

Disclosure Review Board Minutes
5/18/09

1. 2008 Survey of Compact of Free Association Migrants

This was approved. A threshold of 3 unweighted/40 weighted cases for each place of birth will be applied.

2. CENIO Record Layouts for converting files on Unisys "D"

This was approved.

3. More on Synthetic LBD

Please send any questions or concerns to (b) (6). There will be more to come.

4. 2008 PPCS PUF DRB Ruling

The DRB would like to see more information. We want to see a comparison of demographic data that is available on the NCVS and previously (unlinked) PPCS microdata files. We would also like to see results of some cross tabulations. For each geographic area that one could identify on the proposed linked file (this would be a cross tabulation of all geographic variables), we would like to see (from the PPCS) an unweighted and a weighted cross tabulation of questionnaire item 6 by questionnaire item 43/52 and of questionnaire item 8a by questionnaire item 43/52.
