

Disclosure Review Board Minutes  
6/9/08

1. ACS medians (from last time) The request to round these data to three digits is approved. It was noted that this request is at the national level and it is a one-time request; hence an un-interpolated median should present no risk. Note that the board continues to support broad use of interpolated medians as a scientifically accurate, safe method of presenting medians.
2. STP\_368 (b) (6). This was approved. This will be rounded according to the standard Census rounding methodology.
3. ACS 2006 Citizenship/Period of Entry. These data can be calculated using the PUMS variable and detail. This request was approved.
4. (b) (6) request to release data derived from IRS tax returns in course of the production of SAIPE estimates. This request conforms to the prior year's methodology, no need for change is noted. This request was approved.
