1. Survey of Construction Microdata File

This was approved.

1.1 Questions on the ACS 5 year base tables

- 2.1. Every aggregate must be based on at least 3 values
- 2.2. Yes, the threshold still applies. Laura will change the wording from “selected population profiles” to “profiles of a specific subpopulation.”
- 2.3. This rule should be left as is currently written. There should be 0 or 3+ occupied households in a given area to show the data.
- 2.4. Laura will change “sample cases” to “interviews.”
- 2.5. 2004 SIPP Wave 5 disability tables  
This was approved.
- 2.6. Questions on CPS age perturbation
  - 4.1.1 This amount of perturbation is approved. Laura will wait on the memo for this because other options are still being considered.
- 4.2 and 4.3 The Disclosure Avoidance Research Group in SRD has already performed such reidentification studies. Perturbation is still required.
