25.—FARM PRODUCTION AND RELATED STATISTICS

[Data in this section relate to continental United States except foreign trade statistics, which represent the trade of the "customs area" (see headnote, table 499)]

No. 582.—ESTIMATED GROSS AND CASH INCOME FROM FARM PRODUCTION

NOTE.—**In millions of dollars.** See headnote, table 584. Data for 1924 to 1935 are based on State totals (shown for 1934 and 1935 in table 585) adjusted to exclude interstate sales of crops, principally seeds for planting, and to include estimates of income from poultry other than chickens not estimated by States. See also footnote 2 below. "Livestock" includes livestock products

[1] Estimates include income from rental and benefit payments, shown separately in table 583, and for 1936, agricultural conservation payments.
[2] Data for 1935 and 1936 and revised data for 1934 are based upon estimates of production adjusted to returns from the 1935 Census of Agriculture. Estimates for years prior to 1934 have not been adjusted to the revised estimates of production. For 1934 both the revised and unrevised estimates are shown.

No. 584.—ESTIMATED FARM VALUE OF PRODUCTS, GROSS INCOME, AND CASH INCOME: By Commodities

Note.—Farm values of crops and animal products are obtained by multiplying State quantities by State average prices. Prices used in most cases are weighted averages—for animal products, calendar-year averages; for crops, averages for the period during which the crop is marketed. Gross income represents value of farm production sold plus value of production retained for use in the farm home, excluding, in the case of crops, amounts retained for feed and seed and amounts unfit for sale and consumption. Cash income relates to the value of quantities actually sold off the farms of States where produced. Farm values for 1935, and also values for 1934 for a few crops, differ from values shown elsewhere in tables relating to individual crops, as the latter are based on revised estimates of production. The farm values here shown are those used, however, in computing the gross income and cash income figures, which have not yet been revised

[1] Rental and benefit payments by Agricultural Adjustment Administration are not included.
[2] Includes Government purchases of cattle and calves and sheep and lambs in the Emergency Drought Purchase Program amounting to $112,827,000 for 1934 and $5,941,000 for 1935.
[3] Includes cotton price adjustment payments totaling $39,109,000 for the United States.
[4] United States totals include data for sugar beets for minor producing States for which separate estimates are not available as follows: Gross and cash income—1934, $3,541,000; 1935, $4,365,000; rental and benefit payments—1934, $1,996,000; 1935, $1,167,000. For totals for the United States adjusted for interstate duplications, see table 582.

1936 [6]	8,100	----------	----------	----------	----------	3,625	4,475

[1] Cash income relates to the value of quantities sold, excluding products used in the farm home. Estimate for 1933 to 1936 include Government payments by the Agricultural Adjustment Administration; for amounts of such payments, see table 583.

[2] Includes expenditures for feed, seed, fertilizer, containers, spray materials, twine, cost of operating tractors, trucks, etc., insurance, ginning, miscellaneous current expenditures, and capital expenditures for machinery, tractors and repairs, and automobiles and trucks. Allowance is made for use of automobiles for purposes other than production.

[3] Total cash wages paid.

[4] Interest on all bank loans other than real estate loans and on 90 percent of all mortgage indebtedness, 10 percent of the total mortgage indebtedness being assigned to farm dwellings.

[5] Only 90 percent of the estimated total taxes on farm property is included, 10 percent of the total being assigned to farm dwellings.

[6] Preliminary estimate.

No. 587.—ESTIMATED GROSS INCOME, DEDUCTIONS FROM GROSS INCOME, AND INCOME AVAILABLE FOR OPERATORS' CAPITAL, LABOR, AND MANAGEMENT, 1924 TO 1936

[In millions of dollars]

Year	Gross income from agricultural production [1]	Current expenditures of operators for production [2]	Depreciation of buildings and equipment [3]	Operators' expenditures for wages, interest, and taxes [4]	Rent to nonfarmer landlords [5]	Total deductions	Income available for operators' labor, capital, and management

1936 [6]	9,530	----------	----------	----------	----------	4,230	5,300

[1] Gross income includes the value of products consumed in the farm household on farm where produced

[2] Current operating costs less amounts estimated as paid by nonfarmer landlords.

[3] Relates to the depreciation of building, farm machinery, and other capital equipment, thus representing the cost of the use of these items rather than the amounts spent for them.

[4] Cash wages to hired labor plus an allowance for board and perquisites furnished hired labor and domestic hired labor contributing to production. Includes only that portion of interest payable by farm operators; figured at 75 percent of all interest payable on farm mortgage debt on real estate used in production and interest on all bank loans, other than real estate loans. It is assumed that 70 percent of all taxes on farm property used in production are paid by the farm operator.

[5] In estimating rent it is assumed that 72 percent of total rent goes to nonfarming landlords.

[6] Preliminary estimate.

No. 588.—INDEXES OF THE VOLUME OF NET AGRICULTURAL PRODUCTION

NOTE.—1924–1929=100. Indexes are based on estimates of production for sale and for consumption in the farm home. Products fed to livestock or used for seed are not included. Calendar-year production of livestock and livestock products are here compared with crop production of the same year. Commodities included in the index contributed about 93 percent of the gross farm income during 1924–29

[1] The total for crops includes hay and tobacco and the total for livestock and products includes wool in addition to the products included in the groups shown separately.

[2] "Fruits and vegetables" includes grapes, apples, apricots, peaches, pears, cranberries, figs, grapefruit, oranges, lemons, olives, potatoes, sweetpotatoes, dry edible beans. "Truck crops" includes asparagus, snap beans, beets, cabbage, cantaloupes, carrots, cauliflower, celery, cucumbers, eggplant, lettuce, onions, peas, peppers, spinach, strawberries, tomatoes, watermelons.

[3] Figures for 1935 and 1936 and revised figures for 1934 are based upon estimates of production adjusted to returns from the 1935 Census of Agriculture. Other figures shown for 1934 and figures for prior years have not been adjusted to the revised estimates of production.

[1] Includes only value of animals specified in the preceding columns.

[2] Census returns prior to 1900 represented "milch" cows; in 1900, cows kept for milk 2 years old and over; in 1910, cows and heifers kept for milk born before Jan. 1, 1909 (estimated number 2 years old and over Jan. 1, 17,125,000); in 1920 and 1925, dairy cows and heifers 2 years old and over; in 1930, cows and heifers, born before 1928, kept mainly for milk production. Census data are not available for 1935. Estimates as of Jan. 1 represent cows and heifers 2 years old and over kept for milk.

[3] Estimates by Bureau of Agricultural Economics, Department of Agriculture; value, 1915 to 1919, computed by Bureau of Foreign and Domestic Commerce, based on United States average price for each class. Values for later years represent sum of values by age groups.

NOTE.—Data for 1925 and 1935 are as of Jan. 1 and for 1930, as of Apr. 1. Owing to the difference in the date of enumeration, the figures for 1930 are not closely comparable with those for other years. The total value of all livestock for which data were collected at each census is shown in table 556, p. 574. Available data for number and value of certain classes not shown in the table below are as follows: Asses and burros, 1930, number, 48,000, value, $1,881,000; turkeys over 3 months old, 1935, number, 5,382,000, value, $11,668,000; hives of bees (on farms and elsewhere), 1930, number, 3,108,000, value, $13,632,000

No. 610.—MEATS AND LARD: PRODUCTION, FOREIGN TRADE, AND CONSUMPTION

NOTE.—All figures, except per capita in millions of pounds. Pork production represents total hog carcass weight, less raw fat from carcass which was rendered into lard. Other meat production represents dressed carcass weight only, with edible byproducts excluded. Lard production represents rendered weight of lard. Uninspected production includes farm, retail, and non-Federally inspected wholesale slaughter. Meat obtained from cattle, calves, and sheep purchased for slaughter by Federal Government in 1934 and 1935 in connection with drought relief activities and pork and lard from sows and pigs slaughtered for Federal Government in August and September 1933 are not included. Exports and imports of meats comprise the different kinds of meat converted to a dressed carcass weight basis. Lard exports represent rendered lard including neutral lard. Exports include shipments to noncontiguous Territories of Alaska, Hawaii, Puerto Rico, and Virgin Islands. Imports for years prior to 1913 are 2-year moving averages of fiscal year totals of imports for consumption; figures for 1913 to 1917 are adjusted calendar year totals compiled from fiscal year data of imports for consumption and calendar year data of general imports. Consumption represents production plus imports less exports with allowance from 1916 on for changes in storage stocks

No. 621.—WOOL: Production, Imports, and Exports of the United States

NOTE.—**All figures in thousands of pounds.** Production, except Census data, is estimated and is for calendar years. Pulled wool is included beginning 1900 and was probably included for 1870 to 1899, though the exact basis of the estimates for these years is not known. Figures for 1839, 1849, and 1859 include only fleece. Exports and imports for 1839 are for the fiscal year ended Sept. 30; for 1849 and 1859, fiscal years ended June 30; subsequently, calendar years. Imports and foreign exports prior to 1914 and domestic exports include hair of the Angora goat, alpaca, and other like animals
