31. Foreign Commerce

(Including International Transactions)

International transactions.—The statistics shown for international receipts and payments, foreign investment, and foreign grants and credits were compiled in the Office of Business Economics of the Department of Commerce.

The international accounts of the United States prepared by the Balance of Payments Division, Office of Business Economics, comprise the international balance of payments (table 966) and the international investment position (table 967). The balance of payments shows for given time periods, e. g., one year, the transfers of assets and the form of compensation for these transfers between this country and the rest of the world; the international investment position indicates for specific dates the value of United States investments abroad and of foreign investments in the United States. The two types of accounts, however, are not strictly comparable; the transfers of assets between countries as shown in the balance of payments is only one of the factors affecting the value of foreign investments. Other factors not shown in the balance of payments are changes in security values and revaluation of assets, and reinvested earnings and losses. For a detailed discussion and analysis of these accounts, see the Department of Commerce publications, *International Transactions of the United States During the War, 1940–45, Economic Series No. 65, 1948*, and *The Balance of International Payments of the United States, 1946–48*, published in 1949. For current data and revisions, see the monthly *Survey of Current Business*.

Foreign aid has been defined to comprise two categories—grants and credits. Grants are largely outright gifts for which no payment is expected, or which at most involve an obligation on the part of the receiver to extend reciprocal aid to the United States or other countries to achieve a common objective. Credits are loans or other agreements which give rise to specific obligations to repay, usually over a period of years, with interest. In some instances assistance has been given with the understanding that a decision as to repayment will be made at a later date; such assistance is included in grants. At such time as an agreement is reached for repayment over a period of years, a credit is established. Because such credits cannot, as a rule, be deducted from specific grants recorded in previous periods, they are included in both grants (at the earlier period) and credits (at the time of the agreement), and the amounts of such *credit-agreement offsets to grants* must therefore be deducted from the total of grants and credits in arriving at gross foreign aid. All known returns to the United States Government stemming from grants and credits are also taken into account. The result of gross foreign aid less the returns is net foreign aid, which is shown as net grants and net credits. Net credits for the total war and postwar periods approximate the amount of credit outstanding on December 31, 1950.

Tables 968 and 969 on United States Government grants and credits utilized by foreign countries and reverse grants and credit repayments received by the Government from abroad were prepared by the Clearing Office for Foreign Transactions, Office of Business Economics.

Data on United States Government foreign transactions are obtained from Federal agencies which report such transactions to the Clearing Office. Detailed information on the statistics provided in tables 968 and 969, and on other foreign activities of the Government, is provided in the regular quarterly reports of the Clearing Office.

The major activities of the Economic Cooperation Administration are summarized in tables 970 to 972, prepared by the Division of Statistics and Reports of that agency. Data are presented on the European Program (known more familiarly as the "Marshall Plan") and the separate program for the Far East.

In the ECA tables, colonies and overseas territories of European countries are reported with mother countries; the Saar is shown with France. Commodity groups shown are based on the Economic Cooperation Administration commodity classification. In determining the various reporting groups, an attempt has been made to align the coverage of the summary groups shown in these tables as closely as possible with that of reports on United States exports originating in the Bureau of the Census.

These and other data are published in more detail in the several monthly publications of the Division of Statistics and Reports of the Economic Cooperation Administration which may be obtained directly from the Economic Cooperation Administration, Washington 25, D. C.

Foreign trade.—Statistics on foreign trade are compiled by the Bureau of the Census of the Department of Commerce. Annual statistics through 1946 are published in the annual report, *Foreign Commerce and Navigation of the United States.* Preliminary statistics for later years are from current corrected data. Monthly data are published in the *Monthly Summary of Foreign Commerce of the United States* and other monthly reports of the foreign trade series. For a complete list of these reports see *Catalog of United States Foreign Trade Statistical Publications* issued by the Bureau of the Census.

Statistics covering shipments made after World War II under the Department of the Army Civilian Supply Program are included in the export statistics for 1948 but not for earlier years. In addition, export data include United States exports under the Lend-Lease, United Nations Relief and Rehabilitation Administration, Economic Cooperation Administration, Mutual Defense Assistance, and other foreign aid programs. Shipments to United States armed forces for their own use are not included in export statistics for any period.

Certain commodity classifications in the export statistics were grouped for security reasons into special categories beginning with May 1949 and data for the individual commodities withheld from publication. The special category list of commodities was amended in July 1949 and again in July 1950 to include additional commodities. With the adoption of new security regulations, effective July 1950, the publication of the country of destination and Customs District detail for the special category commodities and groups were discontinued. Data for special commodities are included, however, in all total export statistics for 1949 and 1950 issued by the Bureau of the Census.

Except as noted (as, for example, in table 996) the values stated are in United States dollars without reference to changes in the gold content of the dollar. (The statutory price of gold—$20.67 per ounce—in effect prior to Jan. 31, 1934, was changed on that date by Executive Order to $35 per ounce. Between Mar. 10, 1933, and Jan. 31, 1934, the foreign exchange value of the dollar was permitted to depreciate as a result of the restriction placed on gold shipments to foreign countries.) The geographic area covered by these statistics, except as noted, is the United States customs area, which includes Alaska, Hawaii, and Puerto Rico, and from Jan. 1, 1935, through Dec. 31, 1939, the Virgin Islands (see headnote, table 977). Other explanations of the trade tables are given in the introduction to the annual report, *Foreign Commerce and Navigation of the United States.*

Historical statistics.—In this section, tabular headnotes (as "See also *Historical Statistics*, series M 14–41") provide cross references, where applicable, to *Historical Statistics of the United States, 1789–1945.* In that historical supplement to the *Statistical Abstract*, statistics are carried back year by year as far as possible. See also the historical appendix of the present issue of the *Abstract* for specific titles of series and the earliest year shown in the supplement.

No. 967.—International Investment Position of the United States: 1939 to 1949

[In millions of dollars. Estimates for end of year; subject to considerable error due to nature of basic data. No allowance for write-offs, war damage, or expropriations without compensation of U. S. direct investments abroad. Direct investments at book value; other types at market or stated values. For 1945-49, value of securities of former enemy countries, or countries where no realistic market can be determined, has been eliminated; not entirely comparable with earlier years due to this and other revisions. See also *Historical Statistics*, series M 1-13]

No. 968.—U. S. Government Foreign Aid by Program, to December 31, 1950

[In millions of dollars. "Gross foreign aid" represents the gross value of goods, services, and funds furnished to foreign countries through the utilization of U. S. Government grants and credits. In addition, grants unutilized, although appropriated (or authorized) by Congress, amount to $10,506 million, of which $6,675 million represents funds for mutual defense assistance; credits unutilized but authorized amount to $1,645 million. "Reverse grants and returns on grants" is comprised of (a) goods, services, and funds received through reverse lend-lease or acquired under foreign-currency counterpart provisions of Economic Cooperation Administration programs; (b) returned lend-lease naval and merchant ships; and (c) cash received under postwar war-account settlements for grants furnished earlier. "Principal collected on credits" includes goods, services, and funds received in reduction of outstanding credits, excluding repayments on World War I debts. "Funds" includes foreign currency which, with goods and services, is measured in dollar equivalents]

PROGRAM	Total war and post-war periods	War period [1]	POSTWAR PERIOD						
			Total	July-Dec. 1945	1946	1947	1948	1949	1950

Credit-agreement offsets to grants	25	-------	25	-------	1	8	-------	2	7
Surplus property (including merchant ships)	144	-------	144	-------	1	19	39	44	42
Other	659	120	539	26	35	180	146	46	107

[1] July 1, 1940, through June 30, 1945. All lend-lease and credit-agreement offsets to grants are through VJ-day (Sept. 2, 1945).
[2] Less than $500,000.
[3] Data for civilian-supply grants are known not to include certain grants furnished to Japan and Germany by United States Army. For postwar period as a whole this understatement in reports may be as much as $400 million.
[4] Negative entry of less than $500,000 results from refunds of cash aid.
[5] Excludes $160 million disbursed between date of organization, Feb. 12, 1934, and June 30, 1940.
[6] Negative entry results from excess of Bank repurchase from agent banks over agent-bank disbursement.
[7] Excludes $61 million received between date of organization, Feb. 12, 1934, and June 30, 1940.

[1] July 1, 1940, through June 30, 1945. All lend-lease and credit-agreement offsets to grants are through VJ-day (Sept. 2, 1945).

[2] Outstanding credits on Dec. 31, 1950, totaled $10,006 million, exceeding net credits for the war and postwar periods by $98 million, representing the outstanding (or net) credits resulting from Export-Import Bank operations from date of organization, Feb. 12, 1934, through June 30, 1940. By country, this $98 million is American Republics, $32 million; China, $29 million; Finland, $11 million; Italy, $4 million; Portugal, $3 million; Rumania, $1 million; Spain, $13 million; Sweden, $4 million.

[3] Country detail not shown because substantial part of data on aid to this area not available by country.

[4] Less than $500,000.

[5] Net (−) of less than $500,000.

[6] Net (+) of less than $500,000.

[7] Data include small amounts for Pakistan.

[8] Includes Taiwan (Formosa).

[9] See footnote 3 to table 968. Estimates for individual countries are not available.

[10] Gross foreign aid, net foreign aid, and net credits for Netherlands include $17.2 million ERP credits to Netherlands on behalf of Indonesia ($5.8 million in 1948; $10.4 million in 1949; and $1.0 million in 1950). All other aid to Indonesia, including grants under European Recovery Program, included against Indonesia.

[1] Excludes, assistance received by China (including Formosa) from ECA funds prior to June 5, 1950.

[2] Excluding procurement authorizations issued by ECA with Mutual Assistance Program Funds (classified information).

[3] ECA dollars have been obligated to supplement $13.4 million supplied by Indian Government to obtain surplus United States grain sorghums through Commodity Credit Corporation. The Indian Government is meeting the major part of the purchase price with its own dollars. ECA financing authorized on a grant basis from funds appropriated for "the general area of China." Difference between market price of grain at time of delivery and the sum of amount paid by Indian Government and ECA contribution will be financed by U. S. Department of Agriculture.

[4] Excluding procurement authorizations received by Indonesia from ERP funds allotted to the Netherlands in 1948 and 1949.

[5] Includes $776,000 held in Far East Inventory which will be assigned to particular country as required, and $190,000 for activities in field of Public Health.

[6] Essential commodities to stimulate production and for local sale to assist governments in paying internal costs of extending essential services.

No. 976.—Exports and Imports of Merchandise, Per Capita: 1791 to 1950

[Export figures for 1791 to 1820 are based on total exports including reexports (the latter were then relatively large) and for 1821 to date, on exports of United States merchandise only. Import figures for 1791 to 1820 are based on general imports; for 1821 to 1870, total imports less reexports; and for 1871 to date, imports for consumption. (See tables 974 and 997)]

No. 977.—Merchandise Trade of Continental United States With Foreign Countries and Outlying Territories and Possessions: 1903 to 1948

Important Note.—This table differs as to its geographic basis from all other foreign trade tables in this section and in other publications: (1) In the case of other tables the data represent the trade of the United States customs area with all foreign countries, including the Philippine Islands and prior to 1935, the Virgin Islands. The U. S. customs area comprises continental U. S., Alaska, Hawaii, Puerto Rico, and during 1935 through 1939, the Virgin Islands. Trade between continental U. S. and the territories mentioned as part of the customs area are therefore excluded from these data. (2) The present table takes continental United States as the basis. In the totals, trade between it and all United States Territories and possessions is included, while the trade between that part of the customs area outside of continental United States and foreign countries is excluded. Practically all other nations calculate their foreign trade in the manner followed in the present table; that is, totaling the trade of the home country with foreign countries and with all outlying areas. Prior to 1901 Alaska was our only outlying area. Therefore, our foreign trade statistics for 1900 and earlier years very nearly represent the trade of continental United States with foreign countries. Data are for years ending June 30 through 1918; thereafter, for years ending Dec. 31. For purposes of continuity of the data in this table, trade with the Republic of the Philippines has been treated as trade with a Territory through calendar year 1946, even though Philippine independence was established in July 1946.

No. 984.—Exports of U. S. Merchandise and Imports—Indexes of Changes in Quantity, Unit Value (Price), and Total Value: 1913 to 1950

[Quantity and unit value indexes have been constructed by so-called "ideal formula," essential feature of which is use of quantities of several articles as weighting factors of their unit values for each pair of years compared. About 205 commodities were included in direct calculations for both exports and imports. It was then assumed that prices of articles in each economic class not directly covered had moved in parallel with those of articles covered and their value, adjusted by computed price index, was included in aggregative totals from which quantity index for each class was calculated. Index of quantity and unit value of total exports and imports was based on aggregate of adjusted totals of classes. In constructing indexes, data for 1919 were linked directly to 1913, and each subsequent year was compared with that preceding. Resulting year-to-year percentages were made into a series by chain method]

[1923-25 average=100]

Yearly average or year	Quantity	Unit value	Value	Quantity	Unit value	Value	Quantity	Unit value	Value	Quantity	Unit value	Value

[2] Beginning July 1950, certain commodities excluded under security regulations from "Industrial machinery" and included with "Automobiles and other vehicles."
[3] Beginning 1946, tractors, parts and accessories included with "Automobiles and other vehicles"; with "Agricultural machinery and implements" in prior years.
[4] Beginning July 1950, under security regulations, certain commodities included with "Miscellaneous, n. e. s."
[5] Includes explosives, fuses, and blasting caps January 1949 to June 1950.
[6] Not reported separately.
[7] Under security regulations, certain commodities included with "Miscellaneous, n. e. s."
[8] Includes only sporting rifles, shotguns, fireworks and pyrotechnics in 1949, and only sporting rifles and shotguns in 1950. See notes 9 and 10.
[9] Includes firearms (except sporting rifles and shotguns) and ordnance equipment reported under "Firearms and ammunition" in prior years.
[10] Includes certain chemicals, explosives, fuses, photographer's goods, firearms, and ammunition excluded under security regulations from commodity groups in which they belong. See notes 4, 7, and 8.

No. 987.—Exports of United States Merchandise—Value of Selected Articles: 1821 to 1950

[*In thousands of dollars.* For basis of dollar values, except export figures for 1870–78, see general note, p. 814. Export figures for those years are mixed gold and currency values. Figures are for fiscal years ending Sept. 30 through 1840, and June 30, 1850 through 1915; calendar years thereafter. In some cases blanks represent *entire* absence of trade; in other cases the item is not available separately]

Year or yearly average	Meat products	Animal fats and oils [1]	Leather	Rye	Wheat and wheat flour	Oil cake and oil-cake meal	Fruits and nuts [2]	Rubber and manufactures [3]	Naval stores, gums, and resins	Tobacco, unmanufactured
1821					4,476				315	5,649
1830					6,132		24		356	5,586
1840					11,779		55		666	9,884

[1] Includes oleomargarine of vegetable origin through 1948. Excludes inedible fish oils. Excludes "lard compounds" beginning 1921; now classified as "vegetable cooking fats." [2] Includes fruit and nut preparations.
[3] Natural and synthetic rubber. [4] Average for period July 1, 1915, to Dec. 31, 1920.
[5] Includes semimanufactures. [6] Average for 1906–10.
[7] Box, crate and package shooks (except fruit and vegetable) included with "Other wood manufactures" beginning 1949; classified as "Sawmill products" in prior years.
[8] Exclusive of track-laying tractors of 95 and over drawbar horsepower beginning July 1949.
[9] Exclusive of motor vehicles manufactured to military specifications beginning July 1949.

No. 988.—Imports—Value of Selected Commodities: 1821 to 1950

[**In thousands of dollars.** For basis of dollar values, see general note, p. 814. Figures represent "general imports" through 1932, "imports for consumption" thereafter. Figures cover fiscal years ending Sept. 30 through 1840, and June 30, 1850 through 1915; calendar years thereafter. In some cases blanks represent entire absence of trade; in other cases the item is not available separately]

No. 991.—Exports (Including Reexports) and General Imports of Merchandise, by Continents: 1821 to 1950

[In thousands of dollars. For basis of dollar values, see general note, p. 814. Figures cover fiscal years to and including 1915; calendar years thereafter, except as noted. Philippine Islands included with Asia for all years; Turkey in Europe is with Asia beginning 1926; U. S. S. R. in Asia is with Europe beginning 1924; and Hawaiian Islands with Oceania prior to 1901. See also *Historical Statistics*, series M 87-102]

[1] Total includes $632,019,000 not shown by continents due to security regulations. [2] Newfoundland and Labrador included with Canada in 1950 and for imports in 1949. [3] Less than $500. ⊙ [4] Canal Zone included for 1936 and 1937. ⊙ [5] Average for 1938–40. ⊙ [6] Bahamas, Leeward and Windward Islands combined as Other British West Indies prior to 1942; average for 1941–45 shown under Other British West Indies. ⊙ [7] Average for 1942–45. ⊙ [8] For statistical purposes, trade with Germany was defined to include (as far as ascertainable) trade with areas under de facto administrative control of Germany from the following dates to the close of World War II; Austria, May 6, 1938; Sudeten area of Czecho-Slovakia, Nov. 10, 1938; other Czecho-Slovak provinces (Bohemia, Moravia, and part of Slovakia), Mar. 18, 1939; Memel territory of Lithuania, Mar. 25, 1939; and Danzig and German-occupied Poland, Nov. 16, 1939. Similarly, trade with that area of Czecho-Slovakia occupied by Hungary was defined to be trade with Hungary for those portions of Ruthenia and parts of Slovakia occupied Dec. 30, 1938, and Mar. 19, 1939, respectively. Trade with Czecho-Slovak area occupied by Poland was included with the Polish trade from Dec. 30, 1938, to Nov. 16, 1939. Though country classifications used in this table do not recognize de facto boundaries existing in certain geographic areas after World War II, statistics are primarily in terms of this situation. For example, certain shipments credited to U. S. S. R. should probably be credited to Estonia, Latvia, Russian-occupied Poland, etc., but when the country of ultimate destination or origin of merchandise in terms of prewar boundaries is not readily ascertainable, the de facto situation is reflected in the statistics. ⊙ [9] Average for 1936–38.

[1] As reported to Treasury Department by collectors of customs, subject in certain cases to subsequent refund as well as drawback. These figures are somewhat higher than duties as calculated on basis of imports for consumption, as shown in table 997.
[2] Includes $8,760,255,000 in 1948, and $8,380,820,000 in 1949, not shown by districts.
[3] Data not individually reported.
[4] Less than $500.
[5] Duties less cost of collection are turned into the Island's treasury; excluded from totals.
[6] Excluded from totals; not part of U. S. customs area, assessed under tariff law of Virgin Islands.
[7] For January 1947–July 1948, export shipments individually valued under $50, except shipments by air; after July 1948, export shipments individually valued under $100.
[8] Prior to July 1947, included with figures for individual customs districts; data for 1947 covers only the period of July through December.

No. 996.—Exports (Including Reexports) and Imports of Merchandise, by Principal Customs Districts: 1860 to 1950

[In thousands of dollars. For basis of dollar values, except export figures for 1870–78, see general note, p. 814. Export figures for those years represent mixed gold and currency values. Figures cover fiscal years to and including 1915; thereafter, calendar years. Import data are "general imports" through 1933; "imports for consumption" thereafter. Areas of districts were rearranged July 1, 1913. Prior to that date some of the districts were more restricted. However, in most cases this change only slightly affects the comparability of the figures. *Prior to 1914 the statistics given in the table for Buffalo include the (former) districts of Buffalo Creek and Niagara;* those for Michigan include the (former) districts of Superior, Huron, and Detroit; and those for Massachusetts and Maryland were the former districts of Boston and Baltimore, respectively]

No. 997.—Imports Entered for Consumption and Duties Thereon: 1821 to 1950

[For basis of dollar values, see general note, p. 814. From 1821 to 1866, inclusive, figures of import values represent total imports less reexports, and for 1867 and later years imports entered for consumption. "Ratio of duties to total" is based upon values of imports shown in table. Figures cover fiscal years ending Sept. 30, 1821 to 1842, and June 30, 1843 to 1915; calendar years thereafter. See also *Historical Statistics*, series M 68–74]

No. 999.—Imports of Merchandise, Free and Dutiable, and Percent Free, by Economic Classes: 1821 to 1950

[**In thousands of dollars.** For basis of dollar values, see general note, p. 814. Figures cover fiscal years ending Sept. 30, 1821 to 1840, and June 30, 1850 to 1915; calendar years thereafter, except as noted. Data are "general imports" through 1933; "imports for consumption" beginning 1934. Percentage free in general imports is normally slightly lower than in imports for consumption because relatively more of dutiable general imports are reported as reexported than of free general imports. Moreover, in the period 1922-1933, there is an understatement of free goods in general imports because, for 1922 to 1933, carpet wool used for making carpets and, for 1922 to 1928, wheat imported for milling in bond for exports were reported as dutiable when entered, although no duty was ultimately paid on these products. For adjusted figures see table 492 of 1935 issue of *Statistical Abstract*. See also *Historical Statistics*, series M 75-86]

32. Commerce of Territories and Possessions

All statistics in this section, except as noted, were compiled by the Department of Commerce, Bureau of the Census. These statistics are published in the Monthly Summary of Foreign Commerce of the United States. In the general foreign trade statistics in the preceding section, the Virgin Islands is treated as a foreign country prior to 1935 and its trade with the United States is included while its trade with other countries is not included. On the other hand, Alaska, Hawaii, and Puerto Rico, *and for 1935–39, the Virgin Islands, are treated as integral parts of the United States,* so that trade between them and continental United States is not included, while trade between them and foreign countries is included. Each of these territories appears as a separate customs district, but beginning with 1940, trade of the Virgin Islands has been excluded from the merchandise export and import figures. Neither trade of American Samoa and Guam with foreign countries nor shipments between them and the United States are included in the general tables on foreign trade. See also table 977, p. 830.

The tables in this section present the total foreign trade of each of the U. S. Territories and possessions and show separately the trade with United States (unless otherwise indicated) and with foreign countries. The trade with foreign countries represents exports and imports through the respective territorial Customs Districts and does not necessarily represent exports of commodities originating within the designated territory nor imports for direct consumption within the territory. For basis of dollar values, see general note, p. 814.

No. 1001.—Imports and Exports of Alaska: 1882 to 1950

[In 1947 Alaska shipped domestic silver valued at $2,067 to the United States]

33. Distribution and Services

(Including Advertising)

Data in this section relate to continental United States.

For additional or related data on distribution and service trades other than those included in this section, consult the index.

CENSUS OF BUSINESS

The primary source of data on distribution and services is the Census of Business. The first Census of Business covered the calendar year 1929. Although the next was scheduled by law to cover the year 1939, two special censuses covering the years 1933 and 1935 were taken before the regular 1939 census conducted as part of the 16th Census of the United States.

In accordance with the provisions of the act of June 19, 1948, the Business Census has been separated from the decennial censuses and is to be conducted at 5-year intervals. The first Business Census under the new act was taken in 1949 covering the year 1948. These results are being issued in four general sets of reports: (1) Preliminary county releases, (2) final area bulletins (States including counties and cities), (3) final subject bulletins, and (4) final trade bulletins. Issuance of series (1) and (2) has been completed. Series (3) and (4) will be released during 1951.

The business establishments covered in the fields included in the Census of Business may be generally described as follows:

Retail trade.—Places of business primarily engaged in selling merchandise for personal household or farm consumption;

Wholesale trade.—Establishments primarily engaged in selling goods to dealers and distributors for resale or to purchasers who buy for business uses; and,

Service.—Establishments engaged primarily in the sale of services as contrasted with the sale of merchandise.

The censuses taken in 1929, 1935, and 1939 included information on the distribution of manufacturers' sales showing the proportion of manufacturers' output flowing through various distribution channels. Similar information is not available for the 1948 Census.

The 1948 Census of Business, for the first time, incorporates information on Retail warehouses and wholesale and retail administrative offices and other auxiliary units in basic tables. In the case of retail and wholesale trade, separate data for these units for States, metropolitan areas, and counties are presented in Area Bulletins. For service trade, no separate data for these units are presented, but statistics for them have been incorporated with data for operating establishments and are an integral part of all tables.

The most important differences in scope among the four Censuses of Business are to be found in the coverage of service enterprises. Service establishments were not included in the 1929 Census of Business. The 1933 Census of Business was expanded to include certain service enterprises. These can be broadly classified into the following five major groups: (1) personal services, such as barber shops, laundries, etc., (2) selected business services, (3) repair services, (4) places of amusement, and (5) hotels. The 1935 Business Census added a number of important businesses among which were banking and finance, motor transportation, real estate agencies, warehousing, insurance, and radio broadcasting. The types of business added in 1935 were dropped in 1939 along with a number of minor types of service business. The most significant changes in scope of the service phase of the 1948 Census of Business from the scope of the 1939 Census are exclusion (in whole or substantial part) of the 1939 Census groups entitled "Services Allied to Transportation," and "Custom Industries."

In addition to observing the changes in the coverage of establishments from census to census, it is important to take cognizance of the kind of businesses, broadly defined, not included in any Census of Business. Outstanding in this group are the business activities of doctors, lawyers, dentists, and others performing a professional or scientific service, educational institutions, religious or charitable institutions, hospitals and infirmaries, public utilities, and government operated enterprises. In the past, these types of economic activity have been omitted largely because of problems in obtaining information or because reasonably adequate data were already available from other sources.

Many of the following tables contain comparative data from the various Censuses of Business. Adjustments have been made in the figures to make allowances for the changes in scope among the various years compared.

CURRENT STATISTICS

Wholesale trade.—Monthly statistics on wholesalers' sales and inventories, by kinds of business and by geographic divisions, are compiled and published by the Bureau of the Census. These data cover about 4,000 firms. Using these survey data as a basis, monthly estimates of aggregate sales of wholesalers raised to national totals are prepared by the Bureau of Foreign and Domestic Commerce and published in the *Survey of Current Business*. The Census Bureau also publishes monthly statistics—November through July—on stocks of canned foods at the wholesale level. Inventories at warehouses of retail food chains are included.

Financial statistics relating to corporations in wholesale trade are available from the annual reports, *Statistics of Income*, published by the Bureau of Internal Revenue.

Current data on the production, movement, stocks, carry-over, receipts, and disappearances at principal markets, etc., for major agricultural commodities are available from the Production and Marketing Administration, Department of Agriculture.

As part of its investigations, the Federal Trade Commission has collected operating statistics on wholesalers as well as on the wholesale business of chains in various lines. Financial statistics on corporations engaged in wholesale trade whose securities are listed on the national securities exchanges are available from the Securities and Exchange Commission.

Retail trade.—The Bureau of the Census compiles and publishes monthly statistics on trends in retail store sales, by kind of business, for the country as a whole and for selected large cities and other local areas; monthly data for all retail trade combined are also provided for a large number of additional cities and local areas. These data are based on reports from a sample of some 32,000 stores. The Census Bureau also issues jointly with the Office of Business Economics of the Bureau of Foreign and Domestic Commerce monthly statistics on the trends and dollar volume of retail chain store and mail-order house sales nationally by kind of business. Monthly estimates of the dollar volume of retail sales by kind of business groups are prepared by the Office of Business Economics and are published currently in the *Survey of Current Business*.

Indexes of department store sales and stocks are compiled by the Board of Governors of the Federal Reserve System and by each of the 12 Federal Reserve Banks for its district. These indexes are published monthly in the *Federal Reserve Bulletin* and also in the *Survey of Current Business*. Monthly and annual statistics on consumer credit are compiled by the Board of Governors of the Federal Reserve System and published currently in the *Federal Reserve Bulletin*. Financial data for corporations engaged in retail trade and filing income tax returns are published by the Bureau of Internal Revenue in its annual report, *Statistics of Income*. Financial statistics on corporations engaged in retail trade whose securities are listed on the national securities exchanges are available from the Securities and Exchange Commission.

Service trades.—Typical of the numerous current statistical reports on personal and business services compiled by private agencies are the *Horwath Hotel Accountant, Printers Ink*, and *National Advertising Records*. Financial statistics of service businesses derived from corporation income tax returns are compiled and published annually by the Bureau of Internal Revenue in its annual report, *Statistics of Income*. Current data on service trades are provided by the Bureau of Foreign and Domestic Commerce in its quarterly and annual estimates of consumption expenditures published in the *Survey of Current Business*.

[1] Includes sales of certain milk dealers in the amount of $130,000,000, not included in tables 1017 and 1024. Data for these concerns were received too late for inclusion in summary tables for 1929.

[2] Much of increase in sales of filling stations from 1929 to 1939 results from change in classification. Garages primarily selling gasoline and oil were classified separately as garages in 1929 Census of Retail Trade and included in filling station category in 1939 Census of Retail Trade.

Source: 1929 through 1939, Department of Commerce, Bureau of the Census; Census of Business, 1939, Vol. I, Retail Trade, Part 3. Other years, estimates by Department of Commerce, Office of Business Economics, based on trends shown by statistics available currently; published currently in Survey of Current Business.

No. 1028.—Estimated Membership and Business of Consumers' Cooperatives, by Type of Association: 1949

Type of association	Total number of associations	Number of members (1,000)	Amount of business ($1,000)
Local associations			
Retail distributive	3,790	2,511	1,215,000
Stores and buying clubs	2,350	1,500	820,000
Petroleum associations	1,375	990	380,000
Other [1]	65	21	15,000
Service	780	307	35,072
Rooms and/or meals	185	16	6,300
Housing	155	23	[2] 5,700
Medical and/or hospital care:			
On contract	25	16	750
Own facilities	80	[3] 95	10,350
Burial: [4]			
Complete funeral	27	26	395
Caskets only	3	1	7
Burial on contract	10	5	70
Cold storage [5]	180	100	6,500
Other [6]	120	25	2,000
Local associations—con.			
Electric light and power [7]	898	[8] 2,895	178,171
Telephone (mutual and co-op.)	33,000	675	10,000
Credit unions [9]	10,085	4,067	778,845
Insurance associations	2,000	[10] 11,500	[11] 210,000
Federations [12]		Member associations	
Wholesale:			
Interregional	2	77	11,133
Regional	30	5,135	[13] 345,897
District	19	265	[13] 6,043
Service	19	1,750	2,185
Productive	17	425	106,500
Electric light and power [7]	11	87	9,605

[1] Such as consumers' dairies, creameries, bakeries, fuel yards, lumber yards, etc. [2] Gross income.
[3] Not including about 4,500 partly paid members.
[4] Local associations only; excludes associations of federated type (included with service federations) and funeral departments of store associations. [5] Excludes cold-storage departments of other types of associations.
[6] Such as water supply, cleaning and dyeing, recreation, printing and publishing, nursery schools, etc.
[7] Data furnished by Rural Electrification Administration. [8] Number of patrons.
[9] Actual figures, not estimates. Includes, for first time, data on credit unions in Puerto Rico.
[10] Number of policyholders. [11] Premium income. [12] Includes an allowance for nonreporting associations.
[13] Includes wholesale distributive, retail distributive, and service business.

No. 1032.—Selected Services—Summary, by Kind of Business: 1939 and 1948

[Covers establishments primarily engaged in providing personal, business and repair services, amusement or entertainment, and accommodations in hotels and tourist courts. 1939 figures adjusted to secure comparability with 1948. Original 1939 figures shown in previous issues of the *Abstract* included custom industries, services allied to transportation, and a few specific kinds of business excluded from 1948 Census of Business]

Kind of business	Establishments		Receipts, entire year		Payroll, entire year		Paid employees and payroll, workweek ended nearest Nov. 15			Unincorporated businesses

No. 1033.—Power Laundries, Cleaning and Dyeing Establishments, and Rug Cleaning Establishments—Summary: 1919 to 1948

[*All money figures in thousands of dollars.* Statistics for 1948 cover establishments reporting receipts of $500 or more; statistics for 1939 cover establishments reporting receipts of $100 or more; for preceding specified censur years statistics cover establishments reporting receipts of $5,000 or more. The Business Consuses of 1948 and 1939 classified establishments shown in this table as service establishments. (See also table 1032.) Statistics for 1935 and earlier years were compiled in connection with the Census of Manufactures. Rug cleaning was treated, in general, as an activity of the power laundry industry for 1929 and earlier years]

YEAR	Number of establishments	Proprietors and firm members	Salaried employees	Wage earners [1] (average for year)	Salaries [1]	Wages [1]	Cost of supplies, fuel, and purchased electric energy	Cost of contract work	Receipts for work done
Power laundries:									
1919	4,881	(2)	(2)	130,489	(2)	91,926	52,842	1,555	233,816
1925	4,859	3,851	15,412	169,200	31,613	162,466	55,407	1,107	362,295

No. 1034.—Hotels—Summary, 1929 to 1948, and by Size, 1948

[Covers commercial establishments known to the public as hotels and primarily engaged in providing lodging, or lodging and meals, to the general public. For 1935, 1939, and 1948 hotels having less than 6 guest rooms or receipts of less than $500 for a full year's operations were excluded]

YEAR	Number of hotels	Number of guest rooms	Receipts (thousands of dollars)	Paid employees [1]	Total payroll (thousands of dollars) [1]
All hotels:					
1939	27,987	1,444,390	863,155	338,029	243,228
1948	29,650	1,549,823	2,172,756	398,293	660,004
Year-round hotels with 25 or more guest rooms:					
1929 [2]	11,873	1,005,684	873,508	267,903	232,137
1933 [2]	10,680	890,866	398,674	190,183	118,489
1935 [2]	11,373	934,661	565,317	234,491	158,400
1939	14,084	1,143,704	759,084	303,621	224,877
1948	14,547	1,192,728	1,854,806	370,422	591,529

ITEM	SIZE OF HOTEL, 1948 (NUMBER OF GUEST ROOMS)				
	Less than 25 rooms	25 to 49 rooms	50 to 99 rooms	100 to 299 rooms	300 rooms and over
Number of hotels	12,308	8,679	5,268	2,861	534
Receipts (1,000 dollars)	157,273	220,449	341,132	681,836	772,066
Active proprietors of unincorporated businesses	12,618	8,383	3,992	1,324	94
Paid employees [1]	21,105	34,281	59,980	134,436	148,491

[1] Includes data for paid executives of corporations but not for proprietors of unincorporated businesses. For 1929, 1933, and 1935, average based on number of employees for April, July, October, and December; for 1939, average for year; for 1948, number for workweek ending nearest Nov. 15.
[2] Figures for California not included.
