,912,147 Canadian and foreign; value coasting trade $314,473,458; value foreign trade, $12,119,877. *Andrew's Report.*

Revenues collected at ports in the U. States for the year ending 30th June, 1853: New York, $38,250,941.58, Boston $7,206,642.52, Philadelphia $4,537,046.16, Baltimore $835,437.59, New Orleans $2,628,421.32, San Francisco $1,794,140.68, Charleston $432,229.19, Portland $350,349.22, Savannah $125,755.26, St. Louis $204,760.78, Cincinnati $251,649.90, New Haven $125,173.49, Mobile $102,951.47, Louisville, $48,307.67, Oswego $128,607.27, Richmond $73,032.98, Norfolk $31,255.51, all other districts $1,678,266.64. New Orleans.—Receipts by river, 1851, $115,833,793; 1850, $103,924,083; 1853, $134,233,735; received at the Hudson River by canals, 1852, $33,859,102; 1853, $34,443,06.

Public Domain.—Lands sold from opening of land office to 30th June, 1852, 102,113,931 acres, granted for schools &c., 40,582,678 deaf and dumb asylums, 44,071, for internal improvements, 10,007,677; military service, 12,760,219; reserved for Indians, 3,469,725; swamp lands granted to States, 28,155,670; lands unsold, 1,387,534,991 acres.

Patent Office.—In 1841, 847 applications, 312 caveats, 435 patents issued; 1847, 1531 applications, 533 caveats, 572 patents issued; 1852, 2,639 applications, 993 caveats, 1,639 patents issued.

Upon the subject of agriculture the following notes are given in regard to sugar and cotton. Similar ones upon other crops are excluded for want of space, but will be found admirably digested in the report of the Patent Office for the present year.

Sugar crop of Louisiana, 1833, 30,000 hhds., 1839-40 119,947, 1844-5 204,913 hhds., 1846, planters producing over 1,000 hhds. 8, 900 3, 800 8, 700 20, 600 20, 500 48, 400 45, 300 99, 200 104, under 200 407, or 160 planters produced half of the crop. The largest crops to a planter were 2,025 and 2,324 hhds. 1852, sugar-houses in Louisiana 1,474, of which by steam power 914, horse 560, product 233,922 hhds.; product of molasses 70 gallons to the hogshead. Product 1854 442,324 hhds., 3,100,000 gals. molasses. The whole consumption of sugar in the United States in 1851 is estimated at 569,406,575 lbs; now largely increased.

Cotton crop 1790 1,500,000 lbs. 1800 35,000,000, 1810 85,000,000, 1820 160,000,000, 1827 757,000 bales, 1833 1,070,000, 1838 1,801,000, 1840 2,178,000, 1843 2,379,000, 1847 1,779,000, 1849 2,727,000, 1851 2,355,000, 1852 3,015,029, 1853 3,-232,832, 1854 2,930,027. American Consumption north of Virginia, 1844 407,000 bales, 1848 623,000, 1850 597,000, 1854 610,571, to which add about 100,000 bales in the south and west. Continental consumption, 1846 452,000, 1848 622,000, 1851 504,000, 1852 603,029. Great Britain, 1852, all kinds consumed, 1,650,000 bales. France, American cotton, 300,000. The receipts of cotton in England other than from the United States in 1853 was 450,000 bales.

Average prices of cotton, 1821 16.2, 1825 20.9, 1835, 16.8, 1836 16.8, 1840 8.6, 1841, 10.2, 1842 8.1, 1843 6, 1844 8.1, 1845 6, 1846 7.9; 1847 10.1, 1848 7.6, 1849 6.5. Average price from 1825 to 1830 12.8, 1830 to 1835 10.0, 1835 to 1840 14.4, 1840 to 1845 8.1, 1845 to 1850 7.3 cents.
