No. 231.—STOCK OF MONEY IN THE UNITED STATES, BY KINDS

NOTE.—**Amounts in thousands of dollars.** Figures prior to 1890 were revised in 1925 from the best available data, but the older records, especially from 1860 through the early 70's, are not complete and figures for gold and silver those years are only estimates. In 1927, data were revised to include minor coins beginning 1900 (no satisfactory data available for earlier years) and gold coin and bullion held abroad for Federal Reserve banks and to exclude gold earmarked for foreign account

[1] The totals involve a duplication to the extent that United States notes, Federal Reserve notes, Federal Reserve bank notes, and national bank notes, all included in full, are in part secured by gold, also included in full. Gold certificates, silver certificates, and Treasury notes of 1890 have been excluded, however, since they are complete duplications of the equal amounts of gold or silver held as security therefor and included in the totals.

[2] By a proclamation of the President dated Jan. 31, 1934, the weight of the gold dollar was reduced from 25.8 to 15 21/31 grains of gold, 0.9 fine. The value of gold is therefore based on $35 per fine ounce beginning June 1934; theretofore, it is based on $20.67 per fine ounce.

[3] There has been no fractional currency in actual circulation to any extent since 1878.

[4] Silver bullion in Treasury.

[5] Includes silver bullion as follows: June 30, 1934, $1,560,000; June 30, 1935, $313,309,000; Dec. 31, 1935, $576,862,000; June 30, 1936, $708,211,000; Dec. 31, 1936, $775,896,000; June 30, 1937, $835,196,000.

[1] Gold and silver certificates and Treasury notes of 1890 are excluded before combining money outside the Treasury with money in the Treasury in order to avoid duplication, since the gold and silver held in Treasury as security against these currencies is included. See also notes 1 and 2, table 231.
[2] Both of these items include also reserve against Treasury notes of 1890.
[3] See note 1, table 230. [4] Includes total stock of silver dollars and subsidiary silver.
[5] Gold certificates. This amount is not included in the total since the gold held as security against the gold certificates is included in the column, "In trust against gold and silver certificates."

No. 247.—REPORTING MEMBER BANKS IN 101 LEADING CITIES: PRINCIPAL ASSETS AND LIABILITIES

NOTE.—In millions of dollars. Data are monthly averages of weekly figures. Figures were considerably affected in March 1933 by the closing of a number of large banks in 11 of the cities included and from March 1933 until the middle of 1934 by the reopening of old banks or the beginning of reports by new successor banks. These changes, however, reflect the course of banking developments during this period.

[1] Figures through June 1934 are "net demand deposits" and are not comparable with "demand deposits—adjusted" shown for subsequent months, which represent demand deposits other than interbank and U. S. Government less cash items reported on hand or in process of collection. Net demand deposits for September 1934 were $13,729,000,000. For a detailed discussion of these two series, see Federal Reserve Bulletin for November 1935.

[2] Figures prior to September 1934, include a relatively small amount of time balances of banks.

[3] Loans secured by stocks and bonds.

[4] Exclusive of loans to banks beginning with September 1934.

[5] Average for May 5 and 12; loan classification revised beginning with May 19.

Source: Board of Governors of the Federal Reserve System. Data are published currently in the "Federal Reserve Bulletin." Beginning with May 19, 1937, however, the classification of loans was revised. Explanation of the revisions and comparison of the old series here published with the new classification used beginning with May 19 are given in the "Federal Reserve Bulletin" for June 1937.

No. 252.—ALL REPORTING BANKS: Principal Assets and Liabilities for All Banks and for Each Class of Banks, 1840 to 1936

Note.—Banks in Alaska, Hawaii, Puerto Rico, Philippine Islands, and beginning with 1935, Virgin Islands are included. Data are as of June 30 or about June 30 except data for the earlier years for banks other than national, for which reports were of various dates. Figures for banks other than national for the earlier years, especially through 1885, are incomplete. Figures for mutual savings banks include some stock savings banks for years prior to 1910 and also a few in several more recent years; since 1926 only one is included. Private banks are not included prior to 1890; statistics for private banks, except for 1934 and 1935, cover only banks under State supervision and those voluntarily reporting; for 1934 and 1935, they include also private banks which submitted reports to the Comptroller of the Currency under provisions of the Banking Act of 1933

[1] Comprises banks suspended before the banking holiday, licensed banks suspended or placed on restricted basis following the banking holiday, unlicensed banks placed in liquidation or receivership, and unlicensed banks granted licenses after June 30, 1933. At the close of the banking holiday (Mar. 15, 1933) 1,400 national banks with deposits (on Dec. 31, 1932) of $1,942,574,000, and 221 State bank members with deposits of $924,177,000 had not been licensed to reopen. On Apr. 12, 1933, the first date following the banking holiday for which corresponding data are available with respect to nonmember banks, there were 1,108 unlicensed national banks with deposits of $1,818,541,000, 148 unlicensed State member banks with deposits of $841,382,000, and 2,938 unlicensed nonmember banks with deposits of $1,317,607,000. By the end of June 1933 supervisory authorities had completed their examination of all or nearly all the banks not granted licenses immediately following the banking holiday and had authorized such of the banks to reopen as could then qualify for licenses. On June 30, 1933, there remained 985 unlicensed national banks with deposits of $1,028,347,000, 110 State member banks with deposits of $237,668,000, and 1,983 nonmember banks with deposits of $1,063,984,000 to be rehabilitated and reopened or to be placed in liquidation or receivership. All such banks (not licensed by June 30, 1933) are treated as suspensions.

[2] Includes 8 insured nonmember banks in 1934, 22 in 1935, and 40 in 1936 with deposits of $1,912,000, $3,763,000, and $10,207,000, respectively. Federal deposit insurance became operative Jan. 1, 1934.
