LETTER OF TRANSMITTAL.

DEPARTMENT OF THE INTERIOR,
CENSUS OFFICE,
WASHINGTON, D. C., December 1, 1894.

SIR:

I have the honor to transmit herewith Part I of the Report on Crime, Pauperism, and Benevolence at the Eleventh Census, giving the analysis of the general tables shown in Part II, prepared by Mr. Frederick H. Wines, special agent.

The entire report treats of prisons, juvenile reformatories, almshouses, and benevolent institutions, together with insane paupers in institutions for the insane.

I am, very respectfully, your obedient servant,

CARROLL D. WRIGHT,
Commissioner of Labor in charge.

Hon. HOKE SMITH,
Secretary of the Interior.

ANALYSIS

OF

STATISTICS OF CRIME, PAUPERISM, AND BENEVOLENCE.

GENERAL OBSERVATIONS.

The number of persons covered in this report is 340,996, namely: prisoners, 82,329; juvenile offenders, 14,846; paupers in almshouses, 73,045; inmates of benevolent institutions, 111,910; insane paupers in hospitals and asylums for the insane, 58,866. Concerning the insane paupers, no information is given other than their classification by sex, color, nativity, race, and by the institutions in which they were found. (See Table 264.)

METHOD OF THE INVESTIGATION.

The original data for the tables relating to prisoners, juvenile offenders, paupers in almshouses, and inmates of benevolent institutions were obtained through the census enumerators June 1, 1890, by means of special schedules, of which two were prepared, one for prisons and reformatories, the other for almshouses and benevolent institutions. Upon the first page of each were entered questions applicable to all persons enumerated; the second page of each contained special questions applicable to inmates of these classes of institutions. (*a*)

All of the persons covered by this report are inmates of institutions. (*b*) The enumerators returned the names of 24,220 outdoor paupers. But, in planning the work to be attempted in the Eleventh Census, it was decided to be impracticable to obtain complete and accurate information concerning this class. They are therefore entirely omitted from the statements contained in the tables of figures herewith submitted.

It should also be said, to avoid misunderstanding, that not all the inmates of benevolent institutions, so called, are objects of charity or have any direct or indirect connection with the pauper class. Many institutions, such as hospitals, receive pay patients; they are designed for use by the wealthy as well as by the poor. But it was practically impossible to make a list of institutions which should clearly distinguish between those wholly charitable, those partially charitable, and those conducted for profit (*c*), or at least on a self-supporting basis, and

a That the method pursued may be fully understood, the questions asked are here reproduced:

Special schedule for prisons and reformatory institutions:

First page. (1) Name. (2) Whether a soldier, sailor, or marine during the civil war (United States or Confederate) or widow of such person. (3) Relationship to head of family. (4) Whether white, black, mulatto, quadroon, octoroon, Chinese, Japanese, or Indian. (5) Sex. (6) Age at nearest birthday; if under 1 year, give age in months. (7) Whether single, married, widowed, or divorced. (8) Whether married during the census year (June 1, 1889, to May 31, 1890). (9) If a female, mother of how many children; number of these children living. (10) Place of birth. (11) Place of birth of father. (12) Place of birth of mother. (13) Number of years in the United States. (14) Whether naturalized. (15) Whether naturalization papers have been taken out. (16) Profession, trade, or occupation. (17) Months unemployed during the census year (June 1, 1889, to May 31, 1890). (18) Attendance at school (in months) during the census year (June 1, 1889, to May 31, 1890). (19) Able to read. (20) Able to write. (21) Able to speak English; if not, the language or dialect spoken. (22) Whether suffering from acute or chronic disease, with name of disease and length of time afflicted. (23) Insane. (24) Idiotic. (25) Deaf-mute. (26) Blind. (27) Crippled, maimed, or deformed.

Second page. (28) Court in which arraigned or convicted. (29) Whether a Federal prisoner. (30) Offense charged. (31) to (33) Date of incarceration: month, day of month, year. (34) Age when committed. (35) to (37) Sentence of imprisonment: years, months, days. (38) to (40) Possible reduction under good time laws: years, months, days. (41) Fine imposed, if any. (42) Rate per day, in cents. (43) Residence when at home. (44) Whether known to be a recidivist (habitual offender). (45) Number of known prior commitments to this prison. (46) Number of known prior commitments to some other prison. (47) Habits in respect of use of stimulants and narcotics. (48) Special higher education. (49) Whether ever apprenticed to learn a trade. (50) Whether a journeyman or master mechanic. (51) Employment, if any, at time of arrest. (52) Employment in prison. (53) Whether employed on contract, piece price, or public account. (54) to (61) Why imprisoned. (54) Awaiting trial. (55) Serving term of imprisonment. (56) Serving out fine. (57) Awaiting execution. (58) Awaiting removal to higher prison. (59) Held as witness. (60) For debt. (61) For insanity.

Special schedule for almshouses and benevolent institutions:

First page. Same as first page of special schedule for prisons and reformatory institutions.

Second page. (28) When admitted to this institution. (29) Whether able-bodied. (30) to (43) Cause of admission or retention. (30) Insanity. (31) Idiocy. (32) Tramp. (33) Habitual drunkard. (34) Old and infirm. (35) Bedridden. (36) Deformed. (37) Crippled. (38) Epileptic. (39) Paralytic. (40) Syphilitic. (41) Rheumatic. (42) Lying-in case. (43) No other home. (44) to (48) How supported. (44) At cost of state. (45) At cost of county. (46) At cost of city or town. (47) At cost of friends. (48) At cost of this institution. (49) Charge per week for board, etc. (50) Residence when at home. (51) to (60) Questions relating only to children under 16 years. (51) Whether born in this institution. (52) Whether illegitimate. (53) Whether a foundling. (54) Whether an orphan. (55) Has this child a father living? (56) Has this child a mother living? (57) Whether abandoned by parents. (58) Whether surrendered to this institution. (59) Whether taught in this institution. (60) Whether taught in public schools. (61) Whether this person has a father who is now an inmate of this institution. (62) Whether this person has a mother who is now an inmate of this institution. (63) Whether this person has a husband who is now an inmate of this institution. (64) Whether this person has a wife who is now an inmate of this institution. (65) Whether this person has any brothers who are now inmates of this institution. (66) Whether this person has any sisters who are now inmates of this institution. (67) Whether this person has any sons who are now inmates of this institution. (68) Whether this person has any daughters who are now inmates of this institution. (69) Whether this person has any grandchildren who are now inmates of this institution.

b Including those working in camps, mines, and on public works under judicial sentence.

c The attempt was made to expunge sanitariums and infirmaries which are private property and conducted for pecuniary profit.

equally impossible to eliminate from the lists of inmates of institutions those not maintained by the gifts of the charitable. A benevolent purpose underlies nearly all of the institutions reported; nearly all of them depend mainly upon contributions for their continued existence and usefulness, and the great mass of their beneficiaries are cared for without charge to themselves or their friends. But the characterization of all of them, without exception, as benevolent, would be an error, and this fact should be borne in mind by the reader.

PLAN OF THE REPORT.

Of the 336 tables herewith submitted, 131 relate to prisoners; 66 to juvenile offenders; 66 to paupers in almshouses; 3 to insane paupers in hospitals and asylums for the insane; 69 to inmates of benevolent institutions, and 1 to police statistics.

The tables relating to prisoners fill 511 pages; the tables relating to juvenile offenders fill 136 pages; those relating to paupers in almshouses fill 222 pages; those relating to insane paupers in hospitals and asylums for the insane, 6 pages, and those relating to the inmates of benevolent institutions, 146 pages. The tables relating to prisoners occupy about one-half the space covered.

The smaller space occupied by the remaining classes is due to two circumstances: for the prisoners and juvenile offenders three analyses have been maintained throughout the entire series of tables, of which the first is by states and territories or by geographical divisions; the second, by sex, color, nativity, and race; and the third, by crimes or offenses charged. For paupers in almshouses and inmates of benevolent institutions the analysis by crimes was inapplicable, and the analysis by states and territories was not carried through so many tables as for prisoners, in order to economize time and expense.

The general arrangement of the tables is as follows: for each of the classes, as far as practicable, a general statement is first made of the number by states and territories and by color, nativity, and race, for both sexes and for each sex. This is followed by a statement of the increase in the number, as compared with previous censuses. Then come lists of individual institutions, with the number of inmates in each; tables showing the nativity of parents, the condition of the foreign born as to naturalization of the men (*a*), ability to speak the English language, individual and average ages, marital relations, literacy or illiteracy, occupations prior to arrest or admission, residence in or out of the state in which the institution is situated, and condition as to health. Because of their youth, the naturalization of inmates of juvenile reformatories is not given, nor their advanced education, nor their occupations prior to admission. The average ages of inmates of benevolent institutions have not been calculated. Since prisoners and inmates of benevolent institutions may be subclassified according to the grade and special purpose of the institutions, the number of tables showing the number of inmates of prisons and benevolent institutions is larger than for classes where no such distinction exists, as in the case of almshouses and juvenile reformatories.

The special questions as to prisoners and juvenile offenders are answered in the tables in the following order: first, the offenses with which they are charged; then their advanced education and trade education; their condition as to employment at the time of arrest and their occupation while in prison; their habits as to the use of ardent spirits; whether they were soldiers, habitual offenders, or Federal prisoners, questions not applicable to juvenile offenders; the character of the sentences pronounced against them; the total duration of imprisonment prescribed by the courts, and the average sentences. With regard to the last two, no statement is made for juvenile offenders, because commitments are so generally made to continue during minority.

The use of three distinct analyses, instead of two, necessarily increases the number of resulting tables. Where the comparison is simply by states and territories and by sex, color, nativity, and race, one analysis is shown in the headings and the columns, and the other by the side titles at the left of the page; where the analysis is carried farther, separate pages must be used for the different possible combinations: for instance, for the combination of "states and territories" with "elements of the population"; of "states and territories" with "offenses charged", and of "offenses charged" with "elements of the population". (*b*)

The special questions asked with regard to paupers and inmates of benevolent institutions are answered in the tables in the following order: first, the number of women (*c*) who have borne children; then the causes of pauperism or dependence; mode of support in the institution; whether the inmates of the institution have or have

---

a The principal interest attaches to the naturalization of men. Women and children can be naturalized, as shown in part by the following sections of the United States Revised Statutes, second edition:

Sec. 1994. Any woman who is now or may hereafter be married to a citizen of the United States, and who might herself be lawfully naturalized, shall be deemed a citizen.

Sec. 2168. When any alien who has complied with the first condition specified in section twenty-one hundred and sixty-five dies before he is actually naturalized the widow and the children of such alien shall be considered as citizens of the United States, and shall be entitled to all rights and privileges as such, upon taking the oaths prescribed by law.

The naturalization of persons 14 years of age is indirectly recognized in the following extract:

Sec. 4067. Whenever there is a declared war between the United States and any foreign nation or government * * * all natives, citizens, denizens, or subjects of the hostile nation or government, being males of the age of fourteen years and upward, who shall be within the United States, and not actually naturalized, shall be liable to be apprehended, restrained, secured, and removed as alien enemies.

b By "elements of the population" is meant, wherever this phrase occurs in the present report, sex, color, nativity, and race, in their various possible combinations, or so many of these "elements" as may be included in any table or referred to in the text.

c Including only those reported as married, widowed, or divorced.

not relatives in the same institution; whether instruction is given in the institution or in the public schools to inmates under 16 years of age; illegitimate children; children born in the institution; able-bodied inmates; children whose parents are living; children surrendered to the institution, and foundlings.

Great care has been taken to reduce the numbers, as far as desirable and possible to ratios and percentages, in order to facilitate comparisons between the several classes.

The entire scheme of the report is shown in the following table, which will serve as a guide to analyses, combinations, and comparisons not here made. It also shows for which of the tables the numbers have been reduced to percentages. The numbers in the several columns are the numbers of the tables.

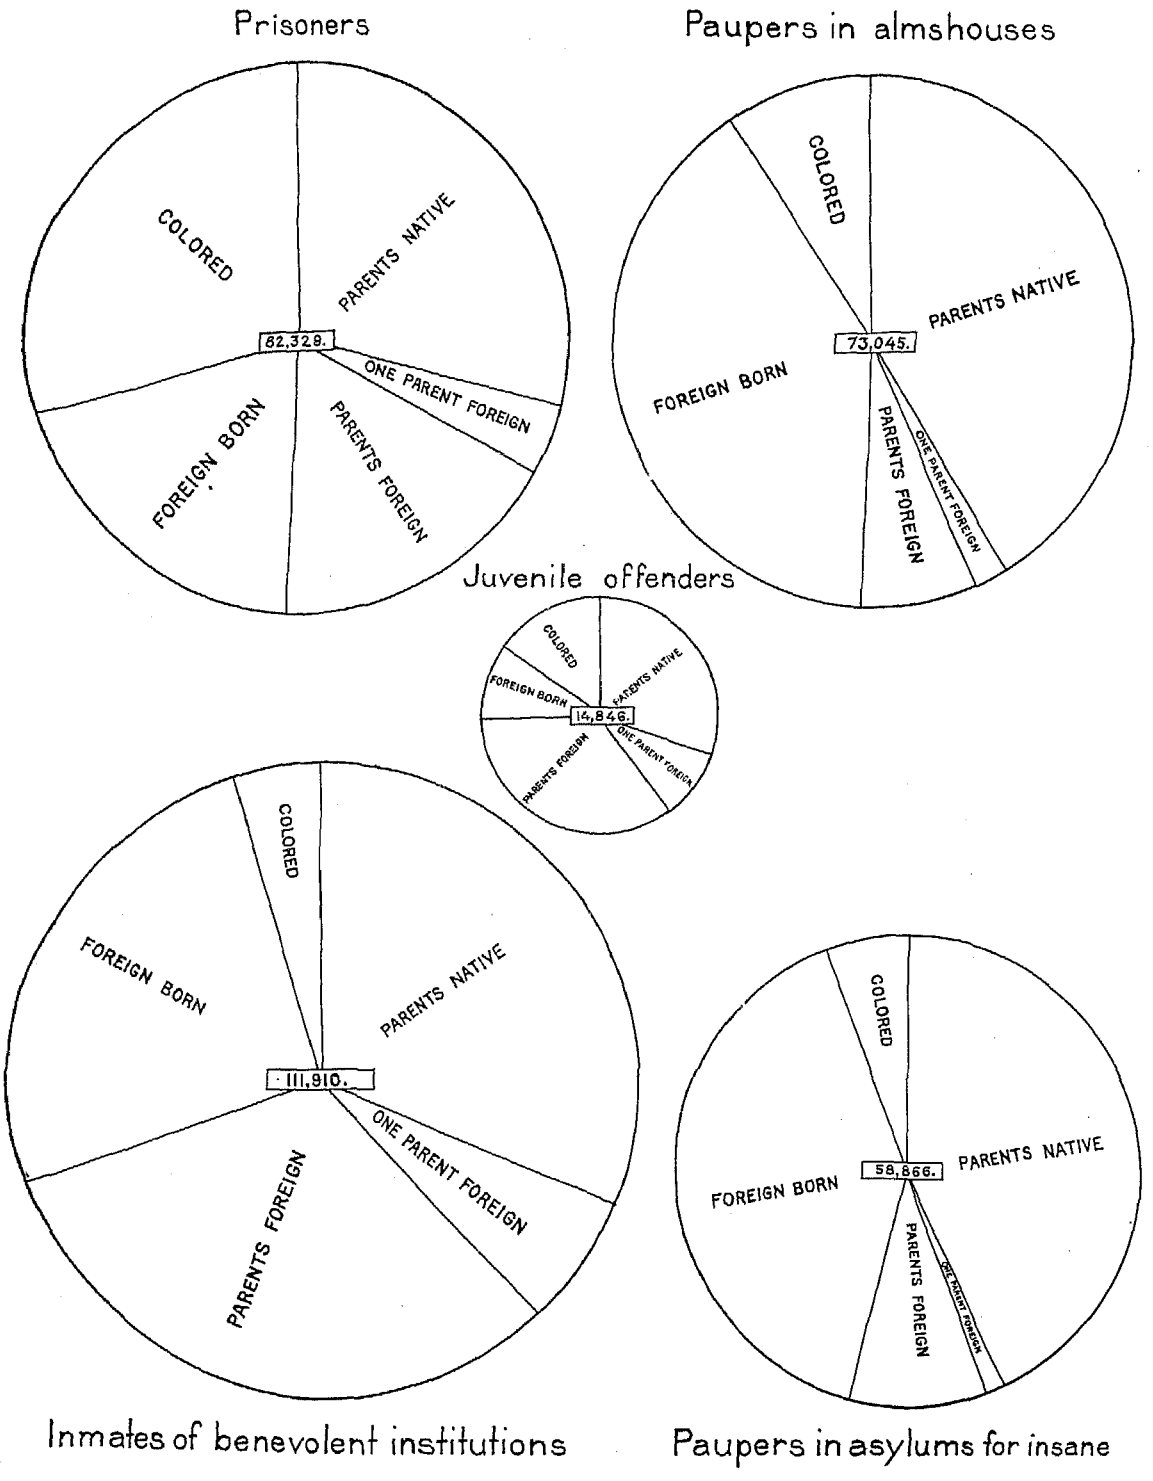
INMATES OF ALL INSTITUTIONS.

PLATE I. CLASSIFICATION BY COLOR AND NATIVITY.



INMATES OF ALL INSTITUTIONS.

PRISONERS, JUVENILE OFFENDERS, PAUPERS IN ALMSHOUSES, AND INMATES OF BENEVOLENT INSTITUTIONS.

This general summary of results relates to those in all four classes of institutions in combination and comparison with each other. It will be followed by comments upon the tables for each class separately.

COLOR, NATIVITY, AND RACE.

Plate 1 shows the relations of color and nativity in each of the four classes of institutions and of paupers in asylums for the insane. The colored are indicated without reference to nativity, the number of foreign colored being relatively very small. The whites are divided into native and foreign. (*a*) The native whites are subdivided into (1) both parents native; (2) one parent foreign; (3) both parents foreign.

By color, nativity, and race, the four classes, including insane paupers in institutions for the insane, are divided as follows:

COLOR, NATIVITY, AND RACE.	Total.	Prisoners.	Juvenile offenders.	Paupers.	Inmates of benevolent institutions.	Insane paupers.
Total	340,996	82,329	14,846	73,045	111,910	58,866
White	298,680	57,310	12,903	66,578	106,836	55,053
Native born	196,092	40,471	11,078	36,056	76,270	31,617
Parents native	77,366	21,037	3,245	21,519	23,484	8,081
One parent foreign	10,148	2,881	963	949	5,056	299
Parents foreign	46,684	12,601	3,965	3,580	24,167	2,371
One or both parents unknown	61,894	3,952	2,905	10,008	23,563	20,866
Foreign born	92,065	15,932	1,405	27,048	26,322	20,758
Nativity unknown	10,523	907	420	2,274	4,244	2,678
Colored	42,316	25,019	1,943	6,467	5,074	3,813
Negroes	40,328	24,277	1,930	6,418	4,102	3,601
Chinese	646	407	1	13	41	184
Japanese	21	13	.....	.....	8	.....
Indians	1,321	322	12	36	923	28

It is evident that the numbers as distributed in the preceding table do not admit of ready comparison with each other. To facilitate such comparison they should be reduced to percentages, which may be done in either of two ways, horizontally or perpendicularly. The numbers given in the first column or those in the top line may be taken as divisors. By the first of these methods we obtain the following result:

COLOR, NATIVITY, AND RACE.	Total.	Prisoners.	Juvenile offenders.	Paupers.	Inmates of benevolent institutions.	Insane paupers.
Total	100.00	24.14	4.36	21.42	32.82	17.26
White	100.00	19.19	4.32	22.29	35.77	18.43
Native born	100.00	20.64	5.65	18.39	38.90	16.12
Parents native	100.00	27.19	4.19	27.82	30.35	10.45
One parent foreign	100.00	28.39	9.49	9.35	49.82	2.95
Parents foreign	100.00	26.99	8.49	7.67	51.77	5.08
One or both parents unknown	100.00	6.39	4.69	17.14	38.07	33.71
Foreign born	100.00	17.30	1.53	30.03	28.59	22.55
Nativity unknown	100.00	8.62	3.99	21.61	40.33	25.45
Colored	100.00	59.12	4.59	15.28	11.99	9.02
Negroes	100.00	60.20	4.79	15.91	10.17	8.93
Chinese	100.00	63.00	0.16	2.01	6.35	28.48
Japanese	100.00	61.90	.....	.....	38.10	.....
Indians	100.00	24.37	0.91	2.73	69.87	2.12

a Those whose nativity is unknown have been proportionally distributed between those known to be native born and those known to be foreign born.

Of the white population included in these classes, the largest percentage is cared for in benevolent institutions and the smallest percentage is in prison. But if the insane paupers are combined with the paupers in almshouses, the largest percentage is included in the pauper class. Of the colored population the reverse is true: the largest percentage is in prison and the smallest in benevolent institutions.

Of the native white population, the largest percentage is cared for in benevolent institutions and the smallest percentage (counting paupers in almshouses and insane paupers together) is in prison. But of foreign whites, the largest percentage is included in the pauper class.

In other words, the benevolent institutions absorb a larger proportion of the native white population, the almshouses and hospitals for the insane a larger proportion of the foreign white population, and the prisons a larger proportion of the colored population.

By the second of the methods above named we obtain the following result:

COLOR, NATIVITY, AND RACE.	Total.	Prisoners.	Juvenile offenders.	Paupers.	Inmates of benevolent institutions.	Insane paupers.
Total	100.00	100.00	100.00	100.00	100.00	100.00
White	87.59	69.61	86.91	91.15	95.47	93.52
Native born	57.50	49.16	74.62	50.18	68.16	53.71
Parents native	22.69	25.55	21.86	29.46	20.98	13.73
One parent foreign	2.97	3.50	6.48	1.30	4.52	0.51
Parents foreign	13.69	15.31	26.71	4.90	21.60	4.03
One or both parents unknown	18.15	4.80	19.57	14.52	21.06	35.44
Foreign born	27.01	19.36	9.46	37.85	23.52	35.26
Nativity unknown	3.08	1.69	2.83	3.12	3.79	4.55
Colored	12.41	30.39	13.09	8.85	4.53	6.48
Negroes	11.83	29.49	13.00	8.78	3.67	6.12
Chinese	0.19	0.49	0.01	0.02	0.03	0.31
Japanese	0.01	0.02	.....	.....	0.01	.....
Indians	0.38	0.39	0.08	0.05	0.82	0.05

These two methods are merely different roads by which we arrive at the same general conclusion. The percentage of colored inmates of benevolent institutions is insignificant, and the percentage of colored paupers cared for in almshouses and insane asylums is also very small, but the percentage of colored prisoners is large. Nearly all the inmates of almshouses, hospitals and asylums for the insane, and benevolent institutions are white.

Attention is called to the fact that the percentages of native whites with both parents foreign are larger than those for native whites with both parents native in the columns for juvenile offenders and for the inmates of benevolent institutions. The percentage of foreign juvenile offenders is small. There is a relatively large percentage of the foreign born among paupers and insane paupers.

RATIOS TO THE POPULATION.

The population of the United States, exclusive of Alaska, Indian territory, and Indian reservations, June 1, 1890, was 62,622,250. The number of persons included in the four classes here considered was 282,130. The ratio therefore was 4,505 in each million of the total population, made up as follows: prisoners, 1,315; juvenile offenders, 237; paupers in almshouses, 1,166; inmates of benevolent institutions, 1,787.

Table 4 of the series of tables herewith submitted shows the ratios of prisoners to each million of the population at each census since 1850, in the aggregate and classed as male and female, native and foreign born, white and colored, by states and territories. Table 135 shows the same for 1880 and 1890 for juvenile offenders and Table 201 for paupers in almshouses since 1850. No corresponding table for inmates of benevolent institutions could be prepared, because the facts are not stated for any previous census.

Tables have been inserted in the text under each class of institutions to show the ratios of inmates to 1,000,000 of population, by color, nativity, and race and by states and territories.

The following table represents the ratios thus distributed for prisoners, juvenile offenders, paupers in almshouses, and inmates of benevolent institutions combined: (*a*)

STATES AND TERRITORIES.	Aggregate.	WHITE.			COLORED.			
		Total.	Native born.	Foreign born.	Total.	Negroes.	Chinese and Japanese.	Indians.
The United States	4,505	4,431	3,708	8,065	5,040	4,916	4,412	21,989

California	9,121	9,365	8,423	11,991	6,304	18,018	4,200	8,248

a The ratios given in this table (in which the figures for the four classes named have been consolidated) are calculated, for the whites, by proportionally distributing, between the native born and the foreign born, those whose nativity is unknown.

The following summaries, by classes, show the ratios to 1,000,000 of the population.

I.—BY GEOGRAPHICAL DIVISIONS.

CLASSES.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total	4,505	7,425	3,223	3,540	2,611	5,477
Prisoners	1,315	1,624	1,288	888	1,466	2,221
Juvenile offenders	237	425	146	244	33	117
Paupers in almshouses	1,166	1,790	914	1,145	460	1,036
Inmates of benevolent institutions	1,787	3,586	875	1,263	652	2,103

The largest ratio is in the North Atlantic division, 7,425 to the million; then in the Western, 5,477; in the North Central, 3,540; the South Atlantic, 3,223; the South Central, 2,611.

Of prisoners, the largest ratio is in the Western division, 2,221; then in the North Atlantic, 1,624; in the South Central, 1,466; in the South Atlantic, 1,288; in the North Central, 888.

Of juvenile offenders, the largest ratio is in the North Atlantic division, 425; then in the North Central, 244; in the South Atlantic, 146; in the Western, 117; in the South Central, 33.

Of paupers in almshouses, the largest ratio is in the North Atlantic division, 1,790; then in the North Central, 1,145; in the Western, 1,036; in the South Atlantic, 914; in the South Central, 460.

Of inmates of benevolent institutions, the largest ratio is in the North Atlantic division, 3,586; then in the Western, 2,103; in the North Central, 1,263; in the South Atlantic, 875; in the South Central, 652.

The largest ratios are in the North Atlantic division, except for prisoners, who show the largest ratio in the Western division. The smallest ratios are in the South Central division, except for prisoners, who show the smallest ratio in the North Central division.

If now we turn to the consideration of ratios in the several states and territories, the largest ratio of all inmates to 1,000,000 of the population is in the District of Columbia, 11,411; followed by New York, 10,350; California, 9,121; Massachusetts, 7,406; Maryland, 7,134; Rhode Island, 6,477; New Jersey, 6,036; Connecticut, 5,795; Pennsylvania, 5,717; Ohio, 5,562; Nevada, 5,333; New Hampshire, 5,135; Arizona, 4,847; Montana, 4,767; Louisiana, 4,619; Colorado, 4,533; Illinois, 4,195; Delaware, 4,131; Indiana, 3,737; Wisconsin, 3,638; Missouri, 3,545; Maine, 3,290; Vermont, 3,225; Michigan, 3,199; Kentucky, 3,006; Virginia, 2,923; Tennessee, 2,759; Texas, 2,646; Georgia, 2,491; Washington, 2,473; Minnesota, 2,448; North Carolina, 2,337; Alabama, 2,285; Oregon, 2,237; New Mexico, 2,195; Kansas, 2,175; South Carolina, 2,159; Iowa, 2,088; Idaho, 2,015; Florida, 2,000; Utah, 1,765; West Virginia, 1,735; Wyoming, 1,548; Arkansas, 1,539; Mississippi, 1,474; Nebraska, 1,418; North Dakota, 794; South Dakota, 717.

II.—BY ELEMENTS OF THE POPULATION.

CLASSES.	Aggregate.	WHITE.			COLORED.			
		Total.	Native born. (a)	Foreign born. (a)	Total.	Negroes.	Chinese and Japanese.	Indians.
Total	4,505	4,431	3,708	8,065	5,040	4,916	4,412	21,989
Prisoners	1,315	1,042	898	1,768	3,275	3,250	3,835	5,476
Juvenile offenders	237	235	250	159	254	258	9	204
Paupers in almshouses	1,166	1,211	820	3,131	847	859	121	613
Inmates of benevolent institutions	1,787	1,943	1,731	3,007	664	549	447	15,696

The highest ratio to the million for all classes combined is for the Indians, 21,989; then for the foreign whites, 8,065; negroes, 4,916; Chinese and Japanese, 4,412; native whites, 3,708.

The order for the four classes is as follows:

For prisoners: Indians, 5,476; Chinese and Japanese, 3,835; negroes, 3,250; foreign whites, 1,768; native whites, 898.

For juvenile offenders: negroes, 258; native whites, 250; Indians, 204; foreign whites, 159; Chinese and Japanese, 9.

a See footnote on page 9.

For paupers in almshouses: foreign whites, 3,131; negroes, 859; native whites, 829; Indians, 613; Chinese and Japanese, 121.

For inmates of benevolent institutions: Indians, 15,696; foreign whites, 3,007; native whites, 1,731; negroes, 549; Chinese and Japanese, 447.

For the geographical divisions, the order in all classes combined is as follows:

In the North Atlantic division: Indians, 191,713; negroes, 19,681; foreign whites, 10,603; native whites, 6,201; Chinese and Japanese, 4,988.

In the South Atlantic division: foreign whites, 10,869; negroes, 3,992; Indians, 2,546; native whites, 2,471; Chinese and Japanese, none.

In the North Central division: Indians, 19,974; Chinese and Japanese, 12,560; negroes, 11,881; foreign whites, 5,514; native whites, 2,874.

In the South Central division: Indians, 21,877; foreign whites, 8,679; negroes, 3,704; Chinese and Japanese, 3,345; native whites, 1,797.

In the Western division: negroes, 14,032; foreign whites, 7,682; Indians, 7,279; native whites, 4,728; Chinese and Japanese, 4,219.

The ratios of negro prisoners to the million of the negro population are notably higher in the northern than in the southern states. The ratio in the South Atlantic division is 2,716; in the South Central, 2,984; in the North Central, 6,351; in the North Atlantic, 7,547; in the Western, 9,527.

The remark made as to the larger ratios of negroes in prison at the north also applies to negro paupers in almshouses.

In every geographical division and in almost every state and territory the ratios of the foreign whites in prison are larger than those of the native whites. In the case of juvenile offenders it is different, since there are comparatively few children among immigrants. The ratio for the native whites is 250, for the foreign whites, 159.

In the almshouses the ratio for the foreign whites is more than three times as great as that for the native whites. In the benevolent institutions the ratio for the foreign whites is nearly double that for the native whites.

INCREASE OR DECREASE.

Table 4 shows the ratios of prisoners to 1,000,000 of the population at each census, 1850–1890; Table 135 shows the corresponding ratio of inmates of juvenile reformatories for 1880 and 1890; Table 201 shows the corresponding ratio for inmates of almshouses at each census, 1850–1890. These tables are suggestive as to the increase in the relative number in each class at each census, but the differences in conditions and methods of enumeration prior to 1880 prevent comparisons of accurate value.

Attention is invited to the following figures:

CLASSES OF INSTITUTIONS.	1890		1880		INCREASE.		DECREASE.	
	Inmates.	Ratios.	Inmates.	Ratios.	Inmates.	Ratios.	Inmates.	Ratios.
Total	170,220	2,718	136,280	2,718	33,940	.....	.....	.....
Prisons	82,329	1,315	58,609	1,169	23,720	146	.....	.....
Juvenile reformatories	14,846	237	11,468	229	3,378	8	.....	.....
Almshouses	73,045	1,166	66,203	1,320	6,842	.....	.....	154

From the foregoing statement it appears that in growth, relative to the population at large, the population of the penal, reformatory, and pauper institutions, in the aggregate, during the past 10 years, has been stationary. The ratio in 1890 is 2,718 to the million of the population of the country; the ratio in 1880 was the same. The prison population has grown slightly, but perceptibly; the reformatory population very slightly; but the decline in the almshouse population has equaled the growth in both the prison and the reformatory population.

The corresponding figures can not be given for the population of the private charitable institutions. It is known, however, that its growth has been rapid, absolutely and relatively. (*a*)

a By absolute increase is meant the increase in the number; by relative increase, the increase in the ratio.

GEOGRAPHICAL DISTRIBUTION.

The following table shows the number of persons of each class, by sex and by states and territories:

STATES AND TERRITORIES.	BOTH SEXES.					MALE.					FEMALE.				
	Total.	Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.	Total.	Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.	Total.	Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.

There were in the North Atlantic division 129,184; in the North Central, 79,169; in the Western, 16,585; in the South Atlantic, 28,551; in the South Central, 28,641.

Nearly one-half of all inmates of institutions in the United States are found in the North Atlantic division and more than one-fourth in the North Central. The aggregate number in the three remaining divisions is less than that in the North Central. The North Atlantic and the North Central divisions have the largest percentages of inmates of benevolent institutions, while the remaining three divisions have the largest percentages of prisoners. The largest percentage of prisoners in any single division is in the South Central.

The order of the states and territories according to the number of inmates of institutions in each is as follows:

New York	62,076	Virginia	4,841	Nebraska	1,501
Pennsylvania	30,063	Georgia	4,577	West Virginia	1,324
Ohio	20,426	Connecticut	4,324	Vermont	1,072
Massachusetts	16,581	Iowa	3,992	Washington	864
Illinois	16,050	North Carolina	3,780	Florida	783
California	11,019	Alabama	3,457	Oregon	702
Missouri	9,499	Minnesota	3,187	Delaware	696
New Jersey	8,722	Kansas	3,103	Montana	630
Indiana	8,193	District of Columbia	2,629	Utah	367
Maryland	7,436	South Carolina	2,485	New Mexico	337
Michigan	6,700	Rhode Island	2,238	Arizona	289
Wisconsin	6,137	Maine	2,175	Nevada	244
Texas	5,916	New Hampshire	1,933	South Dakota	236
Kentucky	5,588	Mississippi	1,901	Idaho	170
Louisiana	5,166	Colorado	1,869	North Dakota	145
Tennessee	4,877	Arkansas	1,736	Wyoming	94

The following summary exhibits the number and percentage in each geographical division, by color, nativity, and race:

NUMBERS.

GEOGRAPHICAL DIVISIONS.	Aggregate.	WHITE.								COLORED.				
		Total white.	Native born.					Foreign born.	Nativity unknown.	Total colored.	Negroes.	Chinese.	Japanese.	Indians.
			Total.	Parents native.	One parent foreign.	Parents foreign.	One or both parents unknown.

The percentages of foreign white and of native white inmates with foreign parents are smaller in the south, and of negroes smaller at the north. All of the Japanese and nearly all of the Chinese are found in the west. Of the remaining elements specified, the only ones which are not represented by larger numbers in the west than in the east are the foreign white and the native white with foreign parents.

SEX.

As to sex, 183,445 are male and 98,685 are female. The percentage of male inmates is 65.02, and of female inmates 34.98. The distribution of sex by geographical divisions has been already shown under the title "Geographical distribution". (a). The distribution of inmates of each sex, by classes and by color, nativity, and race, is shown in the following table:

NUMBERS.

CLASSES.	Aggregate.	WHITE.								COLORED.

The largest percentage of males is found among the Chinese, 97.84; then among the Japanese, 95.24; negroes, 79.75; native whites with one parent foreign, 65.77; Indians, 65.43; native whites with parents native, 65.26; native whites with parents foreign, 64.13; foreign whites, 63.12.

The percentage of male inmates in prisons is 92.22; in juvenile reformatories, 77.70; in almshouses, 55.78; in benevolent institutions, 49.37. The only class of institutions in which female inmates predominate is the last named. The percentage of native white male inmates of prisons with native parents is larger than that of the foreign born, but the percentage of male white inmates of benevolent institutions who are foreign born is larger than that of natives with native parents.

a See page 12.

COLOR AND RACE.

In respect to color, 243,627 (152,836 male and 90,791 female) are white and 38,503 (30,609 male and 7,894 female) are colored. The percentage of whites is 86.35, and of colored 13.65.

By geographical divisions and by classes of institutions, the percentages are:

CLASSES BY COLOR.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total	100.00	100.00	100.00	100.00	100.00	100.00

Indians	3.36	10.39	0.05	6.10	0.77	22.59

NATIVITY OF WHITE INMATES.

As to the nativity of 243,627 white inmates of penal and charitable institutions (152,836 male and 90,791 female), 164,475 (103,480 male and 60,995 female) were born in the United States, 71,307 (45,012 male and 26,295 female) were born abroad, and the birthplaces of 7,845 (4,344 male and 3,501 female) are unknown. They were distributed by sex and by geographical divisions as follows:

NUMBERS.

SEX, COLOR, AND NATIVITY.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.

The enumerators have reported 172 negro prisoners who are aliens and 57 who are naturalized. The error arising from treating the negro and Indian population as native is small.

Omitting those whose nativity is not given, the percentage of native whites is 69.76, and of foreign whites, 30.24.

The Chinese and Japanese may be assumed to have been born abroad, the negroes and Indians to have been born in this country.

OFFENSES CHARGED.

Tables 44 to 46 relate to the offenses with which prisoners are charged, and Tables 139 to 143 are the corresponding tables for juvenile offenders.

For some important observations with reference to the classification of offenses, the reader is referred to page 139, where this subject is discussed in connection with the tables for prisoners.

The general tables relating to the distribution of offenses, by color, nativity, and race, have been condensed by the omission of details, as follows:

OFFENSES.	Aggregate.	WHITE.								COLORED.				
		Total white.	Native born.					Foreign born.	Nativity unknown.	Total colored.	Negroes.	Chinese.	Japanese.	Indians.

The foregoing statements are fuller and more in detail than the statements of a similar character included in the portions of this report respectively entitled "Prisoners" and "Juvenile offenders".

The number of prisoners is 82,329, and of inmates of juvenile reformatories, 14,846; total, 97,175.

The following summaries show the number of offenses, by groups of crimes, alleged to have been committed by prisoners and juvenile offenders, in the aggregate.

Miscellaneous	1,702	883	90	467	159	103	51.88	5.29	27.44	9.34	6.05

Of these 97,175 prisoners and juvenile offenders, 35,646, or 36.68 per cent, are found in the North Atlantic division; the next largest percentage is in the North Central, 26.04; then in the South Central, 16.92; in the South Atlantic, 13.07; in the Western, 7.29. The percentage of female prisoners and juvenile offenders in the North Atlantic division is highest, namely, 52.09, and in the Western, much the lowest, namely, 2.94. The highest percentages in the North Atlantic division are found under crimes against society and the next under crimes against property. The highest percentages in the North Central division are of crimes against the government, in the South Atlantic and South Central divisions against the person, and in the Western division against property.

a Less than five-thousandths of 1 per cent.

Excluding those whose nativity or parentage is unknown, the highest crime percentages for all, except the foreign whites, are found to be against property, and for the foreign whites, against society. The percentage of crimes against property is larger in proportion as the native element predominates, as will be clear when attention is called to the fact that of foreign white prisoners and juvenile offenders 34.70 per cent are charged with crimes against property; of native whites with both parents foreign, 43.69 per cent; with one parent foreign, 47.61 per cent; with both parents native, 48.02 per cent. On the other hand, we may perceive a like increasing tendency to disorder in proportion as the foreign blood predominates. The percentage of native whites charged with offenses against society, with both parents native, is 23.22; with one parent foreign, 24.48; with both parents foreign, 32.70; foreign whites, 38.03.

It will be observed, however, that the tendency to crimes against property is nearly four times as great among males as among females, and of offenses against society it is more than twice as great among females as among males. The tendency to crimes against the person is nearly four times as great among males as among females, but considerable variation in the detailed application of this general principle is observable. The differences between the sexes are, for instance, not nearly so great among the colored prisoners and juvenile offenders as among the whites.

PARENTAGE OF WHITE INMATES.

The question of the relation of immigration to the volume of poverty and crime in the United States is not exhausted by an inquiry into the nativity of those enumerated in the classes here considered. A further inquiry is necessary into their parentage. If an American merchant should remove from New York to Canton, and children should be born to him in China, they would not be Chinese children. In a census of Americans in China these children would be properly enumerated as Americans, in spite of their nativity, on account of their race. The political and social institutions of the United States are designed and adapted to secure the assimilation of the immigrant to the native population at the earliest date practicable; but it can not ordinarily be effected in a single generation.

The apparent number of parents of white inmates of penal and charitable institutions is twice the number of inmates.(*a*) Since the total number of white inmates is 243,627, namely: prisoners, 57,310; juvenile offenders, 12,903; paupers in almshouses, 66,578; inmates of benevolent institutions, 106,836, the number of white parents, for the purposes of the present inquiry, may be taken to be 487,254. It is unnecessary to inquire into the parentage of the colored.

---

a The apparent number is not the actual number, since (1) where two or more children of the same parents are inmates of institutions, there is a duplication of parents, not taken into account in the tabulation, for the reason that the number of such duplications has not been ascertained, and for the additional reason that, in estimating the effect of different nationalities upon admixture of blood, such duplications must be disregarded, in order to avoid error; (2) where such groups of children have the same father but different mothers, or the same mother but different fathers, not only is there a duplication, but the equality of fathers and mothers of the same or different nationalities may also be disturbed. The disregard of these modifications will not affect the general result of comparisons as to the nativity of parents of inmates of institutions.

The intricacy and difficulty of this inquiry will be appreciated, and its character and aim will be understood, if the reader will make a careful examination of the following analytical table (*a*), in which all the elements that enter into the problem are separately shown:

- All parents (*b*) of white inmates, 487,254.
  - Native parents, 153,025.
    - Both parents native, 138,570.
      - Fathers of 69,285 inmates: Male 45,215; Female 24,070
      - Mothers of 69,285 inmates: Male 45,215; Female 24,070
    - One parent native, 14,455.
      - One parent foreign, 9,849.
        - Fathers of 3,700 inmates: Male 2,492; Female 1,208
        - Mothers of 6,149 inmates: Male 3,986; Female 2,163
      - One parent of unknown nativity, 4,606.
        - Fathers of 1,592 inmates: Male 1,023; Female 569
        - Mothers of 3,014 inmates: Male 1,813; Female 1,201
  - Foreign parents, 243,391.
    - Both parents foreign, 231,240.
      - Offspring foreign, 142,614.
        - Fathers of 71,307 inmates: Male 45,012; Female 26,295
        - Mothers of 71,307 inmates: Male 45,012; Female 26,295
      - Offspring native, 88,626.
        - Parents of same nationality, 80,510.
          - Fathers of 40,255 inmates: Male 25,933; Female 14,322
          - Mothers of 40,255 inmates: Male 25,933; Female 14,322
        - Parents of different nationalities, 8,116.
          - Fathers of 4,058 inmates: Male 2,484; Female 1,574
          - Mothers of 4,058 inmates: Male 2,484; Female 1,574
    - One parent foreign, 12,151.
      - One parent native, 9,849.
        - Fathers of 6,149 inmates: Male 3,986; Female 2,163
        - Mothers of 3,700 inmates: Male 2,492; Female 1,208
      - One parent of unknown nativity, 2,302.
        - Fathers of 1,113 inmates: Male 661; Female 452
        - Mothers of 1,189 inmates: Male 662; Female 527
  - Parents of unknown nativity, 90,838.
    - Both parents unknown, 83,930.
      - Offspring native, 68,240.
        - Fathers of 34,120 inmates: Male 19,211; Female 14,909
        - Mothers of 34,120 inmates: Male 19,211; Female 14,909
      - Offspring of unknown nativity, 15,690.
        - Fathers of 7,845 inmates: Male 4,344; Female 3,501
        - Mothers of 7,845 inmates: Male 4,344; Female 3,501
    - One parent unknown, 6,908.
      - One parent native, 4,606.
        - Fathers of 3,014 inmates: Male 1,813; Female 1,201
        - Mothers of 1,592 inmates: Male 1,023; Female 569
      - One parent foreign, 2,302.
        - Fathers of 1,189 inmates: Male 662; Female 527
        - Mothers of 1,113 inmates: Male 661; Female 452

The 487,254 parents (*b*) included in the inquiry are divided into three groups: native parents, 153,025; foreign parents, 243,391; parents of unknown nativity, 90,838. If the three groups are considered, the percentages are as follows: native parents, 31.41; foreign parents, 49.95; parents of unknown nativity, 18.64. If, on the other hand, the parents of unknown nativity are discarded and attention is confined to the remaining two groups, the percentages are: native parents, 38.60; foreign parents, 61.40.

Each of these three groups may be subdivided into two, according to the character of the marriages in each case. The number of cases in which both parents are native is 138,570; where only one parent is native, 14,455. The number of cases in which both parents are foreign is 231,240; where only one parent is foreign, 12,151. The number of cases in which both parents are of unknown nativity is 83,930; where only one is of unknown nativity, 6,908.

The three groups in which one parent only is native, or foreign, or of unknown nativity, as the case may be, are again subdivided into two each. The number of cases in which one parent is native and one foreign is 9,849; in which one is native and one of unknown nativity, 4,606; in which one is foreign and one of unknown nativity, 2,302. Each of the numbers here named appears twice in the table, once under each of the groups represented in each of these classes of marriages.

a The figures for this table are not fully shown in like classification in the principal tables, but they are derived from returns to the office.
b See footnote on page 24.

The group in which both parents are foreign is subdivisible into two: in the first of these subgroups the offspring are foreign and in the other the offspring were born in the United States.

The group in which both parents are of unknown nativity is subdivisible in an analogous manner into two: in the first of these subgroups the offspring were born in the United States; in the second the nativity of the offspring, like that of their parents, is unknown.

The group of native offspring of foreign parents is further subdivisible into two: the first of these subgroups includes those born of parents of the same nationality; the second includes those born of parents of different nationalities.

All of these groups include a given number of fathers and a given number of mothers, and the fathers and mothers are parents of male or female inmates of institutions. In the final analysis there are 48 distinct subgroups. It must be remembered that these groups exist in the case of each class of institutions, and that they are susceptible of combination in the aggregate. The aggregates only are here shown. The numbers for each group are given in the table and need not be repeated.

Where both parents are native or foreign or of unknown nativity, the number of fathers (*a*) is equal to the number of mothers; but where one parent only is native or foreign or of unknown nativity, the number of fathers is not the same as that of mothers. It will be observed that the numbers of fathers and mothers, in the case of marital unions between foreign parents and parents of unknown nativity, are very nearly the same, but the number of native mothers who have married foreign fathers or fathers of unknown nativity is largely in excess.

A similar analysis might be made of fathers, or of mothers, or of parents of male inmates, or of parents of female inmates. If combined upon either of the principles here suggested, it would appear that the total number of fathers or of mothers is 243,627, namely, of male inmates, 152,836, and of female inmates, 90,791; also the number of parents of male inmates is 305,672, and of female inmates, 181,582.

A similar analytical table might be made of prisoners, or of inmates of juvenile reformatories, or of paupers in almshouses, or of inmates of benevolent institutions.

(1) PARENTAGE BY CLASSES OF INSTITUTIONS.—In the following statement the numbers and percentages of parents (*a*) of white inmates, native, foreign, and of unknown nativity, are shown by classes of institutions:

NUMBERS.

NATIVITY OF ALL PARENTS OF WHITE INMATES.	Total parents.	PARENTS OF—							
		Prisoners.	Juvenile offenders.	Paupers in alms-houses.	Inmates of benevolent institutions.				
					Total.	For children.	For adults.	Hospitals.	Miscella-neous.
Total	487,254	114,620	25,806	133,156	213,672	125,374	33,906	42,604	11,788
Native born	153,025	45,732	8,093	45,216	53,984	32,831	8,982	9,360	2,811
Foreign born	243,391	60,153	11,981	63,586	107,671	51,742	20,837	27,925	7,167
Nativity unknown	90,838	8,735	5,732	24,354	52,017	40,801	4,087	5,319	1,810

PERCENTAGES.

Total	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00
Native born	31.41	39.90	31.36	33.96	25.27	26.19	26.49	21.97	23.85
Foreign born	49.95	52.48	46.43	47.75	50.39	41.27	61.46	65.55	60.80
Nativity unknown	18.64	7.62	22.21	18.29	24.34	32.54	12.05	12.48	15.35

It is evident from an examination of these percentages that the difficulty in obtaining exact information as to the parentage of inmates of institutions has been encountered principally where the inmates are youthful. The nativity of the parents of nearly one-third of the inmates of children's institutions, as well as that of the parents of nearly one-fourth of the inmates of juvenile reformatories, is unknown.

In all the columns the percentage of foreign parents is greater than that of native. In the benevolent institutions it is nearly double, and in institutions for adults, in hospitals, and in institutions of a miscellaneous character it is more than double. The preponderance of foreign parents is less for prisoners than for inmates of any other class of institutions.

(2) FOREIGN PARENTAGE.—The interest and importance of this subject center in foreign parents and their distribution by nationalities. The subject may be discussed from either of two points of view: generally, or with special reference to the intermarriages between parents of different nationalities, which is really only a branch of the subject, but its discussion will tend to throw light on the admixture of blood and the rate at which the process of assimilation of the foreign element is proceeding in this country.

a See footnote on page 24.

The following summary exhibits the birthplaces of 243,391 foreign parents, by grand divisions:

NUMBERS.

BIRTHPLACES OF FOREIGN PARENTS OF WHITE INMATES.	Total foreign parents.	FOREIGN PARENTS OF—							
		Prisoners.	Juvenile offenders.	Paupers in alms-houses.	Inmates of benevolent institutions.				
					Total.	For children.	For adults.	Hospitals.	Miscellaneous.
Total	243,391	60,153	11,981	63,586	107,671	51,742	20,837	27,925	7,167

Born at sea	0.09	0.14	0.08	0.09	0.06	0.03	0.09	0.05	0.18

The parents from Great Britain, Ireland, and Germany, the three principal sources of foreign parents, by classes of institutions, are as follows:

NUMBERS.

BIRTHPLACES OF FOREIGN PARENTS OF WHITE INMATES.	Total foreign parents.	FOREIGN PARENTS OF—							
		Prisoners.	Juvenile offenders.	Paupers in alms-houses.	Inmates of benevolent institutions.				
					Total.	For children.	For adults.	Hospitals.	Miscellaneous.
Great Britain	27,191	8,344	1,277	6,687	10,883	.....	.....	.....	.....
Ireland	120,078	29,184	6,111	32,419	52,364	.....	.....	.....	.....
Germany	52,698	10,072	2,415	15,053	24,558	.....	.....	.....	.....

PERCENTAGES.

Great Britain	11.17	13.87	10.66	10.52	10.11	.....	.....	.....	.....
Ireland	49.34	48.52	51.01	50.98	48.63	.....	.....	.....	.....
Germany	21.65	16.74	20.16	24.62	22.81	.....	.....	.....	.....

(3) FOREIGN PARENTAGE BY NATIONALITIES.—The number of foreign parents of foreign white inmates is theoretically double the number of such inmates. It is here assumed that the parents of foreign inmates are of the same nationality. The exceptions, if any, must be few.

The parents of inmates included in the element entitled "Parents foreign" have been divided into two groups: the first includes 80,510 parents who have married (*a*) into their own nationality, and the second includes 8,116 who have married (*a*) foreigners not of their own nationality.

The parents of inmates included in the element entitled "One parent foreign" have been divided into two groups: the first includes 6,149 foreign fathers married (*a*) to women born in the United States, and the second includes 3,700 foreign mothers married (*a*) to men born in the United States.

a The number and nativity of children (meaning offspring, without reference to age) were ascertained by actual count. The number of parents was obtained by multiplying the number of children by 2. It is perhaps well to call attention to the fact that this is not the actual number of parents, since a single father and a single mother may have had, and in many instances are known to have had, two or more children who are inmates of institutions. The word "parents" in this discussion is not here employed in the latter restricted sense. The aim of the various statements and calculations submitted is merely to show the extent to which inherited national peculiarities affect the number and description of inmates of American penal, reformatory, and benevolent institutions. The transmission of blood by parents to their offspring is of course equal in amount, whether the offspring of parents of a given nationality were born of the same or different parents, and whether they were born within or without a state of legal marriage. The word "married" must not be understood to convey any information as to the number of marriage ceremonies represented in the tables; it has no reference whatever to the legitimacy or illegitimacy of offspring.

The parents of inmates included in the element entitled "One or both parents unknown" are, as has been shown above, divisible into three groups: (1) both parents unknown; (2) one parent native; (3) one parent foreign.

Of these three, only the last properly belongs in the next table, and it has been divided into two subgroups, the first of which includes 1,113 foreign fathers and the second 1,189 foreign mothers.

The following table exhibits the distribution of foreign parents (*a*) of white inmates, by nationalities and by certain elements of the population:

BIRTHPLACES OF FOREIGN PARENTS OF WHITE INMATES.	Total foreign parents.	Foreign parents of foreign inmates.	FOREIGN PARENTS OF NATIVE INMATES.								
			Parents foreign.			One parent foreign.			One parent unknown.		
			Total.	Same nationality.	Different nationality.	Total.	Father foreign.	Mother foreign.	Total.	Father foreign.	Mother foreign.

Born at sea	212	133	79	106	67	39	106	66	40

The foreign fathers of male inmates constitute 32.08 per cent of the entire number; of female inmates, 18.41 per cent; total percentage of foreign fathers, 50.49.

The foreign mothers of male inmates constitute 31.47 per cent of the entire number; of female inmates, 18.04 per cent; total percentage of foreign mothers, 49.51.

The foreign parents of male inmates constitute 63.55 per cent and of female inmates 36.45 per cent of the entire number.

(6) RATIOS TO THE POPULATION.—Statements as to the numbers and percentages of foreign inmates or foreign parents of inmates of institutions born in different countries signify nothing until compared with the corresponding numbers and percentages for the population at large.

For inmates.—In the table following the first column contains the total foreign whites in the United States of each nationality, according to the following classification: Canada and Newfoundland here includes Canada (English) and Canada (French), British Columbia, and Cape Breton; Central America includes Guatemala, Honduras, and Panama (*b*); South America includes the Argentine Republic, Brazil, British Guiana, Chile, and Peru; West Indies includes Bahamas, Barbadoes, Bermuda, Cuba, Haiti, Jamaica, Puerto Rico, Santa Cruz, Santo Domingo, and Trinidad; England includes Guernsey and the Isle of Man; Austria includes Moravia; Denmark includes Iceland; France includes Corsica; Germany includes Bavaria, Prussia, and Saxony; Italy includes Malta and Sicily; Russia includes Finland and Lapland; Spain includes Gibraltar; the Atlantic islands includes the Azores (not specified), the Canaries, Fayal, Greenland, Madeira, St. Helena, the Western Islands, and the Cape Verde Islands, which elsewhere in this report have been counted with Africa; Europe (not specified) includes Bulgaria and Roumania; India includes Ceylon; the Pacific islands includes Java and the East Indies (not specified).

In columns 2 and 6, inclusive, the number of foreign white inmates is shown by nationalities and by classes of institutions. The remaining 5 columns show the ratios to 1,000,000 of the foreign white population of the same nationalities.

a See footnote on page 24.

b Panama is politically in a South American state.

BIRTHPLACES.	Total foreign white population.	NUMBERS.					RATIOS TO 1,000,000.

These ratios are significant in proportion to the number of white immigrants from each of the countries named. According to the figures in the first column, we have in the United States: natives of Germany, 2,784,693; Ireland, 1,871,339; Canada and Newfoundland, 973,488; England, 907,259; Sweden, 478,024; Norway, 322,660; Scotland, 242,197; Russia, 182,614; Italy, 182,342; Poland, 147,416; Denmark, 132,523; Austria, 123,185; Bohemia, 118,097; France, 113,028; Switzerland, 104,060; Wales, 100,065; Holland, 81,821; Mexico, 76,457; Hungary, 62,409; Belgium, 22,629; West Indies, 15,809; Portugal, 15,654; Europe (not specified), 12,544; the Atlantic islands, 9,170; Spain, 6,020; Australia and New Zealand, 5,938; born at sea, 5,484; South America, 4,619; Luxemburg, 2,881; Asia (not specified), 2,186; China, 2,070; India, 2,045; the Pacific islands, 1,958; Greece, 1,877; Turkey, 1,823; Africa, 1,535; Sandwich Islands, 1,112; Central America, 1,046; Great Britain (not specified), 946; all other countries, 465; Japan, 379.

The figures here given do not represent the total foreign population, but merely the total white foreign population. The natives of Asia (not specified), Africa, China, and Japan included in the table are whites born in those countries.

The mass of foreign white inmates (eight-ninths) are from Europe. The whites born in Asia (not specified) furnish the largest number of foreign inmates of institutions to the million of their own kind, 33,394; then follow in order the South Americans, 23,165; the Australians and New Zealanders, 20,544; the Irish, 16,624; those born at sea, 15,864; the whites born in Japan, 15,831; the Pacific islanders, 15,322; the Greeks, 13,852; the Turks, 12,068; the French, 10,864; the Spaniards, 10,465; the whites born in Africa, 10,423; the Italians, 9,877; the Mexicans, 9,495; the Europeans (not specified), 8,849; the East Indians, 8,802; the Central Americans, 8,604; the West Indians, 7,717; the Scotch, 7,288; the Swiss, 7,255; the English, 7,160; the Hungarians, 6,794; the Germans, 5,662; the Sandwich Islanders, 5,397; the Russians, 5,202; the whites born in China, 4,830; the Austrians, 4,805; the Welsh, 4,596; the Poles, 4,580; the Canadians, 4,037; the Portuguese, 3,897; the Hollanders, 3,790; the Swedes, 3,468; the Danes, 2,997; the Norwegians, 2,852; the Atlantic islanders, 2,508; the Bohemians, 2,447.

The order for the different classes is not precisely the same. The 10 American, European, and Australian nationalities which contribute most largely to the prison population by the million are as follows: the Australians and New Zealanders, 11,283; the Greeks, 8,524; the Mexicans, 7,900; the South Americans, 6,062; the Spaniards, 4,485; the Turks, 3,291; the Italians, 3,115; the Irish, 2,971; the French, 2,468; the English, 2,114.

The 10 similar nationalities which contribute most largely to the population of the juvenile reformatories are: the Turks, 2,743; the South Americans, 1,299; the Italians, 784; the whites born in Asia (not specified), 457; the Spaniards, 332; the Poles, 285; the French, 248; the British Americans (Canada and Newfoundland) and the Atlantic islanders, each 218; the English, 211.

The 10 similar nationalities which contribute most largely to the population of the almshouses are: the South Americans, 11,691; the Irish, 7,550; those born at sea, 4,559; the French, 3,636; the Swiss, 2,969; the Welsh, 2,558; the Germans, 2,436; the Scotch, 2,374; the Spaniards, 2,326; the English, 2,163.

The 10 similar nationalities which contribute most largely to the population of the benevolent institutions are: the Europeans (not specified), 7,813; the Irish, 5,957; the Central Americans, 5,736; the Italians, 5,161; the West Indians, 4,997; the Turks, 4,937; the Greeks, 4,795; the French, 4,512; the South Americans, 4,113; the Hungarians, 3,814.

For parents (a) of inmates.—A similar calculation has been made of ratios of the foreign parents (a) of inmates of institutions to the total foreign population of the same nationality, as follows:

BIRTHPLACES.	Total foreign white population.	NUMBERS.					RATIOS TO 1,000,000.				
		Foreign parents.	Parents of—				Total.	Parents of—			
			Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.		Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.

Other countries	465	.....	.....	.....	.....	.....	.....	.....	.....	.....	.....

If attention is directed to single nationalities, it appears that the 10 countries which furnish the largest ratios of inmates to a million of parents of the same birthplace are as follows:

Ireland, 64,167; Spain, 44,020; France, 38,026; Greece, 32,499; Japan, 31,662; Italy, 26,922; Turkey, 24,685; Scotland, 24,612; Mexico, 24,236; Sandwich Islands, 21,583. The lowest ratios are found in Bohemia, 6,334; Atlantic islands, 6,652; Denmark, 7,357; Norway, 7,482; Sweden, 8,868.

The order for the different classes of institutions is not the same.

The American and European countries which contribute most largely to the parentage of the prison population by the million are as follows: Mexico, 19,397; Greece, 17,581; Spain, 17,110; Ireland, 15,595.

The similar countries which contribute most largely to the parentage of the population of juvenile reformatories are: Turkey, 5,486; Ireland, 3,266; Spain, 2,159; Italy, 2,128.

a See footnote on page 24.

b Includes 14 for America, not specified.

The similar countries which contribute most largely to the parentage of the almshouse population are: Ireland, 17,324; France, 8,626; Switzerland, 6,285; Wales, 5,896; Scotland, 5,747; Germany, 5,621.

The similar countries which contribute most largely to the parentage of the population of benevolent institutions are: Ireland, 27,982; Spain, 19,435; France, 18,526; Italy, 16,316; West Indies, 14,359.

These figures serve as a rough test of the comparative desirability of immigrants of different nationalities, regarded from the point of view of their liability to add to the public burden of pauperism and crime in their own persons or in those of their descendants of the first generation.

The test applied is less accurate where the numbers are small, and the ratios are therefore more or less exceptional.

ADMIXTURE OF BLOOD.

The admixture of blood in the United States is a fact of common observation. The figures obtained in the course of this inquiry into the parentage (*a*) of the classes covered by this report furnish data too slight, indeed, for any positive deductions or generalizations, but they may be accepted provisionally as indicating the basis of a computation to be hereafter confirmed or disproved by more searching investigation. These data are contained in the tables for each of the classes named, numbered as follows: Table 55 relates to the marital unions between parents of prisoners. Table 148 relates to the marital unions between parents of juvenile offenders. Table 205 relates to the marital unions between parents of paupers in almshouses. Table 284 relates to the marital unions between parents of inmates of benevolent institutions. (*a*) These four tables are consolidated, and shown in the accompanying chart.

The summary of the totals given in the accompanying chart is as follows:

NATIVITY OF PARENTS.		FATHERS.			
		Total.	Native born.	Foreign born.	Nativity unknown.
MOTHERS.	Total	243,627	74,577	122,882	46,168
	Native born	78,448	69,285	6,149	3,014
	Foreign born	120,509	3,700	115,620	1,189
	Nativity unknown	44,670	1,592	1,113	41,965

This statement indicates that 69,285 native men have married native women; 3,700 native men have married foreign women, and 6,149 native women have married foreign men. The disproportion between marriages of the two latter descriptions indicates that, in order to obtain the true number of native children with foreign parents, it is necessary to tally both classes of children. If native children with foreign fathers are alone tallied, the result will appear to be less, and if native children with foreign mothers are alone tallied, greater, than the fact.

The table further indicates that the total number of native fathers is 74,577, but of native mothers, 78,448. The native mothers exceed the native fathers by 3,871. The excess of native mothers is partially explainable by the fact that the preponderance of males over females is larger among the foreign born than among the native population, but whether this is a complete explanation or not, the broad fact is that native women are more likely to marry foreign men than native men are to marry foreign women.

No light is thrown upon the question of international or interracial marriages, by marriages in which both parents are native, or in which the nativity of either party is unknown. The number of cases in which both parents are foreign is 115,620, and those in which one parent is foreign and the other native, 9,849. Considering marriages alone, and not parents, the ratio of international marriages in which both parties are foreign to the foreign white population is 445 to the million, but the ratio of international marriages in which one party is native to the native white population is 215 to the million, or less than one-half the former. This might be the result of a preference on the part of foreigners for foreigners, or a certain reluctance on the part of natives to marry foreigners. But when the foreign-native marriages are separated into two groups, it appears that 6,149 foreign men have married native women, while only 3,700 foreign women have married native men.

CONCLUSIONS.

The total white population of the United States (54,983,890) is divisible into two parts: native white, 45,862,023; foreign white, 9,121,867.

The white inmates of penal and charitable institutions whose nativity is known (235,782) are also divisible into two groups: native white, 164,475; foreign white, 71,307.

Of the total white population, therefore, 16.59 per cent is foreign born; of the corresponding institution population, 30.24 per cent.

a See footnote on page 24.

Of the total native white population (45,862,023), the number with native parents is 34,358,348; with foreign parents, 11,503,675. By adding the latter to the foreign population, we find the total number with foreign parents to be 20,625,542. The percentage of those with native parents is 62.49; of those with foreign parents, 37.51.

We have seen, however, that the nativity of 396,416 parents of inmates of institutions is known, and that the percentage of native parents is 38.60, but of foreign parents, 61.40.

In other words, if attention is confined to the nativity of the inmates of institutions, 16.59 per cent of the entire population furnishes 30.24 per cent of the institution population. But if attention is directed to the nativity of the parents (*a*) of inmates, 37.51 per cent of the entire population furnishes 61.40 per cent of the entire institution population.

The latter of these two showings is rather more favorable to the foreign element in the United States than the former, and illustrates the improvement in respect of ability for self-control and self-support, which is the result of the changed condition of immigrants.

It will be observed that thus far the classification of the foreign born has been mainly by individual nations. The following tables have been made according to groups of kindred countries.

The distribution of foreign parents (*a*) of white inmates of institutions, by groups of countries and by classes of institutions, is shown in the following statement:

NUMBERS.

The numbers and ratios of foreign white parents to 1,000,000 of the foreign white population for each group, by classes of inmates, are as follows:

BIRTHPLACES.	Total foreign white population.	NUMBERS.					RATIOS TO 1,000,000.				
		Foreign parents.	Parents of—				Total.	Parents of—			
			Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.		Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.
Total	9,121,867	243,891	60,153	11,981	63,586	107,671	26,682	6,594	1,313	6,971	11,804
North and South America	1,071,419	13,865	6,036	898	2,506	4,425	12,941	5,634	838	2,339	4,130
Great Britain and Ireland	3,121,806	147,269	37,528	7,388	39,106	63,247	47,174	12,021	2,366	12,527	20,260
Germanic nations	3,119,269	57,140	11,082	2,522	16,888	26,648	18,318	3,553	808	5,414	8,543
Scandinavian nations	933,207	7,628	1,511	233	2,409	3,475	8,174	1,619	250	2,581	3,724
Slav nations	510,536	6,252	1,147	290	1,156	3,659	12,246	2,247	568	2,264	7,167

All other nations	46,709	1,495	416	48	130	901	32,007	8,906	1,028	2,783	19,290

The above ratios may be compared with the following numbers and ratios of foreign white inmates, which are not so large:

BIRTHPLACES.	Total foreign white population.	NUMBERS.					RATIOS TO 1,000,000.				
		Foreign inmates.	Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.	Total.	Prisoners.	Juvenile offenders.	Paupers in almshouses.	Inmates of benevolent institutions.
Total	9,121,867	71,307	15,932	1,405	27,648	26,322	7,818	1,747	154	3,031	2,886
North and South America	1,071,419	4,900	2,251	222	1,034	1,393	4,573	2,101	207	965	1,300
Great Britain and Ireland	3,121,806	39,823	8,045	516	16,921	14,346	12,757	2,577	165	5,420	4,595
Germanic nations	3,119,269	17,532	3,379	345	7,358	6,450	5,621	1,083	111	2,359	2,068
Scandinavian nations	933,207	2,979	669	51	1,130	1,129	3,193	717	55	1,211	1,210
Slav nations	510,536	2,338	524	81	545	1,188	4,580	1,026	159	1,068	2,327
Latin nations	318,921	3,179	899	176	602	1,502	9,969	2,819	552	1,888	4,710
All other nations	46,709	551	165	14	58	314	11,797	3,533	300	1,242	6,722

The ratios for Great Britain and Ireland are in all cases the highest, except for foreign inmates of prisons and juvenile reformatories. The ratios for the Scandinavians are in all cases the lowest, except in almshouses. The Slavs are next to the Scandinavians at the bottom of the list in prisons. In the prisons and the reformatories the Latins show the highest averages. The foreign Americans and the Germanic nations occupy a middle place between the two extremes.

NATURALIZATION.

The question as to the naturalization of the foreign born was asked with reference only to male (*a*) inmates of penal and charitable institutions of the age of 21 years and over. In the statements which follow, reformatories for juvenile offenders and institutions for the care of children are not included, because, though there may be in these institutions a few inmates over 21 years of age, the number of such inmates is small. In the prisons, almshouses, hospitals, benevolent institutions for the care of adults, and miscellaneous institutions the number of foreign male inmates over 21 years of age is 44,626. Their distribution by geographical divisions and by classes of institutions is shown in the following statement:

GEOGRAPHICAL DIVISIONS.	Total.	Prisoners.	Paupers.	Inmates of benevolent institutions.
The United States	44,626	14,512	16,991	13,123
North Atlantic	22,917	7,391	7,788	7,738
South Atlantic	1,268	280	454	534
North Central	13,822	3,736	6,776	3,310
South Central	1,950	863	355	732
Western	4,669	2,242	1,618	809

The question as to naturalization was not answered in the majority of cases, particularly as to colored inmates. Generally speaking, negroes are natives of this country, and require no naturalization; Chinese almost without exception (*b*) are aliens, not now entitled to naturalization; Indians are mainly natives; part of them have been admitted to citizenship.

a Women and minors can be naturalized. See footnote *a*, page 2.

b Supplement to United States Revised Statutes, volume I, second edition, 1874–1891, page 342, chapter 126: "Section 14. That hereafter no state court or court of the United States shall admit Chinese to citizenship; and all laws in conflict with this law are hereby repealed." Passed May 6, 1882, Forty-seventh Congress.

The number of cases in which the condition of inmates as to naturalization was stated is 42,111, and they are distributed as shown in the following table:

NATURALIZATION.	AGGREGATE.			PRISONERS.			PAUPERS.			INMATES OF BENEVOLENT INSTITUTIONS.		
	Total.	White.	Colored.	Total.	White.	Colored.	Total.	White.	Colored.	Total.	White.	Colored.

Naturalized	6,217	6,195	22	1,609	1,590	19	3,188	3,187	1	1,420	1,418	2
Have filed papers	203	203	.....	68	68	.....	62	62	.....	73	73	.....
South Central division	1,893	1,849	44	863	825	38	355	351	4	675	673	2
Aliens	896	861	35	566	536	30	91	88	3	239	237	2
Naturalized	951	942	9	282	274	8	262	261	1	407	407	.....
Have filed papers	46	46	.....	15	15	.....	2	2	.....	29	29	.....
Western division	4,547	4,097	450	2,242	1,827	415	1,618	1,596	22	687	674	13
Aliens	2,118	1,683	435	1,321	912	409	491	476	15	306	295	11
Naturalized	2,311	2,296	15	872	866	6	1,092	1,085	7	347	345	2
Have filed papers	118	118	.....	49	49	.....	35	35	.....	34	34	.....

Reduced to percentages, the result may be summarily shown as follows:

NATURALIZATION.	Total.	Prisoners.	Paupers.	Inmates of benevolent institutions.
Total	100.00	100.00	100.00	100.00
Aliens	52.07	59.61	47.64	48.85
Naturalized	46.50	38.56	51.50	49.35
Have filed papers	1.43	1.83	0.86	1.80

From this showing it appears that the number of foreign inmates of penal and charitable institutions who have not been naturalized nor filed their first papers considerably exceeds the number of the naturalized.

Of the prisoners whose condition as to naturalization has been ascertained, 59.61 per cent are aliens; but of paupers in almshouses, only 47.64 per cent, and of inmates of benevolent institutions, 48.85 per cent.

The following is a summary, by geographical divisions, showing only the percentages:

NATURALIZATION.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total	100.00	100.00	100.00	100.00	100.00	100.00
Aliens	52.07	54.12	46.06	51.92	47.33	46.58
Naturalized	46.50	44.79	53.44	46.56	50.24	50.82
Have filed papers	1.43	1.09	0.50	1.52	2.43	2.60

The largest ratios of aliens are found in the North Atlantic and North Central divisions. In the other three geographical divisions the number of naturalized inmates exceeds that of the unnaturalized, except in the case of prisoners.

The distribution of 658 colored, concerning whom a report has been made as to naturalization, is shown in the following table:

GEOGRAPHICAL DIVISIONS AND RACE.	ALIENS.				NATURALIZED.			
	Total.	Inmates of—			Total.	Inmates of—		
		Prisons.	Alms-houses.	Benevolent institutions.		Prisons.	Alms-houses.	Benevolent institutions.

ABILITY TO SPEAK ENGLISH.

The question "Does this person speak the English language?" was answered in 276,508 cases, and unanswered in 5,622. Of the 276,508 answers, 267,362, or 96.69 per cent, were in the affirmative, and 9,146, or 3.31 per cent, in the negative. The distribution of those who can and those who can not speak the English language, by sex, color, nativity, and race, is shown in the following table:

NUMBERS.

SEX AND CLASSES.	Aggregate.	WHITE.								COLORED.				
		Total white.	Native born.					Foreign born.	Nativity unknown.	Total colored.	Negroes.	Chinese.	Japanese.	Indians.
			Total.	Parents native.	One parent foreign.	Parents foreign.	One or both parents unknown.

The largest percentages of those who do not speak English are found in the almshouses and the smallest in the reformatories for juvenile offenders. If the institutions for children were eliminated from the list of benevolent institutions, the percentage for the latter would approximate that for the almshouses, but would not equal it. Including the institutions for children, the percentage for benevolent institutions and for prisoners is almost identical.

By color, nativity, and race, the largest percentage of those who can not speak English is found among the Chinese, 67.25; next, Japanese, 33.33; white foreign born, 11.23; Indians, 8.96.

The differences in the percentages for the two sexes are slight. The following summary shows what they are in the aggregate, and that there is a slightly larger ratio of women who speak English than of men:

CLASSES.	SPEAK ENGLISH.			DO NOT SPEAK ENGLISH.		
	Both sexes.	Male.	Female.	Both sexes.	Male.	Female.

a The large percentage of miscellaneous offenses charged against boys and girls under 10 years of age is due to the smallness of the total number, owing to the fact that of 46 cases reported the offense charged was in 32 cases not stated. Of these 32, 25 were under 8 years of age, and were probably children of female prisoners who were not separated from their mothers during the term of incarceration of the latter. This must certainly have been the case with the 7 reported under 1 year of age, and 13 under 2 years.

b The figures for this column are not fully shown in like classification in the principal tables, but they are derived from returns to the office.

Not stated	3,749	1,110	311	1,342	986	441	116	374	55

The foregoing table has been made by combining individual ages, as shown in Tables 65 for prisoners, 157 for juvenile offenders, 214 for paupers in almshouses, and 289 for inmates of benevolent institutions. Similar statements might be prepared for each sex separately by combining individual ages for male inmates in Tables 66, 158, 215, and 290, and for female inmates in Tables 67, 159, 216, and 291.

II.—AGES, BY SEX.

Without going into extreme detail, the following statement shows the aggregate number of inmates of the four classes of institutions, by sex, combined by quinquennial periods, and the percentage of each sex in each period:

QUINQUENNIAL PERIODS.	NUMBERS.			PERCENTAGES.		EXCESS.	
	Total.	Male.	Female.	Male.	Female.	Male.	Female.
Total	278,181	180,851	97,330	65.01	34.99	30.02	.....
Under 5 years	11,369	6,079	5,290	53.47	46.53	6.94	.....
5-9 years	29,205	16,597	12,608	56.83	43.17	13.66	.....

40-44 years	12,478	8,414	4,064	67.43	32.57	34.86	.....
45-49 years	10,869	7,223	3,646	66.46	33.54	32.92	.....
50-54 years	9,968	6,380	3,588	64.00	36.00	28.00	.....
55-59 years	7,897	5,081	2,816	64.34	35.66	28.68	.....
60-64 years	9,797	5,838	3,959	59.59	40.41	19.18	.....
65-69 years	10,055	5,980	4,075	59.47	40.53	18.94	.....
70-74 years	10,156	5,611	4,545	55.25	44.75	10.50	.....
75-79 years	7,960	4,444	3,516	55.83	44.17	11.66	.....
80-84 years	5,388	2,752	2,636	51.08	48.92	2.16	.....
85-89 years	2,265	1,096	1,169	48.39	51.61	.....	3.22
90-94 years	1,022	444	578	43.44	56.56	.....	13.12
95-99 years	202	91	111	45.05	54.95	.....	9.90

The only ages at which for all institutions the percentage of excess is upon the female side are those from 85 years upward. The percentage of excess upon the male side increases steadily, until it reaches its maximum in the quinquennial period from 25 to 30 years, after which it steadily decreases.

III.—AGES, BY GEOGRAPHICAL DIVISIONS.

The following statement shows the distribution of ages, by sex, combined by decades, and by geographical divisions, with the ratios to the total number in each column, reduced to a basis of a total of 1,000,000 for each:

BOTH SEXES.

DECENNIAL PERIODS.	NUMBERS.						RATIOS TO 1,000,000.					
	The United States.	Geographical divisions.					The United States.	Geographical divisions.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.

90-99 years	689	350	100	150	79	10	7,079	7,020	10,153	5,660	10,562	2,744

More than one-half, or 56.36 per cent, of all the inmates of institutions are under 30 years of age. The percentages under 30 years of age for the geographical divisions are as follows: South Central division, 60.90; South Atlantic, 57.27; North Atlantic, 56.58; North Central, 54.62; Western, 53.74.

Very nearly one-tenth, or 9.70 per cent, are over 70 years of age. The percentages for those over 70 years of age for geographical divisions are as follows: North Atlantic, 10.86; South Atlantic, 10.47; North Central, 9.45; Western, 6.81; South Central, 6.01.

Thus it appears that the South Central division has the largest percentage of youthful inmates, and the smallest percentage of aged inmates.

About one-third, or 33.93 per cent, are between the ages of 30 and 70, or in middle life. The percentages for these ages by geographical divisions are: Western, 39.45; North Central, 35.93; South Central, 33.09; North Atlantic, 32.57; South Atlantic, 32.26.

The percentage of male inmates under 20 years of age is 34.48; but of female inmates under 20 years of age it is 44.74. From 20 to 50 years the percentages are generally larger for male inmates, and after 50 years larger for female inmates.

IV.—AGES, BY ELEMENTS OF THE POPULATION.

The table which follows exhibits, by decennial periods, the ages of inmates of institutions, by sex, color, nativity, and race; also the ratios to the million of each:

NUMBERS.

DECENNIAL PERIODS.	Aggregate.	WHITE.								COLORED.			
		Total white.	Native born.					Foreign born.	Nativity unknown.	Total colored.	Negroes.	Chinese.	Indians.
			Total.	Parents native.	One parent foreign.	Parents foreign.	One or both parents unknown.

In all the columns included in the native white population and in the column entitled "Nativity unknown" the highest ratios are in the decade from 10 to 20 years. For the foreign born the highest ratio is for the decade from 60 to 69 years, and for the colored population the highest ratio is in the decade from 20 to 30 years. The highest ratio for the Chinese is in the fourth decade; for the negroes, in the third; for the Indians, in the second.

Of white inmates, 55.05 per cent are under 30 years of age; of colored inmates, 64.76 per cent. Of native white inmates, 67.42 per cent are under 30 years of age; of the foreign born, 25.15 per cent.

In middle life, from 30 to 70 years of age, the percentage of white inmates is 34.60: of colored, 29.69. Of native whites, it is 36.21; of foreign whites, 54.93.

Of white inmates, 10.35 per cent are over 70 years of age; of colored, 5.55 per cent. Of native whites, 6.37 per cent are over 70 years of age; of foreign whites, 19.91 per cent.

V.—AGES, BY GROUPS OF CRIMES.

The following statement shows the stated ages, by decennial periods, of prisoners and juvenile offenders, taken together, omitting those over 100 years of age, by sex and by groups of crimes:

BOTH SEXES.

a Less than five-thousandths of 1 per cent.

The percentage of crimes against the person increases with advancing years. Of crimes against property, it reaches its maximum in the decade from 20 to 30 years. Of crimes against society, it reaches its minimum during the same decade.

The percentage of crimes against the person in the later decades of life is affected by the length of sentences imposed for this group, many of which are for life.

The percentage of offenses against society by women in middle life exceeds that in youth or in old age.

The large percentages of miscellaneous offenses in the first and second decades are due to the inclusion of charges which do not involve criminality in the list of crimes: charges brought for no other purpose than to secure legal custody of destitute and exposed children, with a view to the prevention of crime and not to its punishment.

VI.—RATIOS TO THE POPULATION.

In studying the question of age, the number of any given age should be compared with the number for the same age period for the total population. This has been done with the following result: all ages under 15 years have been grouped; higher ages are shown by quinquennial periods up to 35 years, by decennial periods from 35 to 65 years, and all ages over 65 years have been combined.

(1) RATIOS, BY STATES AND TERRITORIES.—The ratios to the million of the population of same age periods for the inmates of penal and charitable institutions whose ages are known are shown, by sex and by states and territories, in the following table:

BOTH SEXES.

STATES AND TERRITORIES.	Under 15 years.	15-19 years.	20-24 years.	25-29 years.	30-34 years.	35-44 years.	45-54 years.	55-64 years.	65 years and over.

Male	5,206	4,693	7,274	7,543	7,092	6,619	6,945	9,605	29,632
Female	4,761	3,154	1,154	875	984	1,254	1,461	3,026	10,118

A better conception of the significance of this table will be obtained, if it is considered as a statement of the mathematical probabilities of becoming an inmate of some penal or charitable institution, at a given age, in a given locality. The highest probability is that for a male to become an inmate of an institution in the Western division after having passed the age of 65 years. This probability is represented by 29,632 in the million. The lowest probability is that for a female to become an inmate of an institution in the Western division between the ages of 25 and 30, which is 875 in the million. The one probability is more than thirty times as great as the other. A child under 15 years of age has 8,357 chances of being cared for in some institution in the North Atlantic division to 1,048 chances in the South Central. For a male child, the probabilities in the former case are 9,758, to 6,926 for a female child.

According to this table, the ratios for male inmates of institutions are almost uniformly higher than for female inmates. The disproportion is greatest between the ages of 25 and 30 years, especially in the west and southwest. The probabilities of becoming an inmate of an institution increase until the age of 30, but are less until the age of 55, and after passing the age of 65 they are very much greater.

(2) RATIOS, BY CLASSES OF INSTITUTIONS.—The numbers and ratios for the different classes of institutions are shown in the following table:

NUMBERS.

QUINQUENNIAL PERIODS.	Total.	Prisoners.	Juvenile offenders.	Almshouse paupers.	Inmates of benevolent institutions.
Total	278,381	81,219	14,535	71,703	110,924
Under 1 year	2,551	7	.....	793	1,751
1-4 years	8,818	13	21	1,762	7,022
5-9 years	29,205	26	707	1,783	26,689
10-14 years	38,266	665	6,763	1,289	29,549
Under 15 years	78,840	711	7,491	5,627	65,011
15-19 years	27,059	8,984	6,750	1,623	9,702
20-24 years	27,512	19,705	240	2,759	4,808
25-29 years	23,378	16,348	54	3,426	3,550

65 years and over	37,248	974	.....	23,318	12,956
RATIOS TO 1,000,000.					
Total	4,445	1,297	232	1,145	1,771
Under 1 year	1,628	4	.....	506	1,118
1-4 years	1,453	2	4	290	1,157
5-9 years	3,856	4	93	235	3,524
10-14 years	5,441	95	962	183	4,201
Under 15 years	3,544	31	337	253	2,923
15-19 years	4,127	1,370	1,029	248	1,480
20-24 years	4,440	3,180	39	445	776
25-29 years	4,471	3,127	10	655	679
30-34 years	3,930	2,419	.....	906	605
35-44 years	3,945	1,964	.....	1,348	633
45-54 years	4,119	1,356	.....	2,035	728
55-64 years	5,652	867	.....	3,515	1,270
65 years and over	15,409	403	.....	9,646	5,360

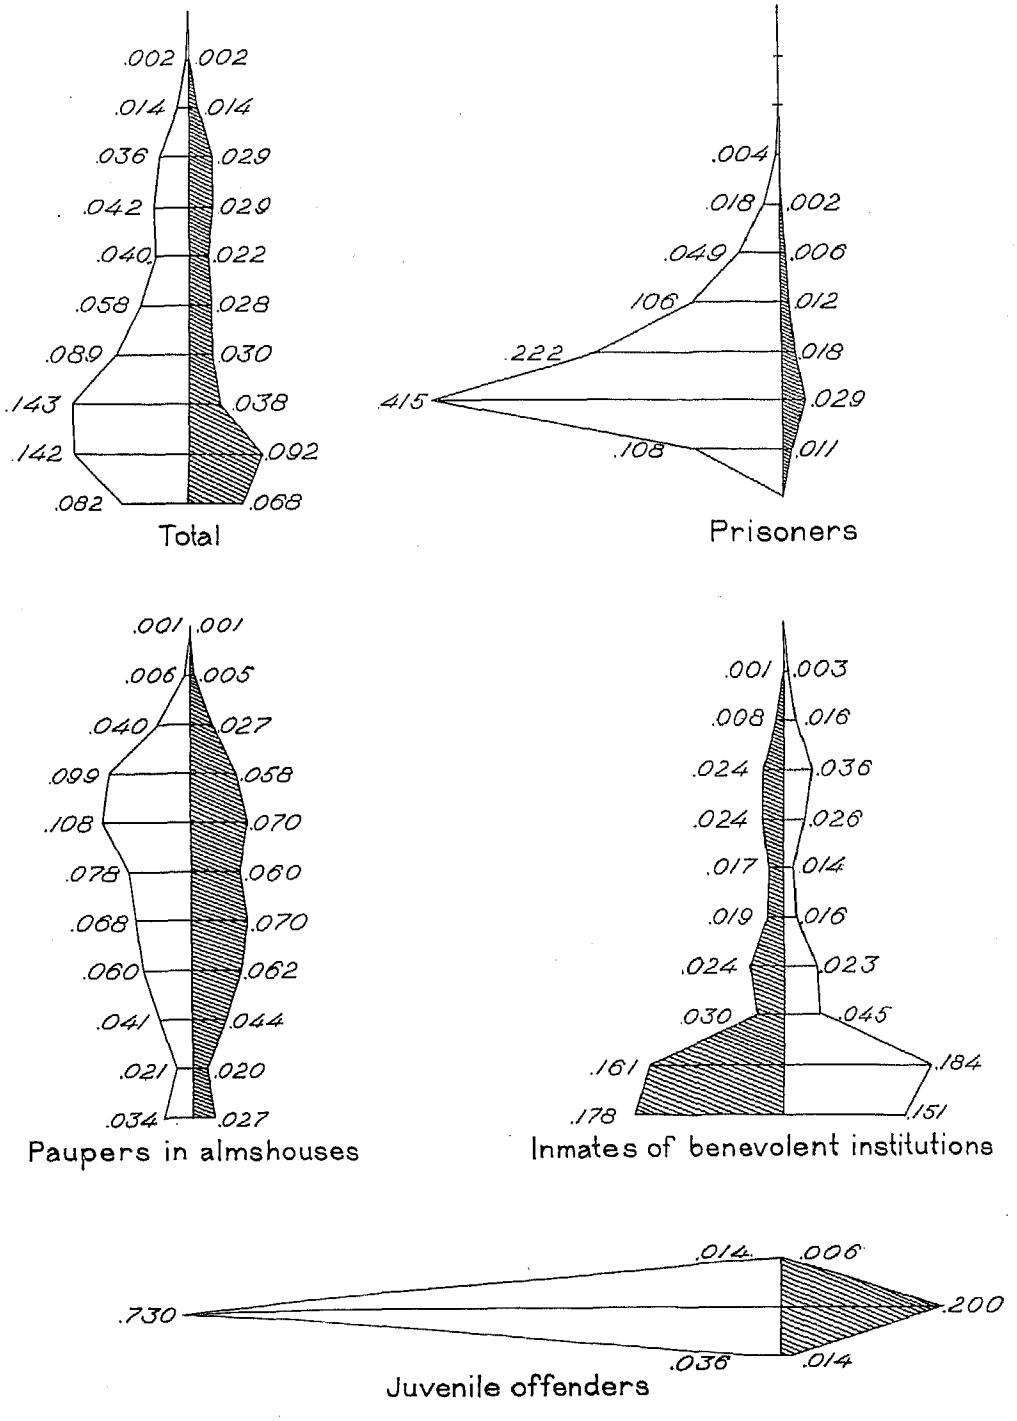
The maximum ratio for prisoners is between 20 and 24 years; for juvenile delinquents, between 15 and 19 years; for paupers and inmates of benevolent institutions, after 65 years.

Under 15 years, the ratios diminish for almshouse paupers, but they increase for inmates of benevolent institutions.

From 15 to 64 years, the ratios increase for almshouse paupers, but they diminish for inmates of benevolent institutions.

Plate 2 presents graphically the relations of the ages of inmates in the different classes of institutions.

PLATE 2. CLASSIFICATION BY AGES REDUCED TO PERCENTAGES



Note: *The males are on the left of the base line and the females on the right. The sex which preponderates is in lighter shade. The lowest horizontal line represents the first decade, under ten years of age, and the highest over one hundred years.*

In the following statement the ratios are shown for each sex:

SEX AND CLASSES OF INSTITUTIONS.	Under 15 years.	15-19 years.	20-24 years.	25-29 years.	30-34 years.	35-44 years.	45-54 years.	55-64 years.	65 years and over.
All institutions	3,544	4,127	4,440	4,471	3,930	3,945	4,119	5,652	15,409
Male	4,015	5,240	6,934	6,932	5,712	5,253	5,178	6,698	16,614
Female	3,060	3,032	1,956	1,848	1,923	2,494	2,976	4,517	14,153
Prisons	31	1,370	3,180	3,127	2,419	1,964	1,356	867	403
Male	56	2,521	5,913	5,691	4,273	3,365	2,398	1,485	691
Female	7	240	436	393	331	389	294	195	103
Juvenile reformatories	337	1,029	39	10	.....	.....	.....	.....	.....
Male	548	1,518	52	16	.....	.....	.....	.....	.....
Female	119	550	25	4	.....	.....	.....	.....	.....
Almshouses	253	248	445	655	906	1,348	2,035	3,515	9,646
Male	282	237	431	614	866	1,237	2,051	3,951	11,801
Female	223	257	460	699	951	1,470	2,019	3,042	7,401
Benevolent institutions	2,923	1,480	776	679	605	633	728	1,270	5,360
Male	3,129	964	538	611	573	631	789	1,262	4,122
Female	2,711	1,985	1,015	752	641	635	663	1,280	6,649

Under 20 years of age, more than one-half of the inmates of institutions are cared for by private charity. From 20 to 30 years of age, more than two-thirds of them are suffering the penalty of law in prison. A majority are in prison between the ages of 30 and 45. For higher ages, a majority are in almshouses.

The details, for each class of institutions, by states and territories, are given in the sections for each institution.

(3) RATIOS, BY ELEMENTS OF THE POPULATION.—To complete the view of this subject, the numbers of those whose ages are known and the ratios to 1,000,000 are given in the following table, by color, nativity, and race:

NUMBERS.

COLOR, NATIVITY, AND RACE. (a)	Total.	Under 1 year.	1-4 years.	5-9 years.	10-14 years.	Under 15 years.	15-19 years.	20-24 years.	25-29 years.	30-34 years.	35-44 years.	45-54 years.	55-64 years.	65 years and over.

a The figures of this table are not fully shown in like classification in the principal tables, but they are derived from returns to the office.

The highest ratio to the million for all classes of institutions combined is that for the Indians, 21,766; then for the foreign whites, 7,751; native white with foreign parents, 4,893; negroes, 4,807; Chinese, 4,327; and native white with native parents, 3,310.

The percentage of the foreign white population cared for in institutions is two and one-third times as great as that of native white inmates of native parentage; and the mixed white population occupies a position about half way between the two. The difference is more marked in the earlier and later years of life, omitting the period between 15 and 45 years of age.

The ratios for each class of institutions, by color, nativity, and race, are as follows:

COLOR, NATIVITY, RACE, AND CLASSES OF INSTITUTIONS.	Total.	Under 1 year.	1-4 years.	5-9 years.	10-14 years.	15-19 years.	20-24 years.	25-29 years.	30-34 years.	35-44 years.	45-54 years.	55-64 years.	65 years and over.

All the foregoing ratios have been obtained by comparison with the figures contained in the following table, which gives the analysis, by age, sex, color, nativity, and parentage, of the population at large. These figures furnish the major terms for the proportions, and they have been used as divisors.

SEX, COLOR, NATIVITY, AND RACE.	Total.	Under 1 year.	1 to 4 years.	5 to 9 years.	10 to 14 years.	Total under 15 years.	15 to 19 years.
Total population	62,622,250	1,566,734	6,067,959	7,573,998	7,033,509	22,242,200	6,557,563

Western	3,673	2,880	303	442	23	25	78.95	8.30	12.12	0.63

a The percentages are calculated on the total basis of 275,174 reported, omitting 6,956 not stated.

Of the single, the largest percentage is found in the Western division, 79.86, and the smallest in the South Central, 65.98. In accordance with this statement, the largest percentage of the married is found in the South Central division, 23.36, and the smallest in the Western, 10.70. The largest percentage of widows and widowers is in the North Atlantic division, 14.16, and of the divorced, in the North Central, 1.20.

The percentage of widowed, 12.52, is nearly equal to the percentage of married, but it is to be remarked that, while the percentage of male inmates who are married is about double that of the widowed, the percentage of female inmates who are widowed considerably exceeds that of the married. The percentage of divorced is much larger among male than among female inmates, and the percentage of the married somewhat larger.

a The percentages are calculated on the total basis of 275,174 reported, omitting 6,956 not stated.

For the whites the percentage of the single is lowest among the foreign born, 51.84, and highest among natives with parents foreign, 88.55. The percentages of the married and the widowed are highest among the foreign born and next among those with both parents native. The percentage of the divorced is highest among those with both parents native.

The percentage of the single is less, and of the married greater, among the colored than among whites. This is true for both sexes.

a The percentages are calculated on the total basis of 94,437 reported, omitting 2,738 not stated.

The tendency to crimes against property and against society is specially noticeable among the single, and against the government and against the person among the married. Among criminal widows and widowers there is a high percentage of crime against the person. Of 4,199 prisoners and juvenile offenders belonging to this group, 1,104 are charged with crimes against the person, of which 703 are homicides. The ratios of divorced prisoners and juvenile offenders charged with homicide and that of the total number in that group are about the same.

LITERACY AND ILLITERACY.

In making the tables showing the education of inmates of institutions it has been assumed that, where the enumerators do not report an individual as unable to read or write, the affirmative answer was intended. On this assumption, the number of those who can read and write is 208,384, or 73.86 per cent; of those who can read only, 10,447, or 3.70 per cent; of those who can neither read nor write, 63,299, or 22.44 per cent.

a Including those not stated.

The highest percentage of illiteracy is found among the negroes, 53.05. The percentage for the Indians is 18.10. For the whites (omitting those whose nativity or parentage is unknown), the percentage of illiteracy among the foreign born is 22.17; among natives with both parents native, 16.33; one parent foreign, 8.83; both parents foreign, 8.78. Of the negroes, 5.90 per cent; of the foreign white, 5.62, and of the native white population of native parentage, 3.23 per cent are reported as able to read but not able to write.

TRADE EDUCATION.

The question as to trade education applies only to prisoners and inmates of juvenile reformatories, numbering in the aggregate 97,175. This question is not answered in 10,657 cases (8,579 male and 2,078 female). Of the remaining 86,518 (78,880 male and 7,638 female), the number reported as mechanics is 7,836 (7,786 male and 50 female); apprentices, 11,248 (10,986 male and 262 female); without a trade, 67,434 (60,108 male and 7,326 female).

I.—BY GEOGRAPHICAL DIVISIONS.

Western	286	10	27	140	109	5.65	15.25	79.10

a The percentages are calculated on the total basis of 86,518 reported, omitting 10,657 not stated.

The highest percentage of mechanics appears to be in the Western division, 15.75; then in the North Atlantic, 12.85; in the North Central, 8.25; in the South Atlantic, 3.43; in the South Central, 2.95.

The percentages of apprentices are considerably larger, but follow substantially the same order, except that the percentages in the North and South Central divisions are larger than in the North and South Atlantic. The largest percentages of those who have no trade are in the South Atlantic and South Central divisions, and the smallest in the Western. The percentages without a trade are larger among the female than among the male inmates, but attention is called to the exceptionally large percentage of female mechanics in the Western division, which is 5.65.

Parents native	1,673	10	50	1,225	388	0.78	3.89	95.33
One parent foreign	394	3	14	320	57	0.89	415	94.96
Parents foreign	1,608	8	57	1,296	247	0.59	4.19	95.22
One or both parents unknown	1,083	10	16	766	291	1.26	2.02	96.72
Foreign born	2,339	14	100	1,690	535	0.78	5.54	93.68
Nativity unknown	224	.....	2	172	50	.....	1.15	98.85
Colored	2,395	5	23	1,857	510	0.27	1.22	98.51
Negroes	2,377	5	20	1,846	506	0.27	1.07	98.66
Chinese	1	.....	.....	1	.....	.....	.....	100.00
Japanese	1	.....	.....	1	.....	.....	.....	100.00
Indians	16	.....	3	9	4	.....	25.00	75.00

a The percentages are calculated on the total basis of 86,518 reported, omitting 10,657 not stated.

The highest percentage of those without a trade is found among the negroes, 91.02; then among the Indians, 90.57. The percentage for the colored is 90.98; for the whites, 73.12. Omitting those whose nativity or parentage is unknown, the percentage without a trade among the native population with native parents is larger than among the foreign born or the native with foreign parents.

The largest percentage, 79.61, without a trade, omitting those on the high seas and miscellaneous, is found among those against society; then crimes against the person, 79.20; against the government, 77.85; and the smallest against property, 75.25. There is a certain agreement between the statement just made and the statement that crimes against the person are associated with a low degree of intelligence and of education.

OCCUPATIONS PRIOR TO ADMISSION.

The question as to occupation prior to admission to a juvenile reformatory has no significance, since the inmates of that class of institutions are for the most part children and never had any occupation.

Of the 267,284 inmates of prisons, almshouses, and benevolent institutions, the question as to prior occupation is unanswered in 27,316 cases (14,693 male and 12,623 female).

Of the remaining 239,968 (157,217 male and 82,751 female) there are 105,205 (53,060 male and 52,145 female) who are said to have had no occupation. This leaves 134,763 (104,157 male and 30,606 female) who had an occupation, and whose occupation is known.

Of 134,763 inmates of institutions whose prior occupations are known, 34,935, or 25.92 per cent, were unskilled laborers; 30,979, or 22.99 per cent, were engaged in personal service; 30,134, or 22.36 per cent, in manufactures; 15,937, or 11.83 per cent, in agriculture; 8,800, or 6.53 per cent, in transportation; and 5,794, or 4.30 per cent, in trade and commerce.

Of 104,157 male inmates, 34,160, or 32.80 per cent, were unskilled laborers; 25,880, or 24.85 per cent, were employed in manufactures; 15,687, or 15.06 per cent, in agriculture; 8,791, or 8.44 per cent, in transportation; 8,078, or 7.76 per cent, in personal service; and 5,564, or 5.34 per cent, in trade and commerce.

Of 30,606 female inmates, 22,901, or 74.83 per cent, were engaged in personal service, and 4,254, or 13.90 per cent, in manufactures.

In the North Atlantic division the percentages higher than the average for that division are found among those engaged in personal service, trade and commerce, manufactures, and the fisheries.

In the South Atlantic division the percentages higher than the average are found among those engaged in the fisheries, unskilled labor, and agriculture.

In the North Central division the percentages higher than the average are found among those in professional life, or engaged in lumbering and agriculture.

In the South Central division the percentages higher than the average are found among those engaged in agriculture, lumbering, unskilled labor, official and professional service, and transportation.

In the Western division the percentages higher than the average are found among those engaged in mining, lumbering, official service, the fisheries, professional service, transportation, trade and commerce, manufactures, and unskilled labor.

a Less than five-thousandths of 1 per cent.

The percentage of the unoccupied is largest for inmates of benevolent institutions, 72.08, and least for prisoners, 4.69. The inference from the figures given is that the want of occupation tends much more strongly to beget dependence than crime.

Of the specified occupations, the largest percentage is that for unskilled labor, 13.07; then for personal service, 11.59; manufactures, 11.28; agriculture, 5.96; transportation, 3.29; trade and commerce, 2.17; but the order is not the same for the different classes of institutions. The percentage of unskilled laborers in prison is twice as great as that of unskilled laborers in almshouses. The percentage of prisoners engaged in manufactures and in agriculture is also more than twice as great as of paupers in almshouses, but of those engaged in personal service a larger percentage is found in almshouses than in prisons.

The reason why more than twice as large a percentage of persons without an occupation is found in benevolent institutions as in almshouses, is the number of children included under this head.

Of all the specified industries, a larger percentage is generally found in almshouses than in benevolent institutions.

CONDITION AS TO EMPLOYMENT AT TIME OF ARREST.

As to 10,410 inmates of prisons and juvenile reformatories, it is not known whether they were employed or idle at the time of their arrest.

Of the remaining 86,765 (79,995 male and 6,770 female), there were employed 52,936 (49,153 male and 3,783 female); idle, 33,829 (30,842 male and 2,987 female). It must be remembered that the inmates of juvenile reformatories are so many of them children, or were children at the time of their commitment, that it was impossible to employ them. Any deductions from the statement here made therefore have less value than if attention is confined to the adult prison population. However, in order to give a complete view of the subject, the prisoners and juvenile offenders have been combined in the following summaries.

South Central	1,014	537	371	106	59.14	40.86
Western	286	67	108	111	38.29	61.71

a The percentages are calculated on the total basis of 86,765 reported, omitting 10,410 not stated.

The largest percentages of the employed are at the south, and the smallest in the Western division. The percentage of the employed is smaller among female than among male inmates. Of the entire number, about two-fifths were idle at the time of arrest, but in the Western division, of the male inmates more than one-half and of the female more than three-fifths.

Negroes	2,377	1,242	796	339	60.94	39.06
Chinese	1	1	.....	.....	100.00	.....
Japanese	1	.....	1	.....	.....	100.00
Indians	16	2	9	5	18.18	81.82

a The percentages are calculated on the total basis of 86,765 reported, omitting 10,410 not stated.

The percentage of the idle is lowest among the negroes, 25.76; among the whites, omitting those whose nativity or parentage is unknown, it is least among the natives with native parents, and greatest among the natives with parents foreign. The difference in this regard between the natives with native parents and the foreign born is very slight.

III.—EMPLOYMENT, BY GROUPS OF CRIMES.

BOTH SEXES.

OFFENSES.	NUMBERS.				PERCENTAGES. (a)	
	Total.	Employed.	Idle.	Not stated.	Employed.	Idle.

On the high seas	4	3	1	.....	75.00	25.00
Miscellaneous	8,006	2,975	3,225	1,806	47.98	52.02
FEMALE.						
All offenses	9,716	3,783	2,987	2,946	55.88	44.12
Against the government	16	11	5	.....	68.75	31.25
Against society	5,540	2,179	2,022	1,339	51.87	48.13
Against the person	787	527	157	103	77.05	22.95
Against property	1,671	895	479	297	65.14	34.86
Miscellaneous	1,702	171	324	1,207	34.55	65.45

a The percentages are calculated on the total basis of 86,765 reported, omitting 10,410 not stated.

It is very clear from the foregoing statement that idleness and disorder are closely related. Of those charged with offenses against society, on the basis of those stated, one-half are idle; of those charged with offenses against property, less than two-fifths; of those charged with crimes against the person, very little more than one-fifth.

OCCUPATIONS IN INSTITUTIONS.

Of 97,175 prisoners and juvenile offenders in the aggregate, the occupations of 24,076 (21,101 male and 2,975 female) are not stated.

The number reported to be engaged in prison duties is 20,482 (16,232 male and 4,250 female).

Of the remaining 52,617, the number whose occupations have not been classified is 16,363 (15,033 male and 1,330 female).

The investigation has therefore resulted in obtaining the occupations of only 36,254 (35,093 male and 1,161 female).

An examination of the foregoing table illustrates the predominant tendency to indoor employment at the north and outdoor employment in the south.

Of prisoners and juvenile offenders engaged in making clothing, 76.84 per cent are in the North Atlantic division. The other occupations which exhibit large percentages for this division are: iron, 93.62; furniture, 68.88; brushes, 64.90; brooms, 61.88; chairs, 56.63.

Of prisoners and juvenile offenders engaged in making barrels, 81.39 per cent are in the North Central division. The other occupations which exhibit large percentages for this division are: agricultural implements, 98.51; foundry work, 60.22; saddlery and harness making, 58.62; wagon making, 53.74; boots and shoes, 45.02.

Of prisoners and juvenile offenders engaged in farming, 18.41 per cent are in the South Atlantic division and 58.81 per cent in the South Central division. The other occupations which exhibit large percentages for these divisions are: mining, 26.43 in the South Atlantic and 59.42 in the South Central; railroad building, 48.04 in the South Atlantic and 40.52 in the South Central.

In the Western division a relatively large per cent of the prisoners are engaged in making brick and working in stone.

a Includes crimes on the high seas.

The percentages by groups of crimes are given, to complete the account of the subject under consideration, but it does not appear that much can be learned from them. The large percentage of those employed in chair and brush making who are charged with offenses against society is due to the fact that these are occupations which require little skill, and are therefore suitable for introduction into minor prisons, where the terms of sentence are comparatively short, as are most of the sentences for offenses against society.

HABITS WITH RESPECT TO THE USE OF ARDENT SPIRITS.

The question as to habits with respect to the use of ardent spirits applies only to prisoners and inmates of juvenile reformatories, numbering, in the aggregate, 97,175, with regard to whom this question is not answered in 19,271 cases (16,129 male and 3,142 female).

Of the remaining 77,904 (71,330 male and 6,574 female), the number reported as total abstainers is 20,973 (18,399 male and 2,574 female); moderate or occasional drinkers, 40,585 (38,552 male and 2,033 female); drunkards, 16,346 (14,379 male and 1,967 female).

According to the figures, the number of total abstainers exceeds the number of drunkards by 4,627.

The statements made as to the habits of inmates of prisons and reformatories have been revised for the greater part by the officers of the prisons. At the same time there can be no question that among those reported as moderate or occasional drinkers are some who would properly be classed with the drunkards. It would be manifestly unfair to attribute the crime of 20,973 total abstainers to total abstinence; it is equally erroneous to attribute the crime of 16,346 drunkards to ardent spirits. The cause in both cases lies deeper, and is found in the character of the individual in its relation to the circumstances of his life.

a The percentages are calculated on the total basis of 77,904 reported, omitting 19,271 not stated.

The largest percentages of moderate or occasional drinkers are in the South Atlantic and Western divisions; of total abstainers, in the North and South Central; and of drunkards, in the North Atlantic and North Central.

The percentage of total abstainers is larger among women than among men; so also is the percentage of drunkards; while the percentage of moderate or occasional drinkers is nearly twice as great among men as among women.

a The percentages are calculated on the total basis of 77,904 reported, omitting 19,271 not stated.

The percentage of drunkards among whites is very much larger than among the colored inmates, and of the moderate or occasional drinkers very much larger among the colored than among the whites. The percentages of total abstainers are very nearly the same. This is true for both sexes combined and for males. The largest percentage of total abstainers (omitting those whose nativity or parentage is unknown) is found among the Chinese. The smallest percentage of total abstainers is among the foreign white, and the next among the native white with both parents foreign. The percentage of drunkards among the foreign born is, however, very slightly in excess of that given for the native white population of native parentage.

Miscellaneous	1,702	320	71	62	1,249	70.64	15.67	13.69

a The percentages are calculated on the total basis of 77,904 reported, omitting 19,271 not stated.

Omitting those charged with offenses on the high seas and miscellaneous offenses, the percentage of drunkards is very much the largest among those charged with offenses against society, which was to be expected, since this group includes drunkenness and disorder. The percentage of drunkards is somewhat greater among those charged with crimes against the person than among those charged with crimes against property. The percentage of total abstainers is also largest among those charged with offenses against society, and smaller among those charged with crimes against the person than among those charged with crimes against society or property. This is due probably to the large proportion of juvenile offenders charged with offenses against society. (a)

a In Table 97 occur 49 charges of public intoxication and 1 of habitual drunkenness against those reported as total abstainers. It is to be remembered that 9,737 prisoners are held for trial and that part of those under charges will be able to show falsity or error in the charges against them.

LEGAL RESIDENCE.

The question as to the legal residence of inmates of penal and charitable institutions is not answered in 61,184 cases (35,790 male and 25,394 female).

Of the remaining 220,946 (147,655 male and 73,291 female), the number who are returned as residents of the state is 207,936 (135,569 male and 72,367 female); those who reside elsewhere, 13,010 (12,086 male and 924 female).

Of the 13,010 who reside out of the state in which they were found, 11,176 are prisoners.

I.—BY GEOGRAPHICAL DIVISIONS.

BOTH SEXES.

GEOGRAPHICAL DIVISIONS.	NUMBERS.				PERCENTAGES. (a)

Japanese	1	1	.....	.....	100.00	.....
Indians	447	357	39	51	90.15	9.85

a The percentages are calculated on the total basis of 220,946 reported, omitting 61,184 not stated.

The percentage of nonresidents is one and one-half times as large among the colored as among the whites. It is largest among the Indians. The percentages for the native of native parents and native population with one parent foreign are larger than for the foreign born and their children.

III.—RESIDENCE, BY GROUPS OF CRIMES.

BOTH SEXES.

Against property	1,671	1,529	100	42	93.86	6.14
Miscellaneous	1,702	1,402	19	281	98.66	1.34

a The percentages are calculated on the total basis of 91,066 reported, omitting 6,109 not stated.

The foregoing table refers only to the inmates of prisons and of juvenile reformatories. The large number of nonresidents charged with crimes against the government is susceptible of explanation. It is partly due to the practice of the Federal government in sending Federal prisoners to selected state prisons, often remote from the courts in which convicts were tried. Leaving Federal prisoners out of the question, the tendency to migratory habits is most marked among offenders charged with crimes against property, which agrees with what is known of the character of thieves. Crimes against society are much more largely committed by residents of the community in which they are tried and convicted.

HEALTH.

Where the question as to health was not answered upon the census schedules, it has been taken for granted that the inmates of institutions were in good health or the contrary would have been stated. The number counted as in good health, upon this basis, is 194,669 (130,924 male and 63,745 female); in various other conditions of health, 87,461 (52,521 male and 34,940 female). The 87,461 are subdivided as follows: ill, 39,278 (25,101 male and 14,177 female); insane, 18,324 (8,971 male and 9,353 female); blind, 4,487 (2,642 male and 1,845 female); deaf-mutes, 1,486 (850 male and 636 female); idiots, 8,853 (4,358 male and 4,495 female); crippled, 15,033 (10,599 male and 4,434 female).

a Including those not stated.

There appears to be no material difference in the health of inmates of institutions except in the North Central division, where the percentage in good health is smaller than elsewhere for both sexes and for each sex separately. The largest percentage of sickness is found in the Western division; of insanity, in the North Central; of blindness, in the South Central; of deaf-mutism and of idiocy, in the North Central; of cripples, in the Western.

a Including those not stated.

In penal and reformatory institutions the health of the colored population is better than that of the whites, and that of the Chinese and Indians is best of all. There is more sickness among the foreign whites and the native whites of native parentage than among those of any other group. The largest percentage of insanity is found among those of unknown nativity, which may be because the insane are unable to answer the question as to this point. Of those whose nativity and parentage are known, much the largest percentage is among the foreign whites. The foreign whites also exhibit the strongest tendency to blindness and to deaf-mutism, while idiocy is more common among the native population. The largest percentage of cripples is also among the foreign born. The figures generally indicate better health among the young than among the more advanced in life.

As to sex, the health of male inmates of institutions appears to be better than that of female inmates. The forms of illness and infirmity prevail to a larger extent among the female inmates, with the exception of wounds and maiming, which occur more frequently in the case of men. The percentage of insane women in institutions is nearly double that of insane men.

III.—HEALTH, BY GROUPS OF CRIMES.

BOTH SEXES.

a Including those not stated.

Probably little significance attaches to the figures here given, with the exception of one or two points. It is noticeable that the percentage of insanity is largest among those charged with crimes against the person. So also is that of the crippled. Of women charged with crimes against the person, nearly 6 per cent are insane. The large percentage of insane charged with miscellaneous offenses is due to the fact that the list of miscellaneous offenses includes insanity.

The distribution of the insane, blind, deaf-mutes, and idiots, by classes of institutions, and by color, nativity, and race, is shown in the following table:

INSANE.

CLASSES.	Aggregate.	WHITE.							COLORED.			
		Total.	Native born.				Foreign born.	Nativity unknown.	Total.	Negroes.	Chinese.	Indians.
			Parents native.	One parent foreign.	Parents foreign.	One or both parents unknown.

SENTENCES FOR CRIME.

Of 97,175 prisoners and juvenile offenders, the number not under sentence is 10,144, namely: awaiting trial, 9,737 (9,072 male and 665 female); fraudulent debtors, 48 (46 male and 2 female); held as insane, 291 (212 male and 79 female); witnesses, 68 (52 male and 16 female).

Of the remaining 87,031, the sentences of 4,518 (3,415 male and 1,103 female) are not stated.

The 82,513 sentences reported are divided as follows: fine, without imprisonment (but usually commutable into imprisonment at some arbitrarily equivalent valuation determined by the statutes in each state), 3,946 (3,447 male and 499 female); term sentences, 65,479 (60,325 male and 5,154 female); indefinite sentences, 12,926, namely, for life, 2,766 (2,638 male and 128 female), and during minority, 10,160 (8,091 male and 2,069 female); capital sentences, 162 (161 male and 1 female).

The total number of sentences to imprisonment reported therefore is 78,405.

Sentences, exclusive of sentences for life and sentences to death, are of three sorts: those to pay fine or to serve terms less than 1 year, 22,896; those to serve terms of years, 46,529; those to serve during minority, 10,160. For convenience the first of these three groups will here be termed misdemeanants and the second felons. This characterization is not absolutely accurate, since there may be codes under which misdemeanors may be punished by imprisonment for a year or more (*a*); but this is the commonly accepted distinction between misdemeanors and felonies. Broadly speaking, misdemeanants are sent to jails or workhouses, and felons to state prisons or penitentiaries; but, as elsewhere pointed out, there are many exceptions to the general rule.

The tabulation of sentences by classes of prisons has not been attempted.

a For instance, in Massachusetts the minimum term of sentence to state prison is 3 years.

This branch of the general subject divides itself into three parts: (1) individual sentences; (2) aggregate duration of imprisonment; (3) average sentences. In the discussion these will be treated in connection under the three heads of geographical distribution of sentences; distribution by sex, color, nativity, and race; distribution by groups of crimes.

I.—SENTENCES FOR CRIME, BY GEOGRAPHICAL DIVISIONS.

(1) INDIVIDUAL SENTENCES.—The following summary shows, in combination for prisoners and juvenile offenders, term sentences, by sex and by geographical divisions:

TERM SENTENCES BY SEX.	NUMBERS.						PERCENTAGES.					
	The United States.	Geographical divisions.					The United States.	Geographical divisions.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.

Female	31	3	7	8	13	.....	0.05	0.01	0.08	0.05	0.12	.....

The foregoing statement can be still further condensed, to bring into sharper contrast the percentages of misdemeanants and felons:

SEX AND CLASS OF CRIMINALS.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Both sexes	100.00	100.00	100.00	100.00	100.00	100.00
Misdemeanants	28.94	41.71	24.42	21.40	16.48	24.35
Felons	71.06	58.29	75.58	78.51	83.52	75.65
Male	92.13	87.68	92.80	94.80	95.41	97.16
Misdemeanants	24.03	33.12	20.58	19.02	14.15	22.31
Felons	68.10	54.56	72.22	75.78	81.26	74.85
Female	7.87	12.32	7.20	5.20	4.59	2.84
Misdemeanants	4.91	8.59	3.84	2.47	2.33	2.04
Felons	2.96	3.73	3.36	2.73	2.26	0.80

The largest percentages of misdemeanants, for men and for both sexes taken together, are in the North Atlantic division, then in the Western, the South Atlantic, the North Central, and the South Central. The percentages for women diminish from east to west.

There are in the aggregate about one-third as many female as male misdemeanants and one-fiftieth as many female as male felons.

As already stated, by misdemeanants are meant only such prisoners as receive sentence to imprisonment for less than 1 year. The word does not measure the wrong done, except so far as the penalty happens to be justly proportionate to the crime; in many cases it depends upon the temper of the jury, and it is modified by the mildness or severity of the code under which conviction is had.

There is a greater tendency to very long sentences in the south and west. In the South Atlantic division the percentage of sentences from 10 to 19 years is 14.19; in the Western, 11.38; in the South Central, 11.36; in the North Central, 8.31; in the North Atlantic, 5.80. Of sentences for 20 years and over, the percentage in the South Central is 4.88; in the Western, 3.78; in the South Atlantic, 2.97; in the North Central, 2.93; in the North Atlantic, 0.97. This affects the number of prisoners relative to the population, since there is a larger accumulation of undischarged prisoners where sentences are long. The same is true of misdemeanants compared with felons. The number of prisoners is not a gauge of the number of crimes or convictions.

The following is a list of varieties of fractional sentences, with the number of each:

Total	5,987
More than 1 year and less than 2 years	2,306
More than 2 years and less than 3 years	1,660
More than 3 years and less than 4 years	676
More than 4 years and less than 5 years	451
More than 5 years and less than 6 years	202
More than 6 years and less than 7 years	165
More than 7 years and less than 8 years	162
More than 8 years and less than 9 years	58
More than 9 years and less than 10 years	80
More than 10 years and less than 11 years	65
More than 11 years and less than 12 years	31
More than 12 years and less than 13 years	41
More than 13 years and less than 14 years	7
More than 14 years and less than 15 years	11
More than 15 years and less than 16 years	18
More than 16 years and less than 17 years	6
More than 17 years and less than 18 years	12
More than 18 years and less than 19 years	8
More than 19 years and less than 20 years	13
More than 20 years and less than 21 years	3
More than 21 years and less than 22 years	4
More than 22 years and less than 23 years	2
More than 24 years and less than 25 years	2
More than 25 years and less than 26 years	2
More than 29 years and less than 30 years	1
More than 35 years and less than 36 years	1

This is 9.01 per cent, or one-eleventh of the entire number. More than one-third of them occur in the state of New York. The states most given to fractional sentences are New York, Pennsylvania, Maryland, and New Jersey. The only state free from them is Florida.

Counting these fractional sentences and the nonfractional sentences of the next lower number of years together, it will be observed that the order of sentences in frequency is as follows: 2 years, 9,143; 1 year, 7,992; 5 years, 7,561; 3 years, 6,268; 4 years, 3,492; 10 years, 3,273; 7 years, 1,665; 6 years, 1,426; total, 40,820. In other words, three-fifths of all term sentences fall under one of the eight varieties here mentioned.

There is a great frequency of fractional sentences. In some states the law requires the courts to adjust sentences in such a way as to insure the release of the convict at a given season of the year, when his opportunities for self-support will be most favorable.

(2) AGGREGATE SENTENCES.—What is here said about the total duration of imprisonment (less than for life) prescribed by the courts refers exclusively to prisoners. While there are 1,826 inmates of juvenile reformatories who are serving term sentences, their number is so small in comparison with those committed until of age, and with the great body of adult prisoners, that the calculation of total duration and average sentences was not undertaken for them.

The total time which sentenced prisoners must spend in confinement (omitting all consideration of abridgments of sentence by commutation or pardon, death, or the operation of the "good time" laws) according to the letter of the judgments pronounced against them is 246,941.60 years.

The tables relating to this subject are so arranged as to make three cross exhibits or double analyses.

The geographical distribution of the total duration of sentences in the aggregate is shown, by sex, color, nativity, and race, in the following summary:

BOTH SEXES.

COLOR, NATIVITY, AND RACE.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total years	246,941.60	64,989.31	39,543.23	58,882.90	59,070.67	24,455.49
White	155,325.99	59,117.80	6,973.47	48,409.91	19,937.84	20,886.97
Native born	117,596.10	42,959.65	6,420.42	38,210.01	15,926.76	14,079.26

(3) AVERAGE SENTENCES.—The briefest possible statement of average term sentences in years, by sex and by geographical divisions, is as follows:

SEX.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total	3.88	2.72	4.42	4.04	5.40	4.65
Male prisoners	4.07	2.95	4.55	4.12	5.51	4.75
Female prisoners	1.59	1.05	2.67	1.98	2.95	1.24

The averages for women are much less than for men.

The highest average is in the South Central division, 5.40 years; then in the Western, 4.65 years; in the South Atlantic, 4.42 years; in the North Central, 4.04 years; in the North Atlantic, 2.72 years. The large number of misdemeanants in the latter brings down the average very materially.

Table 123 gives the average sentence in each state and territory. The lowest in any state is in Rhode Island, 1.43 years; the highest is in Mississippi, 7.64 years. Mississippi is bounded by Louisiana, where the average is 3.36 years (about 1 year less than half the average in Mississippi); by Arkansas, where it is 4.37 years; Tennessee, where it is 5.14 years; Alabama, where it is 4.70 years. The average sentence in Virginia, 5.02 years, is approximately double that in Maryland, where it is 3.17 years. The average sentence in Vermont, 4.58 years, is more than double that in Connecticut, 2.22 years. The average sentence in Illinois, 5.01 years, is a year and a half longer than in Indiana, 3.55 years, and more than double that in Wisconsin, 2.40 years, or Minnesota, 2.52 years.

II.—SENTENCES FOR CRIME, BY ELEMENTS OF THE POPULATION.

(1) INDIVIDUAL SENTENCES.—The following summary shows, in combination for prisoners and juvenile offenders, all sentences, by sex, color, nativity, and race:

Juvenile offenders sentenced "during minority".	12.31	14.41	12.02	17.07	14.52	40.01	5.43	45.16	6.85	6.98	0.62	3.41

The percentage of misdemeanants is much larger for the white than for the colored population. A little more than half of the whites are treated as felons, and nearly three-fourths of the colored. The percentage of felons among the Chinese is peculiarly high, 83.78; of Chinese more than five times as large a per cent is awaiting execution as of the native whites.

The percentage of felons among the foreign whites is somewhat less than for the natives with native parents.

(2) AGGREGATE SENTENCES.—The following summary shows, in years, the total duration of imprisonment, by sex, color, nativity, and race and by groups of crimes:

FEMALE.

Total	7,670.09	12.28	2,122.14	2,962.93	2,442.50	.....	130.84
White	3,906.03	12.25	1,880.68	901.85	1,052.10	.....	59.15
Native born	2,603.32	3.00	1,351.67	675.82	603.59	.....	29.24
Parents native	1,128.12	.....	389.03	480.91	241.03	.....	17.15
One parent foreign	132.20	3.00	59.29	23.58	43.25	.....	3.08
Parents foreign	751.80	.....	469.72	129.67	146.92	.....	5.49
One or both parents unknown.	651.20	.....	433.63	41.66	172.39	.....	3.52
Foreign born	1,222.27	9.25	526.15	221.03	436.51	.....	29.33
Nativity unknown	20.44	.....	2.86	5.00	12.00	.....	0.58
Colored	3,764.66	0.03	241.46	2,061.08	1,390.40	.....	71.69
Negroes	3,757.80	0.03	234.85	2,061.00	1,390.23	.....	71.69
Chinese	5.08	.....	5.08	.....	.....	.....	.....
Indians	1.78	.....	1.53	0.08	0.17	.....	.....

More than half is for crimes against property and more than one-third for crimes against the person.

While the colored prisoners combined do not receive more than half as much time in sentences as the whites for crimes against property, they get almost as much time in sentences (four-fifths) for crimes against the person. Colored women get more time in sentences than white women for both, but for crimes against the person more than double.

(3) AVERAGE SENTENCES.—Thus we are again brought to consider average sentences. Attention is invited to the following brief exhibit:

COLOR, NATIVITY, AND RACE.	Total.	Male.	Female.
Total	3.88	4.07	1.59
White	3.46	3.65	1.12
Native born	3.67	3.79	1.51
Parents native	4.15	4.25	1.76
One parent foreign	3.53	3.66	1.08
Parents foreign	2.96	3.10	1.08
One or both parents unknown	3.57	3.74	2.14
Foreign born	2.97	3.32	0.72
Nativity unknown	2.41	2.47	1.28
Colored	4.87	5.04	2.79
Negroes	4.84	5.01	2.80
Chinese	6.55	6.58	2.54
Indians	5.42	5.64	0.20

The average sentence for a negro is 1 year longer than that for a white man. The average sentence for a Chinaman is 3 years longer than for a white man. The disproportion between average sentences for female prisoners is greater than for male prisoners.

The average sentence for a native white with both parents native is more than a year longer than for a native white with both parents foreign.

III.—SENTENCES FOR CRIME, BY GROUPS OF CRIMES.

(1) INDIVIDUAL SENTENCES.—The following summary shows, in combination for prisoners and juvenile offenders, all sentences, by sex and by groups of crimes:

The statement of percentages may be further reduced as follows:

SENTENCES.	Total.	GROUPS OF CRIMES.					
		Against the government.	Against society.	Against the person.	Against property.	On the high seas.	Miscellaneous.
Total	100.00	100.00	100.00	100.00	100.00	100.00	100.00
Misdemeanants	27.74	16.77	62.26	14.48	13.08	.....	21.06
Fine	4.78	1.51	12.09	2.22	0.85	.....	8.44
Short terms	22.96	15.26	50.17	12.26	12.23	.....	12.62
Felons	59.95	82.92	14.77	84.15	77.38	100.00	60.19
Long terms	56.40	82.29	14.66	65.69	76.99	33.33	59.39
Life	3.35	0.63	0.11	17.36	0.39	66.67	0.76
Death	0.20	.....	.....	1.10	.....	.....	0.04
Juvenile offenders sentenced "during minority"	12.31	0.31	22.97	1.37	9.54	.....	18.75

The great mass of offenses against society are misdemeanors, punishable by a mere fine or by a short term of imprisonment. Since the foreign white element is more addicted to offenses against society than to serious crime, the reason is apparent why the average sentence for that element is lighter than for any other.

The largest percentage of felonies is included in crimes against the person, 84.15; then against the government, 82.92; against property, 77.38; miscellaneous, 60.19; against society, 14.77. The percentage for crimes on the high seas represents only 4 persons and need not be considered.

(2) AGGREGATE SENTENCES.—The following summary shows the geographical distribution of the total years of imprisonment, by groups of crimes:

BOTH SEXES.

OFFENSES.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic	North Central.	South Central.	Western.
Total	246,941.60	64,989.31	39,543.23	58,882.90	59,070.67	24,455.49
Against the government	4,244.64	805.52	70.41	2,759.06	131.36	478.29
Against society	10,739.31	5,672.25	1,050.61	1,733.81	1,641.71	634.93
Against the person	88,080.54	15,215.07	13,766.28	22,926.56	27,016.06	9,156.57
Against property	126,034.83	39,100.33	22,539.28	25,584.66	25,384.96	13,425.65
On the high seas	2.75	2.75	.....	.....	.....	.....
Miscellaneous	17,839.48	4,193.39	2,110.65	5,878.81	4,896.58	760.05
MALE.						
Total	239,270.91	61,905.96	37,821.66	57,701.32	57,573.01	24,268.96
Against the government	4,232.36	794.52	70.41	2,758.06	131.08	478.29
Against society	8,617.17	3,886.18	955.30	1,632.95	1,550.39	592.35
Against the person	85,117.61	14,839.40	12,026.65	22,172.29	26,083.20	9,096.07
Against property	123,592.38	38,240.58	21,792.64	25,271.79	24,942.17	13,345.20
On the high seas	2.75	2.75	.....	.....	.....	.....
Miscellaneous	17,708.64	4,142.53	2,076.66	5,866.23	4,866.17	757.05
FEMALE.						
Total	7,670.69	3,083.35	1,721.57	1,181.58	1,497.66	186.53
Against the government	12.28	11.00	.....	1.00	0.28	.....
Against society	2,122.14	1,786.07	101.31	100.86	91.32	42.58
Against the person	2,962.93	375.67	839.63	754.27	932.86	60.50
Against property	2,442.50	859.75	746.64	312.87	442.79	80.45
Miscellaneous	130.84	50.86	33.99	12.58	30.41	3.00

In the North Central division less than one-half of the duration of imprisonment is for crimes against property and in the North Atlantic less than one-third is for crimes against the person. Elsewhere the rule stated holds good.

There is a high aggregate of sentences for crimes against property in the North Atlantic division and for crimes against the person in the South Central. More than one-half of the aggregate sentences against venial offenses is in the North Atlantic, yet, though it may swell the relative number of prisoners slightly, it does not show for very much in the total duration of imprisonment nor greatly increase the burden of prospective cost.

(3) AVERAGE SENTENCES.—Finally, we reach average sentences once more. For the different groups of crimes the average sentences, in years, are:

SEX.	Total.	GROUPS OF CRIMES.					
		Against the government.	Against society.	Against the person.	Against property.	On the high seas.	Miscellaneous.
Both sexes	3.88	2.76	0.76	7.77	3.85	2.75	4.51
Male	4.07	2.76	0.79	7.80	3.90	2.75	4.67
Female	1.59	1.75	0.67	6.99	2.29	.....	0.80

The average sentence for male offenders against the person is double that for male offenders against property. The average sentence for offenses against society is 9 months.

MARRIED, WIDOWED, OR DIVORCED MOTHERS.

The topics which remain to be discussed apply only to paupers in almshouses and inmates of benevolent institutions.

The question as to motherhood relates only to 26,605 women reported as married, widowed, or divorced. It was unanswered in 4,511 cases. Of the remaining 22,094, 15,987, or 72.36 per cent, are reported as having children and 6,107, or 27.64 per cent, as having borne no children.

The percentage of mothers in almshouses is 76.22 and in benevolent institutions 66.94.

I.—BY GEOGRAPHICAL DIVISIONS.

GEOGRAPHICAL DIVISIONS.	NUMBERS.				PERCENTAGES. (a)	
	Total.	Have children.	Have no children.	Not stated.	Have children.	Have no children.
The United States	26,605	15,987	6,107	4,511	72.36	27.64
North Atlantic	14,026	8,149	3,696	2,181	68.80	31.20
South Atlantic	2,666	1,781	554	331	76.27	23.73
North Central	7,408	4,451	1,345	1,612	76.79	23.21
South Central	1,853	1,215	353	285	77.49	22.51
Western	652	391	159	102	71.09	28.91

a The percentages are calculated on the total basis of 22,094 reported, omitting 4,511 not stated.

The largest percentage of mothers is in the South Central division, 77.49; then in the North Central, 76.79; in the South Atlantic, 76.27; in the Western, 71.09; and in the North Atlantic, 68.80. This order is the same as that given for paupers only, but varies somewhat from that given for inmates of benevolent institutions.

II.—BY ELEMENTS OF THE POPULATION.

COLOR, NATIVITY, AND RACE.	NUMBERS.				PERCENTAGES. (a)	
	Total.	Have children.	Have no children.	Not stated.	Have children.	Have no children.
Total	26,605	15,987	6,107	4,511	72.36	27.64
White	24,733	14,742	5,775	4,216	71.85	28.15
Native born	10,726	6,766	2,403	1,557	73.79	26.21
Parents native	6,833	4,449	1,566	818	73.97	26.03
One parent foreign	430	307	83	40	78.72	21.28
Parents foreign	1,197	774	241	182	76.26	23.74
One or both parents unknown	2,206	1,236	513	517	70.67	29.33
Foreign born	13,390	7,703	3,211	2,476	70.58	29.42
Nativity unknown	617	273	161	183	62.90	37.10
Colored	1,872	1,245	332	295	78.95	21.05
Negroes	1,862	1,235	332	295	78.81	21.19
Indians	10	10	.....	.....	100.00	.....

a The percentages are calculated on the total basis of 22,094 reported, omitting 4,511 not stated.

Omitting those whose nativity or parentage is unknown, and the 10 Indians, all of whom are mothers, the largest percentage of mothers is found among negroes, 78.81; then among whites, one parent foreign, 78.72; both parents foreign, 76.26; parents native, 73.97; foreign born, 70.58.

LENGTH OF RESIDENCE OF FOREIGN MALE INMATES OF ALMSHOUSES AND BENEVOLENT INSTITUTIONS.

The total number of foreign male inmates of almshouses (Table 227) and benevolent institutions (Table 299) is 30,114, of whom 30,014 are white and 100 are colored. The number who claim to have resided in this country less than 1 year is 132, or nearly two-thirds of 1 per cent. Of these, 114 are inmates of benevolent institutions and 18 are paupers in almshouses. The number who have resided in the country for 1 year and less than 2 years is 237, of whom 170 are inmates of benevolent institutions and 67 are paupers in almshouses; for 2 years, 343; for 3 years, 304; for 4 years, 275; for 5 years, 318; for 6 to 9 years, 1,247; and for 10 years and over, 17,971, or 86.29 per cent of all concerning whom this question has been answered.

a The percentages are calculated on the total basis of 20,827 reported, omitting 9,287 not stated.
b This column includes paupers who have resided in the United States from 6 to 9 years and inmates of benevolent institutions who have so resided for 6 years.

ASSIGNED CAUSES OF PAUPERISM AND DEPENDENCE.

The inmates of almshouses and benevolent institutions number, in the aggregate, 184,955.

According to the figures here given, the question as to the cause of pauperism and dependence is not answered in 24,244 cases. Many inmates of charitable institutions fall under more than one of these subdivisions, and are so reported; thus the number of causes is more than 50 per cent greater than the number of inmates. The principal cause assigned is the want of any other home, 154,206 (79,685 male and 74,521 female). The next most common cause is age and infirmity, 29,884 (15,590 male and 14,294 female). Crippled comes next, 13,914 (9,100 male and 4,814 female). Crippled and deformed combined would give 17,376 (11,132 male and 6,244 female). Of the diseases specified in the list here given the most prevalent is rheumatism, 10,148 (6,128 male and 4,020 female); then paralysis, 4,910 (3,100 male and 1,810 female); epilepsy, 3,992 (2,322 male and 1,670 female); lying-in cases, 2,565; syphilis, 2,086 (1,144 male and 942 female); the number reported as bedridden is 2,942 (1,549 male and 1,393 female). The number of drunkards is 5,002 (3,218 male and 1,784 female); of tramps, 1,161 (834 male and 327 female).

a The total lines of this page and those of Tables 231, 232, 233, 303, 304, and 305, upon which the table here is based, represent persons. The figures in the lines against causes of pauperism and dependence will not agree with those for persons, since more than one cause affects the same person.

More than one-half of the inmates of almshouses and benevolent institutions are found in the North Atlantic division and more than one-quarter in the North Central. The North Atlantic division shows a relatively larger percentage of drunkards, the deformed and crippled, and of lying-in cases; the North Central division shows a relatively larger percentage of tramps, of the bedridden, the epileptic, the syphilitic, and the homeless; the percentage of epileptics in this division is 50.35, and of tramps 45.56. The percentage of drunkards in the South Central is relatively very small. There is a larger percentage of female tramps than of male in the South Atlantic and the South Central divisions, and of female drunkards in the North Atlantic division. In the North Central and Western divisions the percentage of epileptic men is higher than that of epileptic women; in the remaining divisions the reverse is true. In the Western division paralysis among men is nearly four times as prevalent as among women. Rheumatism among women is relatively less prevalent than among men in the North Central and Western divisions.

II.—CAUSES, BY ELEMENTS OF THE POPULATION.

NUMBERS (a)—BOTH SEXES.

a Less than five-thousandths of 1 per cent.

The only percentages of whites which are above the average are those of tramps and drunkards. In all the columns except those for tramps and drunkards the percentages of colored exceed the average for the total colored.

The numbers of tramps, of drunkards, of the old and infirm, and of the victims of diseases of age or self-indulgence among the foreign born are very much above the average for that element of the population.

MODE OF SUPPORT IN INSTITUTIONS.

The question as to the fund from which the support of inmates of institutions is defrayed is answered in 181,507 cases out of 184,955.

The number supported at the expense of the state is 10,689 (6,077 male and 4,612 female); at the expense of the county, 67,105 (38,264 male and 28,841 female); at the expense of the city or town, 33,775 (17,679 male and 16,096 female); at the expense of friends, 11,349 (5,120 male and 6,229 female); at the expense of the institution, 59,766 (27,884 male and 31,882 female).

The bulk of those supported, as it is claimed, by the institution are the recipients of private charity.

If there is any error in these figures, they are too high; but taking them as they stand, private charity cares for 59,766 inmates of institutions, while public charity cares for 111,569. In other words, nearly two-thirds of the institutional relief given in the United States is at the expense of state and municipal treasuries.

The following summary shows the distribution, by sex, color, nativity, and race:

BOTH SEXES.

a The percentages are calculated on the total basis of 181,507 reported, omitting 3,448 not stated.
b Less than five-thousandths of 1 per cent.

Relatively speaking, more is done by private charity for white inmates of institutions than by public charity for the colored. The state does much more for colored men than for colored women; the counties and towns do slightly more for colored women than for colored men. Private institutional charity is more freely extended to colored women than to colored men, but where their support in the institution is paid for by friends, colored men receive more benefit than colored women.

If comparison is made between the foreign whites and native whites with native parents, in this regard, the only column in which the percentage for the foreign born is not in excess is that which represents support by friends. This is not true, however, to the same extent for women as for men.

RELATIVES IN THE INSTITUTION.

The question as to relatives in the institution is answered in 45,818 cases and unanswered in 139,137. Any conclusions drawn from the figures as given are more or less uncertain.

The percentages are calculated on the basis (for the United States) of 45,818, omitting 139,137 not stated.

I.—BY GEOGRAPHICAL DIVISIONS.

BOTH SEXES.

RELATIVES IN INSTITUTION.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total	100.00	100.00	100.00	100.00	100.00	100.00
Relatives	91.32	86.11	89.67	99.18	99.97	100.00
No relatives	8.68	13.89	10.33	0.82	0.03	.....
MALE.						
Total	100.00	100.00	100.00	100.00	100.00	100.00
Relatives	90.97	85.60	89.66	99.19	100.00	100.00
No relatives	9.03	14.40	10.34	0.81	.....	.....

From the foregoing statement it would seem that more native white and colored families are received into institutions than foreign white.

CHILDREN UNDER INSTRUCTION IN THE INSTITUTION OR IN THE PUBLIC SCHOOLS.

Of the 73,882 children under 16 years of age (39,808 boys and 34,074 girls), the number under instruction in the institution or in the public schools is 20,255 (11,421 boys and 8,834 girls); of whom 14,074 (7,913 boys and 6,161 girls) are taught in the almshouses or benevolent institutions, and 6,181 (3,508 boys and 2,673 girls) receive instruction in the public schools. The number not taught in either is 53,627 (28,387 boys and 25,240 girls). Of the latter number, 15,393 are under 6 years of age, leaving a remainder of 38,234 who are of school age but are not taught in the schools named.

In Table 293 the number attending school is said to be 58,879. The explanation of this apparent discrepancy is that the latter figure includes inmates of institutions attending school who are over 16 years of age, and no return was made as to those attending private schools.

The first summary shows percentages only.

I.—BY GEOGRAPHICAL DIVISIONS.

BOTH SEXES.

TAUGHT AND NOT TAUGHT IN MODES NAMED.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.

CHILDREN ABANDONED BY THEIR PARENTS.

Of children under 16 years of age, the question whether they had been abandoned (*a*) by their parents or not is unanswered in 60,700 cases. Of the remaining 13,182 (7,052 boys and 6,130 girls), the number said to have been abandoned is 12,460 (6,889 boys and 5,571 girls); not abandoned, 722 (163 boys and 559 girls).

It is impossible to say whether the majority of the unanswered questions are to be taken in an affirmative or in a negative sense.

ILLEGITIMATE CHILDREN.

Of children under 16 years of age, the question as to legitimacy is answered in 6,196 cases and unanswered in 67,686. It is evidently impossible to draw any conclusions from these figures. The number reported as illegitimate is 5,826 (3,198 boys and 2,628 girls). Of these, 1,899 are found in almshouses and 3,927 in benevolent institutions.

CHILDREN BORN IN THE INSTITUTION.

The question as to birth in the institution is unanswered in 64,591 cases out of 73,882. Of the 9.291 answers given, 2,385 are affirmative and 6,906 are negative.

The returns are so scanty that general conclusions can not be based upon them.

ABLE-BODIED.

No precise instruction was given to the enumerators as to the meaning of the word "able-bodied", and the result seems to have been that they understood it in different senses.

This question is unanswered in 82,139 cases (44,298 male and 37,841 female). Of the remaining 102,816, the number reported as able-bodied is 96,496 (48,206 male and 48,290 female); not able-bodied, 6,320 (3,482 male and 2,838 female).

The number of the not stated is so great, as is also the uncertainty as to the interpretation given to this word by the enumerators, that the results of this inquiry are comparatively valueless.

The percentage of the able-bodied among inmates of benevolent institutions is greater than in almshouses, because the former include a younger and healthier population than the latter, but the percentage of the strictly able-bodied can not be what it appears to be from the figures given.

The first summary shows percentages only. The percentages are calculated on the basis (for the United States) of 102,816, omitting 82,139 not stated.

I.—BY GEOGRAPHICAL DIVISIONS.

BOTH SEXES.

BODILY CONDITION.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Total	100.00	100.00	100.00	100.00	100.00	100.00
Able-bodied	93.85	91.38	96.59	96.41	97.56	98.50
Not able-bodied	6.15	8.62	3.41	3.59	2.44	1.50
MALE.						
Total	100.00	100.00	100.00	100.00	100.00	100.00
Able-bodied	93.26	91.10	97.34	95.68	94.16	97.70
Not able-bodied	6.74	8.90	2.66	4.32	5.84	2.30
FEMALE.						
Total	100.00	100.00	100.00	100.00	100.00	100.00
Able-bodied	94.45	91.69	96.01	97.17	99.71	99.33
Not able-bodied	5.55	8.31	3.99	2.83	0.29	0.67

The percentage of the able-bodied is much larger among female than among male inmates. It is largest in the Western division and smallest in the North Atlantic.

a It is possible that some enumerators understood the term "abandoned" to indicate the legal relinquishment by parents or guardians of their claims to children, which it was intended should be covered by the term "surrendered". The difference in meaning between these words was, however, clearly explained in the instructions to the enumerators.

Indians	431	416	.....	15	100.00	.....

a The percentages are calculated on the total basis of 102,816 reported, omitting 82,139 not stated.

All of the Chinese and Japanese are reported as able-bodied, and all but 1 of the Indians. Of the negroes, 94.17 per cent are said to be able-bodied; of the whites, omitting those whose nativity or parentage is unknown, the smallest percentage of the able-bodied is among the foreign born.

ORPHAN CHILDREN IN INSTITUTIONS.

The question as to living parents is unanswered in regard to 8,326 children under 16 years of age in almshouses and benevolent institutions (4,447 boys and 3,879 girls). Of the remaining 65,556 (35,361 boys and 30,195 girls), the number with both parents living is 14,320 (7,625 boys and 6,695 girls); with a living father, 14,939 (7,767 boys and 7,172 girls); with a living mother, 21,482 (12,187 boys and 9,295 girls); 14,815 (7,782 boys and 7,033 girls) are orphans. The number of half orphans is about twice and a half that of orphans; of the half orphans three-fifths have lost their father and two-fifths their mother.

Those reported in these four classes of children are divided between the almshouses and the benevolent institutions, as follows:

INSTITUTIONS.	NUMBERS.					PERCENTAGES.				
	Total.	Both parents living.	Father living.	Mother living.	Orphans.	Total.	Both parents living.	Father living.	Mother living.	Orphans.
Total	65,556	14,320	14,939	21,482	14,815	100.00	100.00	100.00	100.00	100.00
Almshouses	4,683	2,132	476	1,535	540	7.14	14.89	3.19	7.15	3.64
Benevolent institutions	60,873	12,188	14,463	19,947	14,275	92.86	85.11	96.81	92.85	96.36

This statement illustrates the extent to which the movement to take children out of almshouses has succeeded. The number of children under 16 years of age in almshouses to that in benevolent institutions is approximately as 1 to 13.

The percentage of orphans in almshouses is less than that of children with living parents, and of the half orphans the largest percentage is found in almshouses where the child has a living mother.

The first summary shows percentages only. The percentages are calculated on the basis (for the United States) of 65,556, omitting 8,326 not stated.

CHILDREN SURRENDERED.

Of children under 16 years of age, the question as to their surrender (*a*) by their parents to the authorities in charge of almshouses and benevolent institutions is answered in 35,589 cases and unanswered in 38,293. The number reported to have been surrendered is 35,027 (20,120 boys and 14,907 girls); not surrendered, 562 (78 boys and 484 girls). These partial figures seem to show a greater reluctance to surrender daughters than to surrender sons. The attachment of parents to their female children, or the sense of responsibility for their care, seems to exceed that felt in the case of boys. It is probable that the proportion of children surrendered is larger than these figures would show.

The first summary shows percentages only. The percentages are calculated on the basis (for the United States) of 35,589, omitting 38,293 not stated.

Chinese	8	5	.....	3	100.00	.....
Indians	235	125	.....	110	100.00	.....

a The percentages are calculated on the total basis of 35,589 reported, omitting 38,293 not stated.

The percentage of the nonsurrendered (especially of girls) appears to be greatest among the foreign whites.

FOUNDLINGS.

Of children under 16 years of age, the question as to whether they were foundlings was answered in 2,354 cases and unanswered in 71,528.

Of the 2,354 children whose condition in this respect has been ascertained, 1,943 are said to be foundlings and 297 are said not to be foundlings.

In the nature of things the fact that a child is a foundling is not always known, especially when it is admitted to the institution after passing the early stage of infancy. The only valuable result of this inquiry is to show that there are in the benevolent institutions 1,611 and in the almshouses 332 known foundlings, or 1,943 in all, of whom 1,059 are boys and 884 girls. The number of known foundlings is 2.63 per cent of the entire number of children.
