

Disclosure Review Board Minutes

4/20/09

1. 2010 NSCG

The only additional requirement would be to ensure that the 10,000 weighted national threshold population requirement is met for every category in every categorical variable.

2. STP_390 (b) (6)

This was approved. The data will be rounded as all Census 2000 special tabulations. There must be at least 10 unweighted households contributing to the calculation of the median household income in each district.

There is one sanitation district that has less than 10 unweighted households. For this district, we can release the weighted, rounded totals of number of housing units and number of households, but not the median household income. Alternatively, this district could be combined with another district so that the threshold of 10 households is met.
