† The production statistics are exclusive of linters and relate, when possible, to the year of growth, but when figures for the growth year are wanting, a commercial crop which represents the trade movement is taken. The statistics of production have been compiled from publications of the United States Department of Agriculture for 1858 to 1898.

[1] Cleaned rice; 1800 to 1903, commercial move ment, as given by Dan Talmage's Sons Co.; 1904 to date as reported by the Department of Agriculture.
