

# How to Search for a New Table ID Without Losing Selected Geographies and Other Previously Selected Filters

You can access the data at [data.census.gov](https://data.census.gov)

## STEP-BY-STEP INSTRUCTIONS:

The screenshot shows the search results for table B27001. The search bar at the top contains 'b27001' and the 'Search' button is visible. The 'Advanced Search' button is highlighted with a red box. The results table shows data for Alfalfa County, Oklahoma and Beaver County, Oklahoma, with columns for Estimate and Margin of Error.

	Alfalfa County, Oklahoma		Beaver County, Oklahoma		
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate
▼ Total:	4,769	+/-149	5,332	+/-59	
▼ Male:	2,414	+/-162	2,700	+/-37	
▼ Under 6 years:	206	+/-18	174	+/-15	
With health insura...	196	+/-20	174	+/-15	
No health insuranc...	10	+/-10	0	+/-13	
▼ 6 to 18 years:	427	+/-21	518	+/-24	
With health insura...	399	+/-19	489	+/-28	
No health insuranc...	28	+/-19	29	+/-20	
▼ 19 to 25 years:	188	+/-23	276	+/-41	
With health insura...	139	+/-27	219	+/-47	
No health insuranc...	49	+/-23	57	+/-30	
▼ 26 to 34 years:	353	+/-26	221	+/-39	
With health insura...	282	+/-30	163	+/-29	

**Step 1:** Using the Advanced Search, add your desired filters to your search to find the first table that you need. In this example, we've located B27001 for multiple counties in Oklahoma.

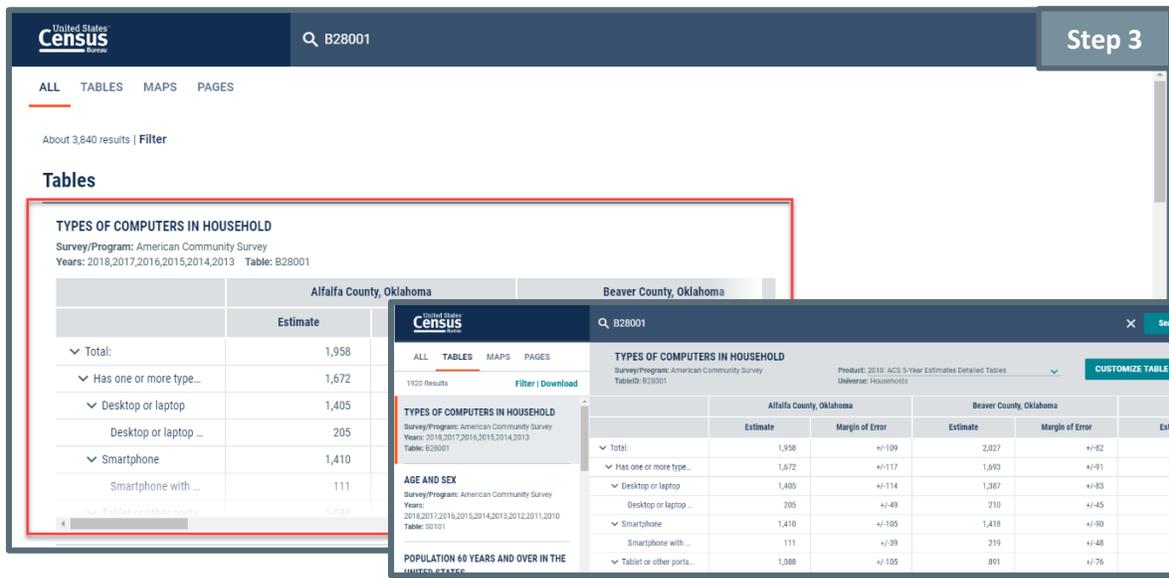

Once you are ready to find the next one using the same filters that you already selected, click in the search bar at the top of the page and hit the Advanced Search button.

**\*\*Please note that entering a table ID into the search bar and hitting the Search button (thereby, not selecting the Advanced Search button) will result in the system clearing all of your selected filters.\*\***

The screenshot shows the Advanced Search page with 'B28001' entered in the search bar. The 'SEARCH' button is highlighted with a red box. The 'Selected Filters' section shows 'Alfalfa County, Oklahoma', 'Beaver County, Oklahoma', and 'Canadian County, Oklahoma'.

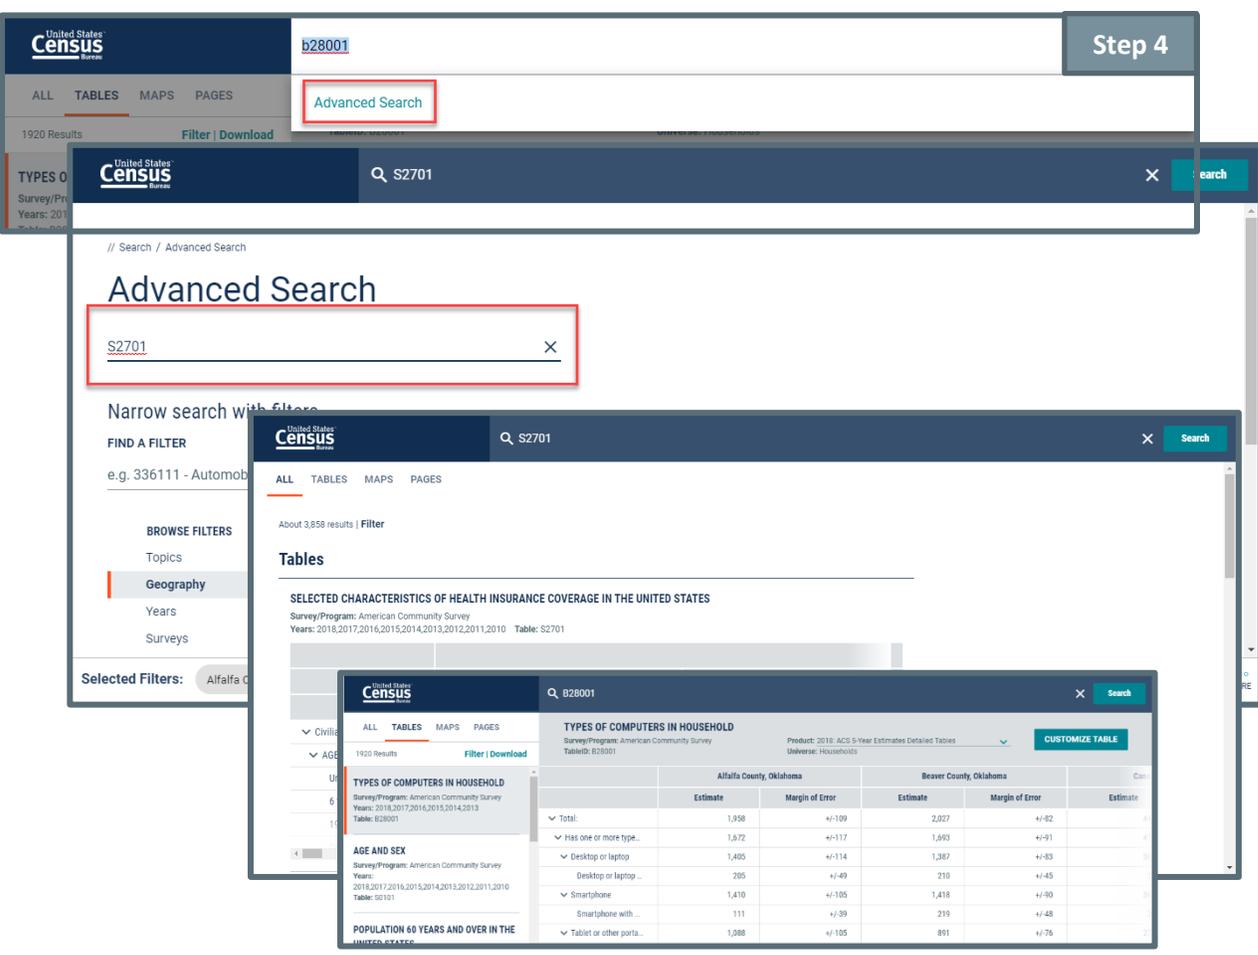

**Step 2:** This will take you to the Advanced Search pane. Notice that the filters that were previously selected are still applied.

In the first search bar, located directly under the Advanced Search text, enter the ID for the new table you'd like to search for. In this example, we'll search for table B28001. Once this is entered, hit the SEARCH button in the lower corner.

**Step 3:** This will bring up the new table you searched for, B28001, using all the geographies that you had previously selected.

Click on the preview of the table to open it up.

**Step 4:** Once you are ready to search for another table using the same filters you've already selected, go back up to the search bar at the top, click in it, and hit the Advanced Search button. For this example, we'll search for table S2701 next.

From here, follow steps 2 and 3 to pull up the new table, S2701.

This search method can be used an unlimited number of times.

**Our Success Depends On Data Users Like You!**
