

Disclosure Review Board Minutes  
6/1/09

1. ACS 2005-2007 Vacants for DMAs

This was approved.

2. Special request for CE data release

This was approved.

3. 2010 Census SF1 GQ tables

We are leaning toward Option 2 (keeping most tables at the tract level and not adding too much more detail). This is not a final decision. (b) (6) has forwarded the request to staff members in SRD who are working on the partially synthetic disclosure avoidance technique to protect 2010 GQ data.

4. STP\_393 (b) (6)

This was approved. The data will be rounded as all Census 2000 special tabulations. For the native born population, there should be no year of entry categories.

5. Trip length distribution

This was approved. We should all remember not to send data through email unless it has already been approved. We must use snail mail for such requests.

6. Distance from colleges

This was approved.

7. Synthetic LBD data

Please send any comments or questions to (b) (6). He will give us a summary report for our final ruling.
