

Disclosure Review Board Minutes

1/12/09

1. ATUS food deserts

This was approved. (b) (6) will speak with (b) (6) to ensure that the 2 or 3 MSAs are large enough to prevent disclosure problems.

2. 0588 (b) (6) 279

This was approved.

3. Colon ACSO request

This was approved. The data will be rounded as all ACS special tabulations.

4. 2010 Planning Database

Everything that has already been published can be released. The table for the foreign born that has never been published must not go below tract level and must only be shown for areas with a weighted population of 100. For all tables involving the language variable, there must be at least 100 weighted persons speaking a given language in a given geographic area for the data to be shown. All other tables may be published for areas with a weighted population of 100. Any non-disclosure problems with releasing these tables will be handled outside of the DRB. We understand that if unweighted data ever become available, this request may be revised.
