1. HUD CHAS 2010

This was approved. They may not show the 090 geographic level. Previous rules for block groups will apply to the 150 geographic level. The data will be rounded as all ACS special tabulations. They must return to the DRB for a decision on custom geography.

We also approved the addition of ZCTAs for the HUD release that was approved on 1/9/12.

2. ACS 5-year research by SS from BLS

We need more information for this request, for example, a list of cities, variables, etc. What do they really want?

3. Ch00843 ---(b) (6)

This was approved.

4. State level tallies of tax year 2010 IRS data

This was approved.
