Census Data API
Building a Request – Four Easy Steps

1. Identify the dataset you want to use
   - https://api.census.gov/data.html
   - https://www.census.gov/developers/

2. Identify items needed
   - Variable names
   - Geography codes (usually FIPS)

3. Request the variables and geographies
   - ?get=variable,names,separated,by,commas
   - &for=geography level:code

4. Put it all together
   - https://api.census.gov/data/2010/dec/sf1
   - ?get=H011001
   - &for=county:*&in=state:24
