

Disclosure Review Board Minutes
9/22/08

1. CPS data used for Hurricane Katrina paper

This was partially approved. They may release the fact that someone returned to the same geographic area following the hurricane. They may not release any information (for example percent damage) that would divide a public use area into geographic areas that have populations less than 100,000.

2. ACS 2005-2007 Three-Year Public Use Microdata

This was approved.

3. NESARC Wave 2 Public Use Microdata

This was approved. Note that after the meeting, (b) (6) checked to be sure that the small number of correct matches were not clustered in any way.

4. Foreign Born Population in the US that were Born in Mexico 1970-2000

This was approved.
