NOTE 1.—*$966.153.86 was paid as bounty from July 1, 1894, to August 28, 1894, when the bounty law was repealed.* The sugar covered by these payments was produced in the fiscal years ended June 30, 1893, and June 30, 1894.

NOTE 2.—It will be observed that bounty payments by fiscal years do not correspond to the sugar produced each fiscal year, for the reason that the payments on one year's product have, to a large extent, been made in a subsequent year.

a Includes New York elevated railroads.

NOTE.—The statistics of mileage, capitalization, debt, and liabilities given in the above statement are for all the steam railroad companies in the United States (including the elevated steam passenger railways in the State of New York) at the close of each fiscal year in the period covered. The statistics of gross and net traffic earnings, interest and dividend payments, passenger and freight traffic relate only to those in full operation which make complete returns. In 1894 such lines covered 98.5 per cent of all the railroads in the country. The mileage and capital accounts of the elevated passenger railways in New York are included above, but the number of passengers carried over these lines can not be included in the total of the steam railroad system proper because of dissimilarity of this traffic to the traffic of the surface steam roads and its disproportion to earnings. For this reason the earnings of the lines are classed among miscellaneous income.
