*a* The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

*b* The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.

Note 1.—There are no data prior to 1821 showing the values of free and dutiable foreign merchandise separately.

Note 2.—In the table of receipts from all sources, published annually in the Finance Report, the column headed "Customs" shows the total annual customs collections from all sources covered by warrant into the Treasury, after deducting expenses of collection. From 1791 to 1850 collectors paid from customs receipts all expenses of their offices and turned the net amount remaining into the Treasury, but from 1850 to the present time they have been compelled by law to turn into the Treasury all amounts collected, while the expenses of their offices are paid by warrants from the Treasury of the United States. The figures in the column of the above table headed "Amounts of duty collected" from 1791 to 1866, inclusive, show the annual amounts of duty collected *on merchandise only*, without any deductions for expenses of collection and omitting the collections from tonnage, light-houses, fines, penalties, forfeitures, etc. (Explanation given by Register of Treasury.) For these reasons the figures of "duties collected" prior to 1851 in the above table largely exceed in many cases the amount of receipts from customs as shown in the Finance Report, inasmuch as the expenses of collection were of considerable magnitude during the years when the net receipts only were covered into the Treasury. From 1850 to 1866 the receipts in the table in the Finance Report should exceed the duties collected in the above table by amounts of collections from sources other than duties on merchandise, such as tonnage dues, fines, penalties, and forfeitures, hospital dues, etc. Since 1866, the duties collected as shown by the above table are taken from the accounts of this office. While these data showing the duties collected on merchandise from 1802 to the present time are somewhat diverse in character, they are the best attainable.

Note 3.—The annual average ad valorem rates of duty prior to 1853 are based upon the values of the gross imports; from 1853 to include 1866, upon the value of the net imports, and after 1866, upon the values of imported merchandise entered for consumption, as returned by collectors of customs, considering ordinary duties only. The reason for basing the average ad valorem rates of duty prior to 1853 upon the values of the gross imports is that the amounts of "duty collected" for those years include the duties afterward refunded upon exports of foreign merchandise.
